School District of Manawa Modes of Instruction

Overview

Students will experience the classroom in one of three modes. Guardians will choose the option that is best for each student.

- In-person classroom: Face-to-face teaching and learning with safety measures.
- Synchronous classroom: Online instruction in real-time based on the regular school schedule. This mode may entail a range of students dependent upon how many parents elect to use this path. Possibilities include several students who choose to stay at home to the entire school being taught in a synchronous model.
- Blended learning: In special cases, students may learn via a combination of in-person, virtual, synchronous, and asynchronous learning as defined by an individualized, district-approved learning plan.

A student may switch between these modes depending upon how the situation evolves with the COVID-19 pandemic. We would prefer to have all students in the school with our teachers. However, we understand the school building may close with little notice. Teaching and learning will need to continue.

Classroom teachers will have the challenge of supporting students in all three modes of instruction. A lesson may be taught to in-person students while others are learning virtually online. Also, some students may be learning the same content in a blended learning mode.

Blended: A combination of in-person, virtual, synchronous, and asynchronous learning as defined by an individualized, district-approved learning plan. Blended learning is an option for families where traditional synchronous learning is not in the best interest of the student. The student has some control over time, place, path, and/or pace. Families should contact their building principal to discuss blended learning opportunities.

Expectations for Students	Expectations for Staff
Student and parent(s) will meet with staff to write a Learning Plan which outlines the modes of learning, attendance, and expectations of the student and staff.	A meeting will be held to write a Learning Plan based on the needs of the individual student which outlines the modes of learning, attendance, and expectations of the student and staff.

Glossary

Asynchronous learning

Asynchronous learning occurs through online channels without real-time interaction. This most commonly occurs when lessons are delivered as prerecorded video lessons or game-based learning tasks that students complete on their own. Asynchronous learning includes a wide variety of learning interactions, including email, online discussion boards, and learning management systems.

Synchronous learning

Synchronous learning is online or distance education that happens in real-time on a normal school schedule.

Learning management system (LMS)

A learning management system is a repository to store and track lessons, courses, and quizzes. (Google Classroom MS/HS. Google Classroom and Seesaw for MES)

Application Summary

Project date: 07/13/2020

Project name: Manawa Elementary Playground Revitalization

Project type: Service Activity

Project causes: Children/Youth, Education

Project description: The Manawa Elementary playground is in dire need of an update. Most of the equipment is two decades old. The district is in the process of raising funds to replace the playground equipment in order to have a safe and updated playground. With COVID-19 school closures it will be more important than ever to get the kids outside and active in the upcoming years along with creating a school community that all can be proud of and hopefully a place the community can use. The summer between the 2019-20 and 2020-21 school years will be the first phase of the revitalization with painting games on the blacktop by the playground. A new bus turnaround was created next to the playground during the summer of 2019. This created a large blacktop area that children can use during recess. The staff of the School District specifically the staff at Manawa Elementary School will come together and volunteer to paint games on the blacktop when we get a stretch of good weather in July 2020. The game stencils and 2 cans of paint are already purchased. We are still in need of more paint and additives for the paint so it will be less slippery when wet.

Re: July Update

Elementary School

- Playground Revitalization Project - The project is in its infancy but we have begun planning. During August, blacktop games will be painted and 2 basketball hoops will be installed. I have the blacktop paint and stencils waiting for Hoffman to give us the greenlight. We want to make sure there won't be any trucks coming and going in the back of the building while we are painting. I am working with Rainbow Play Systems to get the basketball hoops. Mrs. Krueger helped me get a grant for \$500 from Thedacare to help fund the basketball hoops.
- I held a voluntary staff meeting for all teaching and support staff in July where we went over the building specific plans for the fall that we had at that time.
- I held a Building Leadership Team meeting this month to go over some planning documents and to get feedback from them. We also talked about forming work groups to discuss topics that are building specific such as bathroom use concerns, intervention time, creating a sense of community in the COVID world, and preparing students for synchronous learning.
- Work on special education and 4K classrooms is moving along. Teachers are anxious to get in their new rooms.

Special Ed

- Teachers are preparing for how cohorts through 8th grade will affect some students' schedules and access to general education. They are also preparing to contact families to decide whether or not services will need to change or if there are any concerns with face coverings.

Re: Staff and Program Highlights – June 2020

Athletic Updates:

A.D. Dawn Millard hosted the Parent Athlete Virtual Meeting on Monday, July 20th. A.D. Millard and I reviewed the material before the presentation and emphasized at the time of the meeting that all of the information/procedures and assumptions are subject to change based on current COVID Pandemic conditions, legal council, Waupaca County DHS, insurance liability carrier, and BOE approval.

A.D. Millard is in the process of lining up potential candidates and an interview team to address Varsity Boy's Basketball Coach candidates. A Varsity Cross County Coach has been preliminarily screened and a recommendation will be forthcoming to the BOE.

The fall athletic sports season is being debated and is actively in development.

Staff Meeting:

A volunteer staff meeting was held for all Manawa Middle School and Little Wolf High School staff on Wednesday, July 15. The staff was updated on current COVID-19 situations and briefed on a variety of topics. An emphasis was put on the current state of the reopening plan and that plans are being developed to try to mitigate risk and minimize exposure whenever it is reasonably possible.

With still so much uncertainty about where the future leads, the conversation of needing to focus on "What can we control?" bubbles to the top. The answer to this is we can control the quality of instruction we provide. Additionally, staff will provide additional clarity in the syllabi this year stating the essential standards that they will be covering this year.

Virtual learning will no doubt be a major component of teacher's instruction for 2020-2021. The administrative team has been hard at work looking at professional development opportunities that will help support the many tasks that teachers will be asked to accomplish this year. Support for technology training and synchronous learning is at the top of the list.

MS/HS Custodial Cleaning:

Approval was given to the administration that MS/HS custodial will be given permission to enter the building to begin to address cleaning areas that are not under construction. Plans are in development and coordination will take place with Hoffman to target areas that are available and those that continue to have restricted access.

Re: Business Office Monthly Update

Summer is a busy time in the business office. The District officially switched group health insurance carriers effective July 1, 2020. From my prospective, the transition has gone smoothly.

My main work this past month has been in closing out the 2019-20 school year finances. All accounts have been reconciled. I continue to work at making final claims to the federal grants. Invoices come in for services rendered in 2019-20 that need to be paid on that school year. Yet the checks are dated in the 2020-21 school year. This requires additional steps that adds to the chaos of preparing for the audit.

I have met with Brenda Suehs about preparing for Food Service in the age of COVID-19. We are preparing to deliver meals to classrooms at the Elementary and Middle Schools. The current plan is to have students in grades 9-12 dismissed by individual class to go to the commons and purchase hot lunch.

I have also talked to Jacob Elsner at Kobussen. He has outlined a transportation plan for the 2020-21 school year. We are meeting on July 30, 2020 to go over details. It is difficult to make definite plans before we know who will be riding the buses this school year.

June Transportation Report

Prepared For: School District of Manawa

To Whom it May Concern,

In the month of June, we had our annual bus inspections done by the State Inspector and it went very well! We continue to have a mechanic from Oshkosh coming every other week right now to change oil, grease, and preform some other preventative maintenance on the buses.

Operations remain to be very little at the terminal. The routes are still being looked over and I am working on the 4K students' bussing schedules. I have received some bus registration forms from parents as well that I am entering into our system.

We continue to look for drivers, so if you know of someone that would enjoy driving school bus, send them our way! Our number is (920) 389-1500. We will get them trained and ready to go for the Fall!

If you have any questions, please give me a call: (920) 427-1408 or email me: Jacob.elsner@kobussen.com

Thank you and enjoy the warm weather!

Technology Board Report

July 23, 2020

Expanding 1-to-1 Program

We are expanding our 1-to-1 program as part of our plan to safely reopen schools. The shared Chromebook carts are difficult for teachers and students to use safely. To use a device from the shared carts, students would need to co-mingle with students from other cohorts. Also, cleaning devices would create an additional burden for teachers.

Also, if the school building is closed we will need to ensure ALL students have access to a quality device. Expanding the 1-to-1 program will allow us to ensure equitable access for all students.

SeeSaw Learning Management System

Elementary staff, students, and families will have access to the SeeSaw learning management system. SeeSaw allows teachers to share educational content to students and creates visibility to parents. Students will create a digital portfolio of their learning and practice using technology in earlier grades.

Chromebook Tab

The COVID school building shutdown highlighted a need to have more technology available to younger grades. Our initial plan was to purchase 50 devices for the building. We have expanded the plan to ensure all students 4K-2 have a chromebook tab.

Technology Professional Development

Teachers will have access to online professional development over the summer to help prepare them for the fall. For all teachers we are focusing on Google Certification, Level 1. Secondary teachers are being asked to also learn to use a tool called Edpuzzle. Edpuzzle allows teachers to embed questions and notes into videos. Elementary teachers will have professional development to prepare for the SeeSaw rollout.

Synchronous Education – Student Accountability and Conduct

The School District of Manawa expects students participating in remote learning to follow school rules during synchronous instruction and when interacting with staff and students in a virtual setting. Students may be disciplined for violating school rules during virtual instruction even though the student is not present on District property.

Synchronous Instruction Accountability and Internet Safety

Synchronous instruction requires students to access their educational program online. There are certain risks inherent in all online activities. Students must comply with the following standards and expectations to protect themselves and others.

- The District's Acceptable Use policy applies to all students participating in the District's virtual educational programs and online class activities.
- Use only one (1) username and password.
- Use an appropriate profile picture for any virtual accounts.
- Do not share your username or password with anyone. Each student is responsible for all activities associated with his or her username and password.
- Do not interfere with other student's ability to access virtual instruction or disclose anyone's password to others.
- Do not publicly post personal contact information, including the personal contact information for others.
- Do not use the District's virtual instruction resources for any illegal activities.
- Do not use District virtual instruction resources to send unsolicited electronic-mail messages not pertaining to class (e.g., SPAM).
- Do not use the District's virtual instruction resources to access inappropriate programs, applications, or websites.
- Do not share classroom/small group video or classroom/small group recorded video with third parties (parent(s)/guardian(s) and siblings, excluded) – This includes private messages from staff or others.
- Do not agree to meet in-person with anyone met exclusively on the Internet.

Conduct During Synchronous Instruction

Synchronous instruction is similar to in-person instruction, but presents unique opportunities and challenges. Students are expected to be engaged and courteous to others during synchronous instruction and other class activities as they would during in-person instruction in a classroom. The District's Student Code of Conduct applies to all students participating in the District's synchronous instruction and online class activities. Students are expected to obey the following standards and expectations, as well:

- Sign-in for virtual instruction and activities using the appropriate, designated username and password.

- Do not allow siblings or other members of the household to participate in virtual instruction unless authorized by the virtual class teacher (they may observe but notice should be provided they are doing so).
- Review typed messages before sending them to remove easily misinterpreted language and proofread for typos.
- Private messages during virtual instruction should be kept to a minimum.
- Engage in virtual instruction discussions in a respectful manner that abides by the following standards:
 - Avoid sarcasm, jargon, and slang;
 - Vulgarity is not acceptable;
 - Do not use images, “GIFs,” or “Memes” in place of written responses or comments, unless specifically directed to do so by a staff member;
 - Focus responses on the questions or issues being discussed, not on the individuals involved.
- Do not make inappropriate comments verbally or via direct messages. Inappropriate messages include, but are not limited to, those that contain:
 - threatening messages or images;
 - insults or attacks of any kind against a person;
 - obscene, degrading or profane language or images;
 - repeatedly sent unwelcome messages or images that harass the recipient; and
 - material that is defamatory or intended to annoy, intimidate, or bully others.

If a student or his/her parent(s)/guardian(s) has any questions about the rules, standards, and expectations applicable to students participating in the District’s synchronous educational programs and online class activities, the student should contact the Principal immediately.

This Student/Parent Handbook is based in significant part on policies adopted by the Board of Education and Administrative Guidelines developed by the District Administrator. The Policies and Guidelines are periodically updated in response to changes in the law and other circumstances. Therefore, there may have been changes to the documents reviewed in this handbook since it was printed. If you have questions or would like more information about a specific issue, contact your school principal. A current version of this handbook can be found on the District webpage at: www.manawaschools.org

FOREWORD

This student handbook was developed to answer many of the commonly asked questions that you and your parents may have during the course of a school year. This handbook summarizes many of the official policies and administrative guidelines of the Board of Education and the District. To the extent that the handbook is ambiguous or conflicts with these policies and guidelines, the policies and guidelines shall control. This handbook is effective immediately and supersedes any prior student handbook.

Because the handbook also contains information about student rights and responsibilities, each student is responsible for knowing its contents. Please take time to become familiar with the following information and keep the handbook available for future use. It can be a valuable reference during the school year and a means to avoid confusion and misunderstanding when questions arise. Should you have any questions that are not addressed in this handbook, contact LuAnne Ujazdowski, Guidance Counselor or Principal Danielle Brauer. You will find their phone numbers/e-mail addresses listed in the Staff Directory section of the handbook.

This handbook summarizes many of the official policies and administrative guidelines of the Board of Education and the District. If any of the policies or administrative guidelines referenced herein are revised after June 30, 2020 the language in the most current policy or administrative guideline prevails. The current policies and guidelines are available on the District's website.

MISSION OF THE SCHOOL

MES is a supportive and encouraging environment where students and staff can learn and grow through a collaborative and positive approach. Staff and students will respect and listen to each other while sharing the responsibility of learning.

NONDISCRIMINATION AND ACCESS TO EQUAL EDUCATION OPPORTUNITY

The Board is committed to providing an equal educational opportunity for all students in the District.

The Board does not discriminate on the basis of race, color, religion, national origin, ancestry, creed, pregnancy, marital status, parental status, sexual orientation, sex, (including transgender status, change of sex or gender identity), or physical, mental, emotional, or learning disability ("Protected Classes") in any of its student program and activities.

This policy is intended to support and promote nondiscriminatory practices in all District and school activities, particularly in the following areas:

- A. use of objective bases for admission to any school, class, program, or activity;
- B. prohibition of harassment towards students and procedures for the investigation of claims (see Policy 5517);
- C. use of disciplinary authority, including suspension and expulsion authority;
- D. administration of gifts, bequests, scholarships and other aids, benefits, or services to students from private agencies, organizations, or persons;
- E. selection of instructional and library media materials in a nondiscriminatory manner and that reflect the cultural diversity and pluralistic nature of American society;

- F. design and implementation of student evaluation practices, materials, and tools, but not at the exclusion of implementing techniques to meet students' individual needs;
- G. design and configuration of facilities;
- H. opportunity for participation in extra-curricular and co-curricular activities, provided that separate programs for male and female students may be available provided comparable activities are made available to all in terms of type, scope, and District support; and
- I. the school lunch program and other school-sponsored food service programs.

The Board is also committed to equal employment opportunity in its employment policies and practices as they relate to students. The Board's policies pertaining to employment practices can be found in Policy 1422, Policy 3122, and Policy 4122 - Nondiscrimination and Equal Employment Opportunity.

Any person who believes that the Manawa Elementary School or any staff member has discriminated against them in violation of this policy may file a complaint. A formal complaint can be made in writing to a School Compliance Officer/Title IX Coordinator listed below:

Dan Wolfgram
Principal (920) 596-5310
dwolfgram@manawaschools.org

Carmen O'Brien
Business Manager (920) 596-5332
cobrien@manawaschools.org

If at any time during the investigation process the investigator determines that the complaint is properly defined as bullying because the conduct at issue is not based on a student's protected characteristics, the investigator shall transfer the investigation to the appropriate building principal.

Under no circumstances will the District threaten or retaliate against anyone who raises or files a complaint.

Manawa Elementary School is committed to an educational environment that is free of harassment of any form. The school will not tolerate any form of harassment and will take all necessary and appropriate action to eliminate it, including suspension or expulsion of students and disciplinary action against any other individual in the school district community. Additionally, appropriate action will be taken to stop and otherwise deal with any third party who engages in harassment against our students.

Harassment Policy*

**Parents/guardians and students are encouraged to read the full text of the Board of Education policy governing Anti-Harassment and Bullying available on the District web site or by contacting the school main office.*

Summary of Board of Education Policy

It is the policy of the Board of Education to maintain an educational environment that is free from all forms of harassment, including sexual harassment. This commitment applies to all District operations, programs, and activities. All students, administrators, teachers, staff, and all other school personnel share responsibility for avoiding, discouraging and reporting any form of unlawful harassment. This policy applies to conduct occurring on school property or at another location if such conduct occurs during an activity sponsored by the Board.

The Board will not tolerate any form of harassment and will take all necessary and appropriate

action to eliminate it, including suspension or expulsion of students and disciplinary action against any other individual in the School District community. Additionally, appropriate action will be taken to stop and otherwise deal with any third party who engages in harassment against our students.

Definitions

- Bullying (See the bullying policy immediately following this section)
- Harassment: Any threatening, insulting, or dehumanizing gesture, use of data or computer software, or written, verbal or physical conduct directed against a student that:
 1. Places a student in reasonable fear of harm to his/her person or damage to his/ her property;
 2. Has the effect of substantially interfering with a student's educational performance, opportunities, or benefits; or
 3. Has the effect of substantially disrupting the orderly operation of a school.
- Sexual Harassment: Unwelcome sexual advances, requests of sexual favors, sexually motivated physical conduct or other verbal or physical conduct or communication of a sexual nature. Important...parent/guardians and students are encouraged to read the entire Board of Education policy with corresponding examples.
- Other forms of harassment such as race/color, religion, national origin, and disability are defined in the full text of the Board of Education policy.

Reporting Procedures

Students and all other members of the School District community, as well as third parties, are encouraged to promptly report incidents of harassing conduct to a school staff member (teacher, counselor, or principal, for example) so the conduct can be addressed before it becomes severe, pervasive, or persistent. The District will investigate as described below. Initiating a complaint will not adversely affect the complaining individual's participation in educational or extra-curricular programs unless the complaining individual makes the complaint maliciously or with knowledge that is false.

The reporting procedures are as follows:

1. Any student, parent/guardian of a student, teacher, school staff member, or school community member is encouraged to report the alleged act(s) to the school principal or district compliance officer.
2. The reporting party shall be encouraged to use a report form (See Addendum A) available in each school main office, but oral reports shall be considered complaints as well.
3. To provide individuals with options for reporting harassment to an individual of the gender with which they feel most comfortable, each school's building principal will designate one male and one female staff person (designated as Complaint Coordinators) to receive reports of harassment prohibited by this policy.

Confidentiality

The District will make all reasonable efforts to protect the rights of the complainant and the respondent. The District will respect the privacy of the complainant, the respondent, and all witnesses in a manner consistent with the District's legal obligation under state and federal law.

Sanctions and Monitoring

The Board shall vigorously enforce its prohibitions against harassment by taking appropriate action reasonable calculated to stop the harassment and prevent further such harassment. A violation of this policy may result in disciplinary action up to and including the discharge of an employee or the suspension /expulsion of a student. All disciplinary action will be taken in accordance with applicable law and the ages and maturity levels of the students.

Retaliation

Any act of retaliation against a person who has made a report or filed a complaint alleging harassment, or who has participated as a witness in a harassment investigation is prohibited.

SCHOOL DISTRICT OF MANAWA HARASSMENT COMPLAINT FORM – Addendum A at the end of this handbook.

Bullying Policy

The Board of Education is committed to providing a safe, positive, productive, and nurturing educational environment for all of its students. The Board encourages the promotion of positive interpersonal relations between members of the school community. Bullying toward a student, whether by other students, staff, or third parties is strictly prohibited and will not be tolerated. This prohibition includes physical, verbal, and psychological abuse. The Board will not tolerate any gestures, comments, threats, or actions that cause or threaten to cause bodily harm or personal degradation. This policy applies to all activities in the District, including activities on school property, including at any of the school buildings or other property used exclusively or in part, whether leased or owned by the District, for the purpose of school-related functions or events; or while traveling to or from school or to and from school-sponsored functions or events; in transporting vehicles arranged for by School District officials. The policy applies as well during activities that occur off school property if the student or employee is at any school-sponsored, school-approved or school-related activity or function, such as field trips or athletic events where students are under the supervision of school authorities, or where an employee is engaged in school business, or where there is otherwise a connection to the school such that the conduct at issue affects or is intended to affect the student's educational environment.

Definitions

"Bullying"

Bullying is deliberate or intentional behavior using word or actions, intended to cause fear, intimidation, or harm. Bullying may be a repeated behavior and involves an imbalance of power. Furthermore, it may be serious enough to negatively impact a student's educational, physical, or emotional well-being. The behavior may be motivated by an actual or perceived distinguishing characteristic, such as, but not limited to: age; national origin; race; ethnicity; religion; gender; gender identity; sexual orientation; physical attributes; physical or mental ability or disability; and social, economic, or family status; however this type of prohibited bullying behavior need not be based on any of those particular or other particular characteristics. It includes but is not necessarily limited to such behaviors as stalking, cyberbullying, intimidating, menacing, coercing, name-calling, taunting, making threats, and hazing.

Some examples of bullying are:

- A. Physical – hitting, kicking, spitting, pushing, pulling, taking and/or damaging personal belongings or extorting money, blocking or impeding student movement, unwelcome physical contact.
- B. Verbal – taunting, malicious teasing, insulting, name calling, making threats.
- C. Psychological – spreading rumors, manipulating social relationships, coercion, or engaging in social exclusion/shunning, extortion, or intimidation.
- D. "Cyberbullying" – the use of information and communication technologies such as e-mail, cell phone and pager text messages, instant messaging (IM), defamatory personal web

sites, and defamatory online personal polling web sites, to support deliberate, repeated, and hostile behavior by an individual or group, that is intended to harm others."

The Board recognizes that cyberbullying can be particularly devastating to young people because:

1. Cyberbullies more easily hide behind the anonymity that the Internet provides;
2. Cyberbullies spread their hurtful messages to a very wide audience with remarkable speed;
3. Cyberbullies do not have to own their own actions, or fear punishment for their actions, as it is usually very difficult to identify cyberbullies;
4. Furthermore, the reflection time that once existed between the planning of a prank – or a serious stunt – and its commission has all but been erased with cyberbullying;
5. Cyberbullies can impersonate others with the intent to embarrass or harm them or hacking into, or otherwise gaining access to, another's others' electronic accounts (emails, social media, etc.) and posing as that individual with the intent to embarrass or harm the individual.

Cyberbullying includes, but is not limited to, the following:

1. posting slurs or rumors or other disparaging remarks about a student on a web site or on weblog;
2. sending e-mail or instant messages that are mean or threatening, or so numerous as to drive-up the victim's cell phone bill;
3. using a camera phone to take and send embarrassing photographs of students;
4. posting misleading or fake photographs of students on web sites.

"**Harassment**" includes, but is not limited to, any act which subjects an individual or group to unwanted, abusive behavior of a nonverbal, verbal, written or physical nature on the basis of sex, (including transgender status, change of sex, or gender identity), race, color, national origin, religion, creed, ancestry, marital or parental status, sexual orientation or physical, mental, emotional or learning disability, or any other characteristic protected by Federal or State civil rights laws. Harassment is prohibited by Policy [5517](#) – Student Anti-Harassment.

"**Staff**" includes all school employees and Board members.

"**Third parties**" include, but are not limited to, coaches, school volunteers, parents, school visitors, service contractors, vendors, or others engaged in District business, and others not directly subject to school control at inter-district or intra-district athletic competitions or other school events.

For a definition of hazing and instances that could possibly be construed as hazing, consult Policy [5516](#).

Complaint Procedures

Any student that believes s/he has been or is the victim of bullying should immediately report the situation to the building principal or assistant principal, or the District Administrator. The student may also report concerns to a teacher or counselor who will be responsible for notifying the appropriate administrator or Board official. Complaints against the building principal should be filed with the District Administrator. Complaints against the District Administrator should be filed with the Board President.

Every student is encouraged to report any situation that they believe to be bullying behavior directed toward a student. Reports may be made to those identified above.

All school staff members and school officials who observe or become aware of acts of bullying are

required to report these acts to the building principal or assistant principal, or the District Administrator.

Reports of bullying may be made verbally or in writing and may be made confidentially. All such reports, whether verbal or in writing, will be taken seriously and a clear account of the incident is to be documented. A written record of the report, including all pertinent details, will be made by the recipient of the report.

All complaints about behavior that may violate this policy shall be investigated promptly by the building principal. The staff member who is investigating the report of bullying shall interview the victim(s) of the alleged bullying and collect whatever other information is necessary to determine the facts and the seriousness of the report. If, during an investigation of a reported act of bullying in accordance with this Policy, the principal determines that the reported misconduct may have created a hostile learning environment and may have constituted harassment based on sex (transgender status, change of sex, or gender identity), race, color, national origin, religion, creed, ancestry, marital or parental status, sexual orientation or physical, mental, emotional or learning disability, or any other characteristic protected by Federal or state civil rights laws, the principal will report the act of bullying to one of the Compliance Officers who shall assume responsibility to investigate the allegation in accordance with Policy 5517 – Student Anti- Harassment.

Parents of each student involved in the bullying report will be notified prior to the conclusion of the investigation. The District shall maintain the confidentiality of the report and any related student records to the extent required by law.

If the investigation finds that bullying has occurred, it will result in prompt and appropriate remedial and/or disciplinary action. This may include student discipline, including, but not limited to, reprimand, suspension, or possible expulsion. Furthermore, the result of an investigation that finds that bullying has occurred may result in discharge for employees, exclusion for parents, guests, volunteers, and contractors, and removal from any official position and/or a request to resign for Board members. Individuals may also be referred to law enforcement officials.

The complainant shall be notified of the findings of the investigation, and as appropriate, of the remedial action has been taken.

This policy shall not be interpreted to infringe upon the First Amendment rights of students (i.e., to prohibit a reasoned and civil exchange of opinions, or debate, that is conducted at appropriate times and places during the school day and is protected by State or Federal law).

Retaliation against any person who reports, is thought to have reported, files a complaint, or otherwise participates in an investigation or inquiry concerning allegations of bullying is prohibited and will not be tolerated. Such retaliation shall be considered a serious violation of Board policy and independent of whether a complaint is substantiated. Suspected retaliation should be reported in the same manner as bullying incidents. Making intentionally false reports about bullying for the purpose of getting someone in trouble is similarly prohibited and will not be tolerated. Retaliating and intentionally making a false report may result in disciplinary action.

If a student or other individual believes there has been bullying, regardless of whether it fits a particular definition, s/he should report it and allow the administration to determine the appropriate course of action.

Privacy/Confidentiality

The School District will respect the privacy of the complainant, the individual(s) against who the complaint is filed, and the witnesses as much as possible, consistent with the Board's legal obligations to investigate, to inform parents, to take appropriate action, and to conform with any

discovery or disclosure obligations. All records generated under this policy and its related administrative guidelines shall be maintained as confidential to the extent permitted by law.

Notification

Notice of this policy will be annually distributed to all students enrolled in the School District, their parents and/or guardians and employees. The policy will also be distributed to organizations in the community having cooperative agreements with the schools. Additionally, the policy will be posted in conspicuous locations in all school buildings and departments within the District and discussed with students, as well as incorporated into the teacher, student, and parent/guardian handbooks. All new hires will be required to review and sign off on this policy and the related complaint procedure.

The School District will also provide a copy of the policy to any person who requests it.

Records and Reports

Records will be maintained on the number and types of reports made, and sanctions imposed for incidents found to be in violation of the bullying policy.

An annual summary report shall be prepared and presented to the School Board, that includes trends in bullying behavior and recommendations on how to further reduce bullying behavior. The annual report will be available to the public.

Education and Training

In support of this policy, the Board promotes preventative educational measures to create greater awareness of bullying behavior. The District Administrator shall provide appropriate training to all members of the School District community related to the implementation of this policy and its accompanying administrative guidelines. All training regarding the Board's policy and administrative guidelines on bullying will be age and content appropriate.

SEXUAL HARASSMENT

"Sexual harassment" is defined as unwelcome sexual advances, requests for sexual favors, sexually motivated physical conduct or other verbal or physical conduct or communication of a sexual nature when:

- A. submission to that conduct or communication is made a term or condition, either explicitly or implicitly, of access to educational opportunities or program;
- B. submission or rejection of that conduct or communication by an individual is used as a factor in decisions affecting that individual's education;
- C. that conduct or communication has the purpose or effect of substantially or unreasonably interfering with an individual's education, or creating an intimidating, hostile, or offensive educational environment.

Sexual harassment may involve the behavior of a person of either gender against a person of the same or opposite gender.

Prohibited acts that constitute sexual harassment may take a variety of forms. Examples of the kinds of conduct that may constitute sexual harassment include, but are not limited to:

- A. unwelcome verbal harassment or abuse;
- B. unwelcome pressure for sexual activity;
- C. unwelcome, sexually motivated or inappropriate patting, pinching, or physical contact, other than necessary restraint of students by teachers, administrators, or other school personnel to avoid physical harm to persons or property;

- D. unwelcome sexual behavior or words including demands for sexual favors, accompanied by implied or overt threats concerning an individual's educational status;
- E. unwelcome sexual behavior or words, including demands for sexual favors, accompanied by implied or overt promises of preferential treatment with regard to an individual's educational status;
- F. unwelcome behavior or words directed at an individual because of gender;

Examples are:

- 1. repeatedly asking a person for dates or sexual behavior after the person has indicated no interest;
- 2. rating a person's sexuality or attractiveness;
- 3. staring or leering at various parts of another person's body;
- 4. spreading rumors about a person's sexuality;
- 5. letters, notes, telephones calls, or materials of a sexual nature;
- 6. displaying pictures, calendars, cartoons, or other materials with sexual content.

- G. inappropriate boundary invasions by a District employee or other adult member of the District community into a student's personal space and personal life.

Boundary invasions may be appropriate or inappropriate. Appropriate boundary invasions make medical or educational sense. For example, a teacher or aide assisting a kindergartner after a toileting accident or a coach touching a student during wrestling or football can be appropriate. However other behaviors might be going too far, are inappropriate and may be signs of sexual grooming.

Inappropriate boundary invasions may include, but are not limited to the following:

- 1. hugging, kissing, or other physical contacts with a student;
- 2. telling sexual jokes to students;
- 3. engaging in talk containing sexual innuendo or banter with students;
- 4. talking about sexual topics that are not related to the curriculum;
- 5. showing pornography to a student;
- 6. taking an undue interest in a student (i.e. having a "special friend" or a "special relationship");
- 7. initiating or extending contact with students beyond the school day for personal purposes;
- 8. using e-mail, text messaging or websites to discuss personal topics or interests with students;
- 9. giving students rides in the staff member's personal vehicle or taking students on personal outings without administrative approval;
- 10. invading a student's privacy (e.g. walking in on the student in the bathroom, locker-room, asking about bra sizes or previous sexual experiences);
- 11. going to a student's home for non-educational purposes;
- 12. inviting students to the staff member's home without proper chaperones (i.e. another staff member or parent of a student);
- 13. giving gifts or money to a student for no legitimate educational purpose;
- 14. accepting gifts or money from a student for no legitimate educational purpose;
- 15. being overly "touchy" with students;
- 16. favoring certain students by inviting them to come to the classroom at non-class times;
- 17. getting a student out of class to visit with the staff member;
- 18. providing advice to or counseling a student regarding a personal problem (i.e. problems related to sexual behavior, substance abuse, mental or physical health, and/or family relationships, etc.), unless properly licensed and authorized to do so;

19. talking to a student about problems that would normally be discussed with adults (i.e. marital issues);
20. being alone with a student behind closed doors without a legitimate educational purpose;
21. telling a student "secrets" and having "secrets" with a student;
22. other similar activities or behavior:

Inappropriate boundary invasions are prohibited and must be reported promptly to one of the District Compliance Officers/Title IX Coordinators, as designated in this policy, the Building Principal or the District Administrator.

- H. remarks speculating about a person's sexual activities or sexual history, or remarks about one's own sexual activities or sexual history; and
- I. verbal, nonverbal or physical aggression, intimidation, or hostility based on sex or sex-stereotyping that does not involve conduct of a sexual nature.

It is also the policy of the Board that a sexual relationship between staff and students is not permissible in any form or under any circumstances, in or out of the work place, in that it interferes with the educational process and may involve elements of coercion by reason of the relative status of a staff member to a student.

Not all behavior with sexual connotations constitutes sexual harassment. Sex-based or gender-based conduct must be sufficiently severe, pervasive, and persistent such that it adversely affects, limits, or denies an individual's education, or such that it creates a hostile or abusive educational environment, or such that it is intended to, or has the effect of, denying or limiting a student's ability to participate in or benefit from the educational program or activities.

STUDENT RIGHTS AND RESPONSIBILITIES

The rules and procedures of Manawa Elementary School are designed to allow each student to obtain a safe, orderly, and appropriate education. Students can expect their rights to freedom of expression and association and to fair treatment as long as they respect those rights for their fellow students and the staff. Students will be expected to follow teachers' directions and obey all school rules. Disciplinary procedures will comply with the requirements of State and Federal law.

Parents/guardians have the right to know how their child is succeeding in school and will be provided information on a regular basis and as needed, when concerns arise. Many times it will be the responsibility of the student to deliver that information. If necessary, mail or hand delivery may be used to ensure contact. Parents/guardians are encouraged to build a two-way link with their child's teachers and support staff by informing the staff of suggestions or concerns that may help their child better accomplish his/her educational goals.

Students must arrive at school on time, prepared to participate in the educational program. If, for some reason, this is not possible, the student should seek help from the principal.

STUDENT WELL-BEING

Student safety is a responsibility of the staff. All staff members are familiar with emergency procedures such as fire and tornado drills and accident reporting procedures. Should a student be aware of any dangerous situation or accident, s/he must notify a staff person immediately.

All students must have an emergency medical card completed, signed by a parent/guardian or guardian, and filed in the school office. A student may be excluded from school until this requirement has been fulfilled.

Students with specific health care needs should submit those needs, in writing and with proper documentation by a physician, to the school office.

INJURY AND ILLNESS

All injuries must be reported to a teacher or to the office staff. If the injury is minor, the student will be treated and may return to class. If medical attention is required, the office will follow the School's emergency procedures.

A student who becomes injured or ill during the school day should request permission from the teacher to go to the office. The office staff will determine whether the student should remain in school or go home. No student will be released from school without proper parent/guardian permission.

HOMEBOUND INSTRUCTION

The District may arrange for individual instruction to students of legal school age who are not able to attend classes because of a serious physical or emotional disability.

Parents/guardians should contact the principal regarding procedures for such instruction.

SECTION I - GENERAL INFORMATION

ENROLLING IN THE SCHOOL

Students generally enroll in the district in which they live. However, the Board will release a resident student who is accepted as a student in another school district under that district's open enrollment program.

Students who are new to Manawa Elementary School are required to enroll with their parent or legal guardian. When enrolling, the parent/guardian will need to bring:

- A. A birth certificate or similar document;
- B. Custody papers from a court (if appropriate);
- C. Proof of residency; and
- D. Proof of immunizations and/or an appropriate waiver.

In some cases, a temporary enrollment may be permitted. If that is done, the parent/guardians will be told what records are needed to complete the enrollment process.

Students enrolling from another accredited school will have their courses and grades evaluated by the guidance department. The office staff will assist parents/guardians in obtaining the official records from the other school.

Homeless students who meet the federal definition of homeless may enroll and will be under the direction of the Homeless Liaison with regard to enrollment procedures.

SCHEDULING AND ASSIGNMENT

The principal will assign each student to the appropriate classroom and the program in which the student will be participating. Any questions or concerns about the assignment should be discussed with the principal.

EARLY DISMISSAL

No student will be allowed to leave school prior to dismissal time without a written request signed by the parent/guardian whose signature is on file in the school office or the parent/guardian coming to the school office to request the release. No student will be released to a person other than a custodial parent or guardian without a permission note signed by the custodial parent or guardian.

TRANSFER OUT OF THE DISTRICT

If a student plans to transfer to another school, the parent/guardian must notify the principal. Transfer will be authorized only after the student has completed the arrangements, returned all school materials, and paid any fees or fines that are due.

OPEN ENROLLMENT

The School District of Manawa will participate in the Wisconsin Public School Open Enrollment Program in accordance with applicable law and the relevant policies and rules of the District, all as amended from time-to-time.

WITHDRAWAL FROM SCHOOL

No student under the age of eighteen (18) will be allowed to withdraw from school without the written consent of his/her parent/guardians and completion of any required forms.

IMMUNIZATIONS

Each student must have the immunizations required by the Wisconsin Department of Health and Human Services or must have an authorized waiver. If a student does not have the necessary shots or waivers, s/he may be excluded from school as permitted by law. This is for the safety of all students and staff. Any questions about immunizations or waivers should be directed to the School Nurse.

STUDENT ACCIDENTS/ILLNESS/CONCUSSION

The School District of Manawa believes that school personnel have certain responsibilities in case of accidents, illness or concussions that occur in school. Said responsibilities extend to the administration of first aid by persons trained to do so, summoning of medical assistance, and notification of administration personnel, notification of parents/guardians, and the filing of accident reports.

EMERGENCY MEDICAL AUTHORIZATION

Per Board policy, every student must have an Emergency Medical Authorization Form completed and signed by his/her parent/guardian in order to participate in any activity off school grounds. This includes field trips, spectator trips, athletic and other extra-curricular activities, and co-curricular activities.

The school has made the Emergency Medical Authorization Form available to every parent/guardian at the time of enrollment. A student's failure to return the completed form to school may jeopardize the student's participation in school activities.

ADMINISTRATION OF MEDICATIONS

For purposes of this guideline:

- A. "Practitioner" shall include any physician, dentist, podiatrist, optometrist, physician assistant, and advanced practice nurse prescriber who is licensed in any State.
- B. "Medication" shall include all drugs including those prescribed by a practitioner and any nonprescription drug products.
- C. "Administer" means the direct application of a nonprescription drug product or prescription drug, whether by injection, ingestion, or other means, to the human body.
- D. "Nonprescription drug product" means any non-narcotic drug product which may be sold without a prescription order and which is prepackaged for use by consumers and labeled in accordance with the requirements of State and Federal law.

Nonprescription drug products include cough drops that contain active ingredients. These cough drops must be handled in the same manner as aspirin, Advil and Tylenol. If a cough drop contains only sugar, water, and some menthol, the procedures for handling nonprescription drug products are not required.

Prescribed Medications

In those circumstances where a student must take prescribed medication during the school day, the following guidelines are to be observed:

- A. Parents should determine with their practitioner's counsel whether the medication schedule can be adjusted to avoid administering medication during school hours.
- B. The Medication Request and Authorization Form must be filed with the school nurse before the student will be allowed to begin taking any medication during school hours. This written and signed request form is to be submitted on an annual basis, or more often if changes in dosage occur, and will include:
 - 1. student's name and date of birth;
 - 2. medication and dosage or procedure required;
 - 3. times required;
 - 4. special instructions including storage and sterility requirements;
 - 5. date prescribed medication will be started;
 - 6. date prescribed medication will no longer be needed;
 - 7. practitioner's name, address, and telephone number;
 - 8. authorization for school personnel to administer the prescribed medication, if necessary, but only in the presence of an authorized staff member or parent;
 - 9. agreement to notify the school in writing if the medication, dosage, schedule, or procedure is changed or eliminated. A new request form must be submitted each school year or for each new medication.
- C. For each prescribed medication, the medication shall be in the original pharmacy-labeled package with the following information in a legible format:
 - 1. student's name
 - 2. practitioner's name
 - 3. date
 - 4. pharmacy name and telephone
 - 5. name of medication
 - 6. prescribed dosage and frequency
 - 7. special handling and storage directions
- D. All medications to be administered during school hours must be registered with the Principal's office. Upon receipt of the medication, the health aide shall verify the amount of medication brought to the school and indicate that amount on the student's medication log sheet.
- E. Medication that is brought to the office will be properly secured. Medication may be conveyed to school directly by the parent. Two to four (2-4) weeks' supply of medication is recommended.

ASTHMA INHALERS AND EPI-PENS

Use of Metered Dose or Dry Powder Inhalers

Asthmatic students may, while in school, at a school-sponsored activity, or under the supervision of a school authority, possess and use a metered dose inhaler or dry powder inhaler when the following three (3) conditions are met.

1. The student is required to carry an inhaler for use prior to physical activity to prevent the onset of asthmatic symptoms or for use to alleviate asthmatic symptoms, and
2. the completed Parent Consent form for a minor student has been submitted to the Principal, and
3. the practitioner's order for medication administration has been submitted to the Principal authorizing the student to possess and use an inhaler.

Asthmatic students who are not required to carry an inhaler shall follow the guidelines which apply to all other prescription medications and their administration.

Use of Epi-pen

Students who may suffer from severe allergic reactions may, while in school, at a school-sponsored activity, or under the supervision of a school authority, possess and use an epi-pen when three (3) conditions are met.

1. The student is required to carry the epi-pen for use to prevent the onset of an allergic reaction, and
2. the completed Parent Consent form for a minor student has been submitted to the Principal, and
3. the practitioner's order for medication administration has been submitted to the Principal authorizing the student to possess and use the epi-pen.

Students who may suffer from severe allergic reactions but are not required to carry an epi-pen shall follow the guidelines which apply to all other prescription medications and their administration.

School personnel are not required to administer a nonprescription drug product or prescription drug by means other than ingestion. However, personnel designated to administer medications may indicate a willingness to provide medications, in an emergency or special situation, by means other than ingestion. This is done only under the direction and delegation of the school nurse. The school nurse shall provide instruction and written protocols, as well as documentation that both were provided.

Dispensing of nonauthorized, nonprescription drug products by District employees to students served by the District is prohibited. Where investigation confirms such conduct, prompt corrective action shall be taken, up to and including dismissal.

To minimize health and safety risks to student-athletes and maintain ethical standards, school personnel, coaches, athletic trainers, and lay coaches should never dispense, supply or recommend the use of any drug, medication, or food supplement for performance-enhancing purposes.

School personnel trained to administer medications shall keep a copy of the Administration of Medication Policy and Guidelines in an accessible spot for quick reference and have the right to refuse to administer medication to students when the required authorization forms and signatures have not been completed.

USE OF NONPRESCRIBED (DRUG PRODUCTS)

In those circumstances where a student must take a Nonprescription Drug Product during the school day, the following guidelines are to be observed:

- A. The Nonprescription Drug Product Request and Authorization Form must be filed with the school nurse before the student will be allowed to begin taking any medication during school hours.
- B. For each nonprescription drug product, the container shall be the original manufacturer's package and the package must list in a legible format the ingredients and recommended therapeutic dose.

The parents request to administer a nonprescription drug product shall contain the following information:

1. student's name
2. date
3. name of medication
4. dosage and frequency
5. special handling and storage directions

HEAD LICE

If a child in the District is found to have lice, the child's parent/guardian will be contacted to have the child treated and to pick him/her up immediately. After treatment and upon returning to school, the child will be examined by the school health staff or principal. The District practices a policy of "no live lice" and no nits as criteria for return to school.

CONTROL OF CASUAL-CONTACT COMMUNICABLE DISEASES

Because a school has a high concentration of people, it is necessary to take specific measures when the health or safety of the group is at risk. A teacher, nurse, or principal may send home a student who is suspected of having a communicable disease and will notify the parent/guardian of such action and the reason(s) it was taken. School officials may be required to notify local health officials if they suspect a student has a communicable disease as identified by the Wisconsin Department of Health Services. School officials will comply with notification requirements of the Department of Health and Family Services in addition to notifying the student's parent/guardian.

Examples of such diseases include diphtheria, scarlet fever, strep infections, whooping cough, mumps, measles, rubella, and other conditions indicated by the Wisconsin Department of Health and Human Services.

Any student's removal from school will only be for the contagious period as specified in the school's administrative guidelines.

DIRECT CONTACT COMMUNICABLE DISEASES

In the case of non-casual-contact communicable diseases, the school still has the obligation to protect the safety of the staff and students. In these cases, the person in question will have his/her status reviewed by a panel of resource people to ensure that the rights of the person affected and those in contact with that person are respected. The school will seek to keep students and staff in school unless there is definitive evidence to warrant exclusion.

Non-casual-contact communicable diseases include sexually transmitted diseases, AIDS (Acquired Immune Deficiency Syndrome), ARC-AIDS Related Complex, HIV (Human

Immunodeficiency Virus), Hepatitis B, and other diseases that may be specified by the Wisconsin Department of Health and Human Services.

As required by Federal and State law, parent/guardians may be required to have their child's blood checked for HIV and HBV, and other blood-borne pathogens when the child has bled at school and students or staff members have been exposed to the blood. Any testing is subject to laws protecting confidentiality.

INDIVIDUALS WITH DISABILITIES AND LIMITED ENGLISH PROFICIENCY

The American's with Disabilities Act (ADA) and Section 504 of the Rehabilitation Act provide that no individual will be discriminated against on the basis of a disability. This protection applies not just to the student, but to all individuals who have access to the District's programs and facilities.

A student can access special education services through the proper evaluation and placement procedure. Parent/guardian involvement in this procedure is generally required. More important, the school encourages parents/guardians to be active participants. To inquire about special education programs and services, a parent/guardian should contact Ms. Danielle Brauer (920) 596-2238.

The district is committed to identifying, evaluating, and providing a free appropriate public education ("FAPE") to students within its jurisdiction who are disabled within the definition of Section 504, regardless of the nature or severity of their disabilities.

Services are also available to students with limited English proficiency. To inquire about programs and services, a parent/guardian should contact Jackie Sernau at (920) 596-5738.

STUDENT RECORDS

The origination and maintenance of appropriate student records are essential to the effective operation of the District and meeting the educational interests of students. The rights and responsibilities of students, parent/guardians and the District with respect to student records are governed by State and Federal law. Many student records are kept by teachers, counselors and administrative staff. There are two (2) basic kinds of student records -- directory information and confidential records.

Directory information can be given to any person or organization for non-commercial or non-business purposes when requested, unless the parent/guardians of the student object in writing to the disclosure as required under school policy and State and Federal law. Directory information generally includes student records that identify a student's name, photograph, participation in officially recognized activities and sports, weight and height for members of athletic teams, date of graduation, and degrees and awards received. Directory information also includes a student ID number, user ID, or other unique personal identifier used by the student when accessing or communicating in a district's electronic systems, if, standing alone, it cannot be used to access student education records, (i.e. a pin number, password, or other factor is also needed).

- If parents/guardians and eligible students do not submit their written objection to dissemination to the Board, directory information may be utilized by the District Administrator in District-wide publications, on the cable television educational access channel, or on the District's website. The directory information used will be properly verified and approved by the District Administrator.

Student records are generally considered confidential under State and Federal law and may not be released to third parties unless the student's parent/guardians' consent in writing. However,

there are exceptions to confidentiality, and requests for records within these exceptions may be granted without a parent/guardian's written consent. If you have questions about the confidentiality of student records and/or the release of student records to third-parties, please contact Dr. Melanie J. Oppor.

Parents/guardians and students are reminded of: 1) their rights to inspect, review and obtain copies of students records; 2) their rights to request the amendment of the student's school records if they believe the records are inaccurate or misleading; 3) their rights to consent to the disclosure of the student's school records, except to the extent State and Federal law authorizes disclosure without consent; 4) the categories of student record information which have been designated as directory information and their right to deny the release of such information; and 5) their right to file a complaint with the Family Policy Compliance Office of the U.S. Department of Education.

Consistent with the Protection of Pupil Rights Amendment (PPRA), no student shall be required, as a part of the school program or the District's curriculum, without prior written consent of the student (if an adult, or an emancipated minor) or, his/her parent/guardian, to submit to or participate in any survey, analysis, or evaluation that reveals information concerning:

- A. Political affiliations or beliefs of the student or his/her parent/guardians;
- B. Mental or psychological problems of the student or his/her family;
- C. Sex behavior or attitudes;
- D. Illegal, anti-social, self-incriminating or demeaning behavior;
- E. Critical appraisals of other individuals with whom respondents have close family relationships;
- F. Legally recognized privileged and analogous relationships, such as those of lawyers, physicians, and ministers;
- G. Religious practices, affiliations, or beliefs of the student or his/her parent/guardians; or
- H. Income (other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under such a program).

Consistent with the PPRA and Board policy, parents/guardians may inspect any materials used in conjunction with any such survey, analysis, or evaluation. Please contact Stephanie Flynn, Administrative Assistant, to inspect such materials.

Further, parents/guardians have the right to inspect, upon request, a survey or evaluation created by a third party before the survey/evaluation is administered or distributed by the school to the student. The parent/guardian will have access to the survey/evaluation within a reasonable period of time after the request is received by the building principal.

The District Administrator will provide notice directly to parents/guardians of students enrolled in the District of the substantive content of this policy at least annually at the beginning of the school year, and within a reasonable period of time after any substantive change in this policy. In addition, the District Administrator is directed to notify parents/guardians of students in the District, at least annually at the beginning of the school year, of the specific or approximate dates during the school year when the following activities are scheduled or expected to be scheduled:

- A. The administration of any survey by a third party that contains one or more of sensitive information contained in A through H above.

The Family Policy Compliance Office in the U.S. Department of Education administers both Family Educational Rights and Privacy Act (FERPA) and Protection of Pupil Rights Amendment (PPRA). Parents/guardians and/or eligible students who believe their rights have been violated may file a complaint with:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW 20202-4605
Washington, D.C.

Informal inquiries may be sent to the Family Policy Compliance Office via the following email addresses: FERPA@ED.Gov; and PPRA@ED.Gov.

STUDENT FUND-RAISING

Students participating in school-sponsored groups and activities will be allowed to solicit funds from other students, staff members, and members of the community in accordance with school guidelines. The following general rules will apply to all fund-raisers.

- Students involved in the fund-raiser are not to interfere with students participating in other activities in order to solicit funds.
- A student will not be allowed to participate in a fund-raising activity for a group in which s/he is not a member without the approval of the student's teacher or counselor.
- No student may participate in fundraising activities off school property without proper supervision by approved staff or other adults.
- House-to-house canvassing by any student is not allowed for any fundraising activity.
- Students under the age of nine (9) must be accompanied by a parent/guardian or person sixteen (16) years of age or older.
- Any fund-raisers that require students to exert themselves physically beyond their normal pattern of activity, such as "runs for", will be monitored by a staff member in order to prevent a student from overextending himself/herself to the point of potential harm.
- No student may participate in a fund-raising activity conducted by a parent/guardian group, booster club, or community organization on school property without the approval of the principal.
- Fundraising by students on behalf of school-related organizations whose funds are not managed by the District may be permitted on school grounds by the District Administrator. If the fundraising activity will involve students under age nine (9) or the group holding the fundraiser includes any students under age nine (9), the group shall secure permission from such students' parent/guardians to participate in the fundraising activity and shall assure that any such students are always accompanied by a parent/guardian or a person at least sixteen (16) years of age.

STUDENT VALUABLES

Students are encouraged not to bring items of value to school. Items such as jewelry, expensive clothing, electronic equipment, and the like, are tempting targets for theft and extortion. The school cannot be responsible for their safe-keeping and will not be liable for loss or damage to personal valuables.

REVIEW OF INSTRUCTIONAL MATERIALS

Parents/guardians have the right to review any instructional materials related to the human growth and development curriculum and may also observe instruction in classes dealing with such subject matter. Any parent/guardian who wishes to review instructional materials or observe classroom instruction should contact the Principal to make the appropriate arrangements. Parents'/guardians' rights to review teaching materials and instructional activities are subject to reasonable restrictions and limits.

MEAL SERVICE

The school participates in the National School Lunch Program and makes lunches available to students for a fee. Students may also bring their own lunch to school for consumption in the school's cafeteria.

Applications for the school's Free and Reduced-Priced Meal program are distributed to all students. Extra applications can be obtained in the school office.

FIRE AND TORNADO DRILLS

The school complies with all fire safety laws and will conduct fire drills in accordance with State law. Specific instructions on how to proceed will be provided to students by their teachers, who are responsible for safe, prompt, and orderly evacuation of the building.

Tornado drills will be conducted during the tornado season using the procedures provided by the State.

Lock down drills in which the students are restricted to the interior of the school building and the building secured may occur during the school year.

EMERGENCY CLOSINGS AND DELAYS

If the school must be closed or the opening delayed because of inclement weather or other conditions, the school will notify the following radio and television stations:

WDUX ----Waupaca 92.7
WFRV-CH 5
WLUK-CH 11

WBAY-CH 2
WSAW-CH 7
NBC 26

If there is no announcement made on the radio and television stations, school will be open and the buses will be running. If the weather should turn severe during the day and buses are sent out early, an announcement to this effect will be made on the above stations. Parents/guardians will also have the option of receiving an alert to their phone or email account. It is the responsibility of the parent/guardian to ensure updated directory information. Parents/guardians and students are responsible for knowing about emergency closings and delays.

PREPAREDNESS FOR TOXIC AND ASBESTOS HAZARDS

The School is concerned for the safety of students and attempts to comply with all Federal and State Laws and Regulations to protect students from hazards that may result from industrial accidents beyond the control of school officials or from the presence of asbestos materials used

in previous construction. A copy of the School District's Toxic Hazard Policy and asbestos management plan will be made available for inspection at the Board offices upon request.

VISITORS

Visitors, particularly parents/guardians, are welcome at the school. In order to properly monitor the safety of students and staff, each visitor must report to the office upon entering the school to obtain a pass. Any visitor found in the building without a pass shall be reported to the principal. If a person wishes to confer with a member of the staff, s/he should call for an appointment prior to coming to the school, in order to prevent any loss of instructional time.

Visitors access to classrooms and instructional activities are subject to reasonable restrictions and limits. Please consult with the principal regarding these restrictions.

Students may not bring visitors to school without first obtaining advanced written permission from the principal.

USE OF SCHOOL EQUIPMENT AND FACILITIES

Students must receive the permission of the teacher before using any equipment or materials in the classroom and the permission of the principal to use any other school equipment or facility. Students will be held responsible for the proper use and safekeeping of any equipment or facility they are allowed to use.

LOST AND FOUND

The lost and found area is in the main office. Students who have lost items should check there and may retrieve their items if they give a proper description. Unclaimed items will be given to charity at the close of the school year.

STUDENT SALES

No student is permitted to sell any item or service in school without the approval of the principal. Violation of this rule may lead to disciplinary action.

USE OF SCHOOL TELEPHONES

Office telephones are not to be used for personal calls. Except in an emergency, students will not be called to the office to receive a telephone call.

- Telephones are available in the school for students to use when they are not in class. Students are not to use telephones to call parents/guardians to receive permission to leave school. Office personnel will initiate all calls on behalf of a student seeking permission to leave school.

SCHOOL DISTRICT OF MANAWA
PERSONAL COMMUNICATION DEVICES

Electronic Communication Device Policy

"Personal communication devices" ("PCDs") as used in this policy are defined in Bylaw 0100.

Students may use PCDs before and after school, during their lunch break, in between classes as long as they do not create a distraction, disruption or otherwise interfere with the educational environment, during after-school activities (e.g., extra-curricular activities), or at school-related functions. Use of PCDs, except those approved by a teacher or administrator, at any other time is prohibited and they must be powered completely off (i.e., not just placed into vibrate or silent mode) and stored out of sight.

However, technology including, but not limited to, PCDs intended and actually used for instructional purposes (e.g., taking notes, recording classroom lectures, writing papers) will be permitted, as approved by the classroom teacher or the building principal.

Students may not use PCDs on school property or at a school-sponsored activity to access and/or view Internet web sites that are otherwise blocked to students at school.

Students may use PCDs while riding to and from school on a school bus or other Board-provided vehicles or on a school bus or Board-provided vehicle during school-sponsored activities, at the discretion of the classroom teacher, or sponsor/advisor/coach. Distracting behavior that creates an unsafe environment will not be tolerated.

During after school activities, PCDs shall be powered completely off (not just placed into vibrate or silent mode) and stored out of sight when directed by the administrator or sponsor.

Under certain circumstances, a student may keep his/her PCD "On" with prior approval from the building principal.

Except as authorized by a teacher, administrator or IEP team, students are prohibited from using PCDs during the school day, including while off-campus on a field trip, to capture, record and/or transmit the words or sounds (i.e., audio) and/or images (i.e., pictures/video) of any student, staff member or other person. Using a PCD to capture, record, and/or transmit audio and/or pictures/video of an individual without proper consent by an authorized adult is considered an invasion of privacy and is not permitted. Students who violate this provision and/or use a PCD to violate the privacy rights of another person shall have their PCD confiscated and held until a parent picks it up, and may be directed to delete the audio and/or picture/video file while the parent is present. If the violation involves potentially illegal activity, the confiscated PCD may be turned over to law enforcement.

PCDs, with cameras or any other recording capabilities, may not be activated or utilized at any time in any school situation where a reasonable expectation of personal privacy exists. These locations and circumstances include, but are not limited to, locker rooms, shower facilities, rest/bathrooms, and any other areas where students or others may change clothes or be in any stage or degree of disrobing or changing clothes. The District Administrator and building principals are authorized to determine other specific locations and situations where use of a PCD is absolutely prohibited.

Students shall have no expectation of confidentiality with respect to their use of PCDs on school premises/property.

Students may not use a PCD in any way that might reasonably create, in the mind of another person, an impression of being threatened, humiliated, harassed, embarrassed, or intimidated. See Policy 5517.01 – Bullying and Other Forms of Aggressive Behavior. In particular, students are prohibited from using PCDs to: (1) transmit material that is threatening, obscene, disruptive, or sexually explicit or that can be construed as harassment or disparagement of others based upon their race, color, national origin, sex (including sexual

orientation/transgender identity), disability, age, religion, ancestry, or political beliefs; and (2) engage in "sexting" - i.e., sending, receiving, sharing, viewing, or possessing pictures, text messages, e-mails or other materials of a sexual nature in electronic or any other form. Violation of these prohibitions shall result in disciplinary action. Furthermore, such actions will be reported to local law enforcement and child services as required by law.

Students are also prohibited from using a PCD to capture, record, and/or transmit test information or any other information in a manner constituting fraud, theft, cheating, or academic dishonesty. Likewise, students are prohibited from using PCDs to receive such information.

Possession of a PCD by a student at school during school hours and/or during extra-curricular activities is a privilege that may be forfeited by any student who fails to abide by the terms of this policy, or otherwise abuses this privilege.

Violations of this policy may result in disciplinary action and/or confiscation of the PCD. The building principal will also refer the matter to law enforcement or child services if the violation involves an illegal activity (e.g., child pornography, sexting). Discipline will be imposed on an escalating scale ranging from a warning to an expulsion based on the number of previous violations and/or the nature of or circumstances surrounding a particular violation. If the PCD is confiscated, it will be released/returned to the student's parent after the student complies with any other disciplinary consequences that are imposed, unless the violation involves potentially illegal activity in which case the PCD may be turned over to law enforcement. A confiscated device will be marked in a removable manner with the student's name and held in a secure location in the building's central office until it is retrieved by the parent or turned over to law enforcement. School officials will not search or otherwise tamper with PCDs in District custody unless they reasonably suspect that the search is required to discover evidence of a violation of the law or other school rules. Any search will be conducted in accordance with Policy 5771 - Search and Seizure. If multiple offenses occur, a student may lose his/her privilege to bring a PCD to school for a designated length of time or on a permanent basis.

A person who discovers a student using a PCD in violation of this policy is required to report the violation to the building principal.

Students are personally and solely responsible for the care and security of their PCDs. The Board assumes no responsibility for theft, loss, or damage to, or misuse or unauthorized use of, PCDs brought onto its property.

Parents are advised that the best way to get in touch with their child during the school day is by calling the school office.

Students may use school phones to contact parents during the school day.

LEGAL REF.: Section 118.28 Wisconsin Statutes

Students who violate this policy will face the following disciplinary consequences: (Any electronic device or combination thereof).

1st offense – Warning – device is requested to be turned off.

2nd offense – Teacher confiscates for the class period.

3rd offense – Phone is turned into the main office where a parent/guardian must pick up.

Students refusing to relinquish their PCD may receive an in-school or out-of-school suspension. If they still refuse the proper authorities will be called.

WEAPONS

The Board of the School District of Manawa prohibits possession, use or threat to use, or storing of a weapon or look-alike weapon on school premises before, during, or after school, or at any school-sponsored activity. "School premises" includes a school building, school bus or vehicle, or any other school facility (including any school transportation facility, whether owned or contracted by the District). Students may not have live ammunition on the school site.

Determination of whether an item constitutes a weapon under this policy shall be made in accordance with established procedures. Exceptions to this policy include items which otherwise might be classified as weapons which are brought or transported to school premises or activities as part of a recognized activity for which the item is required, unless such is prohibited by law. (Examples might include but are not necessarily limited to guns handled by a staff member in a gun safety class, a look-alike gun which might be used in a dramatic activity, a gun bayonet which might be part of a history lesson, or a starting pistol used by a staff member in a track athletic event.)

Teachers should advise the appropriate building administrator beforehand of any activity or lesson necessitating the bringing to school of materials such as those described in this policy. Anyone found to be in violation of this policy is subject to discipline and/or legal action. If any part of this policy is held to be invalid under operation of the law, it shall not affect other parts of this policy which may be in compliance with the law.

ADVERTISING OUTSIDE ACTIVITIES

No announcements or posting of outside activities will be permitted without the approval of the principal. A minimum of twenty-four (24) hours' notice is required to ensure that the principal has the opportunity to review the announcement or posting.

The school has a central bulletin board located by the main school entrance hallway that may be used for posting notices after receiving permission from the principal.

VIDEO SURVEILLANCE

The Board of Education has authorized the use of video surveillance and electronic monitoring equipment at various school sites throughout the school. Any person who takes action to block, move, or alter the location and/or viewing angle of a video camera shall be subject to disciplinary action.

SAFETY AND SECURITY

- A. All visitors must report to the office when they arrive at school.
- B. All visitors are given and required to wear a building pass while they are in the building.
- C. The staff is expected to question people in the building whom they do not recognize and who are not wearing a building pass, and to question people who are "hanging around" the building after hours.
- D. Students and staff are expected to immediately report to a teacher or administrator any suspicious behavior or situation that makes them uncomfortable. All District employees are to wear photo-identification badges while in District schools and offices or on District property.

SECTION II - ACADEMICS

FIELD TRIPS

Field trips are academic activities that are held off school grounds. There are also other trips that are part of the school's co-curricular and extra-curricular program. No student may participate in any school-sponsored trip without parent/guardian consent.

Attendance rules, the Code of Conduct and the Search and Seizure policy apply to all field trips.

GRADES

The Teachers have a standard-based grading procedure, as well as additional notations that may indicate work in progress or incomplete work. The term standards-based refers to systems of instruction, assessment, grading, and academic reporting that are based on students demonstrating understanding or mastery of the knowledge and skills they are expected to learn as they progress through their education. The purpose of a grade is to indicate the extent to which the student has acquired the necessary learning. If a student is not sure how his/her grade will be determined, s/he should ask the teacher.

GRADING PERIODS

Students shall receive a report card at the end of each 9-week period indicating their grades for each course of study for that portion of the academic term.

When a student appears to be at risk of failure, notification will be provided to the parents so they can talk with the teacher about what actions can be taken to improve the student's performance.

Parent/Guardian / Teacher Conferences: Parent/guardian/teacher conferences will be held for the purpose of evaluation of student progress in school. Parents/guardians are encouraged to communicate with staff members at any time throughout the school year concerning their child's progress. Any time a parent/guardian wishes to see his/her child's records or confer with a teacher s/he should make an appointment through the Elementary School office.

PROMOTION, PLACEMENT, AND RETENTION

Grades 5K-5 Level

Criteria: To be promoted all students in grades 3-8 must demonstrate adequate progress in core subject areas. Literacy and numeracy are the foundation of all core subjects. To that end, adequate progress will be determined by end-of-year report card standard scores for core academic subjects at a score of "3". If adequate progress is not evident, based on the report card scores, multiple measures may be used to compile a complete student learning profile for promotion consideration.

The multiple measures to consider may include, but are not limited to:

- A. Wisconsin School Assessment System Examination scores
- B. Response to Intervention/Instruction documentation
- C. Local assessments
- D. Teacher recommendations
- E. Demonstrate adequate progress toward attainment of annual goals specified in the Individualized Education Plan (IEP), Section 504 Plans, or English Development Learning Plan (EDLP) as documented by the staff serving the student.

Remediation Opportunities

School personnel shall make a concerted and repeated effort throughout the school year to notify the parents/guardians of students who are at-risk of not meeting grade-level expectations and thus, may not be eligible for promotion. Opportunities to support student learning will be suggested and encouraged. In this way, students, with the support of their parents/guardians, can take full advantage of Response to Intervention/Instruction (RtI) time, Summer School, or other remediation learning opportunities for the purpose of meeting the grade-level criteria as described above to be eligible for promotion. Students' progress in meeting grade-level criteria will be monitored using universal screeners. "Universal screening is the systemic assessment of all children within a given class, grade, school building, or school district, on academic and/or social-emotional indicators that the school personnel and community have agreed are important" (Ikeda, Neessen, & Witt, 2009).

Universal screeners are administered in fall, winter, and spring. If:

- A student scores below the cut score, differentiation instruction within the classroom will take place. The Building Consultation Team (BCT) supports the teacher in this process.
- The student continues not meeting the target growth; the BCT reviews additional data (formative, summative, and observational). The team then consults with the relevant staff and the parent/guardian is contacted. The team and parents review STAR data, Fountas and Pinnell Benchmark results, and teacher data.
- A BCT meets to identify appropriate evidence-based practices on the intervention plan. The teacher documents frequency, duration, and method of data collection. The progress monitoring data is brought to the BCT throughout the intervention. Tier 2 (small group instruction) will be put in place.
- If the intervention was successful, Tier 2 instruction is discontinued and the teacher continues to monitor progress for four (4) to six (6) weeks to ensure progress is maintained.
- If the intervention was not successful, then the BCT meets and reviews fidelity and intensity of the intervention. The plan will be modified and Tier 3 (intensive intervention) will be put in place.
- If this is unsuccessful, the BCT will reconvene and review the fidelity and intensity of the intervention. The plan will be modified and the appropriateness of a special education referral will be considered

Appeal Process

Parents/guardians of the student recommended for retention may appeal to the District Administrator or designee. Such appeals shall be filed in writing no later than five (5) days after receiving the official letter of retention. The appeal petition must include reasons why the parent/guardian believes the student should be promoted. The District Administrator or designee shall respond with a decision in writing fifteen (15) days after receipt of the appeal.

HOMEWORK

Teachers will clearly convey homework assignments and expectations to the students. Teachers will exercise flexibility in assigning homework with regard to total school curriculum workload.

Students at Manawa Elementary School will be provided with a student agenda or a similar recording/communication tool. Agendas will be used to keep track of assignments and long-term projects as well as a communication tool for both teachers and parents.

Students must accept, as their own responsibility, obtaining homework assignments missed due to absences. Homework completion of high quality is an essential part of the learning process.

STUDENT TECHNOLOGY ACCEPTABLE USE AND SAFETY

Technology has fundamentally altered the ways in which information is accessed, communicated, and transferred in society. As a result, educators are continually adapting their means and methods of instruction, and the way they approach student learning to incorporate the vast, diverse, and unique resources available through the Internet. The Board of Education provides technology resources (as defined in Bylaw 0100) to support the educational and professional needs of its students and staff. With respect to students, District Technology Resources afford them the opportunity to acquire the skills and knowledge to learn effectively and live productively in a digital world. The Board provides students with access to the Internet for limited educational purposes only and utilizes online educational services/apps to enhance the instruction delivered to its students. The District's computer network and Internet system do not serve as a public access service or a public forum, and the Board imposes reasonable restrictions on its use consistent with its limited educational purpose.

The Board regulates the use of District technology resources by principles consistent with applicable local, State, and Federal laws, the District's educational mission, and articulated expectations of student conduct as delineated in the Student Code of Conduct. This policy and its related administrative guidelines and the Student Code of Conduct govern students' use of District Technology Resources and students' personal communication devices when they are connected to the District computer network, Internet connection, and/or online educational services/apps, or when used while the student is on Board-owned property or at a Board-sponsored activity (see Policy 5136).

Users are required to refrain from actions that are illegal (such as libel, slander, vandalism, harassment, theft, plagiarism, inappropriate access, and the like) or unkind (such as personal attacks, invasion of privacy, injurious comment, and the like). Because its Technology Resources are not unlimited, the Board has also instituted restrictions aimed at preserving these resources, such as placing limits on use of bandwidth, storage space, and printers.

Users have no right or expectation to privacy when using District Technology Resources (including, but not limited to, privacy in the content of their personal files, e-mails, and records of their online activity when using the District's computer network and/or Internet connection).

First, the Board may not be able to technologically limit access to services through its technology resources to only those that have been authorized for the purpose of instruction, study and research related to the curriculum. Unlike in the past when educators and community members had the opportunity to review and screen materials to assess their appropriateness for supporting and enriching the curriculum according to adopted guidelines and reasonable selection criteria (taking into account the varied instructional needs, learning styles, abilities, and developmental levels of the students who would be exposed to them), access to the Internet, because it serves as a gateway to any publicly available file server in the world, opens classrooms and students to electronic information resources that may not have been screened by educators for use by students of various ages.

Pursuant to Federal law, the Board has implemented technology protection measures, that protect against (e.g., filter or block) access to visual displays/depictions/materials that are obscene, constitute child pornography, and/or are harmful to minors, as defined by the Children's Internet Protection Act. At the discretion of the Board or the District Administrator, the technology protection measures may be configured to protect against access to other material considered inappropriate for students to access. The technology protection measures may not be disabled at any time that students may be using the District technology resources, if such

disabling will cease to protect against access to materials that are prohibited under the Children's Internet Protection Act. Any student who attempts to disable the technology protection measures will be subject to discipline.

The Board utilizes software and/or hardware to monitor online activity of students and to block/filter access to child pornography and other material that is obscene, objectionable, inappropriate and/or harmful to minors. "Harmful to minors" is a term defined by the Communications Act of 1934 (47 U.S.C. 254(h)(7)) as any picture, image, graphic image file, or other visual depiction that:

- A. taken as a whole and with respect to minors, appeals to a prurient interest in nudity, sex, or excretion;
- B. depicts, describes, or represents, in a patently offensive way with respect to what is suitable for minors, an actual or simulated sexual act or sexual contact, actual or simulated normal or perverted sexual acts, or a lewd exhibition of the genitals;
- C. taken as a whole, lacks serious literary, artistic, political, or scientific value as to minors.

At the discretion of the Board or the District Administrator, the technology protection measure may be configured to protect against access to other material considered inappropriate for students to access. The technology protection measure may not be disabled at any time that students may be using the District technology resources, if such disabling will cease to protect against access to materials that are prohibited under the Children's Internet Protection Act. Any student who attempts to disable the technology protection measures will be subject to discipline.

The Technology Director may temporarily or permanently unblock access to websites or online educational services/apps containing appropriate material if access to such sites has been inappropriately blocked by the technology protection measure. The determination of whether material is appropriate or inappropriate shall be based on the content of the material and the intended use of the material, not on the protection actions of the technology protection measure.

The Technology Director may disable the technology protection measure to enable access for bona fide research or other lawful purposes.

Parents are advised that a determined user may be able to gain access to services and/or resources on the Internet that the Board has not authorized for educational purposes. In fact, it is impossible to guarantee students will not gain access through the Internet to information and communications that they and/or their parents may find inappropriate, offensive, objectionable or controversial. Parents of minors are responsible for setting and conveying the standards that their children should follow when using the Internet.

Pursuant to Federal law, students shall receive education about the following:

- A. safety and security while using e-mail, chat rooms, social media, and other forms of direct electronic communications;
- B. the dangers inherent in the online disclosure of personally identifiable information;
- C. the consequences of unauthorized access (e.g., "hacking", "harvesting", digital piracy", "data mining", etc.), cyberbullying, and other unlawful or inappropriate activities by students online;
- D. unauthorized disclosure, use, and dissemination of personally identifiable information regarding minors.

Staff members shall provide instruction for their students regarding the appropriate use of technology and online safety and security as specified above. Furthermore, staff members will monitor the online activities of students while at school.

Monitoring may include, but is not necessarily limited to, visual observations of online activities during class sessions; or use of specific monitoring tools to review browser history and network, server, and computer logs.

Building Principals are responsible for providing training so that Internet users under their supervision are knowledgeable about this policy and its accompanying guidelines. The Board expects that staff members will provide guidance and instruction to students in the appropriate use of District technology resources. Such training shall include, but not be limited to, education concerning appropriate online behavior, including interacting with other individuals on social media, including in chat rooms, and cyberbullying awareness and response. All users of District technology resources (and their parents if they are minors) are required to sign a written agreement or acknowledging during the annual student registration process they will abide by the terms and conditions of this policy and its accompanying guidelines.

Beginning in grade three (3) students will be assigned a school email account that they are required to utilize for all school-related electronic communications, including those to staff members, peers, and individuals and/or organizations outside the District with whom they are communicating for school-related projects and assignments. Further, as directed and authorized by their teachers, they shall use their school-assigned email account when signing-up/registering for access to various online educational services, including mobile applications/apps that will be utilized by the student for educational purposes.

Students may only use District technology resources to access or use social media if it is done for educational purposes in accordance with their teacher's approved plan for such use.

Users who disregard this policy and its accompanying guidelines may have their use privileges suspended or revoked, and disciplinary action taken against them. Users are personally responsible and liable, both civilly and criminally, for uses of District technology resources that are not authorized by this policy and its accompanying guidelines.

The Board designates the District Administrator and Technology Director as the administrators responsible for initiating, implementing, and enforcing this policy and its accompanying guidelines as they apply to students' use of District technology resources.

Synchronous Education – Student Accountability and Conduct

The School District of Manawa expects students participating in remote learning to follow school rules during synchronous instruction and when interacting with staff and students in a virtual setting. Students may be disciplined for violating school rules during virtual instruction even though the student is not present on District property.

Synchronous Instruction Accountability and Internet Safety

Synchronous instruction requires students to access their educational program online. There are certain risks inherent in all online activities. Students must comply with the following standards and expectations to protect themselves and others.

- The District's Acceptable Use policy applies to all students participating in the District's virtual educational programs and online class activities.
- Use only one (1) username and password.
- Use an appropriate profile picture for any virtual accounts.

- Do not share your username or password with anyone. Each student is responsible for all activities associated with his or her username and password.
- Do not interfere with other student's ability to access virtual instruction or disclose anyone's password to others.
- Do not publicly post personal contact information, including the personal contact information for others.
- Do not use the District's virtual instruction resources for any illegal activities.
- Do not use District virtual instruction resources to send unsolicited electronic-mail messages not pertaining to class (e.g., SPAM).
- Do not use the District's virtual instruction resources to access inappropriate programs, applications, or websites.
- Do not share classroom/small group video or classroom/small group recorded video with third parties (parent(s)/guardian(s) and siblings, excluded) – This includes private messages from staff or others.
- Do not agree to meet in-person with anyone met exclusively on the Internet.

Conduct During Synchronous Instruction

Synchronous instruction is similar to in-person instruction but presents unique opportunities and challenges. Students are expected to be engaged and courteous to others during synchronous instruction and other class activities as they would during in-person instruction in a classroom. The District's Student Code of Conduct applies to all students participating in the District's synchronous instruction and online class activities. Students are expected to obey the following standards and expectations, as well:

- Sign-in for virtual instruction and activities using the appropriate, designated username and password.
- Do not allow siblings or other members of the household to participate in virtual instruction unless authorized by the virtual class teacher (they may observe but notice should be provided they are doing so).
- Review typed messages before sending them to remove easily misinterpreted language and proofread for typos.
- Private messages during virtual instruction should be kept to a minimum.
- Engage in virtual instruction discussions in a respectful manner that abides by the following standards:
 - Avoid sarcasm, jargon, and slang;
 - Vulgarity is not acceptable;
 - Do not use images, "GIFs," or "Memes" in place of written responses or comments, unless specifically directed to do so by a staff member;
 - Focus responses on the questions or issues being discussed, not on the individuals involved.
- Do not make inappropriate comments verbally or via direct messages. Inappropriate messages include, but are not limited to, those that contain:
 - threatening messages or images;
 - insults or attacks of any kind against a person;
 - obscene, degrading or profane language or images;
 - repeatedly sent unwelcome messages or images that harass the recipient; and
 - material that is defamatory or intended to annoy, intimidate, or bully others.

If a student or his/her parent(s)/guardian(s) has any questions about the rules, standards, and expectations applicable to students participating in the District's synchronous educational programs and online class activities, the student should contact the Principal immediately.

STUDENT ASSESSMENT

To measure student progress, students will be tested in accordance with State standards and District policy.

Additional group tests are given to students to monitor progress and determine educational mastery levels. These tests are used to help the staff determine instructional needs.

Classroom tests will be used to assess student progress and assign grades. These are selected or prepared by teachers to assess how well the students have achieved specific objectives.

Vocational and interest surveys may be given to identify particular areas of student interest or talent. These are often given by the guidance staff.

- If necessary, intelligence tests, speech and language evaluations, individually administered achievement tests, and other special testing services are available to students needing these services.

Depending on the type of testing, specific information and/or parent/guardian consent may need to be obtained. The assessment program will not violate the rights of consent and privacy of a student participating in any form of evaluation.

SECTION III - STUDENT ACTIVITIES

SCHOOL-SPONSORED CLUBS AND ACTIVITIES

Students have the opportunity to broaden their learning through curricular-related activities.

The school has many student groups that are approved by the Board of Education such as Student Council.

CO-CURRICULAR ACTIVITIES

Co-curricular activities will include, but are not limited to, Club Sports.

Extra-curricular activities do not reflect the school curriculum, but are made available to students to allow them to pursue additional worthwhile activities such as recreational sports, drama, and the like. For further information, contact the Booster Club.

SECTION IV - STUDENT CONDUCT

ATTENDANCE

The school requires all students to attend school regularly in accordance with the laws of Wisconsin. The school's educational program is predicated upon the presence of the student and requires continuity of instruction and classroom participation. The regular contact of students with one another in the classroom and their participation in a well-planned instructional activity under the guidance of a competent teacher are vital to this purpose.

Compulsory Student Attendance

All children between six (6) and eighteen (18) years of age shall attend school regularly during the full period and hours, religious holidays exempted, that the school is in session. All students must attend until the end of the term, quarter or semester of the school year in which the child becomes eighteen (18) years of age unless they fall under an exception outlined in the District's Administrative Guidelines. A child who is enrolled in five-(5) year-old kindergarten shall attend school regularly, religious holidays exempted, during the full period and hours that kindergarten is in session until the end of the school term.

- Attendance is also defined as participation in the various forms of distance learning including videoconference, satellite, Internet or other electronic information and telecommunications technologies.

Excuse for Absence

A parent/guardian of a student who is absent shall provide a written, dated, signed statement indicating the reason for and the time period of the absence. This statement must be submitted prior to the absence if the absence is foreseeable. If the absence is not foreseeable, the statement must be provided prior to the student's readmission to school. The statement shall be submitted to the School Principal who serves as the School Attendance Officer and filed in the student's school record. The District reserves the right to verify statements and investigate absences from school.

Excused Absences

A student shall be excused from school for the following reasons:

Physical or Mental Condition

The student is temporarily not in proper physical or mental condition to attend a school program. If the absence exceeds 5 days, the inability of the student to attend school due to a physical or mental condition must be certified in writing by a licensed physician, dentist, chiropractor, optometrist or psychologist or Christian Science practitioner living and residing in Wisconsin, who is listed in the Christian Science Journal. The time period for which the certification is valid may not exceed thirty [30]

days.

Obtaining Religious Instruction

Students may wish to obtain religious instruction outside the school during the required school period. The time period or periods of absence shall be determined by the principal. Such absences must be at least 60 minutes but not more than 180 minutes per week. Requests for absence under this paragraph shall be denied if the student fails to attend religious instruction after requesting to be absent from his or her regular school. The supervisor of such religious instruction shall report monthly, to the principal of the school regularly attended, the names of the students who attended such weekly religious instruction.

Permission of Parent or Guardian

The student may be excused by his or her parent or guardian before the absence for any or no reason. A student may not be excused for more than ten (10) days under this paragraph and must complete any course work missed during the absence. Examples of reasons for being absent that should be counted under this paragraph include, but are not limited to, the following:

- professional and other necessary appointments (e.g., medical, dental, and legal) that cannot be scheduled outside the school day
- to attend the funeral of a relative
- legal proceedings that require the student's presence
- vacations
- weather related- As parents, you are the final authority as to whether you believe it is safe for your child to get to school. If you believe that it is too cold or the snow is too deep or the weather is too unsettled, your decision may be to keep your child home. You have the right and responsibility to make attendance decisions for your children based on your individual circumstances. Please notify your student's school as you would for any other absence.

Parents/guardians are encouraged not to take their child out of school for vacations. When a family vacation must be scheduled during the school year, the parents/guardians should discuss the matter with the principal and the student's teacher(s) to make necessary arrangements.

Religious Holiday

The student wishes to observe a religious holiday consistent with the student's creed or belief.

Suspension or Expulsion

The student has been suspended or expelled.

A student may be excused from school, as determined by the School Attendance Officer, for the following reasons:

- Quarantine: Quarantine of the student's home by a public health officer.
- Illness of an Immediate Family Member
- Emergency: An emergency that requires the student to be absent because of family responsibilities or other appropriate reasons.

Pre-Arranged Absence: Students absent for reasons other than the above will be considered unexcused with this exception: parents may PRE-EXCUSE their child for any reason for up to ten days per year. This means that any absence for reasons other than the above may be excused providing there is a WRITTEN PRE-ARRANGED FORM. (Forms may be picked up in the office prior to the date of absence.) If it is not PRE-ARRANGED, it will be considered

UNEXCUSED.

Truancy

A student will be considered truant if he or she is absent part or all of one or more days from school during which the School Attendance Officer, principal, or a teacher has not been notified of the legal cause of such absence by the parent/guardian or guardian of the absent student. A student will also be considered truant if he or she has been absent intermittently for the purpose of defeating the intent of the Wisconsin Compulsory Attendance statute – Sec. 118.15, Wis. Stat.

When a student is truant, the School Attendance Officer shall ensure that all applicable provisions of the District’s Truancy Plan are carried out.

Unexcused Absences

Unexcused absences demonstrate a deliberate disregard for the educational program and are considered a serious matter. The principal will determine on a case-by-case basis the appropriate methods to deal with unexcused absences.

Approved Absences: Personal illnesses, a death in the family, religious holidays, or extreme emergencies are acceptable reasons for an absence. A **valid** excuse written by a parent/guardian must be presented to the office upon return to school, or a phone call from a parent/guardian on the day of absence, documenting the reason for the absence must be made to the school office. For a definition of a **“invalid”** excuse, see the following examples:

Examples of Unexcused Absences:

- Oversleeping
- Stayed home to finish homework
- Missing the bus/car wouldn’t start
- Shopping/haircut/pictures
- Leaving school without permission

Habitual Truancy

A student is considered a habitual truant if he or she is absent from school without an acceptable excuse for part or all of five (5) or more days on which school is held during a school semester. When a student initially becomes a habitual truant, the School Attendance Officer shall ensure that all applicable provisions of the Districts’ Truancy Plan are carried out.

Parent/Guardian Responsibilities

It is the responsibility of the student’s parent/guardian to ensure that their child attends school regularly. Parents/guardians are expected to provide an excuse for all absences.

Student Responsibilities.

Students are required to attend all classes and other school activities on their daily schedule, unless they have been excused from school.

Notification: When a student’s attendance for the day is unexcused, contact will be made to the parent/guardian. A message may be left on an answering machine. The parent/guardian will then have 2 days to notify the school office, either by phone or written note, stating the reason for the absence. If after 2 days the office has not received notification for the unexcused absence, the student then becomes truant and will be referred to administration for disciplinary action.

TARDINESS

- a. Students who are not in their homeroom or in class when the late bell rings are considered tardy.
- b. Students who attend any part of the class shall be recorded as present.
- c. Elementary School: All students who are tardy to school must report to the office upon arrival and get an admit slip to class.

Cases of truancy/tardiness will be referred to the school principal to plan options for addressing the truancy concern.

STUDENT ATTENDANCE AT SCHOOL EVENTS

The school encourages students to attend as many school events held after school as possible, without interfering with their school work and home activities. Enthusiastic spectators help to build school spirit and encourage those students who are participating in the event.

However, in order to ensure that students attending evening events as nonparticipants are safe, it is strongly advised that students be accompanied by a parent/guardian or adult chaperone when they attend the event.

- The school will not be able to supervise unaccompanied students nor will it be responsible for students who arrive without an adult chaperone.
- The school will continue to provide adequate supervision for all students who are participants in a school activity.

CODE OF CONDUCT

Participants/athletes are reminded that they represent the school both at athletic contests and elsewhere. All participants/athletes are expected to follow all school rules and to display high standards of behavior, including good sportsmanship, respect for others, and use of appropriate language and dress at all times. Participants/athletes must refrain from any conduct at any time that would reflect unsatisfactorily on him or her or the school. This code applies to all school activities, both curricular and extracurricular, that occur outside of the normal school day.

Conduct that would reflect unsatisfactory on a participant/athlete or on the school includes, but is not limited to, the following:

- Any crime dealing with, but not limited to, sexual behavior, vandalism or property damage, theft.
- Possession, use, sale or purchase of any controlled substance/intoxicant or drug paraphernalia. Controlled substances/intoxicants include, but are not limited to: anabolic steroids or prescribed medications used in a manner other than that for which they were prescribed.
- Purchase, use, or possession of tobacco products or E-cigarettes or anything that resembles them.
- The possession of any weapon or look-alike weapons.
- Hosting, sponsoring, or organizing a party/gathering at which alcohol or drugs are being used, consumed or offered. Students who knowingly or unknowingly attend a party/gathering where alcohol is being used illegally or drugs are present, are expected to remove themselves immediately from the residence. Students are encouraged to report the scenario to a school administrator immediately.

Sportsmanship

All students and parents/guardians are required to practice good sportsmanship during all school-related events. Poor sportsmanship may result in removal from sporting events.

DRESS AND GROOMING

While fashions change, the reason for being in school does not. Students are in school to learn. Any fashion (dress, accessory, or hairstyle) that disrupts the educational process or presents a safety risk will not be permitted. Personal expression is permitted within these general guidelines.

We take pride in the appearance of our students. All students are expected to dress and groom themselves neatly in clothing that is seasonably suitable for school activities. Students wearing inappropriate clothing, such as but not limited to: clothing with alcohol/tobacco reference, inappropriate slogans and suggestive in nature may be asked to return home to make necessary changes.

- Clothing must cover all undergarments. Shorts, skirts and dresses must reach fingertip in length.
- There will be no midriff showing, no low cut tops, cut-out/ripped t-shirts underneath the arm exposing the torso, spaghetti straps, or strapless garments worn.
- Straps on tank tops must be at least 2 inches wide.
- Hats, caps, headwear, jackets/coats, bulky outerwear, backpacks, large chains, jewelry with sharp objects, low riding pants, etc., are not allowed to be worn in the school.

- It is encouraged to wear shoes with a back strap to keep children safe for playground running and play.

Students should consider the following questions when dressing for school:

1. Does my clothing expose too much? (No)
2. Does my clothing advertise something that is prohibited to minors? (No)
3. Are there obscene, profane, drug-related, gang-related, or inflammatory messages on my clothing? (No)
4. Would I interview for a job in this outfit? (Yes)
5. Am I dressed appropriately for the weather? (Yes)
6. Do I feel comfortable with my appearance? (Yes)

If a student has selected a manner of appearance that is beyond mere freedom of expression and disrupts the educational process or presents risk to themselves or others, s/he may be removed from the educational setting.

Reporting Concerns:

Anyone in violation will be sent to the office.

If a dress code violation occurs, the following steps will be taken:

- **First Occurrence:** Student will be asked to correct the problem by changing clothes, turning a shirt inside out, putting on shoes, etc.,
- **Second Occurrence:** Student will be asked to correct the problem by changing clothes, turning a shirt inside out, putting on shoes, etc., and a parent/guardian will be notified by phone.

Students attending after school events need to follow the dress. This includes, but not limited to sporting events, and school concerts.

Students who are representing our school at an official function or public event may be required

to follow specific dress requirements. Usually, this applies to athletic teams, cheerleaders, bands, and other such groups.

CARE OF PROPERTY

Students are responsible for the care of their own personal property. The school will not be responsible for the loss of personal property. Valuables such as jewelry or irreplaceable items should not be brought to school. The school may confiscate such items and return them to the student's parent/guardians.

Damage to or loss of school equipment and facilities wastes taxpayers' money and undermines the school program. Therefore, if a student damages or loses school property, the student or his/her parent/guardian will be required to pay for the replacement or damage. If the damage or loss was intentional, the student will also be subject to discipline according to the Code of Conduct.

STUDENT CONDUCT

School rules apply at school, on school property, at school-sponsored events, and on school transportation.

It is the school staff's responsibility to provide a safe and orderly learning environment. History has shown that certain student actions are not compatible with the words "safe" and "orderly". Disciplinary action will be decided on a case-by-case basis and imposed after review of the facts and/or special circumstances of the situation.

Each of the behaviors described below may subject the student to disciplinary action including, but not limited to, suspension and/or expulsion from school.

DRUG ABUSE PREVENTION

The administration and staff recognize that the misuse/abuse of drugs is a serious problem with legal, physical, and social implications for the entire school community. As educational institutions of this community, the schools should strive to prevent drug abuse and help drug abusers by educational, rather than punitive, means.

- For purposes of this policy, "drugs" shall mean: dangerous controlled substances as so designated and prohibited by Wisconsin statute;
- All chemicals that release toxic vapors;
- All alcoholic beverages;
- Any prescription or patent drug, except those for which permission to use in school has been granted pursuant to Board policy;

Disciplinary sanctions, up to and including expulsion and referral for prosecution, will be imposed on students who violate the school's drug abuse guidelines.

USE OF TOBACCO AND NICOTINE IS PROHIBITED

The Board of Education is committed to providing students, staff, and visitors with a tobacco and smoke-free environment. The negative health effects of tobacco use for both users and non-users are well established. In addition, students less than eighteen (18) years of age are generally prohibited by law from purchasing or possessing cigarettes and other tobacco products.

For purposes of this policy, "use of tobacco" means to chew or maintain any substance containing tobacco, including smokeless tobacco, in the mouth to derive the effects of tobacco, as well as all uses of tobacco, including cigars, cigarettes, pipe tobacco, chewing tobacco, snuff, any other matter or substances that contain tobacco, in addition to papers used to roll cigarettes and/or the smoking of electronic, "vapor," or other substitute forms of cigarettes, clove cigarettes and any other lighted smoking devices for burning tobacco or any other substance. Accordingly, the Board prohibits students from using or possessing tobacco in any form on District premises, in District vehicles, within any indoor facility owned or while leased or contracted for by the District

and used to provide education or library services to children, and at all District-sponsored events.

STUDENT CODE OF CLASSROOM CONDUCT

The School District of Manawa is committed to maintaining an orderly and safe academic atmosphere. Teachers are expected to create a positive learning environment and to maintain proper order in the classroom. Students are expected to behave in the classroom in a manner that allows teachers to effectively carry out their lessons and allows students to participate in classroom learning activities. Students are also expected to abide by all rules of behavior established by the School and their classroom teachers.

To ensure adherence to these expectations and principles, the Board of Education has adopted this Code of Classroom Conduct, which applies to all students.

GROUNDINGS FOR REMOVAL OF A STUDENT FROM CLASS

Disturbances that interrupt the learning process cannot be permitted by any teacher. A teacher may temporarily remove a student from the teacher's class if the student violates the Code of Classroom Conduct. Additionally, the student may be removed from the class for a longer period of time within the discretion of the principal. A student removed from class may also be placed in an alternative education setting.

Removal of a student from class for violating the Code of Classroom Conduct or placement of the student in an alternative educational setting does not prohibit the school from further disciplining the student for the conduct that caused removal or placement including, but not limited to, suspending or expelling the student.

It is neither possible nor necessary to specify every type of improper or inappropriate behavior for which a teacher may remove a student from class. Provided below, however, are examples of reasons a student may be removed from class. A teacher may remove a student from class for conduct or behavior that:

- A. Would result in suspension or expulsion under the Board's policies and procedures;
- B. Violates the behavioral rules and expectations of the school;

 - 6. Pushing, striking, or other inappropriate physical contact with a student or staff member
 - 7. Interfering with the orderly operation of the classroom by using, threatening to use or counseling others to use violence, force, coercion, threats, intimidation, fear, or disruptive means

- F. Is inconsistent with class decorum and the ability of other to learn. Such behavior includes, but is not limited to, sleeping in class, blatant inattention, or other overt or passive refusal or inability to engage in class activities.

PROCEDURE FOR STUDENT REMOVAL FROM CLASS

When a student is removed from class, the teacher shall send or escort the student to the principal and inform the principal of the reason for the student's removal from class. The teacher shall provide the principal with a written explanation of the reasons for the removal of the student within twenty-four (24) hours of the student's removal from class.

The principal will generally give the student an opportunity to briefly explain the situation. The principal shall then determine the appropriate educational placement for the student.

Student Placement

The principal shall place the student, who has been removed from a class by a teacher, in one of the following alternative educational settings:

- A. An alternative education program approved by the Board under State law;
- B. Another instructional setting, time-out, in-school suspension or out-of-school suspension; or
- C. The class from which the student was removed if, after weighing the interests of the student, the other students in the class, and the teacher, the principal determines that readmission to the class is the best or only alternative.

Parent/Guardian Notification Procedures

The principal shall provide the parent/guardian of a student removed from class-with written notice of the removal and the reason(s) for the removal. The notification shall be made as soon as practicable, but no later than two (2) school days after the student's removal from class. The notice shall also include the reasons for the student's removal and the placement made by the principal. If the removal from class and change of educational placement involves a student with

a disability, the parent/guardian notification shall be made consistent with State and Federal laws and regulations applicable to disabled students.

If the student removed from a class is subject to disciplinary action, up to and including suspension or expulsion for the particular classroom conduct and/or other disciplinary incidents, the parent/guardian shall also be notified of the disciplinary action in accordance with legal and policy requirements.

Students with Disabilities

A student with a disability under the Individuals with Disabilities Education Act, Section 504 of the Rehabilitation Act, and Section 115.758, Wis. Stat. may be removed from class and placed in an alternative educational setting only to the extent authorized under the laws.

Definitions

“Student” means any student enrolled in the District, an exchange student, or a student visitor to the District’s schools.

“Teacher” means a person holding a license or permit issued by the State Superintendent whose employment by a school district requires that he or she hold that license or permit.

“Class” or “classroom” means any class, meeting or activity which students attend, or in which they participate while in school under the control or direction of the District. This definition of “class” includes, without limitation, regular classes, special classes, resource room sessions, labs, library time, counseling groups, assemblies, study halls, lunch, or recess. “Class” also includes regularly scheduled District-sponsored extracurricular activities, either during or outside of school hours. Such activities include, by example and without limitation, District sponsored field trips, after-school clubs, and sporting activities.

OTHER FORMS OF DISCIPLINE

It is important to remember that the school's rules apply at school, on school property, at school-sponsored events, and on school transportation. In some cases, a student can be suspended from school transportation for infractions of school bus rules.

Ultimately, it is the principal's responsibility to keep things orderly. In all cases, the school shall attempt to make discipline prompt and equitable and to have the punishment match the severity of the incident.

Informal Discipline

Informal discipline takes place within the school. It includes:

- Writing assignments;
- Change of seating or location;
- Lunch-time detention;
- In-school restriction

SUSPENSION AND EXPULSION

A. Suspension

1. Duration and Grounds for Suspension

The principal or a person designated by the principal may suspend a

student for up to five (5) school days or, if a notice of expulsion hearing has been sent, for up to fifteen (15) consecutive school days or ten (10) consecutive school days if the student is eligible for special education services under Chapter 115, Wis. Stats., if the suspension is reasonably justified and based upon any of the following misconduct:

- a. Noncompliance with school or School Board rules;
- b. Knowingly conveying any threat or false information concerning an attempt or alleged attempt being made or to be made to destroy any school property by means of explosives;
- c. Conduct by the student while at school or while under the supervision of a school authority that endangers the property, health or safety of others;
- d. Conduct while not at school or while not under the supervision of a school authority that endangers the property, health or safety of others at school or under the supervision of a school authority;
- e. Conduct while not at school or while not under the supervision of a school authority that endangers the property, health or safety of any employee or School Board member of the school district in which the student is enrolled.
- f. Under paragraphs c, d, and e above, conduct that endangers a person or property includes making a threat to the health or safety of a person or making a threat to damage property.

The District Administrator, or any principal or teacher designated by the District Administrator shall suspend a student if the student possessed a firearm while at school or while under the supervision of a school authority.

The suspension period applies to “school days.” Thus, a suspension period does not include weekend days or vacation days.

2. Suspension Procedure

Prior to being suspended, on the day of the alleged infraction or as soon thereafter as is practicable, the student will be advised orally or in writing of the reason for the proposed suspension and given an opportunity to explain his or her conduct.

The principal, within his or her discretion, may also inform the student’s parent or guardian of the reason for the proposed suspension prior to suspending the student.

3. Notice of Suspension

The parent or guardian of a suspended minor student shall be given prompt written notice of the suspension and the reason for the suspension by mail and by sending a copy of the notice home with the student. Oral notice may also be given to the student’s parent or guardian; however, it will be confirmed in writing.

4. Sending a student home on the day of the Suspension

Generally, the student should remain in school on the day of the suspension until school is dismissed for the day. Except as provided below:

- If the situation requires that the student be removed from the premises before school is dismissed, the principal shall attempt to contact the

student's parent or guardian to request that s/he pick up the student. If the parent/guardian is unable to pick up the student, the student should remain under the school's supervision until school is dismissed, or in the event law enforcement is involved, under law enforcement supervision.

5. Opportunity to Complete School Work

A suspended student shall not be denied the opportunity to take any quarterly, semester or grading period examinations or to complete course work missed during the suspension period. Such work shall be completed pursuant to the procedures established by the School Board.

6. Reference to the Suspension in the Student's Record

The student's suspension from school shall be entered in the student's record as required by the rules adopted by the School Board concerning the content of student records.

The suspended student or the student's parent or guardian may, within five (5) school days following the commencement of the suspension, have a conference with the District Administrator or his or her designee, who shall be someone other than a principal, administrator or teacher in the suspended student's school, to discuss removing reference to the suspension from the student's records.

Reference to the suspension in the student's school record shall be removed if the District Administrator finds that:

- The student was suspended unfairly or unjustly;
- The suspension was inappropriate, given the nature of the alleged offense; or
- The student suffered undue consequences or penalties as a result of the suspension.

The District Administrator, or the administrator's designee, shall make his or her finding within fifteen (15) days of the conference.

7. Co-Curricular or Extra-Curricular Participation

A student's participation in co-curricular or extra-curricular activities during a suspension shall be determined on a case-by-case basis.

B. Expulsion

1. Grounds for Expulsion

The School Board may expel a student only when it is satisfied that the interest of the school demands the student's expulsion and it finds that the student:

- Repeatedly refused or neglected to obey the rules established by the School District;
- Knowingly conveyed or caused to be conveyed any threat or false information concerning an attempt or alleged attempt being made or to be made to destroy any school property by means of explosives;
- Engaged in conduct while at school or while under the supervision of a school authority that endangered the property, health or safety of

others;

- Engaged in conduct while not at school or while not under the supervision of a school authority that endangered the property, health or safety of others at school or under the supervision of a school authority or endangered the property, health or safety of any employee or School Board member of the School District in which the student is enrolled; or
- Was at least sixteen (16) years old and had repeatedly engaged in conduct while at school or while under the supervision of a school authority that disrupted the ability of school authorities to maintain order or an educational atmosphere at school or at an activity supervised by a school authority and that such conduct did not otherwise constitute grounds for expulsion.

Under this section, conduct that endangers a person or property includes threatening the health or safety of a person or threatening to damage property.

2. Expulsion for Bringing a Firearm to School

The School Board shall expel a student from school for not less than one (1) year whenever it finds that the student brought a firearm to school or, while at school or while under the supervision of a school authority, possessed a firearm, unless the Board finds that the punishment should be reduced based upon the circumstances of the incident. Any such finding by the Board shall be in writing.

3. Expulsion Hearing

Prior to expelling a student, the School Board shall provide the student with a hearing. Prior written notice of the expulsion hearing must be sent separately both to the student and his/her parent/guardian(s) if the student is a minor; otherwise just to the student. The notice will comply with the requirements of State law.

The student, or the student's parent/guardian if the student is a minor, has the right to request a closed hearing or the Board may choose to close the hearing. The student and, if the student is a minor, the student's parent or guardian may be represented at the hearing by counsel.

4. Expulsion Order

The Board shall reduce its decision to writing in the form of a written order. If expulsion is ordered, the order must state the length of time that the student is to be expelled. The order should also state specific findings of fact and conclusions of law in support of the decision.

5. Student Records

The student's expulsion from school shall be entered in the student's record as required by the rules adopted by the School Board concerning the content of student records.

Discipline of Disabled Students

Students with disabilities will be entitled to the rights and procedures afforded by the Individuals with Disabilities Education Act (I.D.E.A.) and the Americans with Disabilities Act (A.D.A.)

SEARCH AND SEIZURE

Search of a student and his/her possessions, including vehicles, may be conducted at any time the student is under the jurisdiction of the Board of Education, if there is a reasonable suspicion that the student is in violation of law or school rules. A search may also be conducted to protect the safety of others or as otherwise permitted by law.

Students are provided lockers, desks, and other equipment in which to store materials. This equipment is the property of the school and may be searched at any time if there is reasonable suspicion that a student has violated the law or school rules.

All computers located in classrooms, labs and offices of the District are the District's property and are to be used by students, for educational purposes. The District retains the right to access and review all electronic, computer files, databases, and any other electronic transmissions contained in or used in conjunction with the District's computer system, and electronic mail. Students should have no expectation that any information contained on such systems is confidential or private.

Review of such information may be done by the District with or without the student's knowledge or permission. The use of passwords does not guarantee confidentiality, and the District retains the right to access information in spite of a password. All passwords or security codes must be registered with the instructor. A student's refusal to permit such access may be grounds for disciplinary action.

No strip searches will be conducted by any employee of the District, but may be conducted by law enforcement officials, if deemed necessary.

Anything that is found in the course of a search that may be evidence of a violation of school rules or the law may be taken and held or turned over to the police. The school reserves the right not to return items which have been confiscated.

STUDENT'S RIGHTS OF EXPRESSION

Manawa Elementary School recognizes the right of students to express themselves. With the right of expression comes the responsibility to do it appropriately. Students may distribute or display, at appropriate times, non-sponsored, noncommercial written material and petitions; buttons, badges, or other insignia; clothing, insignia, and banners; and audio and video materials. All items must meet the following school guidelines:

- A. A material cannot be displayed if it:
 - 1. Is obscene to minors, libelous, indecent, or vulgar,
 - 2. Advertises any product or service not permitted to minors by law,
 - 3. Intends to be insulting or harassing,
 - 4. Intends to incite fighting or presents a likelihood of disrupting school or a school event.
 - 5. Presents a clear and present likelihood that, either because of its content or manner of distribution or display, it causes or is likely to cause a material and substantial disruption of school or school activities, a violation of school regulations, or the commission of an unlawful act.
- B. Materials may not be displayed or distributed during class periods, or during passing times between classes. Permission may be granted for display or distribution during lunch periods and after school in designated locations, as long as exits are not blocked and there is proper access and egress to the building.

Students who are unsure whether or not materials they wish to display meet school guidelines may present them to the principal twenty-four (24) hours prior to display.

STUDENT SUGGESTIONS AND COMPLAINTS

The school is here for the benefit of the students. The staff is here to assist a student in becoming a responsible adult. If a student has suggestions that could improve the school, s/he should feel free to offer them. Written suggestions may be presented directly to the principal or to the student council.

When concerns or grievances arise, the best way to resolve the issue is through communication. No student will be harassed by any staff member or need fear reprisal for the proper expression of a legitimate concern. As with suggestions, concerns and grievances may be directed to the principal or to the student council.

SECTION V - TRANSPORTATION

BUS TRANSPORTATION TO SCHOOL

Bus transportation is provided for all eligible students. The bus schedule and route are available by contacting Kobussen Buses at 920-389-1500.

Students will ride only assigned school buses and will board and depart from the bus at assigned bus stops. Students will not be permitted to ride unassigned buses for any reason other than an emergency, except as approved by the principal.

A change in a student's regular assigned bus stop may be granted for a special need, if a written request from a parent/guardian is submitted to the principal stating the reason for the request and the duration of the change and the principal approves.

BUS CONDUCT

Students who are riding to and from school on transportation provided by the school are required all school rules.

The driver is responsible for student safety and may assign seating or direct the student in any reasonable manner to maintain that safety.

The following rules and behaviors are expected of all students:

Previous to loading, during the trip, and leaving the bus

Each student shall:

- Be on time at the designated loading zone (10 minutes prior to scheduled stop);
- Stay off the road at all times while walking to and waiting for the bus;
- Line up single file off the roadway to enter;
- Wait until the bus is completely stopped before moving forward to enter;
- Refrain from crossing a highway until the bus driver signals it is safe;
- Go immediately to a seat and be seated.
- It is the parent/guardians' responsibility to inform the bus driver when their child will not be boarding the bus. The bus will not wait.

During the trip

Each student shall:

- Listen to the bus driver;
- Remain seated while the bus is in motion;
- Keep head, hands, arms, and legs inside the bus at all times;
- Not litter in the bus or throw anything from the bus;
- Keep books, packages, coats, and all other objects out of the aisle;
- Be courteous to the driver and to other bus riders;
- Not eat, play games or play cards, etc.;
- Not tamper with the bus or any of its equipment;
- Keep aisle clear;
- Keep hands to self;
- Use respectful voices/volume.

Leaving the bus

- Each student shall:
- Remain seated until the bus has stopped;
- Cross the road, when necessary, at least ten (10) feet in front of the bus, but only after the driver signals that it is safe;
- Be alert to a possible danger signal from the driver.

The driver will not discharge students at places other than their regular stop at home or at school unless s/he has proper authorization from school officials.

VIDEOTAPES ON SCHOOL BUSES

All buses are equipped with video and audio recording devices for the purposes of monitoring student behavior.

If a student is reported to have misbehaved on a bus the Principal may request the tape and it may be used as evidence of the misbehavior. Since these tapes are considered part of a student's record, they can be viewed only in accordance with State and Federal law.

PENALTIES FOR INFRACTIONS

A student who engages in misconduct on a bus shall be subject to discipline and may be deprived of the privilege of riding on the bus.

SELF-TRANSPORTATION TO SCHOOL

- Riding a bike to school is a privilege which can be revoked at any time. A bicycle rack is located in the front area of school. Riding bicycles on the school property during school hours is not permitted except during events or special occasions that involve bicycles.
- The school district is not responsible for lost or stolen bicycles. We encourage students in kindergarten and first grade to ride with a buddy or sibling to ensure safety.

---	----

This Student/Parent/guardian Handbook is based in significant part on policies adopted by the Board of Education and Administrative Guidelines developed by the District Administrator. The Policies and Guidelines are periodically updated in response to changes in the law and other circumstances. Therefore, there may have been changes to the documents reviewed in this Handbook since it was printed. If you have questions or would like more information about a specific issue, contact your school principal.

FOREWORD

This student handbook was developed to answer many of the commonly asked questions that you and your parent/guardians may have during a school year. This handbook summarizes many of the official policies and administrative guidelines of the Board of Education and the District. To the extent that the handbook is ambiguous or conflicts with these policies and guidelines, the policies and guidelines shall control. This handbook is effective immediately and supersedes any prior student handbook.

Because the handbook also contains information about student rights and responsibilities, each student is responsible for knowing its contents. Please take time to become familiar with the following information and keep the handbook available for future use. It can be a valuable reference during the school year and a means to avoid confusion and misunderstanding when questions arise. Should you have any questions that are not addressed in this handbook, contact your Principal Dan Wolfgram or the School Counselor. You will find their e-mail addresses listed in the Staff Directory section of the handbook.

This handbook summarizes many of the official policies and administrative guidelines of the Board of Education and the District. If any of the policies or administrative guidelines referenced herein are revised after JULY 2020 the language in the most current policy or administrative guideline prevails. The current policies and guidelines are available on the District's website.

MISSION OF THE MANAWA MIDDLE SCHOOL

Preparing students academically, socially, and emotionally for future success

WHAT WE VALUE AS A MIDDLE SCHOOL

Manawa Middle School recognizes that its students are “in the middle”, not quite high school students, but no longer elementary school students. The middle school staff recognizes the challenges of this age level and also looks to celebrate their uniqueness as individuals. The emphasis in middle school is on social and emotional learning, or learning that takes into account the social, emotional, academic, and physical needs of middle school students. The primary goal of the middle school staff is to BUILD RELATIONSHIPS with students and to then focus on their learning.

The middle school will function on a step-by-step model to increase responsibility. What does this mean? This means that with all expectations, students are first taught the expectation and given ample time to practice their new skills. As the school year progresses, students will take more responsibility for their learning and behaviors. The goal for middle school students is to build new habits that will make them successful socially, emotionally, and academically in high school and beyond.

NONDISCRIMINATION AND ACCESS TO EQUAL EDUCATION OPPORTUNITY

The Board is committed to providing an equal educational opportunity for all students in the District.

The Board does not discriminate on the basis of race, color, religion, national origin, ancestry, creed, pregnancy, marital status, parental status, sexual orientation, sex, (including transgender status, change of sex or gender identity), or physical, mental, emotional, or learning disability ("Protected Classes") in any of its student program and activities.

This policy is intended to support and promote nondiscriminatory practices in all District and school activities, particularly in the following areas:

- A. use of objective bases for admission to any school, class, program, or activity;
- B. prohibition of harassment towards students and procedures for the investigation of claims (see Policy 5517);
- C. use of disciplinary authority, including suspension and expulsion authority;
- D. administration of gifts, bequests, scholarships and other aids, benefits, or services to students from private agencies, organizations, or persons;
- E. selection of instructional and library media materials in a nondiscriminatory manner and that reflect the cultural diversity and pluralistic nature of American society;
- F. design and implementation of student evaluation practices, materials, and tools, but not at the exclusion of implementing techniques to meet students' individual needs;
- G. design and configuration of facilities;
- H. opportunity for participation in extra-curricular and co-curricular activities, provided that separate programs for male and female students may be available provided comparable activities are made available to all in terms of type, scope, and District support; and
- I. the school lunch program and other school-sponsored food service programs.

The Board is also committed to equal employment opportunity in its employment policies and practices as they relate to students. The Board's policies pertaining to employment practices can be found in Policy 1422, Policy 3122, and Policy 4122 - Nondiscrimination and Equal Employment Opportunity.

Any person who believes that the MANAWA Middle School or any staff person has discriminated against them in violation of this policy may file a complaint. A formal complaint can be made in writing to a School Compliance Officer/Title IX Coordinator listed below:

Dan Wolfgram
Principal (920) 596-5310
dwolfgram@manawaschools.org

Carmen O'Brien
Business Manager (920) 596-5332
carmen.obrien@manawaschools.org

If at any time during the investigation process the investigator determines that the complaint is properly defined as bullying because the conduct at issue is not based on a student's protected characteristics, the investigator shall transfer the investigation to the appropriate building principal.

Under no circumstances will the District threaten or retaliate against anyone who raises or files a complaint.

Little Wolf High School is committed to an educational environment that is free of harassment of any form. The school will not tolerate any form of harassment and will take all necessary and appropriate action to eliminate it, including suspension or expulsion of students and disciplinary action against any other individual in the school district community. Additionally, appropriate

action will be taken to stop and otherwise deal with any third party who engages in harassment against our students.

Harassment Policy*

**Parent/guardians and students are encouraged to read the full text of the Board of Education policy governing Anti-Harassment and bullying available on the District web site or by contacting the school main office.*

SCHOOL DISTRICT OF MANAWA HARASSMENT COMPLAINT FORM – Addendum A at the end of this handbook.

Bullying Policy

The Board of Education is committed to providing a safe, positive, productive, and nurturing educational environment for all of its students. The Board encourages the promotion of positive interpersonal relations between members of the school community. Bullying toward a student, whether by other students, staff, or third parties is strictly prohibited and will not be tolerated. This prohibition includes physical, verbal, and psychological abuse. The Board will not tolerate any gestures, comments, threats, or actions that cause or threaten to cause bodily harm or personal degradation. This policy applies to all activities in the District, including activities on school property, including at any of the school buildings or other property used exclusively or in part, whether leased or owned by the District, for the purpose of school-related functions or events; or while traveling to or from school or to and from school-sponsored functions or events; in transporting vehicles arranged for by School District officials. The policy applies as well during activities that occur off school property if the student or employee is at any school-sponsored, school-approved or school-related activity or function, such as field trips or athletic events where students are under the supervision of school authorities, or where an employee is engaged in school business, or where there is otherwise a connection to the school such that the conduct at issue affects or is intended to affect the student's educational environment.

Definitions

"Bullying"

Bullying is deliberate or intentional behavior using word or actions, intended to cause fear, intimidation, or harm. Bullying may be a repeated behavior and involves an imbalance of

power. Furthermore, it may be serious enough to negatively impact a student's educational, physical, or emotional wellbeing. The behavior may be motivated by an actual or perceived distinguishing characteristic, such as, but not limited to: age; national origin; race; ethnicity; religion; gender; gender identity; sexual orientation; physical attributes; physical or mental ability or disability; and social, economic, or family status; however this type of prohibited bullying behavior need not be based on any of those particular or other particular characteristics. It includes, but is not necessarily limited to such behaviors as stalking, cyberbullying, intimidating, menacing, coercing, name-calling, taunting, making threats, and hazing.

Some examples of bullying are:

- A. Physical – hitting, kicking, spitting, pushing, pulling, taking and/or damaging personal belongings or extorting money, blocking or impeding student movement, unwelcome physical contact.
- B. Verbal – taunting, malicious teasing, insulting, name calling, making threats.
- C. Psychological – spreading rumors, manipulating social relationships, coercion, or engaging in social exclusion/shunning, extortion, or intimidation.
- D. "Cyberbullying" – the use of information and communication technologies such as e-mail, cell phone and pager text messages, instant messaging (IM), defamatory personal web sites, and defamatory online personal polling web sites, to support deliberate, repeated, and hostile behavior by an individual or group, that is intended to harm others."

The Board recognizes that cyberbullying can be particularly devastating to young people because:

- 1. Cyberbullies more easily hide behind the anonymity that the Internet provides;
- 2. Cyberbullies spread their hurtful messages to a very wide audience with remarkable speed;
- 3. Cyberbullies do not have to own their own actions, or fear punishment for their actions, as it is usually very difficult to identify cyberbullies;
- 4. Furthermore, the reflection time that once existed between the planning of a prank – or a serious stunt – and its commission has all but been erased with cyberbullying;
- 5. Cyberbullies can impersonate others with the intent to embarrass or harm them or hacking into, or otherwise gaining access to, another's others' electronic accounts (emails, social media, etc.) and posing as that individual with the intent to embarrass or harm the individual.

Cyberbullying includes, but is not limited to the following:

- 1. posting slurs or rumors or other disparaging remarks about a student on a web site or on weblog;
- 2. sending e-mail or instant messages that are mean or threatening, or so numerous as to drive-up the victim's cell phone bill;
- 3. using a camera phone to take and send embarrassing photographs of students;
- 4. posting misleading or fake photographs of students on web sites.

"Harassment" includes, but is not limited to, any act which subjects an individual or group to unwanted, abusive behavior of a nonverbal, verbal, written or physical nature on the basis of sex, (including transgender status, change of sex, or gender identity), race, color, national origin, religion, creed, ancestry, marital or parental status, sexual orientation or physical,

mental, emotional or learning disability, or any other characteristic protected by Federal or State civil rights laws. Harassment is prohibited by Policy [5517](#) – Student Anti-Harassment.

"Staff" includes all school employees and Board members.

"Third parties" include, but are not limited to, coaches, school volunteers, parents, school visitors, service contractors, vendors, or others engaged in District business, and others not directly subject to school control at inter-district or intra-district athletic competitions or other school events.

For a definition of hazing and instances that could possibly be construed as hazing, consult Policy [5516](#).

Complaint Procedures

Any student that believes s/he has been or is the victim of bullying should immediately report the situation to the building principal or assistant principal, or the District Administrator. The student may also report concerns to a teacher or counselor who will be responsible for notifying the appropriate administrator or Board official. Complaints against the building principal should be filed with the District Administrator. Complaints against the District Administrator should be filed with the Board President.

Every student is encouraged to report any situation that they believe to be bullying behavior directed toward a student. Reports may be made to those identified above.

All school staff members and school officials who observe or become aware of acts of bullying are required to report these acts to the building principal or assistant principal, or the District Administrator.

Reports of bullying may be made verbally or in writing and may be made confidentially. All such reports, whether verbal or in writing, will be taken seriously and a clear account of the incident is to be documented. A written record of the report, including all pertinent details, will be made by the recipient of the report.

All complaints about behavior that may violate this policy shall be investigated promptly by the building principal. The staff member who is investigating the report of bullying shall interview the victim(s) of the alleged bullying and collect whatever other information is necessary to determine the facts and the seriousness of the report. If, during an investigation of a reported act of bullying in accordance with this Policy, the principal determines that the reported misconduct may have created a hostile learning environment and may have constituted harassment based on sex (transgender status, change of sex, or gender identity), race, color, national origin, religion, creed, ancestry, marital or parental status, sexual orientation or physical, mental, emotional or learning disability, or any other characteristic protected by Federal or state civil rights laws, the principal will report the act of bullying to one of the Compliance Officers who shall assume responsibility to investigate the allegation in accordance with Policy 5517 – Student Anti- Harassment.

Parents of each student involved in the bullying report will be notified prior to the conclusion of the investigation. The District shall maintain the confidentiality of the report and any related student records to the extent required by law.

If the investigation finds that bullying has occurred, it will result in prompt and appropriate remedial and/or disciplinary action. This may include student discipline, including, but not limited to, reprimand, suspension, or possible expulsion. Furthermore, the result of an investigation that finds that bullying has occurred may result in discharge for employees,

exclusion for parents, guests, volunteers, and contractors, and removal from any official position and/or a request to resign for Board members. Individuals may also be referred to law enforcement officials.

The complainant shall be notified of the findings of the investigation, and as appropriate, of the remedial action has been taken.

This policy shall not be interpreted to infringe upon the First Amendment rights of students (i.e., to prohibit a reasoned and civil exchange of opinions, or debate, that is conducted at appropriate times and places during the school day and is protected by State or Federal law).

Retaliation against any person who reports, is thought to have reported, files a complaint, or otherwise participates in an investigation or inquiry concerning allegations of bullying is prohibited and will not be tolerated. Such retaliation shall be considered a serious violation of Board policy and independent of whether a complaint is substantiated. Suspected retaliation should be reported in the same manner as bullying incidents. Making intentionally false reports about bullying for the purpose of getting someone in trouble is similarly prohibited and will not be tolerated. Retaliating and intentionally making a false report may result in disciplinary action.

If a student or other individual believes there has been bullying, regardless of whether it fits a particular definition, s/he should report it and allow the administration to determine the appropriate course of action.

Privacy/Confidentiality

The School District will respect the privacy of the complainant, the individual(s) against who the complaint is filed, and the witnesses as much as possible, consistent with the Board's legal obligations to investigate, to inform parents, to take appropriate action, and to conform with any discovery or disclosure obligations. All records generated under this policy and its related administrative guidelines shall be maintained as confidential to the extent permitted by law.

Notification

Notice of this policy will be annually distributed to all students enrolled in the School District, their parents and/or guardians and employees. The policy will also be distributed to organizations in the community having cooperative agreements with the schools. Additionally, the policy will be posted in conspicuous locations in all school buildings and departments within the District and discussed with students, as well as incorporated into the teacher, student, and parent/guardian handbooks. All new hires will be required to review and sign off on this policy and the related complaint procedure.

The School District will also provide a copy of the policy to any person who requests it.

Records and Reports

Records will be maintained on the number and types of reports made, and sanctions imposed for incidents found to be in violation of the bullying policy.

An annual summary report shall be prepared and presented to the School Board, that includes trends in bullying behavior and recommendations on how to further reduce bullying behavior. The annual report will be available to the public.

Education and Training

In support of this policy, the Board promotes preventative educational measures to create greater awareness of bullying behavior. The District Administrator shall provide appropriate training to all members of the School District community related to the implementation of this policy and its accompanying administrative guidelines. All training regarding the Board's policy and administrative guidelines on bullying will be age and content appropriate.

SEXUAL HARASSMENT

"Sexual harassment" is defined as unwelcome sexual advances, requests for sexual favors, sexually motivated physical conduct or other verbal or physical conduct or communication of a sexual nature when:

- A. submission to that conduct or communication is made a term or condition, either explicitly or implicitly, of access to educational opportunities or program;
- B. submission or rejection of that conduct or communication by an individual is used as a factor in decisions affecting that individual's education;
- C. that conduct or communication has the purpose or effect of substantially or unreasonably interfering with an individual's education, or creating an intimidating, hostile, or offensive educational environment.

Sexual harassment may involve the behavior of a person of either gender against a person of the same or opposite gender.

Prohibited acts that constitute sexual harassment may take a variety of forms. Examples of the kinds of conduct that may constitute sexual harassment include, but are not limited to:

- A. unwelcome verbal harassment or abuse;
- B. unwelcome pressure for sexual activity;
- C. unwelcome, sexually motivated or inappropriate patting, pinching, or physical contact, other than necessary restraint of students by teachers, administrators, or other school personnel to avoid physical harm to persons or property;
- D. unwelcome sexual behavior or words including demands for sexual favors, accompanied by implied or overt threats concerning an individual's educational status;
- E. unwelcome sexual behavior or words, including demands for sexual favors, accompanied by implied or overt promises of preferential treatment with regard to an individual's educational status;
- F. unwelcome behavior or words directed at an individual because of gender;

Examples are:

- 1. repeatedly asking a person for dates or sexual behavior after the person has indicated no interest;
 - 2. rating a person's sexuality or attractiveness;
 - 3. staring or leering at various parts of another person's body;
 - 4. spreading rumors about a person's sexuality;
 - 5. letters, notes, telephones calls, or materials of a sexual nature;
 - 6. displaying pictures, calendars, cartoons, or other materials with sexual content.
- G. inappropriate boundary invasions by a District employee or other adult member of the District community into a student's personal space and personal life.

Boundary invasions may be appropriate or inappropriate. Appropriate boundary invasions make medical or educational sense. For example, a teacher or aide assisting a kindergartner after a toileting accident or a coach touching a student during wrestling or football can be

appropriate. However other behaviors might be going too far, are inappropriate and may be signs of sexual grooming.

Inappropriate boundary invasions may include, but are not limited to the following:

1. hugging, kissing, or other physical contacts with a student;
2. telling sexual jokes to students;
3. engaging in talk containing sexual innuendo or banter with students;
4. talking about sexual topics that are not related to the curriculum;
5. showing pornography to a student;
6. taking an undue interest in a student (i.e. having a "special friend" or a "special relationship");
7. initiating or extending contact with students beyond the school day for personal purposes;
8. using e-mail, text messaging or websites to discuss personal topics or interests with students;
9. giving students rides in the staff member's personal vehicle or taking students on personal outings without administrative approval;
10. invading a student's privacy (e.g. walking in on the student in the bathroom, locker-room, asking about bra sizes or previous sexual experiences);
11. going to a student's home for non-educational purposes;
12. inviting students to the staff member's home without proper chaperones (i.e. another staff member or parent of a student);
13. giving gifts or money to a student for no legitimate educational purpose;
14. accepting gifts or money from a student for no legitimate educational purpose;
15. being overly "touchy" with students;
16. favoring certain students by inviting them to come to the classroom at non-class times;
17. getting a student out of class to visit with the staff member;
18. providing advice to or counseling a student regarding a personal problem (i.e. problems related to sexual behavior, substance abuse, mental or physical health, and/or family relationships, etc.), unless properly licensed and authorized to do so;
19. talking to a student about problems that would normally be discussed with adults (i.e. marital issues);
20. being alone with a student behind closed doors without a legitimate educational purpose;
21. telling a student "secrets" and having "secrets" with a student;
22. other similar activities or behavior:

Inappropriate boundary invasions are prohibited and must be reported promptly to one of the District Compliance Officers, as designated in this policy, the Building Principal, Title IX Coordinator, or the District Administrator.

- H. remarks speculating about a person's sexual activities or sexual history, or remarks about one's own sexual activities or sexual history; and
- I. verbal, nonverbal or physical aggression, intimidation, or hostility based on sex or sex-stereotyping that does not involve conduct of a sexual nature.

It is also the policy of the Board that a sexual relationship between staff and students is not permissible in any form or under any circumstances, in or out of the work place, in that it interferes with the educational process and may involve elements of coercion by reason of the relative status of a staff member to a student.

Not all behavior with sexual connotations constitutes sexual harassment. Sex-based or gender-based conduct must be sufficiently severe, pervasive, and persistent such that it adversely affects, limits, or denies an individual's education, or such that it creates a hostile or abusive educational environment, or such that it is intended to, or has the effect of, denying or limiting a student's ability to participate in or benefit from the educational program or activities.

STUDENT RIGHTS AND RESPONSIBILITIES

The rules and procedures of Manawa Middle School are designed to allow each student to obtain a safe, orderly, and appropriate education. Students can expect their rights to freedom of expression and association and to fair treatment as long as they respect those rights for their fellow students and the staff. Students will be expected to follow teachers' directions and obey all school rules. Disciplinary procedures will comply with the requirements of State and Federal law.

Parents/guardians have the right to know how their child is succeeding in school and will be provided information on a regular basis and as needed, when concerns arise. Many times it will be the responsibility of the student to deliver that information. If necessary, mail or hand delivery may be used to ensure contact. Parents/guardians are encouraged to build a two-way link with their child's teachers and support staff by informing the staff of suggestions or concerns that may help their child better accomplish his/her educational goals.

Students must arrive at school on time, prepared to participate in the educational program. If, for some reason, this is not possible, the student should seek help from the principal.

- Adult students (age eighteen (18) or older) are expected to follow all school rules. If residing at home, adult students should include their parent/guardians in their educational program.

STUDENT WELL-BEING

Student safety is a responsibility of the staff. All staff members are familiar with emergency procedures such as fire and tornado drills and accident reporting procedures. Should a student be aware of any dangerous situation or accident, s/he must notify a staff person immediately.

All students must have an emergency medical card completed, signed by a parent/guardian or guardian, and filed in the school office. A student may be excluded from school until this requirement has been fulfilled.

Students with specific health care needs should submit those needs, in writing and with proper documentation by a physician, to the school office.

INJURY AND ILLNESS

All injuries must be reported to a teacher or to the office staff. If the injury is minor, the student will be treated and may return to class. If medical attention is required, the office will follow the School's emergency procedures.

A student who becomes injured or ill during the school day should request permission from the teacher to go to the office. The office staff will determine whether the student should remain in school or go home. No student will be released from school without proper parent/guardian permission.

HOMEBOUND INSTRUCTION

The District may arrange for individual instruction to students of legal school age who are not able to attend classes because of a serious physical or emotional disability.

Parents/guardians should contact the principal regarding procedures for such instruction.

SECTION I - GENERAL INFORMATION

ENROLLING IN THE SCHOOL

Students generally enroll in the district in which they live. However, the Board will release a resident student who is accepted as a student in another school district under that district's open enrollment program.

Students who are new to Manawa Middle School are required to enroll with their parent or legal guardian unless eighteen (18). When enrolling, the parents/guardians will need to bring:

- A. A birth certificate or similar document;
- B. Custody papers from a court (if appropriate);
- C. Proof of residency; and
- D. Proof of immunizations and/or an appropriate waiver.

In some cases, a temporary enrollment may be permitted. If that is done, the parent/guardian will be told what records are needed to complete the enrollment process.

Students enrolling from another accredited school will have their courses and grades evaluated by the counseling department. The office staff will assist parents/guardians in obtaining the official records from the other school.

Homeless students who meet the federal definition of homeless may enroll and will be under the direction of the Homeless Liaison with regard to enrollment procedures.

Adult students (eighteen (18) years of age or older) may enroll themselves, but if residing with their parent/guardians, are encouraged to include them in the process. Adult students do carry the responsibilities of both the student and parent/guardian and are expected to follow all School rules.

SCHEDULING AND ASSIGNMENT

Schedules are provided to each student at the beginning of the school year or upon enrolling. The schedule is based upon the student's needs and available class space. Any changes in a student's schedule should be handled through the school counselor. Student requests for schedule changes should be made within the first week of class. It is important to note that some courses may be denied because of limited space or the need to complete prerequisites courses. Students are expected to follow their schedules. Any variation must be approved with a pass or schedule change.

EARLY DISMISSAL

No student will be allowed to leave school prior to dismissal time without a written request signed by the parent/guardian whose signature is on file in the school office or the parent/guardian coming to the school office to request the release. No student will be released to a person other than a custodial parent or guardian without a permission note signed by the custodial parent-or guardian.

TRANSFER OUT OF THE DISTRICT

If a student plans to transfer to another school, the parent/guardian must notify the principal. Transfer will be authorized only after the student has completed the arrangements, returned all school materials, and paid any fees or fines that are due. Parents/guardians are encouraged to contact the school counselor for specific details.

OPEN ENROLLMENT

The School District of Manawa will participate in the Wisconsin Public School Open Enrollment Program in accordance with applicable law and the relevant policies and rules of the District, all as amended from time-to-time.

WITHDRAWAL FROM SCHOOL

No student under the age of eighteen (18) will be allowed to withdraw from school without the written consent of his/her parent/guardian and completion of any required forms.

IMMUNIZATIONS

Each student must have the immunizations required by the Wisconsin Department of Health and Human Services or must have an authorized waiver. If a student does not have the necessary shots or waivers, s/he may be excluded from school as permitted by law. This is for the safety of all students and staff. Any questions about immunizations or waivers should be directed to the School Nurse, Terri Brooks.

STUDENT ACCIDENTS/ILLNESS/CONCUSSION

The School District of Manawa believes that school personnel have certain responsibilities in case of accidents, illness or concussions that occur in school. Said responsibilities extend to the administration of first aid by persons trained to do so, summoning of medical assistance, and notification of administration personnel, notification of parent/guardian, and the filing of accident reports.

EMERGENCY MEDICAL AUTHORIZATION

Per Board policy, every student must have an Emergency Medical Authorization Form completed and signed by his/her parent/guardian in order to participate in any activity off school grounds. This includes field trips, spectator trips, athletic and other extra-curricular activities, and co-curricular activities.

The school has made the Emergency Medical Authorization Form available to every parent/guardian at the time of enrollment. A student's failure to return the completed form to school may jeopardize the student's participation in school activities.

ADMINISTRATION OF MEDICATIONS

For purposes of this guideline:

- A. "Practitioner" shall include any physician, dentist, podiatrist, optometrist, physician assistant, and advanced practice nurse prescriber who is licensed in any State.
- B. "Medication" shall include all drugs including those prescribed by a practitioner and any nonprescription drug products.
- C. "Administer" means the direct application of a nonprescription drug product or prescription drug, whether by injection, ingestion, or other means, to the human body.
- D. "Nonprescription drug product" means any non-narcotic drug product which may be sold without a prescription order and which is prepackaged for use by consumers and labeled in accordance with the requirements of State and Federal law.

Nonprescription drug products include cough drops that contain active ingredients.

These cough drops must be handled in the same manner as aspirin, Advil and Tylenol. If a cough drop contains only sugar, water, and some menthol, the procedures for handling nonprescription drug products are not required.

Prescribed Medications

In those circumstances where a student must take prescribed medication during the school day, the following guidelines are to be observed:

- A. Parents should determine with their practitioner's counsel whether the medication schedule can be adjusted to avoid administering medication during school hours.
- B. The Medication Request and Authorization Form must be filed with the school nurse before the student will be allowed to begin taking any medication during school hours. This written and signed request form is to be submitted on an annual basis, or more often if changes in dosage occur, and will include:
 1. student's name and date of birth;
 2. medication and dosage or procedure required;
 3. times required;
 4. special instructions including storage and sterility requirements;
 5. date prescribed medication will be started;
 6. date prescribed medication will no longer be needed;
 7. practitioner's name, address, and telephone number;
 8. authorization for school personnel to administer the prescribed medication, if necessary, but only in the presence of an authorized staff member or parent;
 9. agreement to notify the school in writing if the medication, dosage, schedule, or procedure is changed or eliminated. A new request form must be submitted each school year or for each new medication.
- C. For each prescribed medication, the medication shall be in the original pharmacy-labeled package with the following information in a legible format:
 1. student's name
 2. practitioner's name
 3. date
 4. pharmacy name and telephone
 5. name of medication
 6. prescribed dosage and frequency
 7. special handling and storage directions
- D. All medications to be administered during school hours must be registered with the Principal's office. Upon receipt of the medication, the health aide shall verify the amount of medication brought to the school and indicate that amount on the student's medication log sheet.
- E. Medication that is brought to the office will be properly secured. Medication may be conveyed to school directly by the parent. Two to four (2-4) weeks' supply of medication is recommended.

ASTHMA INHALERS AND EPI-PENS

Use of Metered Dose or Dry Powder Inhalers

Asthmatic students may, while in school, at a school-sponsored activity, or under the supervision of a school authority, possess and use a metered dose inhaler or dry powder inhaler when the following three (3) conditions are met.

1. The student is required to carry an inhaler for use prior to physical activity to prevent the onset of asthmatic symptoms or for use to alleviate asthmatic symptoms, and
2. the completed Parent Consent form for a minor student has been submitted to the Principal, and
3. the practitioner's order for medication administration has been submitted to the Principal authorizing the student to possess and use an inhaler.

Asthmatic students who are not required to carry an inhaler shall follow the guidelines which apply to all other prescription medications and their administration.

Use of Epi-pen

Students who may suffer from severe allergic reactions may, while in school, at a school-sponsored activity, or under the supervision of a school authority, possess and use an epi-pen when three (3) conditions are met.

1. The student is required to carry the epi-pen for use to prevent the onset of an allergic reaction, and
2. the completed Parent Consent form for a minor student has been submitted to the Principal, and
3. the practitioner's order for medication administration has been submitted to the Principal authorizing the student to possess and use the epi-pen.

Students who may suffer from severe allergic reactions but are not required to carry an epi-pen shall follow the guidelines which apply to all other prescription medications and their administration.

School personnel are not required to administer a nonprescription drug product or prescription drug by means other than ingestion. However, personnel designated to administer medications may indicate a willingness to provide medications, in an emergency or special situation, by means other than ingestion. This is done only under the direction and delegation of the school nurse. The school nurse shall provide instruction and written protocols, as well as documentation that both were provided.

Dispensing of nonauthorized, nonprescription drug products by District employees to students served by the District is prohibited. Where investigation confirms such conduct, prompt corrective action shall be taken, up to and including dismissal.

To minimize health and safety risks to student-athletes and maintain ethical standards, school personnel, coaches, athletic trainers, and lay coaches should never dispense, supply or recommend the use of any drug, medication, or food supplement for performance-enhancing purposes.

School personnel trained to administer medications shall keep a copy of the Administration of Medication Policy and Guidelines in an accessible spot for quick reference and have the right to

refuse to administer medication to students when the required authorization forms and signatures have not been completed.

USE OF NONPRESCRIBED (DRUG PRODUCTS)

In those circumstances where a student must take a Nonprescription Drug Product during the school day, the following guidelines are to be observed:

- A. The Nonprescription Drug Product Request and Authorization Form must be filed with the school nurse before the student will be allowed to begin taking any medication during school hours.
- B. For each nonprescription drug product, the container shall be the original manufacturer's package and the package must list in a legible format the ingredients and recommended therapeutic dose.

The parents request to administer a nonprescription drug product shall contain the following information:

- 1. student's name
- 2. date
- 3. name of medication
- 4. dosage and frequency
- 5. special handling and storage directions

HEAD LICE

If a child in the District is found to have lice, the child's parent/guardian will be contacted to have the child treated and to pick him/her up immediately. After treatment and upon returning to school, the child will be examined by the school health staff or principal. The District practices a policy of "no live lice" and no nits as criteria for return to school.

CONTROL OF CASUAL-CONTACT COMMUNICABLE DISEASES

Because a school has a high concentration of people, it is necessary to take specific measures when the health or safety of the group is at risk. A teacher, nurse, or principal may send home a student who is suspected of having a communicable disease and will notify the parent/guardian of such action and the reason(s) it was taken. School officials may be required to notify local health officials if they suspect a student has a communicable disease as identified by the Wisconsin Department of Health Services. School officials will comply with notification requirements of the Department of Health and Family Services in addition to notifying the student's parent/guardian.

Examples of such diseases include diphtheria, scarlet fever, strep infections, whooping cough, mumps, measles, rubella, and other conditions indicated by the Wisconsin Department of Health and Human Services.

Any student's removal from school will only be for the contagious period as specified in the school's administrative guidelines.

DIRECT CONTACT COMMUNICABLE DISEASES

In the case of non-casual-contact communicable diseases, the school still has the obligation to protect the safety of the staff and students. In these cases, the person in question will have

his/her status reviewed by a panel of resource people to ensure that the rights of the person affected and those in contact with that person are respected. The school will seek to keep students and staff in school unless there is definitive evidence to warrant exclusion.

Non-casual-contact communicable diseases include sexually transmitted diseases, AIDS (Acquired Immune Deficiency Syndrome), ARC-AIDS Related Complex, HIV (Human Immunodeficiency Virus), Hepatitis B, and other diseases that may be specified by the Wisconsin Department of Health and Human Services.

As required by Federal and State law, parents/guardians may be required to have their child's blood checked for HIV and HBV, and other blood-borne pathogens when the child has bled at school and students or staff members have been exposed to the blood. Any testing is subject to laws protecting confidentiality.

INDIVIDUALS WITH DISABILITIES AND LIMITED ENGLISH PROFICIENCY

The American's with Disabilities Act (ADA) and Section 504 of the Rehabilitation Act provide that no individual will be discriminated against on the basis of a disability. This protection applies not just to the student, but to all individuals who have access to the District's programs and facilities.

A student can access special education services through the proper evaluation and placement procedure. Parent/guardian involvement in this procedure is generally required. More important, the school encourages parents/guardians to be active participants. To inquire about special education programs and services, a parent/guardian should contact Danni Brauer (920) 596-5301.

The district is committed to identifying, evaluating, and providing a free appropriate public education ("FAPE") to students within its jurisdiction who are disabled within the definition of Section 504, regardless of the nature or severity of their disabilities.

Services are also available to students with limited English proficiency. To inquire about programs and services, a parent/guardian should contact Jacki Sernau at (920) 596-5738.

STUDENT RECORDS

The origination and maintenance of appropriate student records are essential to the effective operation of the District and meeting the educational interests of students. The rights and responsibilities of students, parent/guardians and the District with respect to student records are governed by State and Federal law. Many student records are kept by teachers, counselors and administrative staff. There are two (2) basic kinds of student records -- directory information and confidential records.

Directory information can be given to any person or organization for educational purposes or non-business purposes when requested, unless the parent/guardians of the student object in writing to the disclosure as required under school policy and State and Federal law. Directory information generally includes student records that identify a student's name, photograph, participation in officially recognized activities and sports, weight and height for members of athletic teams, date of graduation, and degrees and awards received. Directory information also includes a student ID number, user ID, or other unique personal identifier used by the student when accessing or communicating in a district's electronic systems, if, standing alone, it cannot be used to access student education records, (i.e. a pin number, password, or other factor is also needed).

- If parents/guardians and eligible students do not submit their written objection to dissemination to the Board, directory information may be utilized by the District Administrator in District-wide publications, on the cable television educational access channel, or on the District's website. The directory information used will be properly verified and approved by the District Administrator.

Student records are generally considered confidential under State and Federal law and may not be released to third parties unless the student's parent's/guardian's consent in writing. However, there are exceptions to confidentiality, and requests for records within these exceptions may be granted without a parent's/guardian's written consent. If you have questions about the confidentiality of student records and/or the release of student records to third-parties, please contact Dr. Melanie J. Oppor.

Parents/guardians and students are reminded of: 1) their rights to inspect, review and obtain copies of students records; 2) their rights to request the amendment of the student's school records if they believe the records are inaccurate or misleading; 3) their rights to consent to the disclosure of the student's school records, except to the extent State and Federal law authorizes disclosure without consent; 4) the categories of student record information which have been designated as directory information and their right to deny the release of such information; and 5) their right to file a complaint with the Family Policy Compliance Office of the U.S. Department of Education.

Consistent with the Protection of Pupil Rights Amendment (PPRA), no student shall be required, as a part of the school program or the District's curriculum, without prior written consent of the student (if an adult, or an emancipated minor) or, his/her parents/guardians, to submit to or participate in any survey, analysis, or evaluation that reveals information concerning:

- A. Political affiliations or beliefs of the student or his/her parent/guardians;
- B. Mental or psychological problems of the student or his/her family;
- C. Sex behavior or attitudes;
- D. Illegal, anti-social, self-incriminating or demeaning behavior;
- E. Critical appraisals of other individuals with whom respondents have close family relationships;
- F. Legally recognized privileged and analogous relationships, such as those of lawyers, physicians, and ministers;
- G. Religious practices, affiliations, or beliefs of the student or his/her parent/guardians; or
- H. Income (other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under such a program).

Consistent with the PPRA and Board policy, parents/guardians may inspect any materials used in conjunction with any such survey, analysis, or evaluation. Please contact the Manawa Business Office to inspect such materials.

Further, parent/guardians have the right to inspect, upon request, a survey or evaluation created by a third party before the survey/evaluation is administered or distributed by the school to the student. The parent/guardian will have access to the survey/evaluation within a reasonable period of time after the request is received by the building principal.

The District Administrator will provide notice directly to parents/guardians of students enrolled in the District of the substantive content of this policy at least annually at the beginning of the school year, and within a reasonable period of time after any substantive change in this policy. In addition, the District Administrator is directed to notify parents/guardians of students in the District, at least annually at the beginning of the school year, of the specific or approximate dates during the school year when the following activities are scheduled or expected to be scheduled:

- The administration of any survey by a third party that contains one or more of sensitive information contained in A through H above.

The Family Policy Compliance Office in the U.S. Department of Education administers both Family Educational Rights and Privacy Act (FERPA) and Protection of Pupil Rights Amendment (PPRA). Parents/guardians and/or eligible students who believe their rights have been violated may file a complaint with:

Family Policy Compliance Office
 U.S. Department of Education
 400 Maryland Avenue, SW 20202-4605
 Washington, D.C.
 www.ed.gov/offices/OM/fpc

Informal inquiries may be sent to the Family Policy Compliance Office via the following email addresses: FERPA@ED.Gov; and PPRA@ED.Gov.

Students who fail to pay fines, fees, or charges may be denied participation in graduation ceremonies.

STUDENT FUND-RAISING

Students participating in school-sponsored groups and activities will be allowed to solicit funds from other students, staff members, and members of the community in accordance with school guidelines. The following general rules will apply to all fund-raisers.

- Students involved in the fund-raiser are not to interfere with students participating in other activities in order to solicit funds.
- A student will not be allowed to participate in a fund-raising activity for a group in which s/he is not a member without the approval of the student's teacher or counselor.

- House-to-house canvassing by any student is not allowed for any fundraising activity.
- Students under the age of nine (9) must be accompanied by a parent/guardian or person sixteen (16) years of age or older.
- Any fund-raisers that require students to exert themselves physically beyond their normal pattern of activity, such as "runs for", will be monitored by a staff member in order to prevent a student from overextending himself/herself to the point of potential harm.
- No student may participate in a fund-raising activity conducted by a parent/guardian group, booster club, or community organization on school property without the approval of the principal.
- Fundraising by students on behalf of school-related organizations whose funds are not managed by the District may be permitted on school grounds by the District Administrator. If the fundraising activity will involve students under age nine (9) or the group holding the fundraiser includes any students under age nine (9), the group shall secure permission from such students' parents/guardians to participate in the fundraising activity and shall assure that any such students are always accompanied by a parent/guardian or a person at least sixteen (16) years of age.

STUDENT VALUABLES

Students are encouraged not to bring items of value to school. Items such as jewelry, expensive clothing, electronic equipment, and the like, are tempting targets for theft and extortion. The school cannot be responsible for their safe-keeping and will not be liable for loss or damage to personal valuables. Students are expected to use school-issued locks for use during physical education classes.

REVIEW OF INSTRUCTIONAL MATERIALS

Parents/guardians have the right to review any instructional materials related to the human growth and development curriculum and may also observe instruction in classes dealing with such subject matter. Any parent/guardian who wishes to review instructional materials or observe classroom instruction should contact the Principal to make the appropriate arrangements. Parents'/guardians' rights to review teaching materials and instructional activities are subject to reasonable restrictions and limits.

MEAL SERVICE

The school participates in the National School Lunch Program and makes lunches available to students for a fee. Ala carte items are available. Students may also bring their own lunch to school for consumption in the school's cafeteria.

Applications for the school's Free and Reduced-Priced Meal program are distributed to all students. Extra applications can be obtained in the school office.

FIRE AND TORNADO DRILLS

The school complies with all fire safety laws and will conduct fire drills in accordance with State law. Specific instructions on how to proceed will be provided to students by their teachers, who are responsible for safe, prompt, and orderly evacuation of the building.

Tornado drills will be conducted during the tornado season using the procedures provided by the State.

Lock down drills in which the students are restricted to the interior of the school building and the building secured may occur during the school year.

EMERGENCY CLOSINGS AND DELAYS

If the school must be closed or the opening delayed because of inclement weather or other conditions, the school will notify the following radio and television stations:

WDUX ---Waupaca 92.7

WBAY-CH 2

WSAW-CH 7

NBC 26

WFRV-CH 5

WLUK-CH 11

If there is no announcement made on the radio and television stations, school will be open and the buses will be running. If the weather should turn severe during the day and buses are sent out early, an announcement to this effect will be made on the above stations. Parents/guardians will also have the option of receiving an alert to their phone or email account. It is the responsibility of the parent/guardian to ensure updated directory information. Parents/guardians and students are responsible for knowing about emergency closings and delays.

PREPAREDNESS FOR TOXIC AND ASBESTOS HAZARDS

The School is concerned for the safety of students and attempts to comply with all Federal and State Laws and Regulations to protect students from hazards that may result from industrial accidents beyond the control of school officials or from the presence of asbestos materials used in previous construction. A copy of the School District's Toxic Hazard Policy and asbestos management plan will be made available for inspection at the Board offices upon request.

VISITORS

Visitors, particularly parent/guardians, are welcome at the school. In order to properly monitor the safety of students and staff, each visitor must report to the office upon entering the school to obtain a pass. Any visitor found in the building without a pass shall be reported to the principal. If a person wishes to confer with a member of the staff, s/he should call for an appointment prior to coming to the school, in order to prevent any loss of instructional time.

Visitors access to classrooms and instructional activities are subject to reasonable restrictions and limits. Please consult with the principal regarding these restrictions.

Students may not bring visitors to school without first obtaining advanced written permission from the principal.

USE OF THE LIBRARY

The library is available to students throughout the school day. Passes may be obtained from a student's teacher or from the librarian/library aide. Books and periodicals (*not the most recent issue*) on the shelves may be checked out for a period of three weeks. To check out any other materials, contact the librarian/library aide. To avoid fees, all materials checked out of the library must be returned to the library by the end of each term.

USE OF SCHOOL EQUIPMENT AND FACILITIES

Students must receive the permission of the teacher before using any equipment or materials in the classroom and the permission of the principal to use any other school equipment or facility. Students will be held responsible for the proper use and safekeeping of any equipment or facility they are allowed to use.

LOST AND FOUND

The lost and found area is in the main office. Students who have lost items should check there and may retrieve their items if they give a proper description. Unclaimed items will be given to charity at the close of the school year.

STUDENT SALES

No student is permitted to sell any item or service in school without the approval of the principal. Violation of this rule may lead to disciplinary action.

USE OF SCHOOL TELEPHONES

Office telephones are not to be used for personal calls. Except in an emergency, students will not be called to the office to receive a telephone call.

- Telephones are available in the school for students to use when they are not in class. Students are not to use telephones to call parents/guardians to receive permission to leave school. Office personnel will initiate all calls on behalf of a student seeking permission to leave school.

SCHOOL DISTRICT OF MANAWA PERSONAL COMMUNICATION DEVICES

Electronic Communication Device Policy

"Personal communication devices" ("PCDs") as used in this policy are defined in Bylaw 0100.

Students may use PCDs before and after school, during their lunch break, in between classes as long as they do not create a distraction, disruption or otherwise interfere with the educational environment, during after-school activities (e.g., extra-curricular activities), or at school-related functions. Use of PCDs, except those approved by a teacher or administrator, at any other time

is prohibited and they must be powered completely off (i.e., not just placed into vibrate or silent mode) and stored out of sight.

However, technology including, but not limited to, PCDs intended and actually used for instructional purposes (e.g., taking notes, recording classroom lectures, writing papers) will be permitted, as approved by the classroom teacher or the building principal.

Students may not use PCDs on school property or at a school-sponsored activity to access and/or view Internet web sites that are otherwise blocked to students at school.

Students may use PCDs while riding to and from school on a school bus or other Board-provided vehicles or on a school bus or Board-provided vehicle during school-sponsored activities, at the discretion of the classroom teacher, or sponsor/advisor/coach. Distracting behavior that creates an unsafe environment will not be tolerated.

During after school activities, PCDs shall be powered completely off (not just placed into vibrate or silent mode) and stored out of sight when directed by the administrator or sponsor.

Under certain circumstances, a student may keep his/her PCD "On" with prior approval from the building principal.

Except as authorized by a teacher, administrator or IEP team, students are prohibited from using PCDs during the school day, including while off-campus on a field trip, to capture, record and/or transmit the words or sounds (i.e., audio) and/or images (i.e., pictures/video) of any student, staff member or other person. Using a PCD to capture, record, and/or transmit audio and/or pictures/video of an individual without proper consent by an authorized adult is considered an invasion of privacy and is not permitted. Students who violate this provision and/or use a PCD to violate the privacy rights of another person shall have their PCD confiscated and held until a parent picks it up, and may be directed to delete the audio and/or picture/video file while the parent is present. If the violation involves potentially illegal activity, the confiscated PCD may be turned over to law enforcement.

PCDs, with cameras or any other recording capabilities, may not be activated or utilized at any time in any school situation where a reasonable expectation of personal privacy exists. These locations and circumstances include, but are not limited to, locker rooms, shower facilities, rest/bathrooms, and any other areas where students or others may change clothes or be in any stage or degree of disrobing or changing clothes. The District Administrator and building principals are authorized to determine other specific locations and situations where use of a PCD is absolutely prohibited.

Students shall have no expectation of confidentiality with respect to their use of PCDs on school premises/property.

Students may not use a PCD in any way that might reasonably create, in the mind of another person, an impression of being threatened, humiliated, harassed, embarrassed, or intimidated. See Policy 5517.01 – Bullying and Other Forms of Aggressive Behavior. In particular, students are prohibited from using PCDs to: (1) transmit material that is threatening, obscene, disruptive, or sexually explicit or that can be construed as harassment or disparagement of others based upon their race, color, national origin, sex (including sexual orientation/transgender identity), disability, age, religion, ancestry, or political beliefs; and (2) engage in "sexting" - i.e., sending, receiving, sharing, viewing, or possessing pictures, text messages, e-mails or other materials of a sexual nature in electronic or any other form. Violation of these prohibitions shall result in disciplinary action. Furthermore, such actions will be reported to local law enforcement and child services as required by law.

Students are also prohibited from using a PCD to capture, record, and/or transmit test information or any other information in a manner constituting fraud, theft, cheating, or academic dishonesty. Likewise, students are prohibited from using PCDs to receive such information.

Possession of a PCD by a student at school during school hours and/or during extra-curricular activities is a privilege that may be forfeited by any student who fails to abide by the terms of this policy, or otherwise abuses this privilege.

Violations of this policy may result in disciplinary action and/or confiscation of the PCD. The building principal will also refer the matter to law enforcement or child services if the violation involves an illegal activity (e.g., child pornography, sexting). Discipline will be imposed on an escalating scale ranging from a warning to an expulsion based on the number of previous violations and/or the nature of or circumstances surrounding a particular violation. If the PCD is confiscated, it will be released/returned to the student's parent after the student complies with any other disciplinary consequences that are imposed, unless the violation involves potentially illegal activity in which case the PCD may be turned over to law enforcement. A confiscated device will be marked in a removable manner with the student's name and held in a secure location in the building's central office until it is retrieved by the parent or turned over to law enforcement. School officials will not search or otherwise tamper with PCDs in District custody unless they reasonably suspect that the search is required to discover evidence of a violation of the law or other school rules. Any search will be conducted in accordance with Policy 5771 - Search and Seizure. If multiple offenses occur, a student may lose his/her privilege to bring a PCD to school for a designated length of time or on a permanent basis.

A person who discovers a student using a PCD in violation of this policy is required to report the violation to the building principal.

Students are personally and solely responsible for the care and security of their PCDs. The Board assumes no responsibility for theft, loss, or damage to, or misuse or unauthorized use of, PCDs brought onto its property.

Parents are advised that the best way to get in touch with their child during the school day is by calling the school office.

Students may use school phones to contact parents during the school day.

LEGAL REF.: Section 118.28 Wisconsin Statutes

Students who violate this policy will face the following disciplinary consequences: (Any electronic device or combination thereof).

1st offense – Warning – device is requested to be turned off.

2nd offense – Teacher confiscates for the class period.

3rd offense – Phone is turned into the main office where a parent/guardian must pick up.

Students refusing to relinquish their PCD may receive an in-school or out-of-school suspension. If they still refuse the proper authorities will be called.

WEAPONS

The Board of the School District of Manawa prohibits possession, use or threat to use, or storing of a weapon or look-alike weapon on school premises before, during, or after school, or at any school-sponsored activity. "School premises" includes a school building, school bus or vehicle, or any other school facility (including any school transportation facility, whether owned or contracted by the District). Students may not have live ammunition on the school site.

Determination of whether an item constitutes a weapon under this policy shall be made in accordance with established procedures. Exceptions to this policy include items which otherwise might be classified as weapons which are brought or transported to school premises or activities as part of a recognized activity for which the item is required, unless such is prohibited by law.

(Examples might include but are not necessarily limited to guns handled by a staff member in a gun safety class, a look-alike gun which might be used in a dramatic activity, a gun bayonet which might be part of a history lesson, or a starting pistol used by a staff member in a track athletic event.)

Teachers should advise the appropriate building administrator beforehand of any activity or lesson necessitating the bringing to school of materials such as those described in this policy. Anyone found to be in violation of this policy is subject to discipline and/or legal action. If any part of this policy is held to be invalid under operation of the law, it shall not affect other parts of this policy which may be in compliance with the law.

ADVERTISING OUTSIDE ACTIVITIES

No announcements or posting of outside activities will be permitted without the approval of the principal. A minimum of twenty-four (24) hours' notice is required to ensure that the principal has the opportunity to review the announcement or posting.

The school has a central bulletin board located across from the main office which may be used for posting notices after receiving permission from the principal.

VIDEO SURVEILLANCE

The Board of Education has authorized the use of video surveillance and electronic monitoring equipment at various school sites throughout the school. Any person who takes action to block, move, or alter the location and/or viewing angle of a video camera shall be subject to disciplinary action.

SAFETY AND SECURITY

- A. All visitors must report to the office when they arrive at school.
- B. All visitors are given and required to wear a building pass while they are in the building.
- C. The staff is expected to question people in the building whom they do not recognize and who are not wearing a building pass, and to question people who are "hanging around" the building after hours.
- D. Students and staff are expected to immediately report to a teacher or administrator any suspicious behavior or situation that makes them uncomfortable. All District employees are to wear photo-identification badges while in District schools and offices or on District property.

SECTION II - ACADEMICS

FIELD TRIPS

Field trips are academic activities that are held off school grounds. There are also other trips that are part of the school's co-curricular and extra-curricular program. No student may participate in any school-sponsored trip without parent/guardian consent.

Attendance rules, the Code of Conduct and the Search and Seizure policy apply to all field trips.

GRADES

The Teachers have a standard grading procedure, as well as additional notations that may indicate work in progress or incomplete work. The purpose of a grade is to indicate the extent to which the student has acquired the necessary learning. In general, students are assigned grades based upon test results, projects, and classroom participation. Each teacher may place a different emphasis on these areas in determining a grade and will so inform the students at the beginning of the course work. If a student is not sure how his/her grade will be determined, s/he should ask the teacher.

The School uses the following grading system:

Grading Scale for all students:

A	95-100
A-	92-94
B+	89-91
B	86-88
B-	83-85
C+	80-82
C	77-79
C-	74-76
D+	71-73
D	68-70
D-	65-67
F	0-64

Marking System:

(A)	Excellent
(B)	Good
(C)	Average
(D)	Below Average
(F)	Failure

If a student receives an "F" in a required subject, he/she must repeat and pass that subject to fulfill graduation requirements. Ordinarily, a student who receives an "F" in a course, which is part of a sequence, must repeat and pass that course to continue in the sequence.

(I) Incomplete: When a student's work is not completed by the end of the quarter due to the student's absence from school, he/she receives an "I". This work, in most cases, must be made up within two weeks after the end of the quarter. Exceptions to the two-week period must be cleared through the principal. If work is not made up in the allowed time, the "I" becomes an "F".

(W) Withdrew: A student receives this grade when he/she drops a course with administrative approval.

NOTE: A student withdrawing from a course after the fifth week of the semester will do so with an F unless granted administrative exception.

GRADING PERIODS

Report Cards: At the end of each semester, students receive report cards containing their final semester grades in all of their courses. The grades on the semester report card become a part of each student's permanent record.

At the end of the nine-week period a report card indicating quarterly grades is issued. This quarterly grade is a progress report to give students, parent/guardians, and the counselor an idea of the student's work at that point. The quarterly grade is not an official grade. It does not appear on any official record and in no way affects credits, average, or rank in class.

Parent/guardian / Teacher Conferences: Parent/guardian/teacher conferences will be held for the purpose of evaluation of student progress in school. Parents/guardians are encouraged to communicate with staff members at any time throughout the school year concerning their child's progress. Any time a parent/guardian wishes to see his/her child's records or confer with a teacher they should make an appointment through the High School office.

PROMOTION, PLACEMENT, AND RETENTION

Grades 5K-8 Level

Criteria: To be promoted all students in grades 3-8 must demonstrate adequate progress in core subject areas. Literacy and numeracy are the foundation of all core subjects. To that end, adequate progress will be determined by end-of-year report card standard scores for core academic subjects at a score of "S" in grades one and two or a "D" or higher in grades three through eight. If adequate progress is not evident, based on the report card scores, multiple measures may be used to compile a complete student learning profile for promotion consideration.

The multiple measures to consider may include, but are not limited to:

- A. Wisconsin School Assessment System Examination scores
- B. Response to Intervention/Instruction documentation
- C. Local assessments
- D. Teacher recommendations
- E. Demonstrate adequate progress toward attainment of annual goals specified in the Individualized Education Plan (IEP), Section 504 Plans, or English Development Learning Plan (EDLP) as documented by the staff serving the student.

Remediation Opportunities

School personnel shall make a concerted and repeated effort throughout the school year to notify the parents/guardians of students who are at-risk of not meeting grade-level expectations and thus, may not be eligible for promotion. Opportunities to support student learning will be suggested and encouraged. In this way, students, with the support of their parents/guardians, can take full advantage of Response to Intervention/Instruction (Rtl) time, Summer School, or other remediation learning opportunities for the purpose of meeting the grade-level criteria as described above to be eligible for promotion. Students' progress in meeting grade-level criteria will be monitored using universal screeners.

Referral shall be based on failing grades at the middle of the first quarter.

- The BCT shall meet to problem-solve the relevant behavior and educational issues regarding the student and implement strategies to help the student improve his/her failing grades or performance. The student's grades or performance shall be monitored throughout the second quarter by the BCT. An educational assessment may be completed upon recommendation of the SAT BCT. The student's parents/guardians shall be notified.
- If, at the end of the first semester, the student continues to receive less than a "D" or less in core area subjects, the BCT will review and revise the previous plan and implement new strategies to help improve the student's failing grades or performance. An educational assessment shall be completed unless this was already done during the second quarter of the school year. The student's parent/guardians/guardians shall be notified.
- The BCT shall monitor student progress bi-weekly during the third quarter. The BCT will make a promotion or retention recommendation to the building principal by the end of third quarter. The student's parent/guardians/guardians will be kept informed of student progress and the preliminary recommendation. The district administrator shall be informed.
- Final determination of a retention, promotion, or promotion conditioned on a remediation plan shall be made by the building principal and reported to the district administrator and be based, in part, on the 4th quarter mid-term grades or performance. The principal shall provide a written notice of the decision to the parents/guardians at least 4 weeks before the end of the school year.

Appeal Process

Parents/guardians of the student recommended for retention may appeal to the District Administrator or designee. Such appeals shall be filed in writing no later than five (5) days after receiving the official letter of retention. The appeal petition must include reasons why the parent/guardian believes the student should be promoted. The District Administrator or designee shall respond with a decision in writing fifteen (15) days after receipt of the appeal.

RECOGNITION OF STUDENT ACHIEVEMENT

Students who have displayed significant achievements during the course of the year are recognized for their accomplishments. Areas that may merit recognition include academics, athletics, performing arts, citizenship, and volunteerism. Recognition for such activities is initiated by the staff and coordinated by the Guidance Department.

Honor Roll

High Honor 4.00 **Honor** 3.50 – 3.99 **Honorable Mention** 3.00 – 3.49

ATHLETIC AWARDS

Requirements for athletic awards are developed by each head coach with the approval of the Athletic Director. These requirements will be reviewed with interested students by the appropriate coach.

HOMEWORK

The assignment of homework can be expected. Student grades will reflect the completion of all work, including outside assignments. Homework is also part of the student's preparation for the standardized tests and graduation.

Homework will not generally be used for disciplinary reasons but only to enhance the student's learning.

STUDENT TECHNOLOGY ACCEPTABLE USE AND SAFETY

Technology has fundamentally altered the ways in which information is accessed, communicated, and transferred in society. As a result, educators are continually adapting their means and methods of instruction, and the way they approach student learning to incorporate the vast, diverse, and unique resources available through the Internet. The Board of Education provides technology resources (as defined in Bylaw 0100) to support the educational and professional needs of its students and staff. With respect to students, District Technology Resources afford them the opportunity to acquire the skills and knowledge to learn effectively and live productively in a digital world. The Board provides students with access to the Internet for limited educational purposes only and utilizes online educational services/apps to enhance the instruction delivered to its students. The District's computer network and Internet system do not serve as a public access service or a public forum, and the Board imposes reasonable restrictions on its use consistent with its limited educational purpose.

The Board regulates the use of District technology resources by principles consistent with applicable local, State, and Federal laws, the District's educational mission, and articulated expectations of student conduct as delineated in the Student Code of Conduct. This policy and its related administrative guidelines and the Student Code of Conduct govern students' use of District Technology Resources and students' personal communication devices when they are connected to the District computer network, Internet connection, and/or online educational services/apps, or when used while the student is on Board-owned property or at a Board-sponsored activity (see Policy 5136).

Users are required to refrain from actions that are illegal (such as libel, slander, vandalism, harassment, theft, plagiarism, inappropriate access, and the like) or unkind (such as personal attacks, invasion of privacy, injurious comment, and the like). Because its Technology Resources are not unlimited, the Board has also instituted restrictions aimed at preserving these resources, such as placing limits on use of bandwidth, storage space, and printers.

Users have no right or expectation to privacy when using District Technology Resources (including, but not limited to, privacy in the content of their personal files, e-mails, and records of their online activity when using the District's computer network and/or Internet connection).

First, the Board may not be able to technologically limit access to services through its technology resources to only those that have been authorized for the purpose of instruction, study and research related to the curriculum. Unlike in the past when educators and community members had the opportunity to review and screen materials to assess their appropriateness for supporting and enriching the curriculum according to adopted guidelines

and reasonable selection criteria (taking into account the varied instructional needs, learning styles, abilities, and developmental levels of the students who would be exposed to them), access to the Internet, because it serves as a gateway to any publicly available file server in the world, opens classrooms and students to electronic information resources that may not have been screened by educators for use by students of various ages.

Pursuant to Federal law, the Board has implemented technology protection measures, that protect against (e.g., filter or block) access to visual displays/depictions/materials that are obscene, constitute child pornography, and/or are harmful to minors, as defined by the Children's Internet Protection Act. At the discretion of the Board or the District Administrator, the technology protection measures may be configured to protect against access to other material considered inappropriate for students to access. The technology protection measures may not be disabled at any time that students may be using the District technology resources, if such disabling will cease to protect against access to materials that are prohibited under the Children's Internet Protection Act. Any student who attempts to disable the technology protection measures will be subject to discipline.

The Board utilizes software and/or hardware to monitor online activity of students and to block/filter access to child pornography and other material that is obscene, objectionable, inappropriate and/or harmful to minors. "Harmful to minors" is a term defined by the Communications Act of 1934 (47 U.S.C. 254(h)(7)) as any picture, image, graphic image file, or other visual depiction that:

- A. taken as a whole and with respect to minors, appeals to a prurient interest in nudity, sex, or excretion;
- B. depicts, describes, or represents, in a patently offensive way with respect to what is suitable for minors, an actual or simulated sexual act or sexual contact, actual or simulated normal or perverted sexual acts, or a lewd exhibition of the genitals;
- C. taken as a whole, lacks serious literary, artistic, political, or scientific value as to minors.

At the discretion of the Board or the District Administrator, the technology protection measure may be configured to protect against access to other material considered inappropriate for students to access. The technology protection measure may not be disabled at any time that students may be using the District technology resources, if such disabling will cease to protect against access to materials that are prohibited under the Children's Internet Protection Act. Any student who attempts to disable the technology protection measures will be subject to discipline.

The Technology Director may temporarily or permanently unblock access to websites or online educational services/apps containing appropriate material if access to such sites has been inappropriately blocked by the technology protection measure. The determination of whether material is appropriate or inappropriate shall be based on the content of the material and the intended use of the material, not on the protection actions of the technology protection measure.

The Technology Director may disable the technology protection measure to enable access for bona fide research or other lawful purposes.

Parents are advised that a determined user may be able to gain access to services and/or resources on the Internet that the Board has not authorized for educational purposes. In fact, it is impossible to guarantee students will not gain access through the Internet to information and communications that they and/or their parents may find inappropriate, offensive, objectionable or controversial. Parents of minors are responsible for setting and conveying the standards that their children should follow when using the Internet.

Pursuant to Federal law, students shall receive education about the following:

- A. safety and security while using e-mail, chat rooms, social media, and other forms of direct electronic communications;
- B. the dangers inherent in the online disclosure of personally identifiable information;
- C. the consequences of unauthorized access (e.g., "hacking", "harvesting", digital piracy", "data mining", etc.), cyberbullying, and other unlawful or inappropriate activities by students online;
- D. unauthorized disclosure, use, and dissemination of personally identifiable information regarding minors.

Staff members shall provide instruction for their students regarding the appropriate use of technology and online safety and security as specified above. Furthermore, staff members will monitor the online activities of students while at school.

Monitoring may include, but is not necessarily limited to, visual observations of online activities during class sessions; or use of specific monitoring tools to review browser history and network, server, and computer logs.

Building Principals are responsible for providing training so that Internet users under their supervision are knowledgeable about this policy and its accompanying guidelines. The Board expects that staff members will provide guidance and instruction to students in the appropriate use of District technology resources. Such training shall include, but not be limited to, education concerning appropriate online behavior, including interacting with other individuals on social media, including in chat rooms, and cyberbullying awareness and response. All users of District technology resources (and their parents if they are minors) are required to sign a written agreement or acknowledging during the annual student registration process they will abide by the terms and conditions of this policy and its accompanying guidelines.

Beginning in grade three (3) students will be assigned a school email account that they are required to utilize for all school-related electronic communications, including those to staff members, peers, and individuals and/or organizations outside the District with whom they are communicating for school-related projects and assignments. Further, as directed and authorized by their teachers, they shall use their school-assigned email account when signing-up/registering for access to various online educational services, including mobile applications/apps that will be utilized by the student for educational purposes.

Students may only use District technology resources to access or use social media if it is done for educational purposes in accordance with their teacher's approved plan for such use.

Users who disregard this policy and its accompanying guidelines may have their use privileges suspended or revoked, and disciplinary action taken against them. Users are personally responsible and liable, both civilly and criminally, for uses of District technology resources that are not authorized by this policy and its accompanying guidelines.

The Board designates the District Administrator and Technology Director as the administrators responsible for initiating, implementing, and enforcing this policy and its accompanying guidelines as they apply to students' use of District technology resources.

SYNCHRONOUS EDUCATION – STUDENT ACCOUNTABILITY AND CONDUCT

The School District of Manawa expects students participating in remote learning to follow school rules during synchronous instruction and when interacting with staff and students in a virtual setting. Students may be disciplined for violating school rules during virtual instruction even though the student is not present on District property.

Synchronous Instruction Accountability and Internet Safety

Synchronous instruction requires students to access their educational program online. There are certain risks inherent in all online activities. Students must comply with the following standards and expectations to protect themselves and others.

- The District's Acceptable Use policy applies to all students participating in the District's virtual educational programs and online class activities.
- Use only one (1) username and password.
- Use an appropriate profile picture for any virtual accounts.
- Do not share your username or password with anyone. Each student is responsible for all activities associated with his or her username and password.
- Do not interfere with other student's ability to access virtual instruction or disclose anyone's password to others.
- Do not publicly post personal contact information, including the personal contact information for others.
- Do not use the District's virtual instruction resources for any illegal activities.
- Do not use District virtual instruction resources to send unsolicited electronic-mail messages not pertaining to class (e.g., SPAM).
- Do not use the District's virtual instruction resources to access inappropriate programs, applications, or websites.
- Do not share classroom/small group video or classroom/small group recorded video with third parties (parent(s)/guardian(s) and siblings, excluded) – This includes private messages from staff or others.
- Do not agree to meet in-person with anyone met exclusively on the Internet.

Conduct During Synchronous Instruction

Synchronous instruction is similar to in-person instruction, but presents unique opportunities and challenges. Students are expected to be engaged and courteous to others during synchronous instruction and other class activities as they would during in-person instruction in a classroom. The District's Student Code of Conduct applies to all students participating in the District's synchronous instruction and online class activities. Students are expected to obey the following standards and expectations, as well:

- Sign-in for virtual instruction and activities using the appropriate, designated username and password.
- Do not allow siblings or other members of the household to participate in virtual instruction unless authorized by the virtual class teacher (they may observe but notice should be provided they are doing so).
- Review typed messages before sending them to remove easily misinterpreted language and proofread for typos.
- Private messages during virtual instruction should be kept to a minimum.
- Engage in virtual instruction discussions in a respectful manner that abides by the following standards:
 - Avoid sarcasm, jargon, and slang;

- Vulgarity is not acceptable;
- Do not use images, “GIFs,” or “Memes” in place of written responses or comments, unless specifically directed to do so by a staff member;
- Focus responses on the questions or issues being discussed, not on the individuals involved.
- Do not make inappropriate comments verbally or via direct messages. Inappropriate messages include, but are not limited to, those that contain:
 - threatening messages or images;
 - insults or attacks of any kind against a person;
 - obscene, degrading or profane language or images;
 - repeatedly sent unwelcome messages or images that harass the recipient; and
 - material that is defamatory or intended to annoy, intimidate, or bully others.

If a student or his/her parent(s)/guardian(s) has any questions about the rules, standards, and expectations applicable to students participating in the District’s synchronous educational programs and online class activities, the student should contact the Principal immediately.

STUDENT ASSESSMENT

To measure student progress, students will be tested in accordance with State standards and District policy.

Additional group tests are given to students to monitor progress and determine educational mastery levels. These tests are used to help the staff determine instructional needs.

Classroom tests will be used to assess student progress and assign grades. These are selected or prepared by teachers to assess how well the students have achieved specific objectives.

Vocational and interest surveys may be given to identify particular areas of student interest or talent. These are often given by the guidance staff.

- If necessary, intelligence tests, speech and language evaluations, individually administered achievement tests, and other special testing services are available to students needing these services.

Depending on the type of testing, specific information and/or parent/guardian consent may need to be obtained. The assessment program will not violate the rights of consent and privacy of a student participating in any form of evaluation.

College entrance testing information can be obtained from the Guidance office.

SECTION III - STUDENT ACTIVITIES

SCHOOL-SPONSORED CLUBS AND ACTIVITIES

Students have the opportunity to broaden their learning through curricular-related activities. A curricular-related activity may be for credit, required for a particular course, and/or contain school subject matter.

The school has many student groups that are approved by the Board of Education. Authorized groups include:

CO-CURRICULAR ACTIVITIES

Co-curricular activities will include but are not limited to the following:

FOR Club, Ski Club, Forensics, Solo & Ensemble, Class Officers, Yearbook

Extra-curricular activities do not reflect the school curriculum but are made available to students to allow them to pursue additional worthwhile activities such as recreational sports, drama, and the like.

All students are permitted to participate in the activities of their choosing, as long as they meet the eligibility requirements.

NON-SCHOOL-SPONSORED CLUBS AND ACTIVITIES

Non-school-sponsored student groups organized for religious, political, or philosophical reasons may meet during non-instructional hours. The application for permission can be obtained from the Principal. The application must verify that the activity is being initiated by students, attendance is voluntary, no school staff person is actively involved in the event, the event will not interfere with school activities, and non-school persons do not play a regular role in the event. School rules will still apply regarding behavior and equal opportunity to participate.

Membership in any fraternity, sorority, or any other secret society as proscribed by law is not permitted. All groups must comply with school rules and must provide equal opportunity to participate.

No non-district-sponsored organization may use the name of the school or the school mascot.

SCHOOL-SPONSORED PUBLICATIONS AND PRODUCTIONS

The Board of Education sponsors student publications and productions as a means by which students learn, under adult direction/supervision, the rights and responsibilities inherent when engaging in the public expression of ideas and information in our democratic society.

SECTION IV - STUDENT CONDUCT

ATTENDANCE

The school requires all students to attend school regularly in accordance with the laws of Wisconsin. The school's educational program is predicated upon the presence of the student and requires continuity of instruction and classroom participation. The regular contact of students with one another in the classroom and their participation in a well-planned instructional activity under the guidance of a competent teacher are vital to this purpose.

Compulsory Student Attendance

All children between six (6) and eighteen (18) years of age shall attend school regularly during the full period and hours, religious holidays exempted, that the school is in session. All students must attend until the end of the term, quarter or semester of the school year in which the child becomes eighteen (18) years of age unless they fall under an exception outlined in the District's Administrative Guidelines.

- Attendance is also defined as participation in the various forms of distance learning including videoconference, satellite, Internet or other electronic information and telecommunications technologies.

Excuse for Absence

A parent/guardian of a student who is absent shall provide a written, dated, signed statement indicating the reason for and the time period of the absence. This statement must be submitted prior to the absence if the absence is foreseeable. If the absence is not foreseeable, the statement must be provided prior to the student's readmission to school. The statement shall be submitted to the principal, Mr. Wolfgram, who serves as the School Attendance Officer and filed in the student's school record. The District reserves the right to verify statements and investigate absences from school.

Excused Absences

A student shall be excused from school for the following reasons:

Physical or Mental Condition

The student is temporarily not in proper physical or mental condition to attend a school program. If the absence exceeds 5 days, the inability of the student to attend school due to a physical or mental condition must be certified in writing by a licensed physician, dentist, chiropractor, optometrist or psychologist or Christian Science practitioner living and residing in Wisconsin, who is listed in the Christian Science Journal. The time period for which the certification is valid may not exceed thirty [30] days.

Obtaining Religious Instruction

Students may wish to obtain religious instruction outside the school during the required school period. The time period or periods of absence shall be determined by the principal. Such absences must be at least 60 minutes but not more than 180 minutes per week. Requests for absence under this paragraph shall be denied if the student fails to attend religious instruction after requesting to be absent from his or her regular school. The supervisor of such religious instruction shall report monthly, to the principal of the school regularly attended, the names of the students who attended such weekly religious instruction.

Permission of Parent/Guardian

The student may be excused by his or her parent/guardian before the absence for any or no reason. A student may not be excused for more than ten (10) days under this paragraph and must complete any course work missed during the absence. Examples of reasons for being absent that should be counted under this paragraph include, but are not limited to, the following:

- professional and other necessary appointments (e.g., medical, dental, and legal) that cannot be scheduled outside the school day
- to attend the funeral of a relative
- legal proceedings that require the student's presence
- college visits
- job fairs
- vacations
- weather related - As parents, you are the final authority as to whether you believe it is safe for your child to get to school. If you believe that it is too cold or the snow is too deep or the weather is too unsettled, your decision may be to keep your child home. You have the right and responsibility to make attendance decisions for your children based on your individual circumstances. Please notify your student's school as you would for any other absence.

Parents/guardians are encouraged not to take their child out of school for vacations. When a family vacation must be scheduled during the school year, the parents/guardians should discuss the matter with the principal and the student's teacher(s) to make necessary arrangements.

Religious Holiday

The student wishes to observe a religious holiday consistent with the student's creed or belief.

Suspension or Expulsion

The student has been suspended or expelled.

Program or Curriculum Modification

Students may be excused from regular school attendance to participate in a program or curriculum modification leading to high school graduation or a high school equivalency diploma as provided by State law.

High School Equivalency – Secured Facilities

A student may be excused from regular school attendance to participate in a program leading to a high school equivalency diploma in a secured correctional facility, a secured child-caring institution, a secure detention facility, or a juvenile portion of a county jail. The student and his/her parent/guardian or guardian must agree that the student will continue to participate in such a program.

Child at Risk

The student is a "child at risk" as defined under State law and is participating in a program at a technical college on either a part-time or full-time basis leading to high school graduation, as provided under State law.

A student may be excused from school, as determined by the School Attendance Officer, for the following reasons:

- Quarantine: Quarantine of the student's home by a public health officer.
- Illness of an Immediate Family Member

- **Emergency:** An emergency that requires the student to be absent because of family responsibilities or other appropriate reasons.

Pre-Arranged Absence: Students absent for reasons other than the above will be considered unexcused with this exception: parents may PRE-EXCUSE their child for any reason for up to ten days per year. This means that any absence for reasons other than the above may be excused providing there is a WRITTEN PRE-ARRANGED FORM. (Forms may be picked up in the office prior to the date of absence.) If it is not PRE-ARRANGED, it will be considered UNEXCUSED.

Truancy

A student will be considered truant if he or she is absent part or all of one or more days from school during which the School Attendance Officer, principal, or a teacher has not been notified of the legal cause of such absence by the parent or guardian of the absent student. A student will also be considered truant if he or she has been absent intermittently for the purpose of defeating the intent of the Wisconsin Compulsory Attendance statute – Sec. 118.15, Wis. Stat.

When a student is truant, the School Attendance Officer shall ensure that all applicable provisions of the District’s Truancy Plan are carried out.

Unexcused Absences

Unexcused absences demonstrate a deliberate disregard for the educational program and are considered a serious matter. The principal will determine on a case-by-case basis the appropriate methods to deal with unexcused absences. If a student is unexcused or without prior approval of the absence, the student-athlete is not allowed to practice or play in an athletic event that evening.

Approved Absences: Personal illnesses, a death in the family, religious holidays, or extreme emergencies are acceptable reasons for an absence. A **valid** excuse written by a parent must be presented to the office upon return to school, or a phone call from a parent/guardian on the day of absence, documenting the reason for the absence must be made to the school office. For a definition of a **“invalid”** excuse, see the following examples:

Examples of Unexcused Absences:

- Oversleeping
- Stayed home to finish homework
- Working
- Missing the bus/car wouldn’t start
- Job hunting
- Shopping/haircut/pictures
- Leaving school without permission

Habitual Truancy

A student is considered a habitual truant if he or she is absent from school without an acceptable excuse for part or all of five (5) or more days on which school is held during a school semester. When a student initially becomes a habitual truant, the School Attendance Officer shall ensure that all applicable provisions of the Districts’ Truancy Plan are carried out.

Parent/Guardian Responsibilities

It is the responsibility of the student's parent/guardian to ensure that their child attends school regularly. Parent/guardians are expected to provide an excuse for all absences.

Student Responsibilities.

Students are required to attend all classes and other school activities on their daily schedule, unless they have been excused from school.

Students Leaving School During the School Day

Closed Campus: Manawa Middle School operates under a closed campus policy.

Honor Pass

The Honor Pass is a program that has been designed collaboratively with staff and students that provides student choice and incentivize academics and positive behavior. The staff and students believe that this program helps to support the school's Positive Behavior Interventions and Supports (PBIS) program as well as prepare students for the rigors, responsibilities, and privileges of adult life. The Honor Pass system is designed to utilize school, community, and parental oversight to provide students with choices and rewards while at school.

Qualifications:

- GPA of 2.75 or higher
- Completed Application Form
- Teacher recommendations
- Parental approval

Privileges:

- Opportunity to go to the gym, commons, or the student lounge in the library during RtI. (grades 6-12)
- Opportunity to meet with an instructor of their choice for enrichment, remediation, homework assistance.

Honor Pass Revocation

Honor Passes can be revoked by any School District of Manawa staff member for the following reasons listed below. Parents and the police also have the option of revoking the privilege by contacting the school.

- Failing grades
- Ten tardies
- Three Discipline Referrals
- Parental request

Administrative discretion may be used for honor pass appeals and reapplication procedures.

No staff member shall permit or cause any student to leave school prior to the regular hour of dismissal except with the knowledge and approval of the principal and with the knowledge and approval of the student's parent/guardians.

No student will be released to any government agency without proper warrant or written parent/guardian permission except in the event of an emergency as determined by principal.

Notification: When a student's attendance for the day is unexcused, contact will be made to the parent/guardian. A message may be left on an answering machine. The parent/guardian will then have 2 days to notify the school office, either by phone or written note, stating the reason for the absence. If after 2 days the office has not received notification for the unexcused absence, the student then becomes truant and will be referred to administration for disciplinary action.

Make-Up Course Work and Examinations

A student whose absence from school was excused or unexcused shall be permitted to make-up course work and examinations missed during the absence when they return to school. It is the student's responsibility to contact his or her teachers to determine what course work and examinations must be made-up. Teachers shall have the discretion to assign substitute course work and examination. Teachers shall also have the discretion to specify where and when examinations and course work shall be completed, including outside regular school hours. The time for completing the work shall be commensurate with the length of the absence, unless extended by the principal based upon extenuating circumstances.

Unexcused Absences

Credit in a course or subject shall not be denied solely because of a student's unexcused absence from school.

A student whose absence from school was unexcused shall be permitted to make-up course work and quarterly, semester or grading period examinations missed during the absence if the student is at risk of receiving no credit in a course or subject if the work is not made up.

Subject to the immediately preceding two paragraphs, credit may, but is not required to be given for the completion of make-up work. Further, credit for make-up work may be given only after the student has satisfied consequences imposed for unexcused absences. The extent to which make-up credit is given shall be determined on a case-by-case basis by the principal and the respective teachers.

If make-up work is allowed, it is the student's responsibility to contact his or her teachers to determine what course work and examinations must be made-up. Teachers shall have the discretion to assign substitute course work and examinations. Teachers shall also have the discretion to specify where and when examinations and course work shall be completed, including outside regular school hours. The time for completing the work shall be commensurate with the length of the absence, unless extended by the principal based upon extenuating circumstances.

TARDINESS

- a. Students who are not in their homeroom or in class when the late bell rings are considered tardy.
- b. Students who attend any part of the class shall be recorded as present.
- c. All students who are tardy to school must report to the attendance office to sign in.
- d. When a teacher detains a student after class, s/he shall issue a late pass for the student's next class.

Teachers are requested to refer cases of chronic tardiness to the principal.

Cases of truancy/tardiness will be referred to the school principal to plan options for addressing the truancy concern.

STUDENT ATTENDANCE AT SCHOOL EVENTS

The school encourages students to attend as many school events held after school as possible, without interfering with their school work and home activities. Enthusiastic spectators help to build school spirit and encourage those students who are participating in the event.

On the day of an event, students must attend school or be pre-excused from school by a parent/guardian for admission into an athletic/nonathletic activity. Final decision to be rendered by the administration. (Exception: acceptable absences as they fall under Wisconsin State Statute 118 regarding compulsory education)

However, in order to ensure that students attending evening events as nonparticipants are safe, it is strongly advised that students be accompanied by a parent/guardian or adult chaperone when they attend the event.

- The school will not be able to supervise unaccompanied students nor will it be responsible for students who arrive without an adult chaperone.
- The school will continue to provide adequate supervision for all students who are participants in a school activity.

CODE OF CONDUCT

Participants/athletes are reminded that they represent the school both at athletic contests and elsewhere. All participants/athletes are expected to follow all school rules and to display high standards of behavior, including good sportsmanship, respect for others, and use of appropriate language and dress at all times. Participants/athletes must refrain from any conduct at any time that would reflect unsatisfactorily on him or her or the school. This code applies to all Manawa Middle School students on a year-round basis. This code applies to all school activities, both curricular and extracurricular, that occur outside of the normal school day.

Conduct that would reflect unsatisfactorily on a participant/athlete or on the school includes, but is not limited to, the following:

- Any crime dealing with, but not limited to, sexual behavior, vandalism or property damage, theft.

- The possession of any weapon or look-alike weapons.
- Hosting, sponsoring, or organizing a party/gathering at which alcohol or drugs are being used, consumed, or offered.
- Being in the presence of others who are illegally possessing or using alcohol or controlled substances. It is the expectation of this code that a student will leave the premises the moment they become aware of others illegally possessing and/or using alcohol or controlled substances, even if the student is not consuming or using the illegal substances.
- If a student records more than 10 tardies in a semester, the student shall serve a code of conduct violation.
- If a student accumulates 5 or more referrals in a semester, the student shall serve a code of conduct violation.

Code violations may be presented, in writing, to the Administration by any staff member, liaison officer and/or credible person who has knowledge of a possible infraction. A confidential complaint will be investigated to the extent possible.

Violations of the school rules/conduct shall also be a violation of the Extra-Curricular Code and the participant/athlete is to be disciplined accordingly as established by the principal, athletic director, and/or advisor.

Violation of Training Rules

Athletic Activities:

- An athlete who is charged with a violation of training rules or any WIAA regulation shall be suspended until such time as his/her violation is reviewed by his/her coach, the athletic director and the principal. The athlete must participate for the entire season in order for the suspension to be considered served.

Athletic & Non-Athletic Activities:

- A student/athlete will be determined to have committed a violation of the Co-Curricular Code if any of the following have occurred:
 - a. The student/athlete admits the conduct constituting a violation
 - b. The building administrator or designee obtains information, which in his/her judgment is clear and convincing evidence that the student/athlete engaged in conduct constituting a violation.
- All students/athletes attending the School District of Manawa schools must abide by the rules and regulations of this handbook.
- The Athletic Director will maintain an ongoing record of all co-curricular violations to the rules of this handbook.

Penalties for Violation of Co-Curricular Activities Rules

Athletic Activities

- First offense: suspension from 25% of the contests in the present season or a minimum of two (2) contests. Percentages of games lost due to code infractions is based on the total number of games in the season, not what may remain in the rest of that season.
- Second Offense: suspension from 50% of the contests in the present season or a minimum of five (5) contests. Percentages of games lost due to code infractions is based on the total number of games in the season, not what may remain in the rest of that season.
- Third and subsequent offenses: suspension from all activities for one (1) calendar year.
- Grade violations will follow the evaluation identified under academics of this handbook.
- The above co-curricular rules/violations will pertain to all athletes in grades seventh through twelve. Code of conduct violations will stay with incoming freshman from the Middle School until the entirety of the suspension is fulfilled. Once a middle school infraction is fulfilled, future infractions as a high school student will be treated as a first offense.
- Students who must serve an In-School Suspension (ISS) are not allowed to leave school for any sport or co-curricular activity during the school day.

Listed below is the number of contests students would have to sit out if they violated the co-curricular activities rules. There will be a twenty-five percent (25%) penalty for the first violation, fifty percent (50%) for second violations, and one-calendar year (1) suspension for third and subsequent violations.

Number of Contests	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22
Percentage	Number of Contests Penalized																					
*25%	1	1	1	1	1	1	1	2	2	2	2	3	3	3	3	4	4	4	4	5	5	5
*50%	1	1	1	2	3	3	3	4	4	5	5	6	6	7	7	8	8	9	9	10	10	10

- All fractions of percentages have been rounded down to the next full number. Any enforcement of individual or multi-game/meet date will be considered as individual games scheduled. Other types of tournaments, when not individual or dual tournaments will count as one game or meet scheduled.
- Teams that automatically qualify for Regional competition are counted in the total number of competitions.

Completion of Suspension

Any remaining percentage of the suspension not served during the initial sports season shall be applied toward the season of the next sport in which the athlete participates (for example, if an athlete is suspended for a percentage of football games with less than the percentage remaining in the season, he/she will be suspended from a percentage of contests of the next sport in which he/she competes) A suspension will need to be repeated if a student who is on suspension for part of the season does not complete the season of his/her sport or activity. Students who join a sport after the first contest, and are fulfilling a current suspension, must have 100% attendance and complete the sport in order for the suspension to be satisfied.

Non-Athletic Activities

- Other co-curricular students will abide by suspension expectations specific to the activities they're involved with during the school year.
- For those activities with limited scheduled events, a violation could result in exclusion from that activity. Administrative discretion regarding specific penalties may have to be applied to those situations where students are participating in only one event.

Athletic & Non-Athletic Activities

- Any student, who in good faith, refer themselves or parents/guardians who refer their son or daughter for violations of the co-curricular rules may have their penalty reduced by one (1) event/contest if deemed appropriate by the building administrator or athletic director.

Appeal Procedure

- The parent of a student/athlete may apply in writing within ten (10) calendar days from the date of student/parent notification to the building principal for an appeal to the Appeal Board. The Appeal Board will consist of the Principal, Athletic Director, and two faculty members and a co-curricular advisor who are not directly involved with the individual student's co-curricular activities. Disciplinary action administered for academic reasons will not be heard in appeal. The Appeal Board will be selected by the building principal. The right to appeal will not serve as a pardon for participation

purposes or suspend the enforcement of the suspension. All decisions rendered by the appeal board are considered final.

Sportsmanship

All students and parents/guardians are required to practice good sportsmanship during all school-related events. Poor sportsmanship may result in removal from sporting events.

Membership

As stated in the WIAA High School Handbook – Article VII – Health and Behavior/Compliance:
Section 1 – Required Documentation

- A. A student may not practice for or participate in interscholastic athletics until the school has written evidence on file in its office attesting to:
- 1) Yearly parent/guardian permission, including an acknowledgment of receiving the school athletic code.

- B. Physical examinations are good for two years from the date the physical was given.
- **Be an amateur in all sports. You violate your amateur status if you: “Accept any amount of money or merchandise, awards for athletic services, or sign a contract for athletic services.” Example: League Teams, Golf outings – “hole in one win a car”**
 - Student athletes and a parent/guardian must attend the summer parent/athlete meeting. If they are unable to attend other arrangements must be made.

Academic Eligibility

Eligibility requirements will begin with the initial enrollment in the first co-curricular activity. In order to be academically eligible for co-curricular activities, a student must meet all the District and DPI requirements defining a full-time student. Additionally, each student must have passed or be currently passing all classes as stated in the following academic requirements:

- Athletes who earn an “F” at the conclusion of a midterm, will be allowed 5 school days from the date of notification to the student to get the grade to passing. If the athlete is unable to raise the grade to passing, the athlete will be ineligible to participate in 25% of the total games or appearances of that sport’s full season. If the suspension is not completed in the current sport/activity, the remainder of the suspension will be carried over into the next athletic sport or activity in that grade period. The athlete will be placed on academic probation until the next quarter grades are posted or the day the suspension

ends and grades are all passing. The athlete will not be allowed to leave school early for any event in that sport until all grades are passing.

- Athletes who receive one “F” at the conclusion of a nine-week grading period will be ineligible to participate in 25% of the total games or appearances of that sport or activity’s full season. If the suspension is not completed in the current sport/activity, the remainder of the suspension will be carried over into the next athletic sport or activity in that grade period. The athlete will be placed on academic probation until the next quarter grades are posted or the day the suspension ends and grades are all passing. The athlete will not be allowed to leave school early for any event in that sport until all grades are passing.
- Athletes who receive two “F’s” at the conclusion of a nine-week grading period will be ineligible to participate in 50% of the total games or appearances of that sport or activity’s full season. If the suspension is not completed in the current sport/activity, the remainder of the suspension will be carried over into the next athletic sport or activity in that grade period. The athlete will be placed on academic probation until the next quarter grades are posted or the day the suspension ends and grades are all passing. The athlete will not be allowed to leave school early for any event in that sport until all grades are passing.
- Athletes who receive three or more “F’s” during a nine-week grading period will be ineligible to participate in all games or appearances of that sport for the entire 9 week grading period. This does not prohibit an athlete from practicing or assisting with the activity, with the coach’s approval. If the athlete is in mid-season, the consequence will move forward into the next athletic season to fulfill the 9-week rule. The athlete will not be allowed to leave school early for any event in that sport until all grades are passing.
- An athlete who is enrolled in any state-approved Exceptional Educational Needs program, and who receives no usual grades for such courses, may be eligible if he/she is making satisfactory progress in his/her total school program as indicated by his/her IEP.
- Athletes who attend summer school for remediation, must receive the grade of “pass” to be eligible for any failure infraction and penalty. See the rules stated above as they apply.

Attendance: (Athletic & Non-Athletic Activities)

Student Athletes must attend a full school day to participate in athletics that evening or provide an excuse from a doctor or have prior administrative approval. School-related absences do not apply. Exceptions to this are excused school-related activities and appointments that are approved in advance by Administration and/or a written doctor’s excuse.

- **(Exception: acceptable absences as they fall under Wisconsin State Statute 118 regarding compulsory education)**
- If a student is truant from an assigned class period or is displaying a pattern of habitual tardiness to a specific class, he/she will be referred to the principal and will not be allowed to compete until the situation is resolved.

Students may not compete, perform, practice or attend on days of an out-of-school suspension.

- Students suspended from co-curricular activities are expected to remain as part of the team or group. Due to the diversity of co-curricular activities, it will be up to the advisor or coach to determine what level of involvement the student will have in the group and whether or not the student will be required to attend all contests and activities. Members of athletic teams are required to attend all practices and be non-participants during the time of their suspension.

Travel and Conduct on Trips

1. Students/athletes who participate in activities outside of the School District of Manawa will conduct themselves as responsible young adults. This includes but is not limited to the following
 - Show appropriate respect for all adults and authority figures.
 - Show courteous and well-mannered behavior.
 - Show appropriate sportsmanship at all times.

2. All injuries must be reported immediately to the coach and/or advisor. Coaches and advisors should be notified prior to any medical treatment on the part of the student/athlete whenever possible or as soon as possible after treatment. The injury must also be reported immediately to the office by the coach or advisor for insurance purposes. The report should be handed into the Manawa Middle School office.
3. It is the policy of WIAA and the School District of Manawa to have a medical release from a medical physician following any severe injury.
4. All head injuries severe enough to have received medical treatment require a medical release from a medical physician before the athlete may return to any practice or competition. (please refer to the W.I.A.A. for further requirements for head injuries/concussions).

Care of Equipment

1. Each student/athlete is responsible for the proper care and safekeeping of equipment issued to him/her. Lockers should be securely locked during and after every practice/game/event.
2. Equipment issued to a student/athlete shall be the responsibility of that individual. These individuals shall pay for any equipment not returned at the current replacement cost.

3. School issued equipment is school property and is used during a particular season/event only. At the conclusion of a season/event equipment must be turned in to the coach/advisor in charge. Parent/guardian assistance in this matter will be greatly appreciated. It is the responsibility of the student/athlete and the parent/guardian to have equipment turned in at the proper time.
4. A student/athlete will not participate in another activity until all equipment is returned and fines have been paid.

Changing a Sport/Activity

A student/athlete may not quit one sport/activity and begin another during the same season without the consent of both head coaches/advisors involved in the change and permission from the athletic director, advisor and principal. Any disciplinary actions that are in place will remain in place in the new activity.

Multi-Sport Participation

The Multi-Sport Participation Policy allows students to participate in two (2) sports/organizations during the same season, regardless if the sports are individual or team-oriented. If a student desires to participate in multiple sports during the school year, they must do the following prior to the start of any season:

1. Submit a completed contract to the Athletic Director prior to the first scheduled contest. This form includes:
 - Permission from his/her parent or guardian to compete in multiple sports in the same season.
 - Declaration by the student of the priority sport for tournaments in the event of scheduling conflicts.
 - Approval by the Head Coach(s) of each sport.
 - Signature of student’s agreement to coordinate the practice/contest schedule for the season in coordination with the coaches.
 - Signature of the Athletic Director.
2. The athlete must participate in at least one regular season event in the secondary sport so that they are eligible to participate in the conference tournament in that sport.
3. The Athletic Director will share the list of multi-sport athletes with the Central Wisconsin Conference Commissioner and the other CWC Athletic Directors prior to the start of each season.

It is the goal of the Athletic Department to have continuous communication between student athletes, coaching staff, and the Athletic Department to avoid putting athletes in difficult situations.

If a student quits a primary sport, the student will need consent from both coaches to participate in any of the secondary sports from that point forward that season. If a student quits a secondary sport, the student will only be able to participate in the primary sport from that point forward that season.

The following Multi- Sport Priorities have been established for the benefit of all athletes:

3. Districts come before games and tournaments.
4. State comes before all else.

Athletic Awards (Athletic Activities)

2. Any athlete who earns additional varsity letters shall be presented with a certificate and bar pin signifying this honor.
3. Participation certificates are awarded to all athletes who successfully complete a season, but who do not earn a varsity letter.
4. All awards will be received and displayed with honor, pride and dignity.
5. Any "M" which becomes too shabby to be worn while an award winner is still in school may be turned in to the athletic director for a new letter.

DRESS AND GROOMING

While fashions change, the reason for being in school does not. Students are in school to learn. Any fashion (dress, accessory, or hairstyle) that disrupts the educational process or presents a safety risk will not be permitted. Personal expression is permitted within these general guidelines.

We take pride in the appearance of our students. All students are expected to dress and groom themselves neatly in clothing that is seasonably suitable for school activities. Students wearing inappropriate clothing, such as but not limited to: clothing with alcohol/tobacco reference, inappropriate slogans and suggestive in nature may be asked to return home to make necessary changes.

- Clothing must cover all undergarments. Shorts, skirts and dresses must reach fingertip in length.
- There will be no midriff showing, no low cut tops, cut-out/ripped t-shirts underneath the arm exposing the torso, spaghetti straps, strapless, or off the shoulder garments worn.
- Hats, caps, headwear, jackets/coats, bulky outerwear, backpacks, large chains, jewelry with sharp objects, low riding pants, hoods, etc., are not allowed to be worn in the school.

Students should consider the following questions when dressing for school:

1. Does my clothing expose too much? (No)
2. Does my clothing advertise something that is prohibited to minors? (No)
3. Are there obscene, profane, drug-related, gang-related, or inflammatory messages on my clothing? (No)
4. Would I interview for a job in this outfit? (Yes)
5. Am I dressed appropriately for the weather? (Yes)
6. Do I feel comfortable with my appearance? (Yes)

If a student has selected a manner of appearance that is beyond mere freedom of expression and disrupts the educational process or presents risk to themselves or others, s/he may be removed from the educational setting.

Reporting Concerns:

Anyone in violation will be sent to the office.

If a dress code violation occurs, the following steps will be taken:

- **First Occurrence:** Student will be asked to correct the problem by changing clothes, turning a shirt inside out, putting on shoes, etc.,

- **Second Occurrence:** Student will be asked to correct the problem by changing clothes, turning a shirt inside out, putting on shoes, etc., and a parent/guardian will be notified by phone.

Students attending after school events need to follow the dress. This includes, but not limited to sporting events, and school concerts.

Students who are representing our school at an official function or public event may be required to follow specific dress requirements. Usually, this applies to athletic teams, cheerleaders, bands, and other such groups.

CARE OF PROPERTY

Students are responsible for the care of their own personal property. The school will not be responsible for the loss of personal property. Valuables such as jewelry or irreplaceable items should not be brought to school. The school may confiscate such items and return them to the student's parent/guardians.

Damage to or loss of school equipment and facilities wastes taxpayers' money and undermines the school program. Therefore, if a student damages or loses school property, the student or his/her parents/guardians will be required to pay for the replacement or damage. If the damage or loss was intentional, the student will also be subject to discipline according to the Code of Conduct.

STUDENT CONDUCT

School rules apply at school, on school property, at school-sponsored events, and on school transportation.

It is the school staff's responsibility to provide a safe and orderly learning environment. History has shown that certain student actions are not compatible with the words "safe" and "orderly". Disciplinary action will be decided on a case-by-case basis and imposed after review of the facts and/or special circumstances of the situation.

DRUG ABUSE PREVENTION

The administration and staff recognize that the misuse/abuse of drugs is a serious problem with legal, physical, and social implications for the entire school community.

- As educational institutions of this community, the schools should strive to prevent drug abuse and help drug abusers by educational, rather than punitive, means.
- For purposes of this policy, "drugs" shall mean:
- All dangerous controlled substances as so designated and prohibited by Wisconsin statute;
- All chemicals that release toxic vapors;
- All alcoholic beverages;
- Any prescription or patent drug, except those for which permission to use in school has been granted pursuant to Board policy;
- "Look-alikes":Anabolic steroids;
- Any other illegal substances so designated and prohibited by law.

The use, possession, concealment, or distribution of any drug, drug look-alike and any drug-paraphernalia at any time on school property or at any school-related event is prohibited.

Disciplinary sanctions, up to and including expulsion and referral for prosecution, will be imposed on students who violate the school's drug abuse guidelines.

USE OF TOBACCO IS PROHIBITED

The Board of Education is committed to providing students, staff, and visitors with a tobacco and smoke-free environment. The negative health effects of tobacco use for both users and non-users are well established. In addition, students less than eighteen (18) years of age are generally prohibited by law from purchasing or possessing cigarettes and other tobacco products.

For purposes of this policy, "use of tobacco" means to chew or maintain any substance containing tobacco, including smokeless tobacco, in the mouth to derive the effects of tobacco, as well as all uses of tobacco, including cigars, cigarettes, pipe tobacco, chewing tobacco, snuff, any other matter or substances that contain tobacco, in addition to papers used to roll cigarettes and/or the smoking of electronic, "vapor," or other substitute forms of cigarettes, clove cigarettes and any other lighted smoking devices for burning tobacco or any other substance. Accordingly, the Board prohibits students from using or possessing tobacco in any form on District premises, in District vehicles, within any indoor facility owned or while leased or contracted for by the District and used to provide education or library services to children, and at all District-sponsored events.

STUDENT CODE OF CLASSROOM CONDUCT

The School District of Manawa is committed to maintaining an orderly and safe academic atmosphere. Teachers are expected to create a positive learning environment and to maintain proper order in the classroom. Students are expected to behave in the classroom in a manner that allows teachers to effectively carry out their lessons and allows students to participate in classroom learning activities. Students are also expected to abide by all rules of behavior established by the School and their classroom teachers.

To ensure adherence to these expectations and principles, the Board of Education has adopted this Code of Classroom Conduct, which applies to all students.

GROUND FOR REMOVAL OF A STUDENT FROM CLASS

Disturbances that interrupt the learning process cannot be permitted by any teacher. A teacher may temporarily remove a student from the teacher's class if the student violates the Code of Classroom Conduct. Additionally, the student may be removed from the class for a longer period of time within the discretion of the principal. A student removed from class may also be placed in an alternative education setting.

Removal of a student from class for violating the Code of Classroom Conduct or placement of the student in an alternative educational setting does not prohibit the school from further disciplining the student for the conduct that caused removal or placement including, but not limited to, suspending or expelling the student.

It is neither possible nor necessary to specify every type of improper or inappropriate behavior for which a teacher may remove a student from class. Provided below, however, are examples of reasons a student may be removed from class. A teacher may remove a student from class for conduct or behavior that:

- A. Would result in suspension or expulsion under the Board's policies and procedures;
- B. Violates the behavioral rules and expectations of the school;
- C. Is dangerous, disruptive or unruly. Such behavior includes, but is not limited to, the following:

1. Possession or use of a weapon or look-alike or other item that might cause bodily harm to persons in the classroom
 2. Being under the influence of alcohol or controlled substances or otherwise violating the District alcohol and drug policy
 3. Behavior that interferes with a person's work or school performance or creates an intimidating, hostile, harassing, or offensive classroom environment
 4. Arguing, taunting, baiting, inciting or encouraging an argument or disruption or group posturing to provoke altercations or confrontations

PROCEDURE FOR STUDENT REMOVAL FROM CLASS

When a student is removed from class, the teacher shall send or escort the student to the principal and inform the principal of the reason for the student's removal from class. The teacher shall provide the principal with a written explanation of the reasons for the removal of the student within twenty-four (24) hours of the student's removal from class. The teacher will also contact the parent/guardian as to the reason for the removal.

The principal will generally give the student an opportunity to briefly explain the situation. The principal shall then determine the appropriate educational placement for the student.

Student Placement

The principal shall place the student, who has been removed from a class by a teacher, in one of the following alternative educational settings:

- A. An alternative education program approved by the Board under State law;
- B. Another instructional setting, time-out, in-school suspension or out-of-school suspension; or
- C. The class from which the student was removed if, after weighing the interests of the student, the other students in the class, and the teacher, the principal determines that readmission to the class is the best or only alternative.

Parent/Guardian Notification Procedures

The principal shall provide the parent or guardian of a student removed from class-with written notice of the removal and the reason(s) for the removal. The notification shall be made as soon as practicable, but no later than two (2) school days after the student's removal from class. The notice shall also include the reasons for the student's removal and the placement made by the principal. If the removal from class and change of educational placement involves a student with a disability, the parent/guardian notification shall be made consistent with State and Federal laws and regulations applicable to disabled students.

If the student removed from a class is subject to disciplinary action up to and including suspension or expulsion for the particular classroom conduct and/or other disciplinary incidents the parent/guardian shall also be notified of the disciplinary action in accordance with legal and policy requirements.

Students with Disabilities

A student with a disability under the Individuals with Disabilities Education Act, Section 504 of the Rehabilitation Act, and Section 115.758, Wis. Stat. may be removed from class and placed in an alternative educational setting only to the extent authorized under the laws.

Definitions

"Student" means any student enrolled in the District, an exchange student, or a student visitor to the District's schools.

"Teacher" means a person holding a license or permit issued by the State Superintendent whose employment by a school district requires that he or she hold that license or permit.

"Class" or "classroom" means any class, meeting or activity which students attend, or in which they participate while in school under the control or direction of the District. This definition of "class" includes, without limitation, regular classes, special classes, resource room sessions, labs, library time, counseling groups, assemblies, study halls, lunch, or recess. "Class" also includes regularly scheduled District-sponsored extracurricular activities, either during or outside of school hours. Such activities include, by example and without limitation, District sponsored field trips, after-school clubs, and sporting activities.

OTHER FORMS OF DISCIPLINE

It is important to remember that the school's rules apply at school, on school property, at school-sponsored events, and on school transportation. In some cases, a student can be suspended from school transportation for infractions of school bus rules.

Ultimately, it is the principal's responsibility to keep things orderly. In all cases, the school shall attempt to make discipline prompt and equitable and to have the punishment match the severity of the incident.

Informal Discipline

Informal discipline takes place within the school. It includes:

- Change of seating or location;
- Lunch-time & after-school detention;
- In-school restriction
- Possible use of Saturday School – Saturday morning detention

Detentions

A student may be detained after school or asked to come to school early by a teacher, after giving the student and his/her parents/guardians one day's notice. The student or his/her parents/guardians are responsible for transportation.

In-School Discipline

The following rules shall apply to In-School Restriction.

- Students are required to have class assignments with them.
- Students are not to communicate with each other unless given special permission to do so.
- Students are to remain in their designated seats at all times unless permission is granted to do otherwise.
- Students shall not be allowed to put their heads down or sleep.
- No radios, cell phones, personal gaming/music devices, cards, magazines, or other recreational articles shall be allowed in the room.
- No food or beverages shall be consumed.
- Students who must serve an In-School Suspension (ISS) are not allowed to leave school for any sport or co-curricular activity during the school day.

SUSPENSION AND EXPULSION

A. Suspension

1. Duration and Grounds for Suspension

The principal or a person designated by the principal may suspend a student for up to five (5) school days or, if a notice of expulsion hearing has been sent, for up to fifteen (15) consecutive school days or ten (10) consecutive school days if the student is eligible for special education services under Chapter 115, Wis. Stats., if the suspension is reasonably justified and based upon any of the following misconduct:

- a. Noncompliance with school or School Board rules;

- b. Knowingly conveying any threat or false information concerning an attempt or alleged attempt being made or to be made to destroy any school property by means of explosives;
- c. Conduct by the student while at school or while under the supervision of a school authority that endangers the property, health or safety of others;
- d. Conduct while not at school or while not under the supervision of a school authority that endangers the property, health or safety of others at school or under the supervision of a school authority;
- e. Conduct while not at school or while not under the supervision of a school authority that endangers the property, health or safety of any employee or School Board member of the school district in which the student is enrolled.
- f. Under paragraphs c, d, and e above, conduct that endangers a person or property includes making a threat to the health or safety of a person or making a threat to damage property.

The District Administrator, or any principal or teacher designated by the District Administrator shall suspend a student if the student possessed a firearm while at school or while under the supervision of a school authority.

The suspension period applies to “school days.” Thus, a suspension period does not include weekend days or vacation days.

2. **Suspension Procedure**

Prior to being suspended, on the day of the alleged infraction or as soon thereafter as is practicable, the student will be advised orally or in writing of the reason for the proposed suspension and given an opportunity to explain his or her conduct.

The principal, within his or her discretion, may also inform the student’s parent/guardian of the reason for the proposed suspension prior to suspending the student.

3. **Notice of Suspension**

The parent/guardian of a suspended minor student shall be given prompt written notice of the suspension and the reason for the suspension by mail and by sending a copy of the notice home with the student. Oral notice may also be given to the student’s parent/guardian; however, it will be confirmed in writing.

4. **Sending a Student Home on the day of the Suspension**

Generally, the student should remain in school on the day of the suspension until school is dismissed for the day. Except as provided below:

- If the situation requires that the student be removed from the premises before school is dismissed, the principal shall attempt to contact the student’s parent/guardian to request that s/he pick up the student. If the parent/guardian is unable to pick up the student, the student should remain under the school’s supervision until school is dismissed, or in the event law enforcement is involved, under law enforcement supervision.

5. **Opportunity to Complete School Work**
A suspended student shall not be denied the opportunity to take any quarterly, semester or grading period examinations or to complete course work missed during the suspension period. Such work shall be completed pursuant to the procedures established by the School Board.

6. **Reference to the Suspension in the Student's Record**
The student's suspension from school shall be entered in the student's record as required by the rules adopted by the School Board concerning the content of student records.

The suspended student or the student's parent/guardian may, within five (5) school days following the commencement of the suspension, have a conference with the District Administrator or his or her designee, who shall be someone other than a principal, administrator or teacher in the suspended student's school, to discuss removing reference to the suspension from the student's records.

Reference to the suspension in the student's school record shall be removed if the District Administrator finds that:

- The student was suspended unfairly or unjustly;
- The suspension was inappropriate, given the nature of the alleged offense; or
- The student suffered undue consequences or penalties as a result of the suspension.

The District Administrator, or the administrator's designee, shall make his or her finding within fifteen (15) days of the conference.

7. **Co-Curricular or Extra-Curricular Participation**
A student's participation in co-curricular or extra-curricular activities during a suspension shall be determined on a case-by-case basis.

B. Expulsion

1. **Grounds for Expulsion**
The School Board may expel a student only when it is satisfied that the interest of the school demands the student's expulsion and it finds that the student:

- Repeatedly refused or neglected to obey the rules established by the School District;
- Knowingly conveyed or caused to be conveyed any threat or false information concerning an attempt or alleged attempt being made or to be made to destroy any school property by means of explosives;
- Engaged in conduct while at school or while under the supervision of a school authority that endangered the property, health or safety of others;
- Engaged in conduct while not at school or while not under the supervision of a school authority that endangered the property, health or safety of others at school or under the supervision of a school authority or endangered the property, health or safety of any

employee or School Board member of the School District in which the student is enrolled; or

- Was at least sixteen (16) years old and had repeatedly engaged in conduct while at school or while under the supervision of a school authority that disrupted the ability of school authorities to maintain order or an educational atmosphere at school or at an activity supervised by a school authority and that such conduct did not otherwise constitute grounds for expulsion.

Under this section, conduct that endangers a person or property includes threatening the health or safety of a person or threatening to damage property.

2. **Expulsion for Bringing a Firearm to School**

The School Board shall expel a student from school for not less than one (1) year whenever it finds that the student brought a firearm to school or, while at school or while under the supervision of a school authority, possessed a firearm, unless the Board finds that the punishment should be reduced based upon the circumstances of the incident. Any such finding by the Board shall be in writing.

3. **Expulsion Hearing**

Prior to expelling a student, the School Board shall provide the student with a hearing. Prior written notice of the expulsion hearing must be sent separately both to the student and his/her parent/guardian if the student is a minor; otherwise just to the student. The notice will comply with the requirements of State law.

The student, or the student's parent/guardian if the student is a minor, has the right to request a closed hearing or the Board may choose to close the hearing. The student and, if the student is a minor, the student's parent/guardian may be represented at the hearing by counsel.

4. **Expulsion Order**

The Board shall reduce its decision to writing in the form of a written order. If expulsion is ordered, the order must state the length of time that the student is to be expelled. The order should also state specific findings of fact and conclusions of law in support of the decision.

5. **Student Records**

The student's expulsion from school shall be entered in the student's record as required by the rules adopted by the School Board concerning the content of student records.

Discipline of Disabled Students

Students with disabilities will be entitled to the rights and procedures afforded by the Individuals with Disabilities Education Act (I.D.E.A.) and the Americans with Disabilities Act (A.D.A.).

SEARCH AND SEIZURE

Search of a student and his/her possessions, including vehicles, may be conducted at any time the student is under the jurisdiction of the Board of Education, if there is a reasonable suspicion that the student is in violation of law or school rules. A search may also be conducted to protect the safety of others or as otherwise permitted by law.

Students are provided lockers, desks, and other equipment in which to store materials. This equipment is the property of the school and may be searched at any time if there is reasonable suspicion that a student has violated the law or school rules. Locks are to prevent theft, not to prevent searches.

All computers located in classrooms, labs and offices of the District are the District's property and are to be used by students, for educational purposes. The District retains the right to access and review all electronic, computer files, databases, and any other electronic transmissions contained in or used in conjunction with the District's computer system, and electronic mail. Students should have no expectation that any information contained on such systems is confidential or private.

Review of such information may be done by the District with or without the student's knowledge or permission. The use of passwords does not guarantee confidentiality, and the District retains the right to access information in spite of a password. All passwords or security codes must be registered with the instructor. A student's refusal to permit such access may be grounds for disciplinary action.

No strip searches will be conducted by any employee of the District, but may be conducted by law enforcement officials, if deemed necessary.

Anything that is found in the course of a search that may be evidence of a violation of school rules or the law may be taken and held or turned over to the police. The school reserves the right not to return items which have been confiscated.

STUDENT'S RIGHTS OF EXPRESSION

Manawa Middle School recognizes the right of students to express themselves. With the right of expression comes the responsibility to do it appropriately. Students may distribute or display, at appropriate times, non-sponsored, noncommercial written material and petitions; buttons, badges, or other insignia; clothing, insignia, and banners; and audio and video materials. All items must meet the following school guidelines:

- A. A material cannot be displayed if it:
 - 1. Is obscene to minors, libelous, indecent, or vulgar,
 - 2. Advertises any product or service not permitted to minors by law,
 - 3. Intends to be insulting or harassing,
 - 4. Intends to incite fighting or presents a likelihood of disrupting school or a school event.
 - 5. Presents a clear and present likelihood that, either because of its content or manner of distribution or display, it causes or is likely to cause a material and substantial disruption of school or school activities, a violation of school regulations, or the commission of an unlawful act.

- B. Materials may not be displayed or distributed during class periods, or during passing times between classes. Permission may be granted for display or distribution during lunch periods and after school in designated locations, as long as exits are not blocked and there is proper access and egress to the building.

Students who are unsure whether or not materials they wish to display meet school guidelines may present them to the principal twenty-four (24) hours prior to display.

STUDENT SUGGESTIONS AND COMPLAINTS

The school is here for the benefit of the students. The staff is here to assist a student in becoming a responsible adult. If a student has suggestions that could improve the school, s/he should feel free to offer them. Written suggestions may be presented directly to the principal or to the student government.

When concerns or grievances arise, the best way to resolve the issue is through communication. No student will be harassed by any staff member or need fear reprisal for the proper expression of a legitimate concern. As with suggestions, concerns and grievances may be directed to the Principal or to the student council.

SECTION V - TRANSPORTATION

BUS TRANSPORTATION TO SCHOOL

Bus transportation is provided for all eligible students.

Students will ride only assigned school buses and will board and depart from the bus at assigned bus stops. Students will not be permitted to ride unassigned buses for any reason other than an emergency, except as approved by the principal.

A change in a student's regular assigned bus stop may be granted for a special need, if a written request from a parent/guardian is submitted to the principal stating the reason for the request and the duration of the change and the principal approves.

BUS CONDUCT

Students who are riding to and from school on transportation provided by the school are required to follow some basic safety rules. This applies to school-owned buses as well as any contracted transportation that may be provided.

The driver is responsible for student safety and may assign seating or direct the student in any reasonable manner to maintain that safety.

The following behaviors are expected of all students:

Previous to loading (on the road and at school)

Each student shall:

- Be on time at the designated loading zone (10 minutes prior to scheduled stop);
- Stay off the road at all times while walking to and waiting for the bus;
- Line up single file off the roadway to enter;
- Wait until the bus is completely stopped before moving forward to enter;
- Refrain from crossing a highway until the bus driver signals it is safe;
- Go immediately to a seat and be seated.
- It is the parent/guardians' responsibility to inform the bus driver when their child will not be boarding the bus. The bus will not wait.

During the trip

Each student shall:

- Remain seated while the bus is in motion;
- Keep head, hands, arms, and legs inside the bus at all times;
- Not litter in the bus or throw anything from the bus;
- Keep books, packages, coats, and all other objects out of the aisle;
- Be courteous to the driver and to other bus riders;
- Not eat, play games or play cards, etc.;
- Not tamper with the bus or any of its equipment.

Leaving the bus

- Each student shall:
- Remain seated until the bus has stopped;
- Cross the road, when necessary, at least ten (10) feet in front of the bus, but only after the driver signals that it is safe;
- Be alert to a possible danger signal from the driver.

The driver will not discharge students at places other than their regular stop at home or at school unless s/he has proper authorization from school officials.

VIDEOTAPES ON SCHOOL BUSES

The Board of Education may authorize the installation of video cameras on school buses for purposes of monitoring student behavior.

If a student is reported to have misbehaved on a bus and his/her actions were recorded on a videotape, the tape will be submitted to the principal and may be used as evidence of the misbehavior. Since these tapes are considered part of a student's record, they can be viewed only in accordance with State and Federal law.

PENALTIES FOR INFRACTIONS

A student who engages in misconduct on a bus shall be subject to discipline and may be deprived of the privilege of riding on the bus.

SELF-TRANSPORTATION TO SCHOOL

- Driving to school is a privilege which can be revoked at any time. Students who are provided the opportunity to ride school transportation are encouraged to do so. Students and their parent/guardians assume full responsibility for any transportation to and from School not officially provided by the school.
- The following rules shall apply.
- Parking lot speed limit is 5 mph.
- **SNOWMOBILE PERMIT \$ 5.00**
A new snowmobile permit is required every year. It must be displayed on the side of the snowmobile visible for the police to see. There will be a fine for students not displaying the snowmobile permit.
- If a student's permit is suspended, no fees will be refunded. Failure to comply with these rules will result in loss of privileges and/or disciplinary actions for the student.

- When the school provides transportation, students shall not drive to school-sponsored activities, unless written permission is granted by their parent/guardians and approved by the Principal.
- No other students can be driven to a school-sponsored activity by the approved student driver without a note from parent/guardians of passenger students granting permission and approval by the Principal.

---	----

This Student/Parent/guardian Handbook is based in significant part on policies adopted by the Board of Education and Administrative Guidelines developed by the District Administrator. The Policies and Guidelines are periodically updated in response to changes in the law and other circumstances. Therefore, there may have been changes to the documents reviewed in this Handbook since it was printed. If you have questions or would like more information about a specific issue, contact your school principal.

FOREWORD

This student handbook was developed to answer many of the commonly asked questions that you and your parent/guardians may have during a school year. This handbook summarizes many of the official policies and administrative guidelines of the Board of Education and the District. To the extent that the handbook is ambiguous or conflicts with these policies and guidelines, the policies and guidelines shall control. This handbook is effective immediately and supersedes any prior student handbook.

Because the handbook also contains information about student rights and responsibilities, each student is responsible for knowing its contents. Please take time to become familiar with the following information and keep the handbook available for future use. It can be a valuable reference during the school year and a means to avoid confusion and misunderstanding when questions arise. Should you have any questions that are not addressed in this handbook, contact your Principal Dan Wolfram or the School Counselor. You will find their e-mail addresses listed in the Staff Directory section of the handbook.

This handbook summarizes many of the official policies and administrative guidelines of the Board of Education and the District. If any of the policies or administrative guidelines referenced herein are revised after JULY 2020 the language in the most current policy or administrative guideline prevails. The current policies and guidelines are available on the District's website.

MISSION OF THE SCHOOL - *Creating solid foundations for lifelong success*

NONDISCRIMINATION AND ACCESS TO EQUAL EDUCATION OPPORTUNITY

The Board is committed to providing an equal educational opportunity for all students in the District.

The Board does not discriminate on the basis of race, color, religion, national origin, ancestry, creed, pregnancy, marital status, parental status, sexual orientation, sex, (including transgender status, change of sex or gender identity), or physical, mental, emotional, or learning disability ("Protected Classes") in any of its student program and activities.

This policy is intended to support and promote nondiscriminatory practices in all District and school activities, particularly in the following areas:

- A. use of objective bases for admission to any school, class, program, or activity;
- B. prohibition of harassment towards students and procedures for the investigation of claims (see Policy 5517);
- C. use of disciplinary authority, including suspension and expulsion authority;
- D. administration of gifts, bequests, scholarships and other aids, benefits, or services to students from private agencies, organizations, or persons;
- E. selection of instructional and library media materials in a nondiscriminatory manner and that reflect the cultural diversity and pluralistic nature of American society;
- F. design and implementation of student evaluation practices, materials, and tools, but not at the exclusion of implementing techniques to meet students' individual needs;
- G. design and configuration of facilities;

- H. opportunity for participation in extra-curricular and co-curricular activities, provided that separate programs for male and female students may be available provided comparable activities are made available to all in terms of type, scope, and District support; and
- I. the school lunch program and other school-sponsored food service programs.

The Board is also committed to equal employment opportunity in its employment policies and practices as they relate to students. The Board's policies pertaining to employment practices can be found in Policy 1422, Policy 3122, and Policy 4122 - Nondiscrimination and Equal Employment Opportunity.

Any person who believes that the Little Wolf High School or any staff person has discriminated against them in violation of this policy may file a complaint. A formal complaint can be made in writing to a School Compliance Officer/Title IX Coordinator listed below:

Dan Wolfgram
Principal (920) 596-5310
dwolfgram@manawaschools.org

Carmen O'Brien
Business Manager (920) 596-5332
carmen.obrien@manawaschools.org

If at any time during the investigation process the investigator determines that the complaint is properly defined as bullying because the conduct at issue is not based on a student's protected characteristics, the investigator shall transfer the investigation to the appropriate building principal.

Under no circumstances will the District threaten or retaliate against anyone who raises or files a complaint.

Little Wolf High School is committed to an educational environment that is free of harassment of any form. The school will not tolerate any form of harassment and will take all necessary and appropriate action to eliminate it, including suspension or expulsion of students and disciplinary action against any other individual in the school district community. Additionally, appropriate action will be taken to stop and otherwise deal with any third party who engages in harassment against our students.

Harassment Policy*

**Parent/guardians and students are encouraged to read the full text of the Board of Education policy governing Anti-Harassment and bullying available on the District web site or by contacting the school main office.*

SCHOOL DISTRICT OF MANAWA HARASSMENT COMPLAINT FORM – Addendum A at the end of this handbook.

Bullying Policy

The Board of Education is committed to providing a safe, positive, productive, and nurturing educational environment for all of its students. The Board encourages the promotion of positive interpersonal relations between members of the school community. Bullying toward a student, whether by other students, staff, or third parties is strictly prohibited and will not be tolerated. This prohibition includes physical, verbal, and psychological abuse. The Board will not tolerate any gestures, comments, threats, or actions that cause or threaten to cause bodily harm or personal degradation. This policy applies to all activities in the District, including activities on school property, including at any of the school buildings or other property used exclusively or in part, whether leased or owned by the District, for the purpose of school-related functions or events; or while traveling to or from school or to and from school-sponsored functions or events; in transporting vehicles arranged for by School District officials. The policy applies as well during activities that occur off school property if the student or employee is at any school-sponsored, school-approved or school-related activity or function, such as field trips or athletic events where students are under the supervision of school authorities, or where an employee is engaged in school business, or where there is otherwise a connection to the school such that the conduct at issue affects or is intended to affect the student's educational environment.

Definitions

"Bullying"

Bullying is deliberate or intentional behavior using word or actions, intended to cause fear, intimidation, or harm. Bullying may be a repeated behavior and involves an imbalance of power. Furthermore, it may be serious enough to negatively impact a student's educational, physical, or emotional well being. The behavior may be motivated by an actual or perceived distinguishing characteristic, such as, but not limited to: age; national origin; race; ethnicity; religion; gender; gender identity; sexual orientation; physical attributes; physical or mental ability or disability; and social, economic, or family status; however this type of prohibited bullying behavior need not be based on any of those particular or other particular characteristics. It includes, but is not necessarily limited to such behaviors as stalking, cyberbullying, intimidating, menacing, coercing, name-calling, taunting, making threats, and hazing.

Some examples of bullying are:

- A. Physical – hitting, kicking, spitting, pushing, pulling, taking and/or damaging personal belongings or extorting money, blocking or impeding student movement, unwelcome physical contact.
- B. Verbal – taunting, malicious teasing, insulting, name calling, making threats.
- C. Psychological – spreading rumors, manipulating social relationships, coercion, or engaging in social exclusion/shunning, extortion, or intimidation.
- D. "'Cyberbullying' – the use of information and communication technologies such as e-mail, cell phone and pager text messages, instant messaging (IM), defamatory personal web sites, and defamatory online personal polling web sites, to support deliberate, repeated, and hostile behavior by an individual or group, that is intended to harm others."

The Board recognizes that cyberbullying can be particularly devastating to young people because:

1. Cyberbullies more easily hide behind the anonymity that the Internet provides;
2. Cyberbullies spread their hurtful messages to a very wide audience with remarkable speed;
3. Cyberbullies do not have to own their own actions, or fear punishment for their actions, as it is usually very difficult to identify cyberbullies;
4. Furthermore, the reflection time that once existed between the planning of a prank – or a serious stunt – and its commission has all but been erased with cyberbullying;
5. Cyberbullies can impersonate others with the intent to embarrass or harm them or hacking into, or otherwise gaining access to, another's others' electronic accounts (emails, social media, etc.) and posing as that individual with the intent to embarrass or harm the individual.

Cyberbullying includes, but is not limited to the following:

1. posting slurs or rumors or other disparaging remarks about a student on a web site or on weblog;
2. sending e-mail or instant messages that are mean or threatening, or so numerous as to drive-up the victim's cell phone bill;
3. using a camera phone to take and send embarrassing photographs of students;
4. posting misleading or fake photographs of students on web sites.

"Harassment" includes, but is not limited to, any act which subjects an individual or group to unwanted, abusive behavior of a nonverbal, verbal, written or physical nature on the basis of sex, (including transgender status, change of sex, or gender identity), race, color, national origin, religion, creed, ancestry, marital or parental status, sexual orientation or physical, mental, emotional or learning disability, or any other characteristic protected by Federal or State civil rights laws. Harassment is prohibited by Policy [5517](#) – Student Anti-Harassment.

"Staff" includes all school employees and Board members.

"Third parties" include, but are not limited to, coaches, school volunteers, parents, school visitors, service contractors, vendors, or others engaged in District business, and others not directly subject to school control at inter-district or intra-district athletic competitions or other school events.

For a definition of hazing and instances that could possibly be construed as hazing, consult Policy [5516](#).

Complaint Procedures

Any student that believes s/he has been or is the victim of bullying should immediately report the situation to the building principal or assistant principal, or the District Administrator. The student may also report concerns to a teacher or counselor who will be responsible for notifying the appropriate administrator or Board official. Complaints against the building principal should be filed with the District Administrator. Complaints against the District Administrator should be filed with the Board President.

Every student is encouraged to report any situation that they believe to be bullying behavior directed toward a student. Reports may be made to those identified above.

All school staff members and school officials who observe or become aware of acts of bullying are required to report these acts to the building principal or assistant principal, or the District Administrator.

Reports of bullying may be made verbally or in writing and may be made confidentially. All such reports, whether verbal or in writing, will be taken seriously and a clear account of the incident is to be documented. A written record of the report, including all pertinent details, will be made by the recipient of the report.

All complaints about behavior that may violate this policy shall be investigated promptly by the building principal. The staff member who is investigating the report of bullying shall interview the victim(s) of the alleged bullying and collect whatever other information is necessary to determine the facts and the seriousness of the report. If, during an investigation of a reported act of bullying in accordance with this Policy, the principal determines that the reported misconduct may have created a hostile learning environment and may have constituted harassment based on sex (transgender status, change of sex, or gender identity), race, color, national origin, religion, creed, ancestry, marital or parental status, sexual orientation or physical, mental, emotional or learning disability, or any other characteristic protected by Federal or state civil rights laws, the principal will report the act of bullying to one of the Compliance Officers who shall assume responsibility to investigate the allegation in accordance with Policy 5517 – Student Anti- Harassment.

Parents of each student involved in the bullying report will be notified prior to the conclusion of the investigation. The District shall maintain the confidentiality of the report and any related student records to the extent required by law.

If the investigation finds that bullying has occurred, it will result in prompt and appropriate remedial and/or disciplinary action. This may include student discipline, including, but not limited to, reprimand, suspension, or possible expulsion. Furthermore, the result of an investigation that finds that bullying has occurred may result in discharge for employees, exclusion for parents, guests, volunteers, and contractors, and removal from any official position and/or a request to resign for Board members. Individuals may also be referred to law enforcement officials.

The complainant shall be notified of the findings of the investigation, and as appropriate, of the remedial action has been taken.

This policy shall not be interpreted to infringe upon the First Amendment rights of students (i.e., to prohibit a reasoned and civil exchange of opinions, or debate, that is conducted at appropriate times and places during the school day and is protected by State or Federal law).

Retaliation against any person who reports, is thought to have reported, files a complaint, or otherwise participates in an investigation or inquiry concerning allegations of bullying is prohibited and will not be tolerated. Such retaliation shall be considered a serious violation of Board policy and independent of whether a complaint is substantiated. Suspected retaliation should be reported in the same manner as bullying incidents. Making intentionally false reports about bullying for the purpose of getting someone in trouble is similarly prohibited and will not be tolerated. Retaliating and intentionally making a false report may result in disciplinary action.

If a student or other individual believes there has been bullying, regardless of whether it fits a particular definition, s/he should report it and allow the administration to determine the appropriate course of action.

Privacy/Confidentiality

The School District will respect the privacy of the complainant, the individual(s) against who the complaint is filed, and the witnesses as much as possible, consistent with the Board's legal obligations to investigate, to inform parents, to take appropriate action, and to conform with

any discovery or disclosure obligations. All records generated under this policy and its related administrative guidelines shall be maintained as confidential to the extent permitted by law.

Notification

Notice of this policy will be annually distributed to all students enrolled in the School District, their parents and/or guardians and employees. The policy will also be distributed to organizations in the community having cooperative agreements with the schools. Additionally, the policy will be posted in conspicuous locations in all school buildings and departments within the District and discussed with students, as well as incorporated into the teacher, student, and parent/guardian handbooks. All new hires will be required to review and sign off on this policy and the related complaint procedure.

The School District will also provide a copy of the policy to any person who requests it.

Records and Reports

Records will be maintained on the number and types of reports made, and sanctions imposed for incidents found to be in violation of the bullying policy.

An annual summary report shall be prepared and presented to the School Board, that includes trends in bullying behavior and recommendations on how to further reduce bullying behavior. The annual report will be available to the public.

Education and Training

In support of this policy, the Board promotes preventative educational measures to create greater awareness of bullying behavior. The District Administrator shall provide appropriate training to all members of the School District community related to the implementation of this policy and its accompanying administrative guidelines. All training regarding the Board's policy and administrative guidelines on bullying will be age and content appropriate.

SEXUAL HARASSMENT

"Sexual harassment" is defined as unwelcome sexual advances, requests for sexual favors, sexually motivated physical conduct or other verbal or physical conduct or communication of a sexual nature when:

- A. submission to that conduct or communication is made a term or condition, either explicitly or implicitly, of access to educational opportunities or program;
- B. submission or rejection of that conduct or communication by an individual is used as a factor in decisions affecting that individual's education;
- C. that conduct or communication has the purpose or effect of substantially or unreasonably interfering with an individual's education, or creating an intimidating, hostile, or offensive educational environment.

Sexual harassment may involve the behavior of a person of either gender against a person of the same or opposite gender.

Prohibited acts that constitute sexual harassment may take a variety of forms. Examples of the kinds of conduct that may constitute sexual harassment include, but are not limited to:

- A. unwelcome verbal harassment or abuse;
- B. unwelcome pressure for sexual activity;
- C. unwelcome, sexually motivated or inappropriate patting, pinching, or physical contact, other than necessary restraint of students by teachers, administrators, or other school personnel to avoid physical harm to persons or property;

- D. unwelcome sexual behavior or words including demands for sexual favors, accompanied by implied or overt threats concerning an individual's educational status;
- E. unwelcome sexual behavior or words, including demands for sexual favors, accompanied by implied or overt promises of preferential treatment with regard to an individual's educational status;
- F. unwelcome behavior or words directed at an individual because of gender;

Examples are:

- 1. repeatedly asking a person for dates or sexual behavior after the person has indicated no interest;
 - 2. rating a person's sexuality or attractiveness;
 - 3. staring or leering at various parts of another person's body;
 - 4. spreading rumors about a person's sexuality;
 - 5. letters, notes, telephones calls, or materials of a sexual nature;
 - 6. displaying pictures, calendars, cartoons, or other materials with sexual content.
- G. inappropriate boundary invasions by a District employee or other adult member of the District community into a student's personal space and personal life.

Boundary invasions may be appropriate or inappropriate. Appropriate boundary invasions make medical or educational sense. For example, a teacher or aide assisting a kindergartner after a toileting accident or a coach touching a student during wrestling or football can be appropriate. However other behaviors might be going too far, are inappropriate and may be signs of sexual grooming.

Inappropriate boundary invasions may include, but are not limited to the following:

- 1. hugging, kissing, or other physical contacts with a student;
- 2. telling sexual jokes to students;
- 3. engaging in talk containing sexual innuendo or banter with students;
- 4. talking about sexual topics that are not related to the curriculum;
- 5. showing pornography to a student;
- 6. taking an undue interest in a student (i.e. having a "special friend" or a "special relationship");
- 7. initiating or extending contact with students beyond the school day for personal purposes;
- 8. using e-mail, text messaging or websites to discuss personal topics or interests with students;
- 9. giving students rides in the staff member's personal vehicle or taking students on personal outings without administrative approval;
- 10. invading a student's privacy (e.g. walking in on the student in the bathroom, locker-room, asking about bra sizes or previous sexual experiences);
- 11. going to a student's home for non-educational purposes;
- 12. inviting students to the staff member's home without proper chaperones (i.e. another staff member or parent of a student);
- 13. giving gifts or money to a student for no legitimate educational purpose;
- 14. accepting gifts or money from a student for no legitimate educational purpose;
- 15. being overly "touchy" with students;
- 16. favoring certain students by inviting them to come to the classroom at non-class times;
- 17. getting a student out of class to visit with the staff member;
- 18. providing advice to or counseling a student regarding a personal problem (i.e. problems related to sexual behavior, substance abuse, mental or physical health, and/or family relationships, etc.), unless properly licensed and authorized to do so;

19. talking to a student about problems that would normally be discussed with adults (i.e. marital issues);
20. being alone with a student behind closed doors without a legitimate educational purpose;
21. telling a student "secrets" and having "secrets" with a student;
22. other similar activities or behavior:

Inappropriate boundary invasions are prohibited and must be reported promptly to one of the District Compliance Officers, as designated in this policy, the Building Principal, Title IX Coordinator, or the District Administrator.

- H. remarks speculating about a person's sexual activities or sexual history, or remarks about one's own sexual activities or sexual history; and
- I. verbal, nonverbal or physical aggression, intimidation, or hostility based on sex or sex-stereotyping that does not involve conduct of a sexual nature.

It is also the policy of the Board that a sexual relationship between staff and students is not permissible in any form or under any circumstances, in or out of the work place, in that it interferes with the educational process and may involve elements of coercion by reason of the relative status of a staff member to a student.

Not all behavior with sexual connotations constitutes sexual harassment. Sex-based or gender-based conduct must be sufficiently severe, pervasive, and persistent such that it adversely affects, limits, or denies an individual's education, or such that it creates a hostile or abusive educational environment, or such that it is intended to, or has the effect of, denying or limiting a student's ability to participate in or benefit from the educational program or activities.

STUDENT RIGHTS AND RESPONSIBILITIES

The rules and procedures of Little Wolf High School are designed to allow each student to obtain a safe, orderly, and appropriate education. Students can expect their rights to freedom of expression and association and to fair treatment as long as they respect those rights for their fellow students and the staff. Students will be expected to follow teachers' directions and obey all school rules. Disciplinary procedures will comply with the requirements of State and Federal law.

Parents/guardians have the right to know how their child is succeeding in school and will be provided information on a regular basis and as needed, when concerns arise. Many times it will be the responsibility of the student to deliver that information. If necessary, mail or hand delivery may be used to ensure contact. Parents/guardians are encouraged to build a two-way link with their child's teachers and support staff by informing the staff of suggestions or concerns that may help their child better accomplish his/her educational goals.

Students must arrive at school on time, prepared to participate in the educational program. If, for some reason, this is not possible, the student should seek help from the principal.

- Adult students (age eighteen (18) or older) are expected to follow all school rules. If residing at home, adult students should include their parent/guardians in their educational program.

STUDENT WELL-BEING

Student safety is a responsibility of the staff. All staff members are familiar with emergency procedures such as fire and tornado drills and accident reporting procedures. Should a student be aware of any dangerous situation or accident, s/he must notify a staff person immediately.

All students must have an emergency medical card completed, signed by a parent/guardian or guardian, and filed in the school office. A student may be excluded from school until this requirement has been fulfilled.

Students with specific health care needs should submit those needs, in writing and with proper documentation by a physician, to the school office.

INJURY AND ILLNESS

All injuries must be reported to a teacher or to the office staff. If the injury is minor, the student will be treated and may return to class. If medical attention is required, the office will follow the School's emergency procedures.

A student who becomes injured or ill during the school day should request permission from the teacher to go to the office. The office staff will determine whether the student should remain in school or go home. No student will be released from school without proper parent/guardian permission.

HOMEBOUND INSTRUCTION

The District may arrange for individual instruction to students of legal school age who are not able to attend classes because of a serious physical or emotional disability.

Parents/guardians should contact the principal regarding procedures for such instruction.

SECTION I - GENERAL INFORMATION

ENROLLING IN THE SCHOOL

Students generally enroll in the district in which they live. However, the Board will release a resident student who is accepted as a student in another school district under that district's open enrollment program.

Students who are new to Little Wolf High School are required to enroll with their parent or legal guardian unless eighteen (18). When enrolling, the parents/guardians will need to bring:

- A. A birth certificate or similar document;
- B. Custody papers from a court (if appropriate);
- C. Proof of residency; and
- D. Proof of immunizations and/or an appropriate waiver.

In some cases, a temporary enrollment may be permitted. If that is done, the parent/guardian will be told what records are needed to complete the enrollment process.

Students enrolling from another accredited school will have their courses and grades evaluated by the counseling department. The office staff will assist parents/guardians in obtaining the official records from the other school.

Homeless students who meet the federal definition of homeless may enroll and will be under the direction of the Homeless Liaison with regard to enrollment procedures.

Adult students (eighteen (18) years of age or older) may enroll themselves, but if residing with their parent/guardians, are encouraged to include them in the process. Adult students do carry the responsibilities of both the student and parent/guardian and are expected to follow all School rules.

SCHEDULING AND ASSIGNMENT

Schedules are provided to each student at the beginning of the school year or upon enrolling. The schedule is based upon the student's needs and available class space. Any changes in a student's schedule should be handled through the school counselor. Student requests for schedule changes should be made within the first week of class. It is important to note that some courses may be denied because of limited space or the need to complete prerequisites courses. Students are expected to follow their schedules. Any variation must be approved with a pass or schedule change.

EARLY DISMISSAL

No student will be allowed to leave school prior to dismissal time without a written request signed by the parent/guardian whose signature is on file in the school office or the parent/guardian coming to the school office to request the release. No student will be released to a person other than a custodial parent or guardian without a permission note signed by the custodial parent-or guardian.

TRANSFER OUT OF THE DISTRICT

If a student plans to transfer to another school, the parent/guardian must notify the principal. Transfer will be authorized only after the student has completed the arrangements, returned all school materials, and paid any fees or fines that are due. Parents/guardians are encouraged to contact the school counselor for specific details.

OPEN ENROLLMENT

The School District of Manawa will participate in the Wisconsin Public School Open Enrollment Program in accordance with applicable law and the relevant policies and rules of the District, all as amended from time-to-time.

WITHDRAWAL FROM SCHOOL

No student under the age of eighteen (18) will be allowed to withdraw from school without the written consent of his/her parent/guardian and completion of any required forms.

IMMUNIZATIONS

Each student must have the immunizations required by the Wisconsin Department of Health and Human Services or must have an authorized waiver. If a student does not have the necessary shots or waivers, s/he may be excluded from school as permitted by law. This is for the safety of all students and staff. Any questions about immunizations or waivers should be directed to the School Nurse, Terri Brooks.

STUDENT ACCIDENTS/ILLNESS/CONCUSSION

The School District of Manawa believes that school personnel have certain responsibilities in case of accidents, illness or concussions that occur in school. Said responsibilities extend to the administration of first aid by persons trained to do so, summoning of medical assistance, and notification of administration personnel, notification of parent/guardian, and the filing of accident reports.

EMERGENCY MEDICAL AUTHORIZATION

Per Board policy, every student must have an Emergency Medical Authorization Form completed and signed by his/her parent/guardian in order to participate in any activity off school grounds. This includes field trips, spectator trips, athletic and other extra-curricular activities, and co-curricular activities.

The school has made the Emergency Medical Authorization Form available to every parent/guardian at the time of enrollment. A student's failure to return the completed form to school may jeopardize the student's participation in school activities.

ADMINISTRATION OF MEDICATIONS

For purposes of this guideline:

- A. "Practitioner" shall include any physician, dentist, podiatrist, optometrist, physician assistant, and advanced practice nurse prescriber who is licensed in any State.
- B. "Medication" shall include all drugs including those prescribed by a practitioner and any nonprescription drug products.
- C. "Administer" means the direct application of a nonprescription drug product or prescription drug, whether by injection, ingestion, or other means, to the human body.
- D. "Nonprescription drug product" means any non-narcotic drug product which may be sold without a prescription order and which is prepackaged for use by consumers and labeled in accordance with the requirements of State and Federal law.

Nonprescription drug products include cough drops that contain active ingredients. These cough drops must be handled in the same manner as aspirin, Advil and Tylenol.

If a cough drop contains only sugar, water, and some menthol, the procedures for handling nonprescription drug products are not required.

Prescribed Medications

In those circumstances where a student must take prescribed medication during the school day, the following guidelines are to be observed:

- A. Parents should determine with their practitioner's counsel whether the medication schedule can be adjusted to avoid administering medication during school hours.
- B. The Medication Request and Authorization Form must be filed with the school nurse before the student will be allowed to begin taking any medication during school hours. This written and signed request form is to be submitted on an annual basis, or more often if changes in dosage occur, and will include:
 1. student's name and date of birth;
 2. medication and dosage or procedure required;
 3. times required;
 4. special instructions including storage and sterility requirements;
 5. date prescribed medication will be started;
 6. date prescribed medication will no longer be needed;
 7. practitioner's name, address, and telephone number;
 8. authorization for school personnel to administer the prescribed medication, if necessary, but only in the presence of an authorized staff member or parent;
 9. agreement to notify the school in writing if the medication, dosage, schedule, or procedure is changed or eliminated. A new request form must be submitted each school year or for each new medication.
- C. For each prescribed medication, the medication shall be in the original pharmacy-labeled package with the following information in a legible format:
 1. student's name
 2. practitioner's name
 3. date
 4. pharmacy name and telephone
 5. name of medication
 6. prescribed dosage and frequency
 7. special handling and storage directions
- D. All medications to be administered during school hours must be registered with the Principal's office. Upon receipt of the medication, the health aide shall verify the amount of medication brought to the school and indicate that amount on the student's medication log sheet.
- E. Medication that is brought to the office will be properly secured. Medication may be conveyed to school directly by the parent. Two to four (2-4) weeks' supply of medication is recommended.

ASTHMA INHALERS AND EPI-PENS

Use of Metered Dose or Dry Powder Inhalers

Asthmatic students may, while in school, at a school-sponsored activity, or under the supervision of a school authority, possess and use a metered dose inhaler or dry powder inhaler when the following three (3) conditions are met.

1. The student is required to carry an inhaler for use prior to physical activity to prevent the onset of asthmatic symptoms or for use to alleviate asthmatic symptoms, and
2. the completed Parent Consent form for a minor student has been submitted to the Principal, and
3. the practitioner's order for medication administration has been submitted to the Principal authorizing the student to possess and use an inhaler.

Asthmatic students who are not required to carry an inhaler shall follow the guidelines which apply to all other prescription medications and their administration.

Use of Epi-pen

Students who may suffer from severe allergic reactions may, while in school, at a school-sponsored activity, or under the supervision of a school authority, possess and use an epi-pen when three (3) conditions are met.

1. The student is required to carry the epi-pen for use to prevent the onset of an allergic reaction, and
2. the completed Parent Consent form for a minor student has been submitted to the Principal, and
3. the practitioner's order for medication administration has been submitted to the Principal authorizing the student to possess and use the epi-pen.

Students who may suffer from severe allergic reactions but are not required to carry an epi-pen shall follow the guidelines which apply to all other prescription medications and their administration.

School personnel are not required to administer a nonprescription drug product or prescription drug by means other than ingestion. However, personnel designated to administer medications may indicate a willingness to provide medications, in an emergency or special situation, by means other than ingestion. This is done only under the direction and delegation of the school nurse. The school nurse shall provide instruction and written protocols, as well as documentation that both were provided.

Dispensing of nonauthorized, nonprescription drug products by District employees to students served by the District is prohibited. Where investigation confirms such conduct, prompt corrective action shall be taken, up to and including dismissal.

To minimize health and safety risks to student-athletes and maintain ethical standards, school personnel, coaches, athletic trainers, and lay coaches should never dispense, supply or recommend the use of any drug, medication, or food supplement for performance-enhancing purposes.

School personnel trained to administer medications shall keep a copy of the Administration of Medication Policy and Guidelines in an accessible spot for quick reference and have the right to refuse to administer medication to students when the required authorization forms and signatures have not been completed.

USE OF NONPRESCRIBED (DRUG PRODUCTS)

In those circumstances where a student must take a Nonprescription Drug Product during the school day, the following guidelines are to be observed:

- A. The Nonprescription Drug Product Request and Authorization Form must be filed with the school nurse before the student will be allowed to begin taking any medication during school hours.
- B. For each nonprescription drug product, the container shall be the original manufacturer's package and the package must list in a legible format the ingredients and recommended therapeutic dose.

The parents request to administer a nonprescription drug product shall contain the following information:

1. student's name
2. date
3. name of medication
4. dosage and frequency
5. special handling and storage directions

HEAD LICE

If a child in the District is found to have lice, the child's parent/guardian will be contacted to have the child treated and to pick him/her up immediately. After treatment and upon returning to school, the child will be examined by the school health staff or principal. The District practices a policy of "no live lice" and no nits as criteria for return to school.

CONTROL OF CASUAL-CONTACT COMMUNICABLE DISEASES

Because a school has a high concentration of people, it is necessary to take specific measures when the health or safety of the group is at risk. A teacher, nurse, or principal may send home a student who is suspected of having a communicable disease and will notify the parent/guardian of such action and the reason(s) it was taken. School officials may be required to notify local health officials if they suspect a student has a communicable disease as identified by the Wisconsin Department of Health Services. School officials will comply with notification requirements of the Department of Health and Family Services in addition to notifying the student's parent/guardian.

Examples of such diseases include diphtheria, scarlet fever, strep infections, whooping cough, mumps, measles, rubella, and other conditions indicated by the Wisconsin Department of Health and Human Services.

Any student's removal from school will only be for the contagious period as specified in the school's administrative guidelines.

DIRECT CONTACT COMMUNICABLE DISEASES

In the case of non-casual-contact communicable diseases, the school still has the obligation to protect the safety of the staff and students. In these cases, the person in question will have his/her status reviewed by a panel of resource people to ensure that the rights of the person affected and those in contact with that person are respected. The school will seek to keep students and staff in school unless there is definitive evidence to warrant exclusion.

Non-casual-contact communicable diseases include sexually transmitted diseases, AIDS (Acquired Immune Deficiency Syndrome), ARC-AIDS Related Complex, HIV (Human Immunodeficiency Virus), Hepatitis B, and other diseases that may be specified by the Wisconsin Department of Health and Human Services.

As required by Federal and State law, parents/guardians may be required to have their child's blood checked for HIV and HBV, and other blood-borne pathogens when the child has bled at school and students or staff members have been exposed to the blood. Any testing is subject to laws protecting confidentiality.

INDIVIDUALS WITH DISABILITIES AND LIMITED ENGLISH PROFICIENCY

The American's with Disabilities Act (ADA) and Section 504 of the Rehabilitation Act provide that no individual will be discriminated against on the basis of a disability. This protection applies not just to the student, but to all individuals who have access to the District's programs and facilities.

A student can access special education services through the proper evaluation and placement procedure. Parent/guardian involvement in this procedure is generally required. More important, the school encourages parents/guardians to be active participants. To inquire about special education programs and services, a parent/guardian should contact Danielle Brauer (920) 596-5700.

The district is committed to identifying, evaluating, and providing a free appropriate public education ("FAPE") to students within its jurisdiction who are disabled within the definition of Section 504, regardless of the nature or severity of their disabilities.

Services are also available to students with limited English proficiency. To inquire about programs and services, a parent/guardian should contact Jackie Sernau at (920) 596-5738.

STUDENT RECORDS

The origination and maintenance of appropriate student records are essential to the effective operation of the District and meeting the educational interests of students. The rights and responsibilities of students, parent/guardians and the District with respect to student records are governed by State and Federal law. Many student records are kept by teachers, counselors and administrative staff. There are two (2) basic kinds of student records -- directory information and confidential records.

Directory information can be given to any person or organization for educational purposes or non-business purposes when requested, unless the parent/guardians of the student object in writing to the disclosure as required under school policy and State and Federal law. Directory information generally includes student records that identify a student's name, photograph, participation in officially recognized activities and sports, weight and height for members of athletic teams, date of graduation, and degrees and awards received. Directory information also includes a student ID number, user ID, or other unique personal identifier used by the student when accessing or communicating in a district's electronic systems, if, standing alone, it cannot be used to access student education records, (i.e. a pin number, password, or other factor is also needed).

- If parents/guardians and eligible students do not submit their written objection to dissemination to the Board, directory information may be utilized by the District Administrator in District-wide publications, on the cable television educational access channel, or on the District's website. The directory information used will be properly verified and approved by the District Administrator.

Student records are generally considered confidential under State and Federal law and may not be released to third parties unless the student's parent's/guardian's consent in writing. However, there are exceptions to confidentiality, and requests for records within these exceptions may be granted without a parent's/guardian's written consent. If you have questions about the

confidentiality of student records and/or the release of student records to third-parties, please contact Dr. Melanie J. Oppor.

Parents/guardians and students are reminded of: 1) their rights to inspect, review and obtain copies of students records; 2) their rights to request the amendment of the student's school records if they believe the records are inaccurate or misleading; 3) their rights to consent to the disclosure of the student's school records, except to the extent State and Federal law authorizes disclosure without consent; 4) the categories of student record information which have been designated as directory information and their right to deny the release of such information; and 5) their right to file a complaint with the Family Policy Compliance Office of the U.S. Department of Education.

Consistent with the Protection of Pupil Rights Amendment (PPRA), no student shall be required, as a part of the school program or the District's curriculum, without prior written consent of the student (if an adult, or an emancipated minor) or, his/her parents/guardians, to submit to or participate in any survey, analysis, or evaluation that reveals information concerning:

- A. Political affiliations or beliefs of the student or his/her parent/guardians;
- B. Mental or psychological problems of the student or his/her family;
- C. Sex behavior or attitudes;
- D. Illegal, anti-social, self-incriminating or demeaning behavior;
- E. Critical appraisals of other individuals with whom respondents have close family relationships;
- F. Legally recognized privileged and analogous relationships, such as those of lawyers, physicians, and ministers;
- G. Religious practices, affiliations, or beliefs of the student or his/her parent/guardians; or
- H. Income (other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under such a program).

Consistent with the PPRA and Board policy, parents/guardians may inspect any materials used in conjunction with any such survey, analysis, or evaluation. Please contact the Manawa Business Office to inspect such materials.

Further, parent/guardians have the right to inspect, upon request, a survey or evaluation created by a third party before the survey/evaluation is administered or distributed by the school to the student. The parent/guardian will have access to the survey/evaluation within a reasonable period of time after the request is received by the building principal.

The District Administrator will provide notice directly to parents/guardians of students enrolled in the District of the substantive content of this policy at least annually at the beginning of the school year, and within a reasonable period of time after any substantive change in this policy. In addition, the District Administrator is directed to notify parents/guardians of students in the District, at least annually at the beginning of the school year, of the specific or approximate dates during the school year when the following activities are scheduled or expected to be scheduled:

- The administration of any survey by a third party that contains one or more of sensitive information contained in A through H above.

The Family Policy Compliance Office in the U.S. Department of Education administers both Family Educational Rights and Privacy Act (FERPA) and Protection of Pupil Rights Amendment (PPRA). Parents/guardians and/or eligible students who believe their rights have been violated may file a complaint with:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW 20202-4605
Washington, D.C.
www.ed.gov/offices/OM/fpco

Informal inquiries may be sent to the Family Policy Compliance Office via the following email addresses: FERPA@ED.Gov; and PPRA@ED.Gov.

ARMED FORCES RECRUITING

The School must provide equal access to the high school campus and to student directory information to all entities offering educational or employment opportunities to students. “Armed forces” means the armed forces of the United States and their reserve components and the United States Coast Guard.

Parents can decline release of student directory data to the Armed Forces using the consent verification form available at the time of registration. The Board shall ensure that students and parents/guardians are notified of the provisions of the opportunity to deny release of Directory information. Public notice shall be given regarding right to refuse disclosure to any or all “directory information” including in the armed forces of the United States and the service academies of the armed forces of the United States.

If parents/guardians and eligible students do not submit such written notification to the Board, directory information may be utilized by the District Administrator in District-wide publications, on the cable television educational access channel, or on the District’s website. The directory information used will be properly verified and approved by the District Administrator.

Annually the Board will notify male students age eighteen (18) or older that they are required to register for the selective service.

STUDENT FEES, FINES, AND CHARGES

Fees will be charged for the following non-curricular activities and programs. Such fees or charges are determined by the cost of materials, freight/handling fees, and add-on fees for loss or damage to school property. The school and staff do not make a profit.

Students who fail to pay fines, fees, or charges may be denied participation in graduation ceremonies.

STUDENT FUND-RAISING

Students participating in school-sponsored groups and activities will be allowed to solicit funds from other students, staff members, and members of the community in accordance with school guidelines. The following general rules will apply to all fund-raisers.

- Students involved in the fund-raiser are not to interfere with students participating in other activities in order to solicit funds.
- A student will not be allowed to participate in a fund-raising activity for a group in which s/he is not a member without the approval of the student's teacher or counselor.
- No student may participate in fundraising activities off school property without proper supervision by approved staff or other adults.
- House-to-house canvassing by any student is not allowed for any fundraising activity.
- Students under the age of nine (9) must be accompanied by a parent/guardian or person sixteen (16) years of age or older.
- Any fund-raisers that require students to exert themselves physically beyond their normal pattern of activity, such as "runs for", will be monitored by a staff member in order to prevent a student from overextending himself/herself to the point of potential harm.
- No student may participate in a fund-raising activity conducted by a parent/guardian group, booster club, or community organization on school property without the approval of the principal.
- Fundraising by students on behalf of school-related organizations whose funds are not managed by the District may be permitted on school grounds by the District Administrator. If the fundraising activity will involve students under age nine (9) or the group holding the fundraiser includes any students under age nine (9), the group shall secure permission from such students' parents/guardians to participate in the fundraising activity and shall assure that any such students are always accompanied by a parent/guardian or a person at least sixteen (16) years of age.

Students are encouraged not to bring items of value to school. Items such as jewelry, expensive clothing, electronic equipment, and the like, are tempting targets for theft and extortion. The school cannot be responsible for their safe-keeping and will not be liable for loss or damage to personal valuables. Students are expected to use school-issued locks for use during physical education classes.

REVIEW OF INSTRUCTIONAL MATERIALS

Parents/guardians have the right to review any instructional materials related to the human growth and development curriculum and may also observe instruction in classes dealing with such subject matter. Any parent/guardian who wishes to review instructional materials or observe classroom instruction should contact the Principal to make the appropriate arrangements. Parents'/guardians' rights to review teaching materials and instructional activities are subject to reasonable restrictions and limits.

MEAL SERVICE

The school participates in the National School Lunch Program and makes lunches available to students for a fee. Ala carte items are available. Students may also bring their own lunch to school for consumption in the school's cafeteria.

ONLY students in grades 9-12 who have met the criteria for an Honor Pass will be allowed to leave campus for lunch.

Applications for the school's Free and Reduced-Priced Meal program are distributed to all students. Extra applications can be obtained in the school office.

FIRE AND TORNADO DRILLS

The school complies with all fire safety laws and will conduct fire drills in accordance with State law. Specific instructions on how to proceed will be provided to students by their teachers, who are responsible for safe, prompt, and orderly evacuation of the building.

Tornado drills will be conducted during the tornado season using the procedures provided by the State.

Lock down drills in which the students are restricted to the interior of the school building and the building secured may occur during the school year.

EMERGENCY CLOSINGS AND DELAYS

If the school must be closed or the opening delayed because of inclement weather or other conditions, the school will notify the following radio and television stations:

WDUX ----Waupaca 92.7

WBAY-CH 2

WSAW-CH 7

NBC 26

WFRV-CH 5

WLUK-CH 11

If there is no announcement made on the radio and television stations, school will be open and the buses will be running. If the weather should turn severe during the day and buses are sent out early, an announcement to this effect will be made on the above stations. Parents/guardians will also have the option of receiving an alert to their phone or email account. It is the responsibility of the parent/guardian to ensure updated directory information. Parents/guardians and students are responsible for knowing about emergency closings and delays.

PREPAREDNESS FOR TOXIC AND ASBESTOS HAZARDS

The School is concerned for the safety of students and attempts to comply with all Federal and State Laws and Regulations to protect students from hazards that may result from industrial accidents beyond the control of school officials or from the presence of asbestos materials used in previous construction. A copy of the School District's Toxic Hazard Policy and asbestos management plan will be made available for inspection at the Board offices upon request.

VISITORS

Visitors, particularly parent/guardians, are welcome at the school. In order to properly monitor the safety of students and staff, each visitor must report to the office upon entering the school to obtain a pass. Any visitor found in the building without a pass shall be reported to the principal. If a person wishes to confer with a member of the staff, s/he should call for an appointment prior to coming to the school, in order to prevent any loss of instructional time.

Visitors access to classrooms and instructional activities are subject to reasonable restrictions and limits. Please consult with the principal regarding these restrictions.

Students may not bring visitors to school without first obtaining advanced written permission from the principal.

USE OF THE LIBRARY

The library is available to students throughout the school day. Passes may be obtained from a student's teacher or from the librarian/library aide. Books and periodicals (*not the most recent*

issue) on the shelves may be checked out for a period of three weeks. To check out any other materials, contact the librarian/library aide. To avoid fees, all materials checked out of the library must be returned to the library by the end of each term.

USE OF SCHOOL EQUIPMENT AND FACILITIES

Students must receive the permission of the teacher before using any equipment or materials in the classroom and the permission of the principal to use any other school equipment or facility. Students will be held responsible for the proper use and safekeeping of any equipment or facility they are allowed to use.

LOST AND FOUND

The lost and found area is in the main office. Students who have lost items should check there and may retrieve their items if they give a proper description. Unclaimed items will be given to charity at the close of the school year.

STUDENT SALES

USE OF SCHOOL TELEPHONES

Office telephones are not to be used for personal calls. Except in an emergency, students will not be called to the office to receive a telephone call.

- Telephones are available in the school for students to use when they are not in class. Students are not to use telephones to call parents/guardians to receive permission to leave school. Office personnel will initiate all calls on behalf of a student seeking permission to leave school.

SCHOOL DISTRICT OF MANAWA PERSONAL COMMUNICATION DEVICES

Electronic Communication Device Policy

"Personal communication devices" ("PCDs") as used in this policy are defined in Bylaw 0100.

Students may use PCDs before and after school, during their lunch break, in between classes as long as they do not create a distraction, disruption or otherwise interfere with the educational environment, during after-school activities (e.g., extra-curricular activities), or at school-related functions. Use of PCDs, except those approved by a teacher or administrator, at any other time is prohibited and they must be powered completely off (i.e., not just placed into vibrate or silent mode) and stored out of sight.

However, technology including, but not limited to, PCDs intended and actually used for instructional purposes (e.g., taking notes, recording classroom lectures, writing papers) will be permitted, as approved by the classroom teacher or the building principal.

Students may not use PCDs on school property or at a school-sponsored activity to access and/or view Internet web sites that are otherwise blocked to students at school.

Students may use PCDs while riding to and from school on a school bus or other Board-provided vehicles or on a school bus or Board-provided vehicle during school-sponsored activities, at the discretion of the classroom teacher, or sponsor/advisor/coach. Distracting behavior that creates an unsafe environment will not be tolerated.

During after school activities, PCDs shall be powered completely off (not just placed into vibrate or silent mode) and stored out of sight when directed by the administrator or sponsor.

Under certain circumstances, a student may keep his/her PCD "On" with prior approval from the building principal.

Except as authorized by a teacher, administrator or IEP team, students are prohibited from using PCDs during the school day, including while off-campus on a field trip, to capture, record and/or transmit the words or sounds (i.e., audio) and/or images (i.e., pictures/video) of any student, staff member or other person. Using a PCD to capture, record, and/or transmit audio and/or pictures/video of an individual without proper consent by an authorized adult is considered an invasion of privacy and is not permitted. Students who violate this provision and/or use a PCD to violate the privacy rights of another person shall have their PCD confiscated and held until a parent picks it up, and may be directed to delete the audio and/or picture/video file while the parent is present. If the violation involves potentially illegal activity, the confiscated PCD may be turned over to law enforcement.

PCDs, with cameras or any other recording capabilities, may not be activated or utilized at any time in any school situation where a reasonable expectation of personal privacy exists. These locations and circumstances include, but are not limited to, locker rooms, shower facilities, rest/bathrooms, and any other areas where students or others may change clothes or be in any stage or degree of disrobing or changing clothes. The District Administrator and building principals are authorized to determine other specific locations and situations where use of a PCD is absolutely prohibited.

Students shall have no expectation of confidentiality with respect to their use of PCDs on school premises/property.

Students may not use a PCD in any way that might reasonably create, in the mind of another person, an impression of being threatened, humiliated, harassed, embarrassed, or intimidated. See Policy 5517.01 – Bullying and Other Forms of Aggressive Behavior. In particular, students are prohibited from using PCDs to: (1) transmit material that is threatening, obscene, disruptive, or sexually explicit or that can be construed as harassment or disparagement of others based upon their race, color, national origin, sex (including sexual orientation/transgender identity), disability, age, religion, ancestry, or political beliefs; and (2) engage in "sexting" - i.e., sending, receiving, sharing, viewing, or possessing pictures, text messages, e-mails or other materials of a sexual nature in electronic or any other form. Violation of these prohibitions shall result in disciplinary action. Furthermore, such actions will be reported to local law enforcement and child services as required by law.

Students are also prohibited from using a PCD to capture, record, and/or transmit test information or any other information in a manner constituting fraud, theft, cheating, or academic dishonesty. Likewise, students are prohibited from using PCDs to receive such information.

Possession of a PCD by a student at school during school hours and/or during extra-curricular activities is a privilege that may be forfeited by any student who fails to abide by the terms of this policy, or otherwise abuses this privilege.

Violations of this policy may result in disciplinary action and/or confiscation of the PCD. The building principal will also refer the matter to law enforcement or child services if the violation involves an illegal activity (e.g., child pornography, sexting). Discipline will be imposed on an escalating scale ranging from a warning to an expulsion based on the number of previous violations and/or the nature of or circumstances surrounding a particular violation. If the PCD is confiscated, it will be released/returned to the student's parent after the student complies with any other disciplinary consequences that are imposed, unless the violation involves potentially illegal activity in which case the PCD may be turned over to law enforcement. A confiscated device will be marked in a removable manner with the student's name and held in a secure location in the building's central office until it is retrieved by the parent or turned over to law enforcement. School officials will not search or otherwise tamper with PCDs in District

custody unless they reasonably suspect that the search is required to discover evidence of a violation of the law or other school rules. Any search will be conducted in accordance with Policy 5771 - Search and Seizure. If multiple offenses occur, a student may lose his/her privilege to bring a PCD to school for a designated length of time or on a permanent basis.

A person who discovers a student using a PCD in violation of this policy is required to report the violation to the building principal.

Students are personally and solely responsible for the care and security of their PCDs. The Board assumes no responsibility for theft, loss, or damage to, or misuse or unauthorized use of, PCDs brought onto its property.

Parents are advised that the best way to get in touch with their child during the school day is by calling the school office.

Students may use school phones to contact parents during the school day.

LEGAL REF.: Section 118.28 Wisconsin Statutes

Students who violate this policy will face the following disciplinary consequences: (Any electronic device or combination thereof).

1st offense – Warning – device is requested to be turned off.

2nd offense – Teacher confiscates for the class period.

3rd offense – Phone is turned into the main office where a parent/guardian must pick up.

Students refusing to relinquish their PCD may receive an in-school or out-of-school suspension. If they still refuse the proper authorities will be called.

WEAPONS

The Board of the School District of Manawa prohibits possession, use or threat to use, or storing of a weapon or look-alike weapon on school premises before, during, or after school, or at any school-sponsored activity. "School premises" includes a school building, school bus or vehicle, or any other school facility (including any school transportation facility, whether owned or contracted by the District). Students may not have live ammunition on the school site.

Determination of whether an item constitutes a weapon under this policy shall be made in accordance with established procedures. Exceptions to this policy include items which otherwise might be classified as weapons which are brought or transported to school premises or activities as part of a recognized activity for which the item is required, unless such is prohibited by law. (Examples might include but are not necessarily limited to guns handled by a staff member in a gun safety class, a look-alike gun which might be used in a dramatic activity, a gun bayonet which might be part of a history lesson, or a starting pistol used by a staff member in a track athletic event.)

Teachers should advise the appropriate building administrator beforehand of any activity or lesson necessitating the bringing to school of materials such as those described in this policy. Anyone found to be in violation of this policy is subject to discipline and/or legal action. If any part of this policy is held to be invalid under operation of the law, it shall not affect other parts of this policy which may be in compliance with the law.

ADVERTISING OUTSIDE ACTIVITIES

No announcements or posting of outside activities will be permitted without the approval of the principal. A minimum of twenty-four (24) hours' notice is required to ensure that the principal has the opportunity to review the announcement or posting.

The school has a central bulletin board located across from the main office which may be used for posting notices after receiving permission from the principal.

VIDEO SURVEILLANCE

The Board of Education has authorized the use of video surveillance and electronic monitoring equipment at various school sites throughout the school. Any person who takes action to block, move, or alter the location and/or viewing angle of a video camera shall be subject to disciplinary action.

SAFETY AND SECURITY

- A. All visitors must report to the office when they arrive at school.
- B. All visitors are given and required to wear a building pass while they are in the building.
- C. The staff is expected to question people in the building whom they do not recognize and who are not wearing a building pass, and to question people who are "hanging around" the building after hours.
- D. Students and staff are expected to immediately report to a teacher or administrator any suspicious behavior or situation that makes them uncomfortable. All District employees are to wear photo-identification badges while in District schools and offices or on District property.

SECTION II - ACADEMICS

FIELD TRIPS

Field trips are academic activities that are held off school grounds. There are also other trips that are part of the school's co-curricular and extra-curricular program. No student may participate in any school-sponsored trip without parent/guardian consent.

Attendance rules, the Code of Conduct and the Search and Seizure policy apply to all field trips.

GRADES

The Teachers have a standard grading procedure, as well as additional notations that may indicate work in progress or incomplete work. The purpose of a grade is to indicate the extent to which the student has acquired the necessary learning. In general, students are assigned grades based upon test results, projects, and classroom participation. Each teacher may place a different emphasis on these areas in determining a grade and will so inform the students at the beginning of the course work. If a student is not sure how his/her grade will be determined, s/he should ask the teacher.

The School uses the following grading system:

Grading Scale for all students:

A	95-100
A-	92-94
B+	89-91
B	86-88
B-	83-85
C+	80-82
C	77-79
C-	74-76
D+	71-73
D	68-70
D-	65-67
F	0-64

Marking System:

(A)	Excellent
(B)	Good
(C)	Average
(D)	Below Average
(F)	Failure

If a student receives an "F" in a required subject, he/she must repeat and pass that subject to fulfill graduation requirements. Ordinarily, a student who receives an "F" in a course, which is part of a sequence, must repeat and pass that course to continue in the sequence.

(I) Incomplete: When a student's work is not completed by the end of the quarter due to the student's absence from school, he/she receives an "I". This work, in most cases, must be made up within two weeks after the end of the quarter. Exceptions to the two-week period must be cleared through the principal. If work is not made up in the allowed time, the "I" becomes an "F".

(W) Withdrew: A student receives this grade when he/she drops a course with administrative approval.

NOTE: A student withdrawing from a course after the fifth week of the semester will do so with an F unless granted administrative exception.

GRADE POINT AVERAGE

To calculate a grade point average (G.P.A.), assign a point value to each course grade and divide by the total number of credits. For partial-credit courses use the fractional value of the grade. For example, a half credit course with an earned grade of C would be $.5 \times 2 = 1$. Then add this to the other grades earned for total points earned. This total is then divided by the total credits earned for the G.P.A. This can be done by grading period, semester, year, or for a series of school years.

LAUDE SYSTEM

The Laude System replaces the class rank system. It allows us to recognize and encourage students to take appropriate courses that will better prepare them for the future. This system is a point-based system that gets combined with a student's GPA, under our normal grading scale. This system rewards a student for **completing** designated rigorous courses and will earn the student honor points.

To qualify for Cum Laude or Higher: The student must minimally have a 3.4 cumulative grade point average and have earned a minimum of 4 Laude points. Once students meet these requirements they will earn one of the following distinctions:

Cum Laude (With honor/distinction), 4 – 17.49 honor points

Magna Cum Laude (With great honor/distinction), 17.5 – 28.79 honor points

Summa Cum Laude (With highest honor/distinction), 28.8 honor points or more

**Academic Excellence Scholarship: Refer to language spelled out in Board Policy 5451.02*

GRADING PERIODS

Report Cards: At the end of each semester, students receive report cards containing their final semester grades in all of their courses. The grades on the semester report card become a part of each student's permanent record.

At the end of the nine-week period a report card indicating quarterly grades is issued. This quarterly grade is a progress report to give students, parent/guardians, and the counselor an idea of the student's work at that point. The quarterly grade is not an official grade. It does not appear on any official record and in no way affects credits, average, or rank in class.

Parent/guardian / Teacher Conferences: Parent/guardian/teacher conferences will be held for the purpose of evaluation of student progress in school. Parents/guardians are encouraged to communicate with staff members at any time throughout the school year concerning their child's progress. Any time a parent/guardian wishes to see his/her child's records or confer with a teacher they should make an appointment through the High School office.

PROMOTION, PLACEMENT, AND RETENTION

Grades 5K-8 Level

Criteria: To be promoted all students in grades 3-8 must demonstrate adequate progress in core subject areas. Literacy and numeracy are the foundation of all core subjects. To that end, adequate progress will be determined by end-of-year report card standard scores for core academic subjects at a score of "S" in grades one and two or a "D" or higher in grades three through eight. If adequate progress is not evident, based on the report card scores, multiple measures may be used to compile a complete student learning profile for promotion consideration.

The multiple measures to consider may include, but are not limited to:

- A. Wisconsin School Assessment System Examination scores
- B. Response to Intervention/Instruction documentation
- C. Local assessments
- D. Teacher recommendations
- E. Demonstrate adequate progress toward attainment of annual goals specified in the Individualized Education Plan (IEP), Section 504 Plans, or English Development Learning Plan (EDLP) as documented by the staff serving the student.

High School Level

Student placement criteria are as follows:

- A. 1st year of high school attendance or the credit equivalent are placed in 9th grade.
- B. 2nd year of high school attendance or the credit equivalent are placed in 10th grade.
- C. 3rd year of high school attendance or the credit equivalent are placed in 11th grade.
- D. 4th year of high school attendance or the credit equivalent are placed in 12th grade.

Remediation Opportunities

School personnel shall make a concerted and repeated effort throughout the school year to notify the parents/guardians of students who are at-risk of not meeting grade-level expectations and thus, may not be eligible for promotion. Opportunities to support student learning will be suggested and encouraged. In this way, students, with the support of their parents/guardians, can take full advantage of Response to Intervention/Instruction (Rtl) time, Summer School, or other remediation learning opportunities for the purpose of meeting the grade-level criteria as described above to be eligible for promotion. Students' progress in meeting grade-level criteria will be monitored using universal screeners.

Referral shall be based on failing grades at the middle of the first quarter.

- The BCT shall meet to problem-solve the relevant behavior and educational issues regarding the student and implement strategies to help the student improve his/her failing grades or performance. The student's grades or performance shall be monitored throughout the second quarter by the BCT. An educational assessment may be completed upon recommendation of the SAT BCT. The student's parents/guardians shall be notified.
- If, at the end of the first semester, the student continues to receive less than a "D" or less in core area subjects, the BCT will review and revise the previous plan and implement new strategies to help improve the student's failing grades or performance. An educational assessment shall be completed unless this was already done during the second quarter of the school year. The student's parent/guardians/guardians shall be notified.
- The BCT shall monitor student progress bi-weekly during the third quarter. The BCT will make a promotion or retention recommendation to the building principal by the end of third quarter. The student's parent/guardians/guardians will be kept informed of student progress and the preliminary recommendation. The district administrator shall be informed.
- Final determination of a retention, promotion, or promotion conditioned on a remediation plan shall be made by the building principal and reported to the district administrator and be based, in part, on the 4th quarter mid-term grades or performance. The principal shall provide a written notice of the decision to the parents/guardians at least 4 weeks before the end of the school year.

Appeal Process

Parents/guardians of the student recommended for retention may appeal to the District Administrator or designee. Such appeals shall be filed in writing no later than five (5) days after receiving the official letter of retention. The appeal petition must include reasons why the parent/guardian believes the student should be promoted. The District Administrator or designee shall respond with a decision in writing fifteen (15) days after receipt of the appeal.

The following number of earned credits designates the grade in which the student will be registered:

Freshman 0 to 5 Credits
Sophomore 6 Credits to 11 Credits
Junior 12 Credits to 17 Credits
Senior 18 Credits or more

The principal shall determine whether a student has satisfied the criteria in this policy. A student may be denied participation in graduation activities for disciplinary reasons

EARLY COLLEGE CREDIT PROGRAM

The 2017 Wisconsin Act 59 eliminated the Course Options and Youth Options programs. The Youth Options statute (118.55) was renamed the Early College Credit Program. The statute allows Wisconsin public and private high school students to take one or more courses at an institution of higher education for high school and/or college credit. Under this section, “institution of higher education” means an institution within the University of Wisconsin System, a tribally controlled college, or a private, nonprofit institution of higher education located in the state. Courses may be denied by the school if a comparable course at the school already exists.

START COLLEGE NOW PROGRAM

“Start College Now” will allow high school students the opportunity to take college courses at Wisconsin Technical Colleges. Students looking to take courses in the fall semester must turn in the application by March 1. For spring semester courses the same application is used, however the due date is October 1.

The Board of Education will provide students enrolled in the District with the ability to take up to two (2) courses at any given time through one or more other educational institutions as outlined in the information above. Please contact the high school counseling office at (920) 596-5802.

RECOGNITION OF STUDENT ACHIEVEMENT

Students who have displayed significant achievements during the course of the year are recognized for their accomplishments. Areas that may merit recognition include academics, athletics, performing arts, citizenship, and volunteerism. DIPLOMA DEFERRAL

Social graduation is an opportunity for students with individual education programs (“IEPs”) to participate in high school graduation ceremonies without obtaining an official diploma. Students with IEPs who have completed all academic requirements for high school graduation, but who have not yet completed their transition-related IEP goals may be eligible for social graduation.

HOMEWORK

The assignment of homework can be expected. Student grades will reflect the completion of all work, including outside assignments. Homework is also part of the student's preparation for the standardized tests and graduation.

Homework will not generally be used for disciplinary reasons but only to enhance the student's learning.

CREDIT RECOVERY

Little Wolf High School does offer credit recovery through the alternative education program (Phoenix program.) This program utilizes Plato Courseware. This standards-based online learning program assists students achieve their **GED Option #2 (GEDO #2)**. Wisconsin law states that a school board may grant a high school diploma to a pupil who has not satisfied the credit requirements if:

1. The student was enrolled in an alternative education program
2. The school board determines that the pupil has demonstrated a level of proficiency in the subjects for which credits are required equivalent to that which they would have attained if they had satisfied the credit requirements

STUDENT TECHNOLOGY ACCEPTABLE USE AND SAFETY

Technology has fundamentally altered the ways in which information is accessed, communicated, and transferred in society. As a result, educators are continually adapting their means and methods of instruction, and the way they approach student learning to incorporate the vast, diverse, and unique resources available through the Internet. The Board of Education provides technology resources (as defined in Bylaw 0100) to support the educational and professional needs of its students and staff. With respect to students, District Technology Resources afford them the opportunity to acquire the skills and knowledge to learn effectively and live productively in a digital world. The Board provides students with access to the Internet

for limited educational purposes only and utilizes online educational services/apps to enhance the instruction delivered to its students. The District's computer network and Internet system do not serve as a public access service or a public forum, and the Board imposes reasonable restrictions on its use consistent with its limited educational purpose.

The Board regulates the use of District technology resources by principles consistent with applicable local, State, and Federal laws, the District's educational mission, and articulated expectations of student conduct as delineated in the Student Code of Conduct. This policy and its related administrative guidelines and the Student Code of Conduct govern students' use of District Technology Resources and students' personal communication devices when they are connected to the District computer network, Internet connection, and/or online educational services/apps, or when used while the student is on Board-owned property or at a Board-sponsored activity (see Policy 5136).

Users are required to refrain from actions that are illegal (such as libel, slander, vandalism, harassment, theft, plagiarism, inappropriate access, and the like) or unkind (such as personal attacks, invasion of privacy, injurious comment, and the like). Because its Technology Resources are not unlimited, the Board has also instituted restrictions aimed at preserving these resources, such as placing limits on use of bandwidth, storage space, and printers.

Users have no right or expectation to privacy when using District Technology Resources (including, but not limited to, privacy in the content of their personal files, e-mails, and records of their online activity when using the District's computer network and/or Internet connection).

First, the Board may not be able to technologically limit access to services through its technology resources to only those that have been authorized for the purpose of instruction, study and research related to the curriculum. Unlike in the past when educators and community members had the opportunity to review and screen materials to assess their appropriateness for supporting and enriching the curriculum according to adopted guidelines and reasonable selection criteria (taking into account the varied instructional needs, learning styles, abilities, and developmental levels of the students who would be exposed to them), access to the Internet, because it serves as a gateway to any publicly available file server in the world, opens classrooms and students to electronic information resources that may not have been screened by educators for use by students of various ages.

Pursuant to Federal law, the Board has implemented technology protection measures, that protect against (e.g., filter or block) access to visual displays/depictions/materials that are obscene, constitute child pornography, and/or are harmful to minors, as defined by the Children's Internet Protection Act. At the discretion of the Board or the District Administrator, the technology protection measures may be configured to protect against access to other material considered inappropriate for students to access. The technology protection measures may not be disabled at any time that students may be using the District technology resources, if such disabling will cease to protect against access to materials that are prohibited under the Children's Internet Protection Act. Any student who attempts to disable the technology protection measures will be subject to discipline.

The Board utilizes software and/or hardware to monitor online activity of students and to block/filter access to child pornography and other material that is obscene, objectionable, inappropriate and/or harmful to minors. "Harmful to minors" is a term defined by the Communications Act of 1934 (47 U.S.C. 254(h)(7)) as any picture, image, graphic image file, or other visual depiction that:

- A. taken as a whole and with respect to minors, appeals to a prurient interest in nudity, sex, or excretion;

- B. depicts, describes, or represents, in a patently offensive way with respect to what is suitable for minors, an actual or simulated sexual act or sexual contact, actual or simulated normal or perverted sexual acts, or a lewd exhibition of the genitals;
- C. taken as a whole, lacks serious literary, artistic, political, or scientific value as to minors.

At the discretion of the Board or the District Administrator, the technology protection measure may be configured to protect against access to other material considered inappropriate for students to access. The technology protection measure may not be disabled at any time that students may be using the District technology resources, if such disabling will cease to protect against access to materials that are prohibited under the Children's Internet Protection Act. Any student who attempts to disable the technology protection measures will be subject to discipline.

The Technology Director may temporarily or permanently unblock access to websites or online educational services/apps containing appropriate material if access to such sites has been inappropriately blocked by the technology protection measure. The determination of whether material is appropriate or inappropriate shall be based on the content of the material and the intended use of the material, not on the protection actions of the technology protection measure.

The Technology Director may disable the technology protection measure to enable access for bona fide research or other lawful purposes.

Parents are advised that a determined user may be able to gain access to services and/or resources on the Internet that the Board has not authorized for educational purposes. In fact, it is impossible to guarantee students will not gain access through the Internet to information and communications that they and/or their parents may find inappropriate, offensive, objectionable or controversial. Parents of minors are responsible for setting and conveying the standards that their children should follow when using the Internet.

Pursuant to Federal law, students shall receive education about the following:

- A. safety and security while using e-mail, chat rooms, social media, and other forms of direct electronic communications;
- B. the dangers inherent in the online disclosure of personally identifiable information;
- C. the consequences of unauthorized access (e.g., "hacking", "harvesting", digital piracy", "data mining", etc.), cyberbullying, and other unlawful or inappropriate activities by students online;
- D. unauthorized disclosure, use, and dissemination of personally identifiable information regarding minors.

Staff members shall provide instruction for their students regarding the appropriate use of technology and online safety and security as specified above. Furthermore, staff members will monitor the online activities of students while at school.

Monitoring may include, but is not necessarily limited to, visual observations of online activities during class sessions; or use of specific monitoring tools to review browser history and network, server, and computer logs.

Building Principals are responsible for providing training so that Internet users under their supervision are knowledgeable about this policy and its accompanying guidelines. The Board expects that staff members will provide guidance and instruction to students in the appropriate use of District technology resources. Such training shall include, but not be limited to, education concerning appropriate online behavior, including interacting with other individuals on social media, including in chat rooms, and cyberbullying awareness and response. All users

of District technology resources (and their parents if they are minors) are required to sign a written agreement or acknowledging during the annual student registration process they will abide by the terms and conditions of this policy and its accompanying guidelines.

Beginning in grade three (3) students will be assigned a school email account that they are required to utilize for all school-related electronic communications, including those to staff members, peers, and individuals and/or organizations outside the District with whom they are communicating for school-related projects and assignments. Further, as directed and authorized by their teachers, they shall use their school-assigned email account when signing-up/registering for access to various online educational services, including mobile applications/apps that will be utilized by the student for educational purposes.

Students may only use District technology resources to access or use social media if it is done for educational purposes in accordance with their teacher's approved plan for such use.

Users who disregard this policy and its accompanying guidelines may have their use privileges suspended or revoked, and disciplinary action taken against them. Users are personally responsible and liable, both civilly and criminally, for uses of District technology resources that are not authorized by this policy and its accompanying guidelines.

The Board designates the District Administrator and Technology Director as the administrators responsible for initiating, implementing, and enforcing this policy and its accompanying guidelines as they apply to students' use of District technology resources.

SYNCHRONOUS EDUCATION – STUDENT ACCOUNTABILITY AND CONDUCT

The School District of Manawa expects students participating in remote learning to follow school rules during synchronous instruction and when interacting with staff and students in a virtual setting. Students may be disciplined for violating school rules during virtual instruction even though the student is not present on District property.

Synchronous Instruction Accountability and Internet Safety

Synchronous instruction requires students to access their educational program online. There are certain risks inherent in all online activities. Students must comply with the following standards and expectations to protect themselves and others.

- The District's Acceptable Use policy applies to all students participating in the District's virtual educational programs and online class activities.
- Use only one (1) username and password.
- Use an appropriate profile picture for any virtual accounts.
- Do not share your username or password with anyone. Each student is responsible for all activities associated with his or her username and password.
- Do not interfere with other student's ability to access virtual instruction or disclose anyone's password to others.
- Do not publicly post personal contact information, including the personal contact information for others.
- Do not use the District's virtual instruction resources for any illegal activities.
- Do not use District virtual instruction resources to send unsolicited electronic-mail messages not pertaining to class (e.g., SPAM).
- Do not use the District's virtual instruction resources to access inappropriate programs, applications, or websites.
- Do not share classroom/small group video or classroom/small group recorded video with third parties (parent(s)/guardian(s) and siblings, excluded) – This includes private messages from staff or others.

- Do not agree to meet in-person with anyone met exclusively on the Internet.

Conduct During Synchronous Instruction

Synchronous instruction is similar to in-person instruction, but presents unique opportunities and challenges. Students are expected to be engaged and courteous to others during synchronous instruction and other class activities as they would during in-person instruction in a classroom. The District's Student Code of Conduct applies to all students participating in the District's synchronous instruction and online class activities. Students are expected to obey the following standards and expectations, as well:

- Sign-in for virtual instruction and activities using the appropriate, designated username and password.
- Do not allow siblings or other members of the household to participate in virtual instruction unless authorized by the virtual class teacher (they may observe but notice should be provided they are doing so).
- Review typed messages before sending them to remove easily misinterpreted language and proofread for typos.
- Private messages during virtual instruction should be kept to a minimum.
- Engage in virtual instruction discussions in a respectful manner that abides by the following standards:
 - Avoid sarcasm, jargon, and slang;
 - Vulgarity is not acceptable;
 - Do not use images, "GIFs," or "Memes" in place of written responses or comments, unless specifically directed to do so by a staff member;
 - Focus responses on the questions or issues being discussed, not on the individuals involved.
- Do not make inappropriate comments verbally or via direct messages. Inappropriate messages include, but are not limited to, those that contain:
 - threatening messages or images;
 - insults or attacks of any kind against a person;
 - obscene, degrading or profane language or images;
 - repeatedly sent unwelcome messages or images that harass the recipient; and
 - material that is defamatory or intended to annoy, intimidate, or bully others.

If a student or his/her parent(s)/guardian(s) has any questions about the rules, standards, and expectations applicable to students participating in the District's synchronous educational programs and online class activities, the student should contact the Principal immediately.

STUDENT ASSESSMENT

To measure student progress, students will be tested in accordance with State standards and District policy.

Additional group tests are given to students to monitor progress and determine educational mastery levels. These tests are used to help the staff determine instructional needs.

Classroom tests will be used to assess student progress and assign grades. These are selected or prepared by teachers to assess how well the students have achieved specific objectives.

Vocational and interest surveys may be given to identify particular areas of student interest or talent. These are often given by the guidance staff.

- If necessary, intelligence tests, speech and language evaluations, individually administered achievement tests, and other special testing services are available to students needing these services.

Depending on the type of testing, specific information and/or parent/guardian consent may need to be obtained. The assessment program will not violate the rights of consent and privacy of a student participating in any form of evaluation.

College entrance testing information can be obtained from the Guidance office.

The application must verify that the activity is being initiated by students, attendance is voluntary, no school staff person is actively involved in the event, the event will not interfere with school activities, and non-school persons do not play a regular role in the event. School rules will still apply regarding behavior and equal opportunity to participate.

In addition, students are encouraged to work through the work study program to receive certification and recognition for their efforts. Only students that are enrolled in this program will be allowed to leave school for work.

SECTION IV - STUDENT CONDUCT

ATTENDANCE

The school requires all students to attend school regularly in accordance with the laws of Wisconsin. The school's educational program is predicated upon the presence of the student and requires continuity of instruction and classroom participation. The regular contact of students with one another in the classroom and their participation in a well-planned instructional activity under the guidance of a competent teacher are vital to this purpose.

Compulsory Student Attendance

All children between six (6) and eighteen (18) years of age shall attend school regularly during the full period and hours, religious holidays exempted, that the school is in session. All students must attend until the end of the term, quarter or semester of the school year in which the child becomes eighteen (18) years of age unless they fall under an exception outlined in the District's Administrative Guidelines.

- Attendance is also defined as participation in the various forms of distance learning including videoconference, satellite, Internet or other electronic information and telecommunications technologies.

Excuse for Absence

A parent/guardian of a student who is absent shall provide a written, dated, signed statement indicating the reason for and the time period of the absence. This statement must be submitted prior to the absence if the absence is foreseeable. If the absence is not foreseeable, the statement must be provided prior to the student's readmission to school. The statement shall be submitted to the principal, Mr. Wolfgram, who serves as the School Attendance Officer and filed in the student's school record. The District reserves the right to verify statements and investigate absences from school.

Excused Absences

A student shall be excused from school for the following reasons:

Physical or Mental Condition

The student is temporarily not in proper physical or mental condition to attend a school program. If the absence exceeds 5 days, the inability of the student to attend school due to a physical or mental condition must be certified in writing by a licensed physician, dentist, chiropractor, optometrist or psychologist or Christian Science practitioner living and residing in Wisconsin, who is listed in the Christian Science Journal. The time period for which the certification is valid may not exceed thirty [30] days.

Obtaining Religious Instruction

Students may wish to obtain religious instruction outside the school during the required school period. The time period or periods of absence shall be determined by the principal. Such absences must be at least 60 minutes but not more than 180 minutes per week. Requests for absence under this paragraph shall be denied if the student fails to attend religious instruction after requesting to be absent from his or her regular school. The supervisor of such religious instruction shall report monthly, to the principal of the school regularly attended, the names of the students who attended such weekly religious instruction.

Permission of Parent/Guardian

The student may be excused by his or her parent/guardian before the absence for any or no reason. A student may not be excused for more than ten (10) days under this paragraph and must complete any course work missed during the absence. Examples of reasons for being absent that should be counted under this paragraph include, but are not limited to, the following:

- professional and other necessary appointments (e.g., medical, dental, and legal) that cannot be scheduled outside the school day
- to attend the funeral of a relative
- legal proceedings that require the student's presence
- college visits
- job fairs
- vacations
- weather related - As parents, you are the final authority as to whether you believe it is safe for your child to get to school. If you believe that it is too cold or the snow is too deep or the weather is too unsettled, your decision may be to keep your child home. You have the right and responsibility to make attendance decisions for your children based on your individual circumstances. Please notify your student's school as you would for any other absence.

Parents/guardians are encouraged not to take their child out of school for vacations. When a family vacation must be scheduled during the school year, the parents/guardians should discuss the matter with the principal and the student's teacher(s) to make necessary arrangements.

Religious Holiday

The student wishes to observe a religious holiday consistent with the student's creed or belief.

Suspension or Expulsion

The student has been suspended or expelled.

Program or Curriculum Modification

High School Equivalency – Secured Facilities

A student may be excused from regular school attendance to participate in a program leading to a high school equivalency diploma in a secured correctional facility, a secured child-caring institution, a secure detention facility, or a juvenile portion of a county jail. The student and his/her parent/guardian or guardian must agree that the student will continue to participate in such a program.

Child at Risk

The student is a "child at risk" as defined under State law and is participating in a program at a technical college on either a part-time or full-time basis leading to high school graduation, as provided under State law.

A student may be excused from school, as determined by the School Attendance Officer, for the following reasons:

- Quarantine: Quarantine of the student's home by a public health officer.
- Illness of an Immediate Family Member

- **Emergency:** An emergency that requires the student to be absent because of family responsibilities or other appropriate reasons.

Pre-Arranged Absence: Students absent for reasons other than the above will be considered unexcused with this exception: parents may PRE-EXCUSE their child for any reason for up to ten days per year. This means that any absence for reasons other than the above may be excused providing there is a WRITTEN PRE-ARRANGED FORM. (Forms may be picked up in the office prior to the date of absence.) If it is not PRE-ARRANGED, it will be considered UNEXCUSED.

Truancy

A student will be considered truant if he or she is absent part or all of one or more days from school during which the School Attendance Officer, principal, or a teacher has not been notified of the legal cause of such absence by the parent or guardian of the absent student. A student will also be considered truant if he or she has been absent intermittently for the purpose of defeating the intent of the Wisconsin Compulsory Attendance statute – Sec. 118.15, Wis. Stat.

When a student is truant, the School Attendance Officer shall ensure that all applicable provisions of the District’s Truancy Plan are carried out.

Unexcused Absences

Unexcused absences demonstrate a deliberate disregard for the educational program and are considered a serious matter. The principal will determine on a case-by-case basis the appropriate methods to deal with unexcused absences. If a student is unexcused or without prior approval of the absence, the student-athlete is not allowed to practice or play in an athletic event that evening.

Approved Absences: Personal illnesses, a death in the family, religious holidays, or extreme emergencies are acceptable reasons for an absence. A **valid** excuse written by a parent must be presented to the office upon return to school, or a phone call from a parent/guardian on the day of absence, documenting the reason for the absence must be made to the school office. For a definition of a **“invalid”** excuse, see the following examples:

When a student initially becomes a habitual truant, the School Attendance Officer shall ensure that all applicable provisions of the Districts’ Truancy Plan are carried out.

Parent/Guardian Responsibilities

It is the responsibility of the student’s parent/guardian to ensure that their child attends school regularly. Parent/guardians are expected to provide an excuse for all absences.

Further, credit for make-up work may be given only after the student has satisfied consequences imposed for unexcused absences. The extent to which make-up credit is given shall be determined on a case-by-case basis by the principal and the respective teachers.

If make-up work is allowed, it is the student's responsibility to contact his or her teachers to determine what course work and examinations must be made-up. Teachers shall have the discretion to assign substitute course work and examinations. Final decision to be rendered by the administration. (Exception: acceptable absences as they fall under Wisconsin State Statute 118 regarding compulsory education)

- B. Physical examinations are good for two years from the date the physical was given.
- **Be an amateur in all sports. You violate your amateur status if you: “Accept any amount of money or merchandise, awards for athletic services, or sign a contract for athletic services.” Example: League Teams, Golf outings – “hole in one win a car”**
 - Student athletes and a parent/guardian must attend the summer parent/athlete meeting. If they are unable to attend other arrangements must be made.

Academic Eligibility

Eligibility requirements will begin with the initial enrollment in the first co-curricular activity. In order to be academically eligible for co-curricular activities, a student must meet all the District and DPI requirements defining a full-time student. Additionally, each student must have passed or be currently passing all classes as stated in the following academic requirements:

- Athletes who earn an “F” at the conclusion of a midterm, will be allowed 5 school days from the date of notification to the student to get the grade to passing. If the athlete is unable to raise the grade to passing, the athlete will be ineligible to participate in 25% of the total games or appearances of that sport’s full season. If the suspension is not completed in the current sport/activity, the remainder of the suspension will be carried over into the next athletic sport or activity in that grade period. The athlete will be placed

on academic probation until the next quarter grades are posted or the day the suspension ends and grades are all passing. The athlete will not be allowed to leave school early for any event in that sport until all grades are passing.

- Athletes who receive one “F” at the conclusion of a nine-week grading period will be ineligible to participate in 25% of the total games or appearances of that sport or activity’s full season. If the suspension is not completed in the current sport/activity, the remainder of the suspension will be carried over into the next athletic sport or activity in that grade period. The athlete will be placed on academic probation until the next quarter grades are posted or the day the suspension ends and grades are all passing. The athlete will not be allowed to leave school early for any event in that sport until all grades are passing.
- Athletes who receive two “F’s” at the conclusion of a nine-week grading period will be ineligible to participate in 50% of the total games or appearances of that sport or activity’s full season. If the suspension is not completed in the current sport/activity, the remainder of the suspension will be carried over into the next athletic sport or activity in that grade period. The athlete will be placed on academic probation until the next quarter grades are posted or the day the suspension ends and grades are all passing. The athlete will not be allowed to leave school early for any event in that sport until all grades are passing.
- Athletes who receive three or more “F’s” during a nine-week grading period will be ineligible to participate in all games or appearances of that sport for the entire 9 week grading period. This does not prohibit an athlete from practicing or assisting with the activity, with the coach’s approval. If the athlete is in mid-season, the consequence will move forward into the next athletic season to fulfill the 9-week rule. The athlete will not be allowed to leave school early for any event in that sport until all grades are passing.
- An athlete who is enrolled in any state-approved Exceptional Educational Needs program, and who receives no usual grades for such courses, may be eligible if he/she is making satisfactory progress in his/her total school program as indicated by his/her IEP.
- Athletes who attend summer school for remediation, must receive the grade of “pass” to be eligible for any failure infraction and penalty. See the rules stated above as they apply.

Attendance: (Athletic & Non-Athletic Activities)

Student Athletes must attend a full school day to participate in athletics that evening or provide an excuse from a doctor or have prior administrative approval. School-related absences do not apply. Exceptions to this are excused school-related activities and appointments that are approved in advance by Administration and/or a written doctor’s excuse.

- **(Exception: acceptable absences as they fall under Wisconsin State Statute 118 regarding compulsory education)**
- If a student is truant from an assigned class period or is displaying a pattern of habitual tardiness to a specific class, he/she will be referred to the principal and will not be allowed to compete until the situation is resolved.

Students may not compete, perform, practice or attend on days of an out-of-school suspension.

- Students suspended from co-curricular activities are expected to remain as part of the team or group. Due to the diversity of co-curricular activities, it will be up to the advisor or coach to determine what level of involvement the student will have in the group and whether or not the student will be required to attend all contests and

activities. Members of athletic teams are required to attend all practices and be non-participants during the time of their suspension.

Travel and Conduct on Trips

1. Students/athletes who participate in activities outside of the School District of Manawa will conduct themselves as responsible young adults. This includes but is not limited to the following
 - Show appropriate respect for all adults and authority figures.
 - Show courteous and well-mannered behavior.
 - Show appropriate sportsmanship at all times.

4. A student/athlete may ride home from away events with their parent/legal guardian provided they sign the student out with the coach. Student athletes may NOT ride home with emergency contacts, siblings, friends, or other adults.
5. If no prior approval, permission by a parent/guardian/guardian must be given to the coach and/or advisor at the event and abide by provisions of rule five (5).

Injuries, Accident Reports and Insurance Coverage

2. All injuries must be reported immediately to the coach and/or advisor. Coaches and advisors should be notified prior to any medical treatment on the part of the student/athlete whenever possible or as soon as possible after treatment. The injury must also be reported immediately to the office by the coach or advisor for insurance purposes. The report should be handed into the high school office.
3. It is the policy of W.I.A.A. and the School District of Manawa to have a medical release from a medical physician following any severe injury.
4. All head injuries severe enough to have received medical treatment require a medical release from a medical physician before the athlete may return to any practice or competition. (please refer to the W.I.A.A. for further requirements for head injuries/concussions).

Care of Equipment

1. Each student/athlete is responsible for the proper care and safekeeping of equipment issued to him/her. Lockers should be securely locked during and after every practice/game/event.

2. Equipment issued to a student/athlete shall be the responsibility of that individual. These individuals shall pay for any equipment not returned at the current replacement cost.
3. School issued equipment is school property and is used during a particular season/event only. At the conclusion of a season/event equipment must be turned in to the coach/advisor in charge. Parent/guardian assistance in this matter will be greatly appreciated. It is the responsibility of the student/athlete and the parent/guardian to have equipment turned in at the proper time.
4. A student/athlete will not participate in another activity until all equipment is returned and fines have been paid.
5. A student/athlete will not receive any “end of the season” awards until all equipment is returned and fines have been paid.

3. All athletes/members and/or parent/guardians/guardians are asked to give each coach and/or advisor a **24-hour courtesy time limit** prior to discussing an issue or concern following an event.

Changing a Sport/Activity

A student/athlete may not quit one sport/activity and begin another during the same season without the consent of both head coaches/advisors involved in the change and permission from the athletic director, advisor and principal. Any disciplinary actions that are in place will remain in place in the new activity.

Multi-Sport Participation

The Multi-Sport Participation Policy allows students to participate in two (2) sports/organizations during the same season, regardless if the sports are individual or team-oriented. If a student desires to participate in multiple sports during the school year, they must do the following prior to the start of any season:

1. Submit a completed contract to the Athletic Director prior to the first scheduled contest. This form includes:
 - Permission from his/her parent or guardian to compete in multiple sports in the same season.
 - Declaration by the student of the priority sport for tournaments in the event of scheduling conflicts.
 - Approval by the Head Coach(s) of each sport.
 - Signature of student’s agreement to coordinate the practice/contest schedule for the season in coordination with the coaches.
 - Signature of the Athletic Director.
2. The athlete must participate in at least one regular season event in the secondary sport so that they are eligible to participate in the conference tournament in that sport.

3. The Athletic Director will share the list of multi-sport athletes with the Central Wisconsin Conference Commissioner and the other CWC Athletic Directors prior to the start of each season.

It is the goal of the Athletic Department to have continuous communication between student athletes, coaching staff, and the Athletic Department to avoid putting athletes in difficult situations.

If a student quits a primary sport, the student will need consent from both coaches to participate in any of the secondary sports from that point forward that season. If a student quits a secondary sport, the student will only be able to participate in the primary sport from that point forward that season.

The following Multi- Sport Priorities have been established for the benefit of all athletes:

1. Games come before practices.
2. Tournaments come before games.
3. Districts come before games and tournaments.
4. State comes before all else.

Athletic Awards (Athletic Activities)

2. Any athlete who earns additional varsity letters shall be presented with a certificate and bar pin signifying this honor.
3. Participation certificates are awarded to all athletes who successfully complete a season, but who do not earn a varsity letter.
4. All awards will be received and displayed with honor, pride and dignity.
5. Any "M" which becomes too shabby to be worn while an award winner is still in school may be turned in to the athletic director for a new letter.

DRESS AND GROOMING

While fashions change, the reason for being in school does not. Students are in school to learn. Any fashion (dress, accessory, or hairstyle) that disrupts the educational process or presents a safety risk will not be permitted. Personal expression is permitted within these general guidelines.

We take pride in the appearance of our students. All students are expected to dress and groom themselves neatly in clothing that is seasonably suitable for school activities. Students wearing inappropriate clothing, such as but not limited to: clothing with alcohol/tobacco reference, inappropriate slogans and suggestive in nature may be asked to return home to make necessary changes.

- Clothing must cover all undergarments. Shorts, skirts and dresses must reach fingertip in length.
- There will be no midriff showing, no low cut tops, cut-out/ripped t-shirts underneath the arm exposing the torso, spaghetti straps, strapless, or off the shoulder garments worn.
- Hats, caps, headwear, jackets/coats, bulky outerwear, backpacks, large chains, jewelry with sharp objects, low riding pants, hoods, etc., are not allowed to be worn in the school.

Students should consider the following questions when dressing for school:

1. Does my clothing expose too much? (No)
2. Does my clothing advertise something that is prohibited to minors? (No)
3. Are there obscene, profane, drug-related, gang-related, or inflammatory messages on my clothing? (No)
4. Would I interview for a job in this outfit? (Yes)
5. Am I dressed appropriately for the weather? (Yes)
6. Do I feel comfortable with my appearance? (Yes)

If a student has selected a manner of appearance that is beyond mere freedom of expression and disrupts the educational process or presents risk to themselves or others, s/he may be removed from the educational setting.

Reporting Concerns:

Anyone in violation will be sent to the office.

If a dress code violation occurs, the following steps will be taken:

- **First Occurrence:** Student will be asked to correct the problem by changing clothes, turning a shirt inside out, putting on shoes, etc.,
- **Second Occurrence:** Student will be asked to correct the problem by changing clothes, turning a shirt inside out, putting on shoes, etc., and a parent/guardian will be notified by phone.

Students attending after school events need to follow the dress. This includes, but not limited to sporting events, and school concerts.

Students who are representing our school at an official function or public event may be required to follow specific dress requirements. Usually, this applies to athletic teams, cheerleaders, bands, and other such groups.

CARE OF PROPERTY

Students are responsible for the care of their own personal property. The school will not be responsible for the loss of personal property. Valuables such as jewelry or irreplaceable items should not be brought to school. The school may confiscate such items and return them to the student's parent/guardians.

Damage to or loss of school equipment and facilities wastes taxpayers' money and undermines the school program. Therefore, if a student damages or loses school property, the student or his/her parents/guardians will be required to pay for the replacement or damage. If the damage or loss was intentional, the student will also be subject to discipline according to the Code of Conduct.

STUDENT CONDUCT

School rules apply at school, on school property, at school-sponsored events, and on school transportation.

It is the school staff's responsibility to provide a safe and orderly learning environment. History has shown that certain student actions are not compatible with the words "safe" and "orderly". Disciplinary action will be decided on a case-by-case basis and imposed after review of the facts and/or special circumstances of the situation.

- As educational institutions of this community, the schools should strive to prevent drug abuse and help drug abusers by educational, rather than punitive, means.
- For purposes of this policy, "drugs" shall mean:

USE OF TOBACCO AND NICOTENE IS PROHIBITED

The Board of Education is committed to providing students, staff, and visitors with a tobacco and smoke-free environment. The negative health effects of tobacco use for both users and non-users are well established. In addition, students less than eighteen (18) years of age are generally prohibited by law from purchasing or possessing cigarettes and other tobacco products.

For purposes of this policy, "use of tobacco" means to chew or maintain any substance containing tobacco, including smokeless tobacco, in the mouth to derive the effects of tobacco, as well as all uses of tobacco, including cigars, cigarettes, pipe tobacco, chewing tobacco, snuff, any other matter or substances that contain tobacco, in addition to papers used to roll cigarettes and/or the smoking of electronic, "vapor," or other substitute forms of cigarettes, clove cigarettes and any other lighted smoking devices for burning tobacco or any other substance. STUDENT CODE OF CLASSROOM CONDUCT

The School District of Manawa is committed to maintaining an orderly and safe academic atmosphere. Teachers are expected to create a positive learning environment and to maintain proper order in the classroom. Students are expected to behave in the classroom in a manner that allows teachers to effectively carry out their lessons and allows students to participate in classroom learning activities. Students are also expected to abide by all rules of behavior established by the School and their classroom teachers.

To ensure adherence to these expectations and principles, the Board of Education has adopted this Code of Classroom Conduct, which applies to all students.

GROUND FOR REMOVAL OF A STUDENT FROM CLASS

Disturbances that interrupt the learning process cannot be permitted by any teacher. A teacher may temporarily remove a student from the teacher's class if the student violates the Code of Classroom Conduct. Additionally, the student may be removed from the class for a longer period of time within the discretion of the principal. A student removed from class may also be placed in an alternative education setting.

Removal of a student from class for violating the Code of Classroom Conduct or placement of the student in an alternative educational setting does not prohibit the school from further disciplining the student for the conduct that caused removal or placement including, but not limited to, suspending or expelling the student.

It is neither possible nor necessary to specify every type of improper or inappropriate behavior for which a teacher may remove a student from class. Provided below, however, are examples of reasons a student may be removed from class. A teacher may remove a student from class for conduct or behavior that:

The teacher shall provide the principal with a written explanation of the reasons for the removal of the student within twenty-four (24) hours of the student's removal from class. The teacher will also contact the parent/guardian as to the reason for the removal.

The principal will generally give the student an opportunity to briefly explain the situation. The principal shall then determine the appropriate educational placement for the student.

Student Placement

The principal shall place the student, who has been removed from a class by a teacher, in one of the following alternative educational settings:

- A. An alternative education program approved by the Board under State law;
- B. Another instructional setting, time-out, in-school suspension or out-of-school suspension; or
- C. The class from which the student was removed if, after weighing the interests of the student, the other students in the class, and the teacher, the principal determines that readmission to the class is the best or only alternative.

Parent/Guardian Notification Procedures

The principal shall provide the parent or guardian of a student removed from class-with written notice of the removal and the reason(s) for the removal. The notification shall be made as soon as practicable, but no later than two (2) school days after the student's removal from class. The notice shall also include the reasons for the student's removal and the placement made by the principal. If the removal from class and change of educational placement involves a student with a disability, the parent/guardian notification shall be made consistent with State and Federal laws and regulations applicable to disabled students.

If the student removed from a class is subject to disciplinary action up to and including suspension or expulsion for the particular classroom conduct and/or other disciplinary incidents the parent/guardian shall also be notified of the disciplinary action in accordance with legal and policy requirements.

Students with Disabilities

A student with a disability under the Individuals with Disabilities Education Act, Section 504 of the Rehabilitation Act, and Section 115.758, Wis. Stat. may be removed from class and placed in an alternative educational setting only to the extent authorized under the laws.

Definitions

"Student" means any student enrolled in the District, an exchange student, or a student visitor to the District's schools.

Such activities include, by example and without limitation, District sponsored field trips, after-school clubs, and sporting activities.

OTHER FORMS OF DISCIPLINE

It is important to remember that the school's rules apply at school, on school property, at school-sponsored events, and on school transportation. In some cases, a student can be suspended from school transportation for infractions of school bus rules.

Ultimately, it is the principal's responsibility to keep things orderly. In all cases, the school shall attempt to make discipline prompt and equitable and to have the punishment match the severity of the incident.

Informal Discipline

Informal discipline takes place within the school. It includes:

- Change of seating or location;
- Lunch-time & after-school detention;
- In-school restriction
- Possible use of Saturday School – Saturday morning detention

- d. Conduct while not at school or while not under the supervision of a school authority that endangers the property, health or safety of others at school or under the supervision of a school authority;
- e. Conduct while not at school or while not under the supervision of a school authority that endangers the property, health or safety of any employee or School Board member of the school district in which the student is enrolled.

The District Administrator, or any principal or teacher designated by the District Administrator shall suspend a student if the student possessed a firearm while at school or while under the supervision of a school authority.

The suspension period applies to “school days.” Thus, a suspension period does not include weekend days or vacation days.

2. **Suspension Procedure**

Prior to being suspended, on the day of the alleged infraction or as soon thereafter as is practicable, the student will be advised orally or in writing of the reason for the proposed suspension and given an opportunity to explain his or her conduct.

The principal, within his or her discretion, may also inform the student’s parent/guardian of the reason for the proposed suspension prior to suspending the student.

3. **Notice of Suspension**

The parent/guardian of a suspended minor student shall be given prompt written notice of the suspension and the reason for the suspension by mail and by sending a copy of the notice home with the student. Oral notice may also be given to the student’s parent/guardian; however, it will be confirmed in writing.

4. **Sending a Student Home on the day of the Suspension**

Generally, the student should remain in school on the day of the suspension until school is dismissed for the day. Except as provided below:

- If the situation requires that the student be removed from the premises before school is dismissed, the principal shall attempt to contact the student’s parent/guardian to request that s/he pick up the student. If the parent/guardian is unable to pick up the student, the student should remain under the school’s supervision until school is dismissed, or in the event law enforcement is involved, under law enforcement supervision.

5. **Opportunity to Complete School Work**

A suspended student shall not be denied the opportunity to take any quarterly, semester or grading period examinations or to complete course work missed during the suspension period. Such work shall be completed pursuant to the procedures established by the School Board.

6. **Reference to the Suspension in the Student's Record**

The student's suspension from school shall be entered in the student's record as required by the rules adopted by the School Board concerning the content of student records.

The suspended student or the student's parent/guardian may, within five (5) school days following the commencement of the suspension, have a conference with the District Administrator or his or her designee, who shall be someone other than a principal, administrator or teacher in the suspended student's school, to discuss removing reference to the suspension from the student's records.

Reference to the suspension in the student's school record shall be removed if the District Administrator finds that:

- The student was suspended unfairly or unjustly;
- The suspension was inappropriate, given the nature of the alleged offense; or
- The student suffered undue consequences or penalties as a result of the suspension.

The District Administrator, or the administrator's designee, shall make his or her finding within fifteen (15) days of the conference.

7. **Co-Curricular or Extra-Curricular Participation**

A student's participation in co-curricular or extra-curricular activities during a suspension shall be determined on a case-by-case basis.

B. **Expulsion**

1. **Grounds for Expulsion**

The School Board may expel a student only when it is satisfied that the interest of the school demands the student's expulsion and it finds that the student:

- Repeatedly refused or neglected to obey the rules established by the School District;
- Knowingly conveyed or caused to be conveyed any threat or false information concerning an attempt or alleged attempt being made or to be made to destroy any school property by means of explosives;
- Engaged in conduct while at school or while under the supervision of a school authority that endangered the property, health or safety of others;
- Engaged in conduct while not at school or while not under the supervision of a school authority that endangered the property, health or safety of others at school or under the supervision of a school authority or endangered the property, health or safety of any employee or School Board member of the School District in which the student is enrolled; or

- Was at least sixteen (16) years old and had repeatedly engaged in conduct while at school or while under the supervision of a school authority that disrupted the ability of school authorities to maintain order or an educational atmosphere at school or at an activity supervised by a school authority and that such conduct did not otherwise constitute grounds for expulsion.

Under this section, conduct that endangers a person or property includes threatening the health or safety of a person or threatening to damage property.

2. **Expulsion for Bringing a Firearm to School**

The School Board shall expel a student from school for not less than one (1) year whenever it finds that the student brought a firearm to school or, while at school or while under the supervision of a school authority, possessed a firearm, unless the Board finds that the punishment should be reduced based upon the circumstances of the incident. Any such finding by the Board shall be in writing.

3. **Expulsion Hearing**

Prior to expelling a student, the School Board shall provide the student with a hearing. Prior written notice of the expulsion hearing must be sent separately both to the student and his/her parent/guardian if the student is a minor; otherwise just to the student. The notice will comply with the requirements of State law.

The student, or the student's parent/guardian if the student is a minor, has the right to request a closed hearing or the Board may choose to close the hearing. The student and, if the student is a minor, the student's parent/guardian may be represented at the hearing by counsel.

4. **Expulsion Order**

The Board shall reduce its decision to writing in the form of a written order. If expulsion is ordered, the order must state the length of time that the student is to be expelled. The order should also state specific findings of fact and conclusions of law in support of the decision.

5. **Student Records**

The student's expulsion from school shall be entered in the student's record as required by the rules adopted by the School Board concerning the content of student records.

Discipline of Disabled Students

Students with disabilities will be entitled to the rights and procedures afforded by the Individuals with Disabilities Education Act (I.D.E.A.) and the Americans with Disabilities Act (A.D.A.).

SEARCH AND SEIZURE

Search of a student and his/her possessions, including vehicles, may be conducted at any time the student is under the jurisdiction of the Board of Education, if there is a reasonable suspicion that the student is in violation of law or school rules. A search may also be conducted to protect the safety of others or as otherwise permitted by law.

Students are provided lockers, desks, and other equipment in which to store materials. This equipment is the property of the school and may be searched at any time if there is reasonable

suspicion that a student has violated the law or school rules. Locks are to prevent theft, not to prevent searches.

All computers located in classrooms, labs and offices of the District are the District's property and are to be used by students, for educational purposes. The District retains the right to access and review all electronic, computer files, databases, and any other electronic transmissions contained in or used in conjunction with the District's computer system, and electronic mail. Students should have no expectation that any information contained on such systems is confidential or private.

Review of such information may be done by the District with or without the student's knowledge or permission. The use of passwords does not guarantee confidentiality, and the District retains the right to access information in spite of a password. All passwords or security codes must be registered with the instructor. A student's refusal to permit such access may be grounds for disciplinary action.

No strip searches will be conducted by any employee of the District, but may be conducted by law enforcement officials, if deemed necessary.

Anything that is found in the course of a search that may be evidence of a violation of school rules or the law may be taken and held or turned over to the police. The school reserves the right not to return items which have been confiscated.

STUDENT'S RIGHTS OF EXPRESSION

Little Wolf High School recognizes the right of students to express themselves. With the right of expression comes the responsibility to do it appropriately. Students may distribute or display, at appropriate times, non-sponsored, noncommercial written material and petitions; buttons, badges, or other insignia; clothing, insignia, and banners; and audio and video materials. All items must meet the following school guidelines:

- A. A material cannot be displayed if it:
 - 1. Is obscene to minors, libelous, indecent, or vulgar,
 - 2. Advertises any product or service not permitted to minors by law,
 - 3. Intends to be insulting or harassing,
 - 4. Intends to incite fighting or presents a likelihood of disrupting school or a school event.
 - 5. Presents a clear and present likelihood that, either because of its content or manner of distribution or display, it causes or is likely to cause a material and substantial disruption of school or school activities, a violation of school regulations, or the commission of an unlawful act.

- B. Materials may not be displayed or distributed during class periods, or during passing times between classes. Permission may be granted for display or distribution during lunch periods and after school in designated locations, if exits are not blocked and there is proper access and egress to the building.

Students who are unsure whether or not materials they wish to display meet school guidelines may present them to the principal twenty-four (24) hours prior to display.

STUDENT SUGGESTIONS AND COMPLAINTS

The school is here for the benefit of the students. The staff is here to assist a student in becoming a responsible adult. If a student has suggestions that could improve the school, s/he should

feel free to offer them. Written suggestions may be presented directly to the principal or to the student government.

When concerns or grievances arise, the best way to resolve the issue is through communication. No student will be harassed by any staff member or need fear reprisal for the proper expression of a legitimate concern. As with suggestions, concerns and grievances may be directed to the Principal or to the student council.

SECTION V - TRANSPORTATION

BUS TRANSPORTATION TO SCHOOL

Bus transportation is provided for all eligible students. The bus schedule and route are available by contacting Kobussen Buses at 920-389-1500.

Students will ride only assigned school buses and will board and depart from the bus at assigned bus stops. Students will not be permitted to ride unassigned buses for any reason other than an emergency, except as approved by the principal.

A change in a student's regular assigned bus stop may be granted for a special need, if a written request from a parent/guardian is submitted to the principal stating the reason for the request and the duration of the change and the principal approves.

BUS CONDUCT

Students who are riding to and from school on transportation provided by the school are required all school rules.

The driver is responsible for student safety and may assign seating or direct the student in any reasonable manner to maintain that safety.

The following rules and behaviors are expected of all students:

Previous to loading, during the trip, and leaving the bus

Each student shall:

- Be on time at the designated loading zone (10 minutes prior to scheduled stop);
- Stay off the road at all times while walking to and waiting for the bus;
- Line up single file off the roadway to enter;
- Wait until the bus is completely stopped before moving forward to enter;
- Refrain from crossing a highway until the bus driver signals it is safe;
- Go immediately to a seat and be seated.
- It is the parent/guardians' responsibility to inform the bus driver when their child will not be boarding the bus. The bus will not wait.

During the trip

Each student shall:

- Listen to the bus driver;
- Remain seated while the bus is in motion;
- Keep head, hands, arms, and legs inside the bus at all times;
- Not litter in the bus or throw anything from the bus;
- Keep books, packages, coats, and all other objects out of the aisle;

- Be courteous to the driver and to other bus riders;
- Not eat, play games or play cards, etc.;
- Not tamper with the bus or any of its equipment;
- Keep aisle clear;
- Keep hands to self;
- Use respectful voices/volume.

Leaving the bus

- Each student shall:
- Remain seated until the bus has stopped;
- Cross the road, when necessary, at least ten (10) feet in front of the bus, but only after the driver signals that it is safe;
- Be alert to a possible danger signal from the driver.

The driver will not discharge students at places other than their regular stop at home or at school unless s/he has proper authorization from school officials.

VIDEOTAPES ON SCHOOL BUSES

All buses are equipped with video and audio recording devices for the purposes of monitoring student behavior.

If a student is reported to have misbehaved on a bus the Principal may request the tape and it may be used as evidence of the misbehavior. Since these tapes are considered part of a student's record, they can be viewed only in accordance with State and Federal law.

PENALTIES FOR INFRACTIONS

A student who engages in misconduct on a bus shall be subject to discipline and may be deprived of the privilege of riding on the bus.

SELF-TRANSPORTATION TO SCHOOL

- Driving to school is a privilege which can be revoked at any time. Students who are provided the opportunity to ride school transportation are encouraged to do so. Students and their parent/guardians assume full responsibility for any transportation to and from School not officially provided by the school.
- The following rules shall apply.
- Parking lot speed limit is 5 mph.
- **STUDENT PARKING LOT PERMIT: \$10.00**
A new car/truck permit is required every year. It must be displayed behind the rear-view mirror. Police patrol the parking lot. Students failing to display their parking permit will be fined.
- **SNOWMOBILE PERMIT \$ 5.00**
A new snowmobile permit is required every year. It must be displayed on the side of the snowmobile visible for the police to see. There will be a fine for students not displaying the snowmobile permit.
- If a student's permit is suspended, no fees will be refunded. Failure to comply with these rules will result in loss of privileges and/or disciplinary actions for the student.

- When the school provides transportation, students shall not drive to school-sponsored activities, unless written permission is granted by their parent/guardians and approved by the Principal.
- No other students can be driven to a school-sponsored activity by the approved student driver without a note from parent/guardians of passenger students granting permission and approval by the Principal.

Re: Revised Bell Schedule for 2020-2121 School Year

The purpose of this memo is to provide details as to the Manawa Middle School and Little Wolf High School Bell Schedule for 2020-2021. The reason for the change in bell schedule was to create a period for students to be able to have lunch in the classrooms with supervision and provide for a 30-minute duty-free lunch for the staff. 4 minutes were trimmed from each instructional period.

Bell Schedule:

Period 1	7:45-8:31
Period 2	8:35-9:21
Period 3	9:25-10:11
Period 4	10:15-11:01
HS Period 5	11:05-11:51
11:01-12:01	MS Lunch
11:51-12:51	HS Lunch
Period 6	12:55-1:41
Period 7	1:45-2:31
RtI	2:35-3:05

- Manawa Middle School students will be released from class if they need to travel outside of the Middle School Suite area once the halls have cleared.
- Freshman and Sophomore students will be released two minutes before the bell and have a total of 4 minutes to get to class.
- Junior and Senior students will be released into the hall two minutes after the bell has rung and will be given 4 minutes to get to their next class.

Re: 2020-21 Student Accident Insurance

June memo

Recommendation:

I recommend purchasing student accident insurance from Berkley Accident and Health through the First Agency.

Rationale:

I was contacted by First Agency in February 2020 about receiving a quote for student accident insurance by John Griesbach, the area vice president. The quote was an annual fee of \$1,950. First Agency is a Gallagher Company and is in Kalamazoo, MI.

Our current provider is Student Assurance Services, Inc. in Stillwater, MN. The quote remains the same as it has been for multiple years, \$3.75 per student. Currently, we have 634 students putting the fee at \$2,377.50. Due to the shortened 2019-20 school year, Student Assurance is offering a \$243.75 rate credit putting the total for 2020-21 at \$2,133.75.

Families that have tried to make claims from Student Assurance have indicated that this is not an easy company to work with. Due to this and the lesser cost, I believe that changing to Berkley is in the best interest of the School District of Manawa.

Update July 7, 2020:

Recommendation:

I change my recommendation to Student Assurance. In the table below, I believe Student Assurance offers our families better coverage benefits and ultimately costs the District less.

Rationale:

Student Assurance Services lowered their cost by \$0.50 per student after discovering that the District was looking at another provider, a cost savings of \$317. They also include a rate credit and will remove the \$250 deductible for the all-pupil coverage. The First Agency covers higher costs for hospital room and board and physician visits. Student Assurance covers higher costs for ambulance services and durable medical equipment. Student Assurance has dropped the \$250 deductible and is \$133.25 less for the annual premium. See below for a comparison.

	First Agency	Student Assurance
Annual Premium	\$1,950	\$3.25 per student (634 students) \$2,060.50 Less \$243.75 credit \$1,816.75
Accident Medical Expense	\$25,000	\$25,000
Dental Sub-limit	\$5,000	\$5,000
Deductible	\$250	\$0
Loss Period	60 days after the date of the accident	60 days after the date of the accident
Ambulance	\$250	\$500
Physician Non-surgical Visits	\$50	\$40
Hospital Room & Board	\$500 per day	\$300 per day
Durable Medical Equipment	\$200	\$300

All non-listed services are equitable.

I contacted the Rosholt School District and Tri-County Area School District as reference checks for First Agency. Neither school had a complaint about First Agency nor did they have much contact with the company.

Hi Carmen!!

Shoot, I wish I would have known you were looking elsewhere. Not sure if it's too late but I talked to my director who said we can take .50 per student and still include the rate credit. Your 2020-2021 total premium would be \$1,868.75. We would also be willing to remove the \$250 Deductible and change to No Deductible for your All-Pupil Coverage.

Please let me know if this could still be considered. I would like to continue doing business with your school district!!

0131.1 - **BYLAWS AND POLICIES**

The Board of Education shall adopt bylaws and policies for the organization and operation of this Board. Such policies are to include those needed to meet the education standards established by Wisconsin Statute.

Bylaws and policies not dictated by the statutes or rules of the Department of Public Instruction or ordered by the State Superintendent of Public Instruction or a court of competent authority may be adopted, amended, and repealed at any meeting of the Board.

Adoption of new or revised policies, as well as the deletion of policies, is solely the responsibility of the Board. Recommendations for new or revised policies shall be brought to the Board for consideration at two (2) scheduled Board meetings. At the first meeting, the Board shall discuss the proposed policy and offer any suggested changes. At a subsequent meeting the Board may vote on the adoption of the policy, including any amendments approved by the Board.

On matters of unusual urgency, and following a Board vote to waive the two (2) meeting process, a new proposed policy may be introduced and acted upon at the same meeting. Policy revisions that include only stylistic or minor content changes may be adopted at the same meeting initially presented.

Bylaws and policies shall be adopted, amended, repealed, or suspended by a majority vote of the Board.

The Board may adopt, amend, or repeal rules of order for its own operation by simple resolution of the Board passed by a majority of those present and voting.

The adoption, modification, repeal, or suspension of a Board bylaw or policy shall be recorded in the minutes of the Board. All bylaws and policies shall be included in the Board policy manual.

The District Administrator is authorized to review and make technical corrections to policies that have already been adopted through normal rulemaking procedures. Technical corrections are those corrections to policy language or construction that do not reflect a policy decision or substantive consideration by the Board, such as correction of a typographical or grammatical error, inclusion or correction of a statutory citation, renumbering of sections, combining of policies, or similar actions. I. INTRODUCTION

A. WELCOME

We are pleased to have you as a member of the faculty of the School District of Manawa (SDM). The skills and commitment each employee brings to his/her job makes an important contribution to our goal of providing excellence in education to the students and families of the SDM. It is the District's responsibility to provide for the public education of students from 4-year-old kindergarten (4-K) through twelfth grade. The school system is governed by a seven-member Board of Education elected by area for 3-year terms by the residents of the District. The District Administrator is responsible for overall administration of the schools and implementation of Board policies. A SDM employee can expect a fair and equitable salary, competitive benefits, and the opportunity to be a part of the best that public education has to offer. We are pleased to have you as a member of our team and hope that you find that the satisfaction gained from doing your job matches the effort you put into your work.

It is each employee's responsibility to read and become familiar with this information and to comply with the policies adopted by the Board and the administrative guidelines available electronically on the District website, as well as the rules and regulations contained herein.

This *Professional Educator Handbook* has been written to provide information and guidance to faculty members. Given the reality of a complex, ever-evolving organization, the information in this handbook is not all-inclusive. We recognize that employees are bound to have many questions relating to their specific position or responsibilities. You are encouraged to direct any specific inquiries you may have to the District Administrator or your immediate supervisor.

B. DISCLAIMER

This Employee Policy Manual has been prepared for informational purposes only. None of the statements, policies, procedures, rules or regulations contained herein constitute a guarantee of employment, a guarantee of any other right or benefit, or an appointment of employment, expressed or implied. All of the District's employees are employed "at will" and employment is not for any definite period, unless otherwise set forth in writing by appointment or statute. The School District of Manawa Board of Education reserves the right to add, delete or otherwise modify any or all of the below terms and conditions of employment, in whole or in part, for the good of the School District of Manawa, at any time with or without notice. The School District of Manawa Board of Education recognized the District's employees are an integral part of the development of terms and conditions of employment found within this Handbook. The Board of Education and/or its representatives will inform district employees prior to making any modifications found within this Handbook.

Violations of the terms of the *Professional Educator Handbook*, policies, regulations, or guidelines may result in disciplinary action, up to and including, termination of employment.

This *Professional Educator Handbook* supersedes any and all previous handbooks, statements, policies and administrative guidelines, rules, or regulations given to employees, whether verbal or written.

This Handbook is not all-inclusive of the information for which faculty members are responsible for knowing and following. Additional publications that faculty members should follow include, but are not limited to, Board policies and guidelines, the *Teacher Performance Evaluation* (TPE) document, building bulletins and handbooks, the Mentoring Handbook, administrative announcements, and curriculum guides.

II. EMPLOYMENT POLICIES

A. ANTI-HARASSMENT POLICY

The School District of Manawa is committed to maintaining and ensuring a working environment that is free of harassment or intimidation. The District will not tolerate any form of harassment, including sexual harassment, and will take all necessary and appropriate action to eliminate it. *(See Policy 3362.)*

Harassment refers to physical or verbal conduct, or psychological abuse, by any person who disrupts or interferes with a person's work performance, or which creates an intimidating, hostile, or offensive work environment. Harassment may be student to staff, staff to student, staff to staff, male to female, female to male, female to female, or male to male. Harassment may include, but is not limited to the following:

1. Verbal harassment, including epithets, kidding, derogatory comments, slurs, or ethnic jokes.
2. Physical interference with movement, activities, or work.
3. Visual harassment, including derogatory cartoons, drawings, or posters.
4. Sexual harassment, which is defined as any deliberate, repeated or unwanted verbal or physical sexual contact, sexually explicit derogatory statement, or sexually discriminating remark that is offensive or objectionable to the recipient or which causes the recipient discomfort or humiliation or which interferes with the recipient's work performance. Sexual harassment can take the form of any unwanted sexual attention ranging from leering, pinching, patting, verbal comments, display of graphic or written sexual material, and subtle or expressed pressure for sexual activity. In addition to the anxiety caused by sexual demands on the recipient, sexual harassment may include the implicit message from the alleged offender that noncompliance will lead to reprisals. Reprisals may include, but are not limited to, unsatisfactory work evaluations, different treatment, sarcasm, or unwarranted comments to or by peers.

Any individual who believes he/she has been subjected to harassment by any other person should report that incident to a building principal or to the District Administrator. If an employee is not comfortable making a complaint to their building principal or the District Administrator, the complaint may be made to the District Compliance Coordinators. It is the intent of the District to establish an atmosphere where complaints are timely investigated and the harassment is appropriately addressed. The Board designates the following individuals to serve as the District's Compliance Officers:

Dan Wolfgram, Secondary Principal
515 E. Fourth St.
Manawa, WI 54949

920-596-2524

dwolfgram@manawaschools.org

Carmen O'Brien, Business Manager
800 Beech Street
Manawa, WI 54949

920-596-2524

cobrien@manawaschools.org

The District forbids retaliation against anyone who has reported harassment or cooperates in a harassment investigation.

B. COMMUNICATIONS AND SUGGESTIONS

The District values the comments and suggestions of its employees concerning work methods and operations. Employees should follow the chain of command by bringing the concern or idea forward to his/her immediate supervisor/evaluator.

C. CONFLICT OF INTEREST AND ETHICAL STANDARDS

Professional educators are expected to maintain high standards of honesty, integrity, impartiality, and professional conduct. Further, professional staff members are expected to perform their duties in a manner free from conflict of interest pursuant to §19.59 and § 946.13 Wisconsin Stats.

D. DRUG-FREE WORKPLACE

The District seeks to provide a safe, drug and tobacco-free workplace for all of its employees. The manufacture, distribution, dispensation, possession, or use of tobacco, alcohol, inhalants, controlled substances, substances represented to be such (i.e. fake or look-alike substances), or unauthorized prescription medication, is prohibited on school premises, in school vehicles, or at school activities. In addition, the District will not condone the involvement of any employee with illicit drugs, even where the employee is not on District premises. Employees of the school system shall not possess, use, be under the influence of, or distribute any illegal drug, unauthorized prescription medication or alcoholic beverage as defined in Wisconsin Statutes while on school premises, during working hours or while responsible for chaperoning students on school-sponsored trips. Any employee who possesses, uses, or distributes any illegal drug, unauthorized prescription medication or alcoholic beverage on school premises, during working hours or while responsible for chaperoning students on a school-sponsored trip may be disciplined, up to and including termination of employment. All school employees shall cooperate with law enforcement agencies in investigations concerning any violation of this provision.

As a further condition of employment, an employee who is engaged in the performance of a federal grant shall notify the District Administrator of any criminal drug statute conviction for a violation occurring in the workplace no later than three days after such conviction. Within ten days of receiving such notice – from the employee or any other source – the District shall notify the federal granting agency of the conviction. 41 U.S.C. 702(a)(1)(D).

After receiving notice from an employee of a conviction for any drug statute violation occurring in the workplace, the District shall either (1) take appropriate personnel action against the employee, up to and including termination of employment, or (2) require the employee to participate satisfactorily in a drug abuse assistance or rehabilitation program approved for such purposes by a federal, state, or local health agency, law enforcement agency, or other appropriate agency. 41 U.S.C. 703 [This notice complies with notice requirements imposed by the federal Drug-Free Workplace Act (41 U.S.C. 702)].

E. EQUAL EMPLOYMENT OPPORTUNITY

The Board does not discriminate in the employment of support staff on the basis of the Protected Classes of race, color, national origin, age, sex (including transgender status, change of sex, sexual orientation, or gender identity), pregnancy, creed or religion, genetic information, handicap or disability, marital status, citizenship status, veteran status, military service (as defined in 111.32, Wis. Stats.), national origin, ancestry, arrest record, conviction record, use or non-use of lawful products off the District's premises during non-working hours, declining to attend an employer-sponsored meeting outside of professional responsibilities, or to participate in any communication with the employer about religious matters or political matters, or any other characteristic protected by law in its employment practices (as defined in §111.32, Wis. Stats.). (*Policy 3122, 4122*)

F. IMMIGRATION LAW COMPLIANCE

The District is committed to employing only United States citizens and aliens who are authorized to work in the United States. Therefore, in accordance with the Immigration Reform and Control Act of 1986, employees must complete an I-9 form before commencing work and at other times prescribed by applicable law or District policy.

G. OUTSIDE ACTIVITIES OF STAFF

Professional educators are expected to avoid situations in which their personal interests, activities, and associations may conflict with the interests of the District. This would include engaging in social media communications that may portray the District in a negative light.

H. PERSONNEL FILES

It is critical to effective human resource management and necessary for satisfaction of legal obligations that the Board maintains accurate personnel records. If an employee has a change in any of the following information, the employee is expected to contact the Payroll Office as soon as possible:

1. Legal name
2. Home address
3. Primary telephone number
4. Emergency contact
5. Marital status
6. Change of beneficiary
7. Exemptions (W-4 Tax Form)

Any access granted for review and inspection of a personnel file must be completed in accordance with state law. The District shall maintain personnel records of employees and grant access to inspect or review those records as provided for in §103.13 Wis. Stats.

If there is any disagreement with the content or information contained in an employee's personnel record, the employee will follow the process established to either have a correction made to the information in question or to have the content in question removed from the file.

I. POLITICAL ACTIVITIES OF STAFF

Because political activities may be disruptive, divisive, and distracting to a positive learning environment, such activities are not appropriate within the school setting. The Board prohibits political activities on all District owned and used property, within all school buildings, in school buses and vehicles, and at all school-sponsored activities unless part of a Board approved teaching unit.

J. CIVIC ACTIVITIES OF STAFF

Developing a sense of civic engagement and promoting a democratic society is at the heart of public education. Staff is encouraged to promote civic education.

III. EMPLOYMENT CONDITIONS

A. EMPLOYEE EXPECTATIONS

1. Attendance

The District expects employees to make every effort to be present for work. Employees are expected to adhere to their assigned schedule. In order for the District to operate effectively, employees are expected to perform all assigned duties. Teachers are professionals with a unique set of skills and competencies. They shall be present for the students they teach or supervise and shall organize their schedules to satisfy the demands of their profession. When leaving the school premises, they shall sign out in the school office.

Employees who are unable to report to work shall follow the procedures for reporting his/her absence and obtaining a substitute. Any time spent not working during an employee's scheduled day must be accounted for in the substitute assignment system. The District monitors attendance and absence patterns. Theft of time and/or improper modification of time worked records will be investigated and will result in disciplinary action up to and including termination. Failure to notify the District of an absence and failure to report to work on such day could result in disciplinary action up to and including termination. Failure to return to work the day following the expiration of an authorized leave of absence may result in termination of employment.

2. Background Checks for Employment

Anyone applying for a position in the District is required to file in writing, in advance of employment on forms provided by the District, a statement identifying whether the applicant:

- a. Has been convicted of a misdemeanor or felony in this state or any other state or country; and
- b. Has been dismissed or non-renewed, or has resigned from employment in-lieu-of a potential dismissal or non-renewal, for any of the following causes: failure to meet a district's performance expectations, incompetence, inefficiency, neglect of duty, potentially illegal conduct, unprofessional conduct, or insubordination.

Knowingly falsifying or omitting information shall be sufficient grounds for termination of employment.

Additionally, anyone applying for any position shall be required to agree to the release of all records to the Board for examination for the purpose of verifying the accuracy of background and criminal violation information. Employment will be offered pending the return and disposition of such background checks. All offers of employment are contingent upon the results of such checks.

3. Child Abuse Reporting Requirement

Wisconsin Statutes 48.981 requires all school district employees to report cases of suspected child abuse or neglect. Each professional educator employed by the District who has reasonable cause to suspect child abuse or neglect shall be responsible for reporting immediately every case, whether ascertained or suspected, of abuse or neglect resulting in physical or mental injury to a student by other than accidental means. The professional educator shall immediately notify the appropriate administrator according to the District's Reporting Procedure for Student Abuse or Neglect and be responsible for contacting the appropriate authorities (Manawa Police Department, Waupaca County Sheriff's Department, and/or Waupaca County Department of Health and Human Services) who will then provide additional steps depending on the situational details and the child's residence address.

A reporting staff member shall not be dismissed or otherwise penalized for making a report of child abuse or neglect. Failure to report cases of suspected child abuse or neglect shall result in discipline, up to and including discharge.

4. Confidentiality

Wisconsin Statutes 118.125 and 118.26 outline the confidentiality of all student records including behavioral, health, and academic records. The District interprets these statutes to mean that unless an individual has a "right to know," the academic, health, and behavioral records of students are not to be shared. This can be carried forward to both the written record and verbal conveyance of student health, academic, and behavior progress (or lack thereof). Open discussion of student progress, behavior, or health issues with individuals that do not have a "right to know" could be contrary to Wisconsin Statutes and could compromise professional accountability. These statutes are not intended to restrict staff from asking for assistance or ideas on how to handle a particular situation.

Failure to maintain the confidentiality of student records shall result in discipline, up to and including, termination of employment.

5. Copyright

A variety of machines and equipment for reproducing materials to assist employees in carrying out their educational assignments are available to professional educators in both the school and home setting. Infringement on copyrighted material, whether prose, poetry, graphic images, music audiotapes, video, or computer-programmed materials, is a serious offense against federal law, a violation of Board policy, and contrary to ethical standards for District employees. All reproduction of copyrighted material shall be conducted strictly in accordance with applicable provisions of law. Unless otherwise allowed as “fair use” under federal law, permission must be acquired from the copyright owner prior to reproduction of material in any form. Employees are further advised that copyright provisions apply to all forms of digital media.

6. District Safety Plan

The District has standardized emergency procedures for use when the situation requires emergency safety measures. Each professional educator should know exactly what the emergency procedures are and where the emergency procedures are located for the assigned classroom or work location. Employees must follow the prescribed procedures during any emergency drill or situation.

7. Identification Badge

In order to maintain a safe, secure environment, all employees are required to have their photographs taken and to wear the District-issued identification badge during the work day and at District functions when serving in a rework-related role.

8. District Property

The District may supply an employee with equipment or supplies to assist the professional educator in performing his/her job duties. All employees are expected to show reasonable care for any equipment issued and to take precautions for theft.

Employees may not utilize District property for personal use or gain. Limited use of telecommunications equipment, computer equipment, software, and minimal duplication-for-a-fee copy machine use are exceptions when used appropriately and do not interfere with the work responsibilities of the professional educator.

Any equipment, unused supplies, or keys issued must be returned prior to the professional educator’s last day of employment, including, but not limited to employee identification badges, parking permit, keys, and the key fob for building entry.

9. Emergency Drills

Every school conducts emergency drills in accordance with state law. All employees present in a building at the time of an emergency drill are required to participate in the drill.

10. Equipment Disposal or Relocation

All District-owned equipment intended to be moved to another building site or declared surplus for disposal purposes must first be approved by the principal for such change in use. An “Equipment Disposal/Relocation Request Form” must be submitted to and approved by the principal before any change is made. Classroom or building inventories should be adjusted accordingly.

11. False Reports

Employees may be disciplined for filing false reports or statements including, but not limited to, the following: accident reports, attendance reports, insurance reports, investigatory interviews, physician’s

statements, pre-employment statements, paid leave requests, student records, tax withholding forms, and work reports.

12. Homework

Professional educators must be familiar with and abide by the District's policy and administrative guidelines regarding the assignment of homework to students. (*Policy 2330*)

13. Information Technology

The Manawa Board of Education has established policies that specify the rules for employee use of District-owned technology as well as personally-owned technology. Professional educators are expected to know and abide by the District's policies and administrative guidelines related to use of technology.

Users of the District's information technology should have no expectation of privacy in the content of their personal files and records of their online activity while on the District's network.

14. Injuries to Employees

Professional educators are covered under Workers Compensation Insurance (Section 102.31, Wis. Stats.). In accordance with District policy, any work-related injury must be reported to the school office immediately so that proper reports may be filed for medical/hospital bills as well as claims for time off from work due to the injury. Failure to report an injury may jeopardize an employee's claim for payment of medical bills, disability claims, and/or back wages. Injuries sustained while on the job may not be covered under an employee's personal health insurance. It is the employee's responsibility to file injury reports with the school office within 24 hours of the event; the District assumes no responsibility for filing such reports.

15. Injuries to Students

Professional educators are responsible for reporting any student injury to the school office immediately. Each school's procedures for first aid, medical assistance, emergency assistance, parental contact, and appropriate written reports will be followed within 24 hours of the event.

16. Legal Actions Involving Employees

Every professional educator shall notify his/her principal as soon as possible, but no more than three calendar days after any arrest, indictment, conviction, no contest or guilty plea, or other adjudication of the employee for any felony or misdemeanor, or any offense involving moral turpitude.

The requirement to report an arrest, indictment, conviction, no contest or guilty plea, or other adjudication shall not apply to minor traffic offenses. However, an offense of operating under the influence, revocation or suspension of license, and driving after revocation or suspension must be reported if the employee drives or operates a District vehicle or piece of mobile equipment or transports students or staff in any vehicle. Failure to report under this section may result in disciplinary action, up to and including termination of employment. Such report shall be made as soon as possible, but in no circumstance more than three calendar days after the event giving rise to the duty to report. The District may conduct criminal history and background checks on its employees. An arrest, indictment, conviction, no contest or guilty plea, or other adjudication shall not be an automatic basis for termination of employment. The District shall consider the following factors in determining what action, if any, should be taken against an employee who is convicted of a crime during employment with the District:

- a. the nature of the offense;
- b. the date of the offense;
- c. the relationship between the offense and the position to which the employee is assigned.

Nothing herein shall prohibit the District from placing an employee on administrative leave based upon an arrest, indictment, or conviction.

17. Licensure/Certification

The term “teacher” means any person who is required to hold a certificate issued by the Department of Public Instruction (e.g., classroom teachers, librarians, counselors, etc.).

Evidence of such legal authority to teach must be filed with the District Administrator prior to the effective date of any teaching appointment.

All matters related to obtaining and renewing a teaching license or certification is the professional educator’s personal responsibility. Each professional educator who is required to be licensed or certified by law must provide the District with a copy of his/her current license or certificate to be maintained in his/her personnel file. Professional educators are expected to know the expiration date of their license/certification and meet the requirements for re-licensure or certification in a timely manner. A teaching contract with any person not legally authorized to teach the named subject shall be void. All teaching contracts shall terminate if, and when, the employee’s authority to teach terminates, and no person shall be employed with an expired license. Employees shall maintain the licenses that are in effect upon hire. If a teacher changes his/her certification with the Department of Public Instruction, he/she must immediately notify the District Administrator in writing.

18. Operation of District Vehicles

All professional educators who drive a District vehicle must provide proof of a valid driver’s license. Continued use of District vehicles is contingent on following the rules and procedures for using District vehicles. Professional employees who drive District vehicles must notify his/her principal immediately of any driving citation or conviction of a traffic violation. Principals receiving such notice will immediately notify the District Administrator. Payment for any citations received while driving a District vehicle is the responsibility of the driver. The reporting provision applies to citations or convictions as a result of operating either a District or personal vehicle.

The District completes background checks on all employees that includes the employee’s driving record. A staff member may have restrictions on transporting students or may be restricted from driving a district vehicle based on the information contained in the driving record.

19. Operation of Personal Vehicle

Professional educators who are required to drive their personal vehicle for District business or activities will be reimbursed at the IRS rate. The employee’s personal insurance shall serve as the first level of coverage. If a professional educator is transporting students in a personal vehicle, the person is required to have the Department of Transportation vehicle inspection form completed and submitted to the District Office prior to transporting students. In addition, a copy of the professional educator’s valid driver’s license and copy of proof of insurance must also be submitted to the District Office. (*Administrative Guideline 8660*)

20. Outside Employment

Outside employment is regarded as employment for compensation that is not within the duties and responsibilities of the professional educator’s regular position with the District. Professional educators shall not be prohibited from holding employment outside the District as long as such employment does not interfere with assigned school duties as determined by the District. The Board expects professional educators to devote maximum effort to the position in which employed. A professional educator will not perform any duties related to an outside job during the additional time that the responsibilities of the District’s position requires; nor will a professional educator use any District facilities, equipment, or materials in performing outside work. When the periods of work are such that certain evenings, days, or vacation periods are duty free, the professional educator may use such off-duty time for the purposes of non-school employment.

21. Physical Examination, Drug Test, and Tuberculosis Risk Assessment

As a requirement for employment and in accordance with section 118.25 of the Wisconsin Statutes, employees will be required to furnish evidence of a physical examination and a Wisconsin tuberculosis (TB)

risk assessment questionnaire screening form. When hired, a professional educator will be given a conditional offer of employment, contingent on evidence that the employee is of sound health and able to perform the essential functions of their job.

The physical examination will be performed by ThedaCare at Work.

A Wisconsin tuberculosis (TB) risk assessment questionnaire screening form (if not already reviewed by the District Nurse) and drug test must also be performed by ThedaCare at Work. The results of the testing must be submitted to the District Administrator before the effective date of employment.

Fitness for Duty: The District may require a physical and/or mental examination at the expense of the District where reasonable doubt arises concerning the professional educator's ability to perform the essential functions of his/her job, and consistent with the limitations imposed by applicable State and Federal law. Failure to comply with this request or failure to provide a doctor's certification of fitness for duties assigned may result in discipline, up to and including, termination of employment.

22. Professional Appearance

Professional educators are expected to be neat and professional in their dress and grooming. When on duty for the District, professional educators are role models for students and are expected to dress in a manner that is consistent with District expectations. Business casual is most appropriate. Casual dress is appropriate for field trips, shop experience, lab experiment, or clean-up which would possibly soil clothing. Employees must get approval from their principal if they feel business casual would not be appropriate for their level or certain activity. Administration will determine when personal protective equipment must be worn. On occasion, there are theme-based school/district sponsored days (ex. Homecoming, Think Pink, Red Ribbon Week, or sports-related days) where exceptions are made to the usual business casual dress.

23. Professional Development

All professional educators are expected to pursue independent and active efforts to maintain high standards of individual excellence. Such efforts shall include keeping current in each specific and applicable area of instruction, Board established curriculum, as well as continuing study of the art of pedagogy. In addition to maintaining high standards of excellence for the students and school, each professional educator will make him/herself available during the contractual year and day to his/her colleagues for assistance, to the District for services beyond those specifically required as part of his/her individual contractual duties, and to the community as a valuable resource.

24. Residency

The District encourages employees to reside within the school district.

25. Safety Training

Professional educators for whom training in the following areas is deemed necessary and appropriate shall be trained as part of the District's safety program:

- a. the control of blood-borne pathogens
- b. the information regarding hazardous chemicals
- c. the use of automated external defibrillators
- d. the control of casual-contact communicable diseases
- e. the control of direct-contact communicable diseases
- f. the use of Cardio-Pulmonary Resuscitation (CPR)
- g. the use of Basic First Aid

Administrators may designate any safety training a condition of continued employment when provided at the District's expense.

26. Solicitations

Employees may not use their positions to solicit funds, recruit membership, disseminate personal or political information that in any way interferes or distracts from the District's vision, mission, and purpose.

27. Student Supervision

The District requires each professional educator to maintain a standard of care for supervision, control, and protection of students commensurate with the employee's assigned duties and responsibilities.

28. Student Teachers

The District recognizes its responsibility to assist in the training of future teachers by providing classroom placements for student teachers. Professional educators of the District will comply with the District's rules and procedures for the placement and supervision of student teachers.

29. Substitute Teachers

Professional educators must use the District's procedures whenever a substitute teacher is needed. Student teachers shall not be used as substitutes. Only the sub caller may make arrangements for substitutes, except when a principal must utilize internal substitutes due to an emergency situation or when a professional educator intends to be absent for non-school business for less than a half-day for which the professional educator must make arrangements with a colleague for coverage and notify the principal of the arrangements in advance of the absence. Substitute teachers are directly responsible to the building principal during the time they are assigned to that principal's building. Professional educators are responsible for providing current seating charts, lesson plans, classroom rules, and other information necessary for the orderly and effective operation of the class by the substitute.

Teachers who are asked to substitute for another teacher will receive \$18.00 per class period.

30. Unpaid Debt to the District

Employees that accrue debt due to unpaid food service bills, non-sufficient funds check, or other reasons will have this amount subtracted from their pay on the June 15th payroll.

31. Volunteers

The District encourages community interest and participation in its schools in many ways, one of which is provision for volunteer service by qualified adults in assisting students and teachers in a variety of school and classroom-related activities. Proper utilization of volunteers not only affords personal satisfaction to adults interested in volunteer service, but it also affords increased learning opportunities to students who can benefit from a variety of learning experiences provided by the volunteer under the direction of the professional educator. All volunteers who work directly with students are required to have the District-prescribed annual background check. Special rules apply for teen volunteers.

Designated volunteer programs such as the Senior Tax Exchange Program (STEP) are of particular value to the students of the District. Because of the value of these designated volunteer programs and of volunteers in general, professional educators are expected to support the use of volunteers in their schools, their classrooms, and during school activities. Volunteers are to complete tasks of educational benefit set for them by the professional educators they are assisting. A volunteer is not empowered to independently diagnose student learning needs or prescribe student activities or formally evaluate student work. The latter tasks are reserved for the professional educator responsible for the students.

32. Work Spaces

Professional educators are expected to maintain professional and appropriate work spaces that are consistent with the professional educator's assignment and the District's educational program. Personal items should be kept to a minimum and should never violate District policies or directives. Personal appliances (e.g., coffee makers, refrigerators, microwaves) are not permitted in classroom settings unless there is an educational

rationale and written approval of the principal.

Employees have no expectation of privacy with respect to any item or document stored in or on District-owned property, which includes, but is not limited to, desks, filing cabinets, mailboxes, lockers, tables, shelves, District vehicles, and other storage spaces in or out of the classroom. Accordingly, the District may at any time and in its sole discretion conduct a search of such property, regardless of whether the searched areas or items of furniture are locked or unlocked.

33. Work Stoppage

Professional educators may not engage in, condone, assist, or support any work stoppage strike, slowdown, or sanction, or withhold in full or in part any services to the District. Professional educators who fail to perform their normal duties when so required as part of any action which disrupts the orderly operation of the District will be subject to whatever disciplinary action the District deems appropriate up to and including termination of employment as per State Statute 111.62 Strikes, work stoppages, slowdowns, lockouts, unlawful; penalty.

B. EMPLOYEE WORK DAY/HOURS OF WORK

1. Normal Hours of Work

Certified staff are professional employees as defined by the federal Fair Labor Standards Act and the Wisconsin Municipal Employee Relations Act, § 111.70(1)(L), Wis. Stats.

The typical work day is defined as 7:30 a.m. until 3:30 p.m. (less 30 minutes for lunch).

During the school day professional educators are not to absent themselves from a class while that class is in session (except for legitimate student teacher training purposes), nor should professional educators leave the building earlier than the designated time at the end of the teaching day. Professional educators wishing to deviate from the above regulation must request and receive permission to do so from their building principal before taking leave. Requests should be limited to emergency situations or such instances where the task cannot be completed except during school hours.

2. Meetings

Faculty Meetings: Professional educators are required to attend all mandatory administratively scheduled meetings of the faculty, staff, department/grade level, or other sub-group of employee. Administratively scheduled meetings may begin before the normal workday begins or extend beyond the end of the normal workday. The administration shall attempt to provide reasonable notice of all such meetings. Professional educators who are required to attend administratively scheduled meetings will receive no additional remuneration beyond their regularly paid salary for attending such meetings.

Student Progress Meetings: Professional educators are required to attend individual educational plans (IEP) team meetings, Response to Intervention team (RtI) meetings, parental conferencing meeting or other meetings of similar nature, which are normally conducted at irregular times and are required to attend such events regardless of the date, time, or duration of said meetings. Professional educators who are required to attend such student progress meetings will receive no additional remuneration beyond their regularly paid salary for attending such meetings. Professional educators attending student progress meetings during the work day, including during time designated for planning or preparation, will receive no compensation or additional remuneration beyond their regularly paid salary for attending such meetings.

3. Consultation with Parents

Each teacher shall consult with parents so that parents recognize the important role they play in shaping the attitudes of their children and assume greater responsibility for the performance of their children and for the

excellence of our schools. Such consultation may be in the form of phone contacts, home visitations, progress reports, in-person appointments, etc., in addition to scheduled parent/teacher conferences and open houses at which attendance is mandatory except for professional educators who have received permission from their principal due to being engaged in other school activities scheduled at the same time.

4. Emergency School Closing

When inclement weather, other emergencies, or special situations require a delayed start or the closing of school for the day, professional educators are responsible for obtaining the revised work day information from the District website or District-designated media. Professional educators shall not report to work, nor shall their compensation be affected for such times, when school is closed unless otherwise directed by the administration in unique situations for which time compensation shall be provided.

In the event it is necessary to provide an unscheduled early release, professional employees will be informed of the situation by the administration. Professional educators shall leave during such emergencies and shall not have their compensation affected. When school is closed early due to inclement weather, teachers shall be excused to leave as soon as the busses have departed.

The District Administrator shall make the decision regarding emergency closings. Make-up time for emergency closures shall be in keeping with state statute and shall be at the discretion of the Board. Professional educators shall not receive additional compensation in the event the District requires missed day(s)/time to be made up with or without students.

5. School Calendar

The Board will publish a calendar which reflects One Hundred Eighty-Eight (188) work days.

C. EMPLOYEE RESPONSIBILITIES

1. Access to Students

Professional educators are responsible for making themselves available in their classrooms or work areas to students in the morning prior to the start of classes and after classes end at the conclusion of the student day. This access is intended to provide time for students who need remedial, make-up, or enrichment assistance to work with their teachers or other education professionals and is within the normal work day of salaried professional educators.

2. Attendance at School Events

Professional educators are required to attend all mandatory, administratively-required school events. These events, though not limited by enumeration, may be an open house, music program, art show, and/or other school or district events that occur after the normal work day. Professional educators who have a co-curricular conflict or other professional conflict may be excused at the discretion of their principal as long as such arrangements are made at least 24 hours in advance. The missed time may be required to be made up.

3. Curriculum Development

In addition to each professional educator's individual responsibility for developing the scope, sequence, and lessons for his/her teaching assignment in accordance with the Board-approved curriculum, every professional educator has the responsibility to participate in curriculum development for the District as part of a curriculum committee, grade level/departmental team, work group, or individual task. Each professional educator has the obligation to participate in ongoing curriculum committee work and is expected to contribute professionally to curriculum committee activity and to attend meetings as scheduled.

The District will maintain and publish a curriculum development schedule that may include, but is not limited to, an ongoing cycle that includes an outside audit, a curriculum rewrite process, and a textbook/resources process, or any other components deemed appropriate by the District for each curriculum area, grade-level, department, program, or other grouping determined by the District.

Each professional educator is assigned to a particular curriculum committee and is obligated to participate in the curriculum development and rewrite process as deemed appropriate by the District. Teachers perform designated curriculum projects under the direction of the Curriculum Director and shall be paid the Board approved stipend. Teachers shall be paid upon approval of the entire scope of work by the Board.

Individual curriculum work outside of the regular cycle of curriculum development and rewrite, above and beyond the normal scope and sequence and lesson planning for which each professional educator is personally responsible for his/her teaching assignment, may be authorized by the District at the sole discretion of the District. The District may invite curriculum projects to be proposed by individuals, groups, committees, departments of the faculty, or administrators. The District will announce the criteria for approval and determine, in its sole discretion, the projects that are approved and conditions for such approval. Compensation for professional educators of approved non-cycle curriculum development and rewrite work, often referred to as R & D summer curriculum projects, shall be paid the Board approved stipend upon Board approval of the curriculum documents.

Every professional educator also carries the professional responsibility to update and improve semester outlines and units of study for courses and classes personally taught as part of their regular salaried position. Each professional educator is expected to develop written materials within an approved format and to submit copies of these materials as directed by his/her principal.

4. Professional Duties

The District recognizes that each professional educator performs many duties not directly related with the regular classroom teaching assignment or other professional assignment nor specifically itemized in the position assignment. Professional duties are those considered to be part of the professional educators traditional workday and include, but are not limited to the following enumerated duties. The District, at its sole discretion, may add to or change this list.

- a. The assignment itself;
- b. Faculty meeting attendance and participation;
- c. District-level committee attendance and participation;
- d. School-level committee attendance and participation;
- e. Varied ad hoc committees on which professional educators have traditionally served;

- i. Supervision of students assigned during the workday (i.e., hallway, detention, to lunch or midday recess);
- j. Letters of recommendation for students except in cases where the student's performance would result in a negative response;
- k. Daily check of mailbox, minimally before school and in the afternoon;
- l. Daily monitoring of and response to email and voicemail;
- m. Summer monitoring of and response to email;
- n. Adherence to deadlines for submission of information and data to administration;
- o. Written/electronic lesson plans developed in advance in accordance with District format and expectations;
- p. Professional sharing of information obtained from workshop/conference attendance, site visit,

school meeting, or District meeting.

5. Professional Growth

All professional educators shall engage in independent and active efforts to maintain high standards of individual excellence. Such efforts shall include keeping current in each specific and applicable area of instruction, Board established curriculum, as well as continuing study of the art of pedagogy. In addition to maintaining high standards of excellence for the students and school, each professional educator will make him/herself available during the contractual year and day to his/her colleagues for assistance, to the District for services beyond those specifically required as part of his/her individual contractual duties, and to the community as a valuable resource.

D. EMPLOYEE PERFORMANCE AND EVALUATION

Staff have the privilege to bring representation of choice when meeting with an administrator.

1. Employee Evaluation

The District views employee evaluation as an ongoing process for the purpose of improving organizational performance and assessing individual performance of employees. The process for employee evaluation is specified in the *Teacher Performance Evaluation Guide* which is shared annually with all professional educators. The District, at its sole discretion, may revise the *Teacher Performance Evaluation Guide* at any time. Any evaluation process must comply with all applicable state and federal laws and regulations. During an employee's first three (3) years in the District he/she shall be evaluated a minimum of two (2) times annually.

2. Employee Discipline

The Board of Education reserves the right to and the responsibility to manage the District's employees. The District Administrator or his/her designee may issue discipline or recommend termination of employment to the Board of Education, if necessary, consistent with the requirements of any applicable policy, procedure, rule or regulation as well as state and federal law. Staff has the privilege to bring representation of choice when job performance with supervisor is to be discussed. A professional educator may be disciplined for violations of Board policy or for other failure to meet the expectations and obligations of their position. No employee may be subject to arbitrary or capricious disciplinary action.

Disciplinary action will normally follow a progressive discipline model that is designed to correct inappropriate conduct on the part of employees. Progressive discipline will generally progress as follows with documentation placed in the employee file:

- a. Oral reprimand,
- b. Written warning;
- c. Suspension, the length of which is determined by the administration to effect the corrective goal of discipline;
- d. Termination.

As long as it is not arbitrary and capricious, the District Administrator may skip one or all steps in the progressive discipline model whenever the District Administrator deems that the severity of the offense merits it. Any professional educator who is suspended without pay or termination of employment shall be given written notice of the reasons for such action. A copy of such notice shall be made a part of the professional educator's personnel record. Instances of discipline are subject to the employee grievance procedure.

E. EMPLOYEE STATUS

1. Employee Definitions

Regular Employees: Regular Employees are defined as professional educators whom the District considers continuously employed, working either a fiscal or school year, until the District, at its discretion, changes the status of the employee.

Regular Full-time School Year Employee: A regular full-time school year employee is defined as a professional educator who is scheduled to work at least 7 hours per day on a regular basis for at least a 180-day school year.

Regular Part-time School Year Employee: A regular part-time school year employee is defined as a professional educator who is scheduled to work less than 7 hours per day on a regular basis for at least a 180-day school year or works less than the 180-day school year.

Exclusions: A regular full-time or regular part-time employee does not include student, substitute, temporary, or summer school employees.

Summer School Employees: A summer school employee is defined as a professional educator who is hired to work for the District during the summer school session. Summer school session is defined as the supplemental educational program offered for District students pursuant to Department of Public Instruction rules and regulations.

The District will employ professional educators by issuing Individual Teaching Contracts to each professional educator. The Individual Teaching Contracts must be signed and returned to the District Office no later than the stated deadline in order to become a valid contract for the succeeding year.

The non-renewal of Individual Teaching Contracts shall be governed by § 118.22, Wis. Stats.

2. Determination of Assignments

The Board will employ teachers by issuing Individual Teaching Appointments to each teacher on or before March 15 each year. The Individual Teaching Appointments must be signed and returned to the District Office by law on or before June 15 of the same calendar year in order to become a valid appointment for the succeeding year.

The District Administrator is responsible for the assignment of all professional educators in conformance with any legal requirements or certification requirements. Employees may express in writing to the District Administrator or his/her designee their preference of school, grade level or subject. After assignments are issued changes may have to be made due to late staff changes, grade level or school population changes, the final development of class schedules, enrollment changes in specific classes, budgetary/financial adjustments, computer failure, or other factors uncertain when the initial assignment was made. In all cases the decision of the District Administrator and approved by the Board of Education shall be final as to the assignment of professional educators.

All current employees in the District may apply for summer school positions.

3. Transfers

Professional educators interested in transferring from one position to another will apply in writing to the District Administrator according to procedures provided in the vacancy announcement. Consideration will be given to such applications, and all transfer applicants shall receive a written response when the position is filled.

The District, at its discretion may involuntarily transfer an employee to a vacant or new position in the District. If an employee wishes to be transferred to another position which is open, application for a transfer should be made in writing to the District Administrator or his/her designee. An employee who applies for a vacant position may be granted an interview for the position. The District retains the right to select the most qualified individual (internal or external candidate) for any position.

Prior to an involuntary transfer to another grade level, department, program, or school, the professional educator shall be consulted by the District Administrator or his/her designee at which time the reason for consideration of the change in assignment will be explained. If an involuntary transfer of assignment is made, written notification will be made to the professional educator when the administrative decision is finalized.

Assignments shall be made in accordance with Policy 3130 – Assignment and Transfer. In all cases the decision of the District Administrator and approved by the Board of Education shall be final as to the assignment of professional educators.

4. Reduction in Staff

The Board of Education reserves the right to reduce the number of positions (full layoff, or the number of hours in any particular position (partial layoff), as it determines is necessary for the continued operation of the District's educational program in an efficient and effective manner. Such staff reductions will be made in compliance with policy. In deciding which position(s) to reduce or eliminate, as well as the individuals affected, the Board shall act in what it determines is in the best interest of the students and the District.

The non-renewal procedures (for teachers) of Section 118.22, Wis. Stats., do not apply to layoffs.

No professional educator whose position has been eliminated or reduced and whose employment has been terminated or modified shall have any right to be contacted by the District in the event that a vacancy opens in the future. Likewise, no professional educator whose employment has been terminated or reduced is entitled to a future position or will receive any preference over other applicants. - b. The evaluating administrator will review the Educator Effectiveness Project evaluation data and professional file as maintained in the district office for each teacher in the elementary divisional level (4K-5) and at the secondary (gr. 6-12) by department. The principal shall make recommendations with supporting documentation to the District Administrator as to effectiveness of the teaching staff. The decision will be based on the preponderance of the evidence. (See TPES Guidebook.)
- c. An independent, outside evaluator may be secured with the authorization of the District Administrator to provide an objective assessment of the teacher's performance and will be used in conjunction with the data collected by the evaluating administrator. The request to use an outside evaluator would come from the evaluating administrator or the District Administrator. A teacher may not request an outside evaluator.
- d. Principals will examine all teaching assignments and make recommendations to the District Administrator about the best fit for each position based on each teacher's skills and dispositions.
- e. All other evaluation records being equal, the most recently hired individuals offered the position within the divisional level or department would be the first to be terminated.

5. Termination, Non-Renewal, and Resignation

Individual employment contracts of a professional educator may be terminated or non-renewed upon a majority vote of the full membership of the Board subject to any applicable law. Employees may be terminated or non-renewed for any reason, provided that the decision is not arbitrary or capricious, or in

violation of any applicable law. In the event the District Administrator intends to recommend the non-renewal of a teacher's contract, he/she shall comply with all applicable statutory non-renewal procedures.

The non-renewal of Individual Teaching Appointments shall be governed by Section 118.22, Wis. Stats.

Any decision to terminate or non-renew a professional educator's employment contract shall be subject to review consistent with the grievance procedure in policy and corresponding Professional Educator Handbook references.

A resignation, once submitted and accepted by the Board or its designee, is final and may not be rescinded without approval by the Board. The Board may defer acceptance of a late (i.e. 30 days prior to the start of the school year or school calendar year) resignation until such time as the position from which the professional educator has resigned is filled by the District. Resignations shall be processed in accordance with policy.

F. GRIEVANCE PROCEDURE

The District encourages collaborative problem solving. Employees are encouraged to share any employment-related problem with their immediate supervisor informally.

The District has adopted a grievance policy (*Policy 3340, 4340*) that is available online, via the District website. The process for filing a grievance is outlined in detail in the Policy. Policy specifies the exclusive internal method for resolving grievances concerning discipline, termination, and workplace safety. A determined effort shall be made to settle any grievance at the lowest possible level in the grievance procedure. The Board maintains the right to modify the Grievance Procedure, in accordance with state statute, at any time at its sole discretion.

IV. COMPENSATION

A. PAYROLL INFORMATION

All teachers will be paid on the 15th and final business day of each month. Teachers will be provided the option of either 20 or 24 payments. Teachers electing to be paid out over 20 or 24 payments shall provide written notice to the District by their preference on their signed contract.

All employees will have their pay checks (after all appropriately authorized amounts have been deducted) directly deposited into one designated bank account. Any changes to direct deposit information may be made by notifying the Business Office.

If a payday falls on a bank holiday or a weekend, the pay date will be the last work day preceding the bank holiday or weekend.

Pay is subject to all deductions required by law, federal tax, Social Security payment, Medicare, and state and local income taxes, as applicable. The amount of the deductions will depend on earnings and information furnished on individual W-4 forms regarding the number of exemptions claimed. If an employee wishes to modify the number of exemptions, he/she must request a new W-4 form from the Payroll Office. Only an employee may modify his/her own W-4 form. Verbal or written instructions are not sufficient to modify withholding allowances. Professional educators are encouraged to regularly check their pay-related information on the online Employee Portal.

The annual W-2 form reflects how much of an employee's earnings were deducted for these purposes. Any other mandatory deductions to be made from paychecks, such as court ordered garnishments, will be explained whenever the District is ordered to make such deductions. Questions about pay and deductions should be discussed with the Payroll Office.

Should there be an underpayment of any kind, the District will make every effort to repay the amount as quickly as possible. In the event that there is an overpayment of any kind that the District has not noticed, it is the employee's responsibility to bring this to the attention of the Payroll Office.

B. SALARY AND RELATED COMPENSATION

1. Salary

The District will publish a schedule outlining the compensation for extra-curricular assignments.

4. Supervisory Duties

Supervisory duty assignments, including but not limited to lunch, bus, and recess duties, will be assigned to professional educators or support staff at the sole discretion of the District. The assignment of a duty shall not be deemed a contract, and individuals assigned supervisory duties may be reassigned by the District at any time. The stipends and payments for supervisory duties shall be made in accordance with the *Salary and Stipend Guide*.

5. Substitute Assignment

Teachers who are asked to substitute for another teacher will receive \$18.00 per class.

Teachers completing required CPR/First Aid Training will be compensated with a \$25 stipend for annual certification.

7. Summer School

If summer school session employment is available, the District may offer summer school employment to qualified professional educators of the District's choosing. The District is free to use outside providers to perform such work. The terms and conditions of employment for summer school session shall be established by the District at the time of hire. Unless specifically set forth by the District at the time of hire, work performed by a regular employee during a summer school session shall not be used to determine eligibility or contribution for any benefits, length of service, or wage/salary levels.

8. External Honorarium

Professional educators who are offered a payment or honorarium for work performed during time when the employee is being paid by the District shall promptly report the monetary offer to the District Administrator. The District Administrator, at his/her sole discretion, shall determine after conferring with the professional educator whether the payment or honorarium shall be received and by whom.

Except for cases of misconduct, professional educators whose employment is terminated at the conclusion of a school year shall have their health, dental, life, and long-term disability insurance coverage continued and paid at the same District rate through August of the same year in which the employment was terminated. Professional educators whose employment terminates during the school year shall have their health, dental, life, and long-term disability insurance coverage continued and paid at the same District rate through the last day of the last month of their employment.

The plan documents are maintained in the Business Office and provided to employees who enroll in the coverages.

Eligible employees who are covered under fully insured group health, vision, and dental plans are assured the privacy protections required by Federal and State Law.

3. Eligibility for Health, Dental, and Vision Insurance

A teacher teaching less than full-time (1.0 FTE) will have the District's percentage of contribution pro-rated as a percentage of full-time employment for purposes of group health and dental insurance, long-term disability benefits and life insurance (e.g., a teacher teaching 0.5 FTE will receive half of the District's contribution for a full-time (1.0 FTE) teacher). Teachers working less than 0.5 FTE are not eligible for the District's health, vision, and dental insurance.

Hours worked beyond those set forth in the individual contract shall not be used to determine insurance eligibility or insurance contributions as per Affordable Care Act regulations. Such hours excluded may

include, but not be limited to the following: extended contracts, summer classes, co-curricular assignments, substitute assignments, etc.

4. Premium Contributions for Health Insurance

The District will pay a portion of the premium for group health insurance (employee, employee plus one, and family) depending on the employee election. 86% of the monthly premium rate is paid by the District and 14 % is paid by the employee. The insurance carrier(s), program(s), and coverage(s) will be selected and determined by the Board.

5. Premium Contributions for Dental and Vision Insurance

The District will pay eighty-six percent (86%) of the premium for group dental and vision insurance (family or single).

6. Group Term Life Insurance

The District will pay the full amount of the premium for life insurance at two times the professional educator's total salary.

7. Group Long-Term Disability Insurance

The District will pay the full amount of the premium for long-term disability insurance. The insurance carrier(s), program(s), and coverage(s) will be selected and determined by the Board.

8. Liability Insurance

Employees are covered by the District's liability policy while acting within the scope of their defined duties and responsibilities. The District's liability policy shall be in accordance with Wisconsin Statutes.

9. Travel Expenses/Mileage

The District may provide for reimbursement of actual and necessary expenses, including travel expenses, of professional educators that are incurred in the course of performing services for the District, whether within or outside the District, under the direction of the Board and in accordance with advance authorization by an administrator.

Professional educators should use District-owned vehicles or bus transportation whenever possible and practical when transporting students. When personal vehicles are used during the course of performing duties for the District, the District will pay the IRS rate for approved out-of-District travel as well as for travel between buildings where employees are required to travel as part of their assignment. Employees must submit a request for travel reimbursement.

B. VOLUNTARY BENEFITS

1. Short-Term Disability

The Board shall make short-term disability insurance available to eligible employees at the employee's expense. The insurance carrier(s), program(s), and coverage(s) will be selected and determined by the Board.

2. Tax-Sheltered Annuity (TSA)/403(b) Retirement Plan

A TSA program is available to teachers in accordance with the District's policies governing the 403(b) program.

3. Section 125/Flexible Spending Account

The Section 125(c) Plan is a pre-tax, payroll deduction account that allows employees to set aside up to \$5,000 for dependent, child or adult care and the maximum allowable by law for additional medical, dental or vision expenses not covered by insurance. An annual election is made with a July 1 through June 30 benefit period. Claims can be made during the benefit year and up to ninety (90) days after for expenses paid

by the individual during the previous calendar year.

C. VOLUNTARY RETIREMENT

The District may provide, at its sole discretion, a post-retirement benefit for eligible professional educators, and reserves the right to modify or terminate this benefit at any time.

A teacher reaching eligible retirement age during the school year must complete that school year before exercising the option to retire early.

All teachers who elect to retire early must provide written notice of their intent to do so on or before February 1 of the school year prior to retirement.

For teachers actively employed before June 30, 2011:

Teachers working .75 FTE or more will be eligible for early retirement benefits in accordance with the following criteria:

- Age 55
- Fifteen (15) years of full-time experience in the District

D. WORKERS' COMPENSATION

Workers' compensation is to provide for payment of medical expenses and for partial salary continuation in the event of a work-related accident or illness. The District will provide Workers' Compensation as required by law. The amount of benefits payable and the duration of payment will depend upon the nature of the injury or illness. Any employee who is injured on the job shall report the injury to his/her principal prior to seeking medical attention, if at all possible. In the event of an emergency, the employee shall notify his/her principal within twenty-four hours after the occurrence of the injury or as soon as practicable. The employee shall complete an accident report form available in his/her school office.

Some types of injuries suffered while at work may not be covered by worker's compensation insurance. Examples of non-covered injuries suffered at work include, but are not limited to, the following:

- a. Injuries because of a self-inflicted wound;
- b. Injuries sustained because of an employee's horseplay;
- c. Injuries sustained while an employee does an activity of a strictly private nature.

VI. TIME OFF AND LEAVES

A. PAID LEAVE DAYS

Each professional educator will have access to his or her paid leave balances through the Employee Portal. Paid leave may be taken in one quarter hour increments. The responsibility for applying for and claiming leave rests with the professional educator.

1. Sick Leave/Personal Leave = Paid Time Off (PTO)

Paid Time Off (PTO) credit of ten days (3 personal / 7 sick) shall be granted to the professional educator on the first day the professional educator reports to work for the contract year. PTO will accumulate to a maximum of ninety (90) days. Eligible employees at the maximum of 90 days with unused PTO on 6/30 (annually) will receive 50% of the substitute teacher pay (\$50) for every day of unused PTO. This is in lieu of losing unused sick days.

Professional educators beginning work after the first day of the contract year shall receive a pro-rated

amount of PTO. Professional educators who leave the District's employment prior to the completion of his/her contract year shall have a pro-rated amount of PTO removed from his/her account; if the professional educator has exceeded his/her account total, then the amount exceeded shall be deducted from the final amount of salary due to the professional educator.

Personal days (3 days) shall be allowed for any purpose. The number of persons using personal days on any given instructional day will be limited to five staff members district-wide. The date and time of the notification will be documented so that once five people on personal leave is reached, no further personal days will be permitted. Personal leave shall not be used to attend Association membership meetings or for participating in activities on behalf of the Association, to attend legislative rallies, to engage in job actions such as picketing or demonstrating, or to participate in activities designed to disparage, embarrass, or discredit the District. Personal days shall not be taken on in-service days.

It is expected that whenever possible medical or dental appointments for the employee or family member be scheduled outside of regularly scheduled work hours. When appointments cannot be scheduled outside of the regularly scheduled work hours, professional educators are expected to return to work after the appointment if the timeframe permits them to do so. When a professional educator intends to be absent for a medical/dental appointment or other non-school business for less than a half-day, the professional educator may avoid use of sick leave if the professional educator makes arrangements with a colleague for coverage and notifies the principal of the arrangements in advance of the absence. If the principal, school office, or substitute caller is used to provide a substitute, then the professional educator will be charged with a half-day of sick leave if the absence is limited to either before lunch or after lunch, and a full-day of sick leave if the absence includes time both before and after lunch.

Professional educators employed on separate summer contracts, including summer school, shall be eligible for two days of non-accumulative sick leave, or two days of emergency leave, or a combination of one day each of sick leave and emergency leave, with the day being defined as a full-day. To be eligible for these two days, a professional educator must be employed for a minimum period of the full number of days for the scheduled summer session. Professional educators employed on separate summer contracts are not eligible to use more than the two paid days of sick/emergency leave during their summer assignments.

In the event an employee becomes eligible for benefits under the District's long-term disability insurance program, the employee will no longer be allowed to use sick leave or accumulated sick leave for the duration of the disability.

Whenever the District deems such verification appropriate, the professional educator may be required to furnish the District with a certificate of illness signed by a medical provider verifying the reason for the absence. Such certificate should include a statement releasing the professional educator to return to work and a statement as to whether any limitations or restrictions are placed upon the work which may be performed. Nothing in this section shall be interpreted as limiting the District's ability to discipline or terminate employment of an employee for excessive absenteeism.

When applicable under either Wisconsin or Federal Family and Medical Leave, an employee may elect or the District may require sick leave to run concurrently with the approved Wisconsin and/or Federal leave.

Advance requests for PTO must be made in the Employee Portal as early as possible but not less than two days prior to the day requested. If the event which gives rise to the request is unknown at that time, such request must be made as soon as the employee becomes aware of the necessity for this leave and can reasonably communicate with the administrator or supervisor.

No more than two professional educators in a building or five professional educators in the District may exercise PTO on the same day for purposes other than illness or District-approved professional development unless

substitute availability would allow additional PTO days. The substitute teacher log shall be the determination of this calculation.

If a school principal and a school counselor (9-month contract) mutually agree, in advance and in writing, that smooth school operations necessitate that a school counselor work on a day other than the contracted days as specified on the official school calendar, the school counselor shall be provided with an amount of paid time off equal to the amount of mutually agreed time worked. No more than the equivalent of five such special work days may be scheduled and no more than the equivalent of five such compensatory paid days off may be scheduled within a school year. This compensatory time off excludes paid extended contract days for school counselors who perform summer work under the direction of their principal.

2. Gifting of Sick Leave

An employee may choose to gift sick leave days to another employee who has exhausted existing sick leave and who is personally experiencing a catastrophic illness or accident. A catastrophic illness or accident is a severe illness/accident requiring prolonged hospitalization or recovery. Examples would include coma, cancer, leukemia, heart attack or stroke. These illnesses or accidents usually involve high costs for hospitals, doctors and medicines and may incapacitate the person from working, creating a financial hardship. An employee with ten (10) or fewer sick days remaining in his/her own sick leave bank shall not be permitted to gift sick leave days. An employee may gift up to three (3) sick days. Days will be gifted in the order in which they are donated in the Skyward system. Any unused days will be returned to the donor on or before June 30th.

3. Bereavement Leave

Professional educators shall be granted up to (4) days of Bereavement Leave in the event of a death in the family or close relationship. It is the professional educator's responsibility to submit the appropriate Employee Portal information and email notice to his/her principal in advance of taking such leave. Professional educators who access Bereavement Leave consisting of multiple days for the same death shall confer with his/her principal in advance for the purpose of maintaining smooth school operations in his/her absence. The District may require proof of the death, the relationship, travel itineraries, or other documentation from the professional educator whenever the District deems such verification appropriate.

4. Emergency Leave

In the event of an emergency not covered by illness in the family as indicated in the Paid Time Off section or death as indicated in the Bereavement Leave section, the professional educator may apply for Emergency Leave to be granted by the District Administrator. Emergency Leave shall be deducted from Sick Leave and will be granted only if sufficient evidence is submitted to satisfy there is a compelling reason for absence. Usually this leave will be granted only under extraordinary and uncontrollable circumstances. These circumstances will usually fall under the classification of "an act of God" and will be of such a nature that they could not possibly be foreseen by the employee, such as damages to the professional educator's residence or vehicle caused by fire, flood, tornado, or other unforeseen emergency.

5. Jury Duty and Witness Duty

An employee who is not able to report for work because of jury duty or acting as a witness in a matter in which the employee is not a party, will be paid for the time missed. The employee shall provide the District with any payment received from serving on the jury. Employees must notify their immediate supervisor as soon as notice of jury duty is received and as soon as jury duty terminates.

Professional educators shall report to work if released from jury duty or the witness stand when at least a half-day remains in the scheduled work day. Professional educators are required to submit proof to verify the amount of the payment and/or their requirement/request to appear.

6. National Guard Duty

Where a professional educator is absent due to required service in the National Guard or Reserve, the professional educator will be paid his/her full salary for a period of up to five days for such absence, barring any overriding provision by the state or federal government. This leave will be granted without any deduction from the employee's PTO account, provided that the professional educator must endorse to the District all payments by the military for the days covered by paid leave from the District.

7. Military Leave for Active Duty

Professional educators will be granted a military leave of absence for absences from work due to serving in the U.S. uniformed services in accordance with the Uniformed Services Employment and Reemployment Rights Act (USERRA). Professional educators must give their principal advance notice of upcoming military service, unless military necessity prevents advance notice, or it is otherwise impossible or unreasonable.

Professional educators will not be paid for military leave. However, professional educators may use any available accrued paid time off to help pay for the leave. Continuation of health insurance benefits is available as required by USERRA based on the length of the leave and subject to the terms, conditions and limitations of the applicable places for which the professional educator is otherwise eligible.

A professional educator who is on military leave for up to 30 days must return to work on the first regularly scheduled work period after the service ends (allowing for reasonable travel time). A professional educator who is on military leave for more than 30 days must apply for reinstatement in accordance with USERRA and applicable state laws.

Professional educators who return from military leave (depending on the length of military service in accordance with USERRA) will be placed either in the position the professional educator would have attained if he/she had stayed continuously employed or in a comparable position. For the purpose of determining benefits that are based on length of service, the professional educator will be treated as if he/she had been continuously employed.

8. Administratively-Approved Leave

A professional educator may request Administratively-Approved Leave (with or without pay) for absences not covered under PTO, Bereavement Leave, or Emergency Leave provisions. Typically, such leave is for "once-in-a-lifetime" events over which the professional educator has no control of the date. Paid Administratively-Approved Leave shall access the professional educator's PTO Leave account. Unpaid Administratively-Approved Leave shall result in a pro-rated daily deduction of the teacher's contract. This leave and the conditions thereof, including compensation, shall be at the discretion of the District Administrator whose decision shall be final and without appeal.

Requests for Administratively-Approved Leave shall be made with the appropriate form at least three days prior to the absence if advance notice is available. In the event that three days' advance notice is not available, the professional educator shall be responsible for submitting the appropriate form as soon as the information is available.

Administratively-Approved Leave, either paid or unpaid, shall not be granted for participating in Association business or to engage in job actions such as picketing or demonstrating, or to participate in activities designed to disparage, embarrass, or discredit the District.

B. FAMILY AND MEDICAL LEAVE ACT

Professional educators have access to absences covered by the federal Family Medical Leave Act (FMLA) and the Wisconsin Family Medical Leave Act (WFMLA) in accordance with provisions and procedures specified in Policy 3430.01, AG 3430.01A, and AG 3430.01B. Questions regarding FMLA leave should be directed to the District's Business Office.

C. LEAVES OF ABSENCE

1. Unpaid Leave of Absence

Employees must submit a written request for an unpaid leave of absence to the Board. The Board may grant the request for a leave of absence at its discretion. The leave of absence will begin and end on the dates approved by the Board. A leave of absence may not exceed twelve (12) calendar months.

Employee participation in fringe benefits will be discontinued during a leave of absence. The employee may remain a member of the District's group insurance plans (to the extent permitted by the carrier); however, he/she must pay the premiums to the District during the leave of absence.

Sick leave will not accrue during a leave of absence; however, any accumulated sick leave at the time of the leave of absence will be reinstated upon return.

A teacher must work a minimum of one hundred twenty (120) paid work days in a school year to be eligible for a year of service for early retirement purposes. A teacher teaching less than full-time (1.0 FTE) will have their percentage of teaching pro-rated as a percentage of full-time employment for early retirement purposes (e.g., a teacher teaching 0.5 FTE will receive a half year experience for retirement purposes).

2. Professional Leave

Professional educators may apply for an unpaid professional leave for study, research, or special teaching assignment for a period up to one year. This leave will be without pay or benefits and is subject to Board approval. Requests for professional leave must be made by February 1 for the following school year.

3. Child-Rearing and Adoption Leave (Extended Beyond FMLA/WFMLA)

Professional educators with a minimum of three years of continuous local experience may apply for unpaid Child-Rearing/Adoption Leave. Such leave is subject to Board approval and may be taken for no longer than two semesters. The Board reserves the right to limit approved leaves to no more than two professional educators per school year and is subject to hiring a qualified replacement for the leave period. This leave provision is not available to professional educators who have used this leave provision within the previous three years. Application should be made in writing at least three months prior to the requested start of the leave. If conditions are such that three months' advance notice is not reasonable, then application should be made as soon as practicable with an explanation as to the cause of the reduced advance notice.

4. Failure to Return after Expiration of Leave: In the event the professional educator does not return to work following the expiration of the leave, and subject to applicable legal restrictions, he/she will be deemed to have resigned his/her position with the District and waived any and all rights to further employment by the District.

5. Interaction with Family and Medical Leave Provisions: Unpaid medical leave, the term of such leave, and participation in insurance programs under this section as provided for above shall run concurrent with any leave(s) provided for under the Wisconsin Family and Medical Leave Act and/or under the federal Family and Medical Leave Act.

VII. EXTRA-CURRICULAR ACTIVITY ASSIGNMENTS

A. LETTER OF ASSIGNMENT

Professional educators shall assume responsibility for the supervision of the extra-curricular activities that are included in their letters of assignment. The principal will offer a period in which teachers may volunteer for extra-curricular assignments. Activity assignments will be offered to the individual who, in the sole discretion of

the District, is the most qualified applicant. The stipend for extra-curricular activities shall be specified in the letter of assignment. The letter of assignment shall not be deemed a contract, and individuals holding extra-curricular positions are employed on an at-will basis for these positions.

B. EVALUATION

Individuals holding extra-curricular assignments shall be evaluated in the manner and frequency that their principal deems appropriate. When determining the manner and frequency of evaluations, the principal or his/her designee may take into account such factors as (1) the individual's experience with the particular activity; (2) input received from participants, parents, and other stakeholders; (3) the extent to which an individual needs additional guidance or oversight; and (4) any other consideration that a supervisor, in his/or reasonable discretion, deems appropriate.

C. VOLUNTEERS

The Board, upon recommendation from the head coach/advisor and the athletic director or principal, may authorize an individual to serve as a volunteer coach/advisor for an extra-curricular activity. Volunteers are subject to a background check prior to working with children. Volunteers are not employees and are not eligible for salary/wages, stipend, or benefits. Volunteers are covered by the District's general liability insurance policy while acting as a volunteer coach/advisor for the District. Volunteers must follow all District activity and athletic policies and procedures as well as other District policies as applicable. Head coaches/advisors are responsible for directing the activities of volunteers approved for their extra-curricular activity.

Harassment refers to physical or verbal conduct, or psychological abuse, by any person who disrupts or interferes with a person’s work performance, or which creates an intimidating, hostile, or offensive work environment. Harassment may be student to staff, staff to student, staff to staff, male to female, female to male, female to female, or male to male. Harassment may include, but is not limited to the following:

1. Verbal harassment, including epithets, kidding, derogatory comments, slurs, or ethnic jokes.
2. Physical interference with movement, activities, or work.
3. Visual harassment, including derogatory cartoons, drawings, or posters.
4. Sexual harassment, which is defined as any deliberate, repeated or unwanted verbal or physical sexual contact, sexually explicit derogatory statement, or sexually discriminating remark that is offensive or objectionable to the recipient or which causes the recipient discomfort or humiliation or which interferes with the recipient’s work performance. Sexual harassment can take the form of any unwanted sexual attention ranging from leering, pinching, patting, verbal comments, display of graphic or written sexual material, and subtle or expressed pressure for

sexual activity. In addition to the anxiety caused by sexual demands on the recipient, sexual harassment may include the implicit message from the alleged offender that noncompliance will lead to reprisals. Reprisals may include, but are not limited to, unsatisfactory work evaluations, different treatment, sarcasm, or unwarranted comments to or by peers.

Any individual who believes he/she has been subjected to harassment by any other person should report that incident to a building principal or to the District Administrator. If an employee is not comfortable making a complaint to their building principal or the District Administrator, the complaint may be made to the District Compliance Coordinators. It is the intent of the District to establish an atmosphere where complaints are timely investigated and the harassment is appropriately addressed. The Board designates the following individuals to serve as the District's Compliance Officers:

cobrien@manawaschools.org

REPORTING PROCEDURE/INTERNAL INVESTIGATION – EMPLOYEES

The District expects employees to immediately report incidents of harassment to the appropriate supervisor.

Anyone who engages in harassment in the school setting may be subject to disciplinary action, up to and including dismissal. Any employee who permits harassment of students, other employees or volunteers may be subject to disciplinary action up to and including termination.

Any employee who receives a complaint of harassment from a student, other employee or volunteer and who does not act promptly to forward that complaint to the Supervisor and/or District Anti-Harassment officer designated to receive notice of all harassment complaints, shall be disciplined appropriately up to and including termination.

The School District prohibits retaliatory behavior against any complainant or any participant in the complaint process. The initiation of a complaint of harassment or an appeal will not reflect negatively on the employee or volunteer who initiates the complaint or an appeal, and will not affect any part of the employee's or volunteer's standing rights or privileges.

(Policy 3362, 4362)

Drug-Free Workplace

The School District of Manawa is committed to maintaining an alcohol and other drug-free workplace. Therefore, the Board of Education prohibits school employee use, possession, distribution, dispensing, or manufacturing of alcohol and other illegal drugs on school premises, in school vehicles and at school-sponsored activities while in a student supervisory role.

The District will not condone the involvement of any employee with illicit drugs, even when the employee is not on District premises.

All school employees shall cooperate with law enforcement agencies in investigation concerning any violation of this provision.

Tobacco Policy

Employee use of tobacco on District property, in District-owned vehicles or at any District affiliated event is prohibited. Tobacco products may not be stored on District property. These policies also prohibit the use of tobacco in all forms as well as smoking of electronic, “vapor,” or other substitute cigarettes. (Policy 3215, 4215)

Equal Employment Opportunity

The Board does not discriminate in the employment of support staff on the basis of the Protected Classes of race, color, national origin, age, sex (including transgender status, change of sex, sexual orientation, or gender identity), pregnancy, creed or religion, genetic information, handicap or disability, marital status, citizenship status, veteran status, military service (as defined in 111.32, Wis. Stats.), national origin, ancestry, arrest record, conviction record, use or non-use of lawful products off the District’s premises during non-working hours, declining to attend an employer-sponsored meeting outside of professional responsibilities, or to participate in any communication with the employer about religious matters or political matters, or any other characteristic protected by law in its employment practices. (as defined in §111.32, Wis. Stats.). (Policy 3122, 4122)

Conflict of Interest and Ethical Standards

It is imperative that our professional organization not create the perception of favoritism or special privilege. Employees are not permitted to gain monetarily by their position within the district. Employees are prohibited by Wis. Stat. § 118.12 from receiving anything of value for their own benefit that results from selling, soliciting or promoting the sale of any goods or services to any public-school pupil while on school property or at school-sponsored events.

Employees are expected to avoid situations in which their personal interests, activities and associations may conflict with the interest of the District.

Communications and Suggestions

The School District of Manawa welcomes the comments and problem-solving suggestions of its employees. All comments and suggestions should follow the chain of command by bringing the concern or idea forward to his/her immediate supervisor/evaluator.

Outside Employment

Employment with the School District of Manawa must be considered pre-eminent. Outside employment must not interfere with the employee’s performance or work schedule. Employees may not perform any duties for an outside employer during regularly scheduled working hours or during additional hours required for professional responsibilities.

Personnel Files

An employee shall have the right to review certain personnel documents upon request and consistent with the timelines and content limitations specified in Wis. Stat. § 103.13, at least 2 times per calendar year.

Personal Data Changes

All changes in personal information, including changes of name, address, telephone numbers, education, marital status, dependent status, etc., should be updated with the District Office in a timely manner.

Political Activities of Staff

Because political activities may be disruptive, divisive and distracting to a positive learning environment, such activities are not appropriate within the school setting. The Board prohibits political activities on all District-owned and used property, within all school buildings and at all school-sponsored activities unless part of a Board-approved teaching unit.

Work Stoppage

Staff will not instigate, promote, encourage, sponsor, engage in or condone any strike, picketing, slowdown, considered work stoppage or any other intentional interruption of work involving the District.

Acceptable Use

All employees are required to read and adhere to the Acceptable Use Policy.

Health Examination

As a requirement for employment, employees will be required to furnish evidence of a physical examination, drug test, and tuberculin questionnaire.

The physical examination must be performed by ThedaCare at Work and the result recorded on a standard form furnished by the Board of Education. The form must be submitted to the District Administrator before the effective date of employment. Upon receipt of the form, the Board of Education shall pay for the physical examination.

The Wisconsin Tuberculosis (TB) Risk Assessment Questionnaire Screen must be filled out as part of the physical at ThedaCare at Work or under the direction of the District Nurse. If a skin tuberculin test is recommended, the test must be completed during the physical, prior to the first day of work. Subsequent physical examinations will be required at intervals determined by the School Board, consistent with state and federal laws.

A physical or mental examination may be requested by the District's Administration whenever an employee demonstrates any physical or mental disorder that may impact his/her performance. The employee shall be notified of the reason(s) for the examination and such examination shall be arranged and paid for by the Board of Education.

An employee may request an exemption from the physical examination requirement for religious reasons by filing an affidavit with the Board stating that the employee depends exclusively upon prayer or spiritual means for healing in accordance with the teachings of a bona fide religious sect, denomination or organization and that the employee is to the best of the employee's knowledge and belief in good health and that the employee claims exemption from health examination on these grounds. If there is reasonable cause to believe that an employee who has requested an exemption is suffering from an illness detrimental to the health of the pupils, the School Board may require a health examination sufficient to determine whether the employee is suffering from such an illness. The School Board shall not discriminate against any employee for filing an affidavit seeking an exemption from the physical requirement.

The District shall maintain all physical examination records and other medical records in a file separate from all other personnel records, and shall treat such records as confidential medical records, in accordance with state and federal laws and regulations.

Family and Medical Leave Act (FMLA)

The District complies with family and medical leave as required by the state and federal Family and Medical Leave Acts. State leave calculations are based on a calendar year. Federal leave calculations are based on a July 1 through June 30 year. See *Policy 4430.01* on the District website for an explanation of rights and responsibilities under FMLA.

Military Leave

Pursuant to federal and state law, the District shall provide eligible employees with leaves of absence with or without pay for purposes of federal service in the uniformed services or active state service. Eligible employees should notify the District of the need for a leave of absence as far in advance as possible and should notify the District of the commencement date of the military leave and its expected duration. Eligible employees should also provide the District with a copy of any relevant military orders.

All rights and privileges regarding salary, benefits, status, and seniority shall be reserved to such employees as required by law.

An employee on leave shall notify the District of his/her intent to return to work in a timely manner following his/her period of military service. Failure to notify the employer of his/her intention to return within a reasonable period may subject the employee to disciplinary action up to and including termination for unexcused absence. An employee's reemployment rights and benefits upon completion of federal service in the uniformed services or active state service shall be governed by any applicable federal and/or state laws.

EMPLOYMENT PRACTICES AND EXPECTATIONS

General Practices

Attendance

Employees are expected to make every effort to be present for work and adhere to their assigned schedule. Employees who are unable to report to work shall follow their building procedures for reporting and recording absences by contacting the substitute caller.

On days when school is cancelled due to inclement weather, Part-time staff does not report and may either use PTO or Sick Time if the day is not to be made-up. Sick Time used for inclement weather may not exceed three (3) days based on the employee's regular schedule. PTO is limited based on employee job category. If the day is to be made up, part-time staff will not be allowed to use sick time. Time off used must be entered into the Skyward system and noted on the time card. Full-time staff does not report unless they notify their supervisor and mutually decide if they will report and/or if adjustments will be made to the regular schedule. Supervisors may pre-authorize the use of Vacation, PTO, Sick Time, or Compensatory Time as noted on timecards. Leave Without Pay for Full-time staff shall be authorized by the District Administrator.

For times when school is delayed, staff is to report according to the delay. Part-time staff should plan to adjust their arrival to the student schedule or as per the direction of the Supervisor. In the event of an early dismissal due to inclement weather, any staff member would leave after all students are safely out of the building or at the conclusion of their normal working hours, whichever comes sooner or as agreed upon with the Supervisor. Sick time may not be used for delays except if the delay becomes a cancellation. Food Service and full-time staff must arrive as close to their scheduled start time as possible. All adjustments must be noted on time cards.

Although the District performs better when all employees are in attendance, the District recognizes the occasional need to be away from work for illness, illness of a family member, administratively approved

leave, funerals, or urgent personal matters. For this reason, the District provides paid time away from work (leave). The District reserves the right to request verification for any time used.

Leave is allocated at the beginning of each fiscal/school year and is to be used as a protection from loss of income. All leave must be requested and approved by a Supervisor. Attempts should be made to make appointments outside of regularly assigned hours.

Good attendance is an essential element of employment. Poor attendance can lead to disciplinary action.

Work Days / Hours of Work

The District Administrator or his/her designee will publish a schedule of work for all Support Staff employees. The following shall be used as a guide in establishing schedules:

Hours worked per day	Number of paid 15-minute breaks	30-minute unpaid meal break
Less than 4 hours	0	0
4 hours to 6 hours	1	1
Over 6 hours to 8 hours	2	1

Overtime shall only be paid if Support Staff employees have secured advanced written approval from their Supervisor. Time worked over forty (40) hours per week will be paid at the rate of one and one-half times the employee’s regular rate of pay or used as compensatory time as approved by their Supervisor.

Calendar

The school calendar shall be determined by the Board. The determination of the structure of the days (instructional, work days, etc.) shall be at the discretion of Administration.

Professional Development/Training Programs (In-service)

As a learning and teaching institution, the District expects all employees to model continuous learning to develop professional skills and personal growth. The District provides periodic paid in-service and training opportunities that are required for staff depending on assignment and role. Paid leave will not be approved on professional development or in-service days designed for Support Staff participation. Extenuating circumstances (i.e. bereavement, once-in-a-lifetime opportunity, etc.) may be approved by administration with appropriate documentation.

Meetings

Each Supervisor will determine the times and frequencies of Support Staff meetings. Efforts will be made to share the schedule in a timely manner. Employees must attend all meetings as called by administration or supervisors. In general, absences will be excused for emergencies or extenuating circumstances and must be granted by the administrator/supervisor calling the meeting.

The District Administrator may, from time-to-time, call all-staff meetings when need is determined. Support Staff will be compensated at their usual hourly rate for the length of the meeting if it is outside of their normal working hours.

Injuries to Employees

Employees who are injured at work must complete an Employee Incident Report form within twenty-four (24) hours of the injury whenever feasible. This form is located online under the District Forms tab. Completed forms should be electronically submitted. Additionally, all incidents must be verbally reported immediately to building administration or immediate supervisor.

Injuries to Students

All student injuries should be reported to the health staff. Attention should be given to all injuries, however minor. A Student Incident Report form must be filled out for all injuries and submitted electronically. Forms are located online under the District Forms tab.

Legal Actions Involving Employees

Every employee shall notify his/her supervisor as soon as possible, but not more than three (3) calendar days, after an arrest, indictment, conviction, no contest or guilty pleas, or any adjudication of the employee for any felony or misdemeanor, or any offense involving moral turpitude. An offense of operating under the influence, revocation or suspension of license, and driving after revocation or suspension must be reported. The requirement to report an arrest, indictment, conviction, no contest or guilty plea, or other adjudication shall not apply to minor traffic offences unless the employee is driving students or a district-owned vehicle.

Email and Voicemail

Good communication is required for a successful organization. It is the District's expectation that voicemail and email accounts be checked at least once per work day. It is the responsibility of the employee overseeing the paraprofessional to ensure that a device and a scheduled work time is accessible to the staff member for checking emails and/or voicemails. Email and voicemail are tools to increase efficiency utilized by the District and should be used solely for professional purposes, and in accordance with the District's Acceptable Use Policy.

It is important to note that there should be no expectation of privacy for online/network activity.

Personal Communications

Personal communications should be kept to a minimum and cannot interfere with employment expectations. Personal cell phone use, text messaging, other personal communication, or other recreational uses by district staff must be kept to scheduled breaks, duty-free lunch and outside of the school day. Personal devices used for work-related purposes are acceptable.

Emergency exceptions can be made with an employee's direct supervisor.

Licensure/Certification

It is the responsibility of the employee to obtain and maintain all required licenses and certifications for his/her position. Employees are required to maintain the licenses/certifications that are in effect upon hire, unless otherwise allowed by the District Administrator at his or her discretion.

Determination of Assignments

The District will determine employment assignments based on the needs of the District. Employees will be assigned by the District Administrator or his/her designee. Employees may express in writing to the District Administrator or his/her designee their preference of school, grade level or subject.

The District, at its discretion, may involuntarily transfer an employee to a vacant or new position in the District. If an employee wishes to be transferred to another position which is open, application for a transfer should be made in writing to the District Administrator or his/her designee. An employee who applies for a vacant position may be granted an interview for the position. The District retains the right to select the most qualified individual (internal or external candidate) for any position.

All current employees in the District may apply for summer school positions.

Reduction in Staff

Reductions in staff will be determined by the Board and based on the needs of the District.

Layoff

The Board reserves the right to reduce the number of positions (full layoff) or the number of hours in any particular position (partial layoff). In deciding which positions to reduce or eliminate as well as the individuals affected, the Board shall act in the best interest of the District.

Operation of District Vehicles

Any employee who drives a District vehicle must provide proof of a valid driver's license and must submit a copy of a valid driver's license to the District Office. All traffic violations must be reported to Administration within three days of receiving the violation. The District expects employees to be safe and adhere to the rules of the road. Citations received while driving a District vehicle are the responsibility of the driver and may result in disciplinary action. The District does complete background checks on all employees which does include the employee's driving record. A staff member may have restrictions on transporting students or may be restricted from driving a district vehicle based on the information contained in the driving record.

Operation of Personal Vehicles

The Board of Education will pay the IRS rate for approved out-of-district travel as well as travel between buildings when employees are required to travel as part of their assignment. Employees must submit a request for travel reimbursement. Employee personal insurance shall serve as the first level of coverage.

Transportation of Students

It is the District's position that transporting students in personal vehicles should be avoided. It puts the driver/owner at considerable risk for litigation and increased liability. However, in the rare circumstances when student transportation cannot be avoided, proof of valid license, vehicle inspection report, and insurance must be shared with the District Office. The vehicle inspection report will be valid for a period of (1 year) from the time of the inspection and will be kept on file in the District Office. Any accident or damage to the vehicle will require a new inspection prior to transporting students. Prior written administrative and parent permission is required and the owner of the vehicle has primary liability for any incident. (*AG 8660*)

Confidentiality

Employees are responsible for protecting the confidentiality of all information concerning employees, students, clients, donors and organizations with which the District does business.

Student education records are treated as confidential under the Family Education Rights and Privacy Act of 1974 and Wisconsin state statutes.

When there is separation of employment, individuals must return all paper and/or electronic documents (including storage devices) containing any confidential or proprietary information.

Professional Appearance

Employees are expected to dress in a professional manner appropriate to their working conditions and type of work performed. Certain departments, such as Food Service and Custodial may require special attire for work. Employees should consult their supervisor regarding dress code requirements. For most Instructional and Secretarial staff, business casual is most appropriate. Casual dress is appropriate for certain field trips, shop experiences, lab experiments or times when clothing could become soiled. All employees are District representatives at co-curricular activities and conferences and should appear as such.

Copyright

The District expects all employees to model legal and ethical behavior. Therefore, all copyright, video, web publishing and internet laws and guidelines must be followed by all District employees.

Community/Co-curricular Involvement

Learning in our school goes beyond the classroom. Employees are encouraged to attend co-curricular events.

Food Service Purchases

All staff are welcome to purchase a meal or ala carte items during scheduled meal hours. Meal hours vary by building and level. Purchases are made utilizing a District supplied identification number. An ID number is established to correspond to a personal lunch account. The account is a debit system; therefore, funds must be in the account prior to making a purchase. Cash is not accepted in the lunch line.

General Rules of Conduct

Employees represent the District at all times and in all places. Employees are expected to model positive, effective behavior and to adhere to the highest standards of their profession.

Annually, all personnel will review a list of District expectations and sign verification of such review. Many of these expectations also appear in this Handbook. These expectations are by no means exhaustive or complete, but simply list examples of conduct that may result in disciplinary action, up to and including termination. The District reserves the right to determine the appropriate discipline based on the circumstances of the individual incident.

These rules do not supersede or restrict legal rights and activities of employees.

Grievances

The District encourages collaborative problem solving. Employees are encouraged to share any employment-related problem with their immediate supervisor informally. This discussion often produces more immediate solutions than a formal process.

The District has adopted a grievance policy (*Policy 3340, 4340*) that is available online, via the District website or from the Administration Office. The process for filing a grievance is outlined in detail in Policy 4340.

Identification Badge

In order to maintain a safe, secure environment, all employees are required to have their photographs taken and wear the District-issued identification badge during the work day and at District functions when serving in a work-related role. Staff should sign-in when in a building that is not their home base.

Solicitations

Employees may not use their positions to solicit funds, recruit membership, disseminate personal or political information that in any way interferes or distracts from the District's vision, mission and purpose.

Safety Plans

Safety is the responsibility of all employees. As such, all employees are required to become familiar with the safety plan and participate in all safety drills and practices. Office and classroom areas are required to have Safety Plans and Evacuation/Shelter Maps displayed. Be sure to know where to report in the event of an emergency or drill.

Employees are encouraged to monitor hallways and grounds for unescorted/unfamiliar visitors and report them to the building office.

Child Abuse Reporting Requirement

Wisconsin Statutes 48.981 requires all school district employees to report cases of suspected child abuse or neglect. Each Support Staff employed by the District who has reasonable cause to suspect child abuse or neglect shall be responsible for reporting immediately every case, whether ascertained or suspected, of abuse or neglect resulting in physical or mental injury to a student by other than accidental means. The employee shall immediately notify the appropriate administrator according to the District's Reporting Procedure for Student Abuse or Neglect and be responsible for contacting the appropriate authorities (Manawa Police Department, Waupaca County Sheriff's Department and/or Waupaca County Department of Health and Human Services) who will then provide additional steps depending on the situational details and the child's residence address. The Child Abuse Reporting form can be found on the District website.

A reporting staff member shall not be dismissed or otherwise penalized for making a report of child abuse or neglect. Failure to report cases of suspected child abuse or neglect shall result in discipline, up to and including discharge.

EMPLOYEE SEPARATION

Timeline

Support Staff employees are encouraged to provide at least fourteen (14) days advance notice of resignation.

Support Staff wishing to retire are requested to inform the District Administrator, in writing, no later than March 1st.

An employee who fails to report to work for three (3) or more consecutively scheduled workdays unless prior permission is received from the employee's supervisor or unless circumstances beyond the employee's control may result in dismissal.

The District requests a minimum two-week notice when breaking the Memorandum of Understanding.

Job Vacancies

When the District determines to fill a vacant position, it will consider such factors as skill, competence, efficiency, training initiative, leadership qualifications, and ability to work with supervisors. The most qualified applicant shall fill the vacancy.

Overtime

Overtime shall only be paid if Support Staff employees have secured advanced written approval from their Supervisor. Time worked over forty (40) hours per week will be paid at the rate of one and one-half times the employee's regular rate of pay.

Compensatory Regular Time

Time worked over forty (40) hours per week may be used as compensatory time with the advance written approval of a supervisor. Compensatory Time shall be logged into Skyward at the rate of one and one-half times the employee's regular time.

Comp Time Example: An employee works a full 40-hour week and worked an additional four hours that same week. The employee may choose to either a) receive overtime pay for four hours or b) take six hours of comp time (if comp time is chosen in lieu of overtime, comp time will be at 1 ½ hours for each overtime hour worked).

An employee works four days and took either a sick day or vacation day during the week. The employee worked an additional four hours the same week. Because the employee did not actually work their normal scheduled hours for the week, the employee may choose to either a) receive straight pay for the four hours or b) take four hours of comp time.

PLEASE NOTE: Comp time may be accrued up to 5 comp days before it must be used and shall not be used for more than three (3) consecutive days. Preferably, this time should be used within 30 days from when it was earned. All comp time must be used by June 30 or any accumulated compensation time will be paid out. Compensatory time will not carry over into the next school year.

Call Time/Call-in Pay

Any employee called in to work by their supervisor outside his/her regular schedule shall receive a minimum of one (1) hour pay. Time over forty (40) hours per week will be paid at time and one half.

Vacations

Vacation Accrual: Vacations shall be granted to all full-time employees, based on their total length of service using the following as a guide:

AFTER Continuous Years of Service	Number of Vacation Days
One (1) year	Five (5) days
Two (2) years	Ten (10) days
Ten (10) years	Fifteen (15) days
Fifteen (15) years or more	Twenty (20) days

Negotiated exceptions will be noted and kept on file in personnel documentation.

Selection of Vacation Time: Employees shall normally be granted their vacation requests provided the work schedule permits and the request is made at least two (2) weeks prior to the beginning of the requested vacation. Should a conflict arise between two or more employees' vacation request, such requests shall be granted on an alternating basis, provided at least a two (2) week notice has been given. Vacations for an employee shall not be cumulative from year to year, but no vacation shall be forfeited if vacation could not be taken in a given year because of the Employer's non-approval of a vacation request.

Vacation Pay Upon Separation: Upon separation, employees shall receive payment for all unused accrued vacation for the current year, vacation days earned will be prorated from July 1 to the separation date.

Sick Leave

Support staff employees will earn sick/personal leave as follows:

- Full-time Employees will have 13 new days annually – three (3) for personal business and ten (10) for sick leave use.
- Part-time 1 Employees will have 10 new days annually – three (3) for personal business and seven (7) for sick leave use.
- Part-time 2 Employees will have 10 new days annually - two (2) for personal business and eight (8) for sick leave use.
- Part-time 3 Employees will not earn paid sick/personal leave.
- All unused PTO will roll to Sick Leave at the end of the school year (June 30).

Incentive to Sick Leave: For all employees eligible to earn sick leave, leave will accumulate up to ninety (90) days. Employees that have accumulated the maximum of ninety (90) days of unused sick leave will receive \$50 for every day over ninety (90) remaining on June 30. This is in lieu of “losing” unused sick days and will be paid on the July 15 payroll.

Gifting of Sick Leave

An employee may choose to gift sick leave days to another employee who has exhausted existing sick leave and who is personally experiencing a catastrophic illness or accident. A catastrophic illness or accident is a severe illness/accident requiring prolonged hospitalization or recovery. Examples would include coma, cancer, leukemia, heart attack or stroke. These illnesses or accidents usually involve high costs for hospitals, doctors and medicines and may incapacitate the person from working, creating a financial hardship. An employee with ten (10) or fewer sick days remaining in his/her own sick leave bank shall not be permitted to gift sick leave days.

Bereavement Leave

Support Staff shall be granted up to (4) days of Bereavement Leave in the event of a death in the family or close relationship. It is the employee's responsibility to submit the appropriate time-off information in Skyward and email his/her principal in advance of taking such leave. Support Staff who access Bereavement Leave consisting of multiple days for the same death shall confer with his/her supervisor in advance for the purpose of maintaining smooth school operations in his/her absence. The District may require proof of the death, the relationship, travel itineraries, or other documentation from the employee whenever the District deems such verification appropriate.

Emergency Leave

In the event of an emergency not covered by illness in the family as indicated in the Paid Time Off section or death as indicated in the Bereavement Leave section, the employee may apply for Emergency Leave to be granted by the District Administrator. Emergency Leave shall be deducted from Sick Leave and will be granted only if sufficient evidence is submitted to satisfy there is a compelling reason for absence. Usually this leave will be granted only under extraordinary and uncontrollable circumstances. These circumstances will usually fall under the classification of "an act of God" and will be of such a nature that they could not possibly be foreseen by the employee, such as damages to the employee's residence or vehicle caused by fire, flood, tornado, or other unforeseen emergency.

Jury Duty and Witness Duty

Any employee who is not able to report for work because of jury duty or acting as a witness in a matter in which the employee is not a party, will be paid for the time missed. The employee shall provide the District with any payment received from serving on the jury. Employees must notify their immediate supervisor as soon as notice of jury duty is received and as soon as jury duty terminates.

Support Staff shall report to work if released from jury duty or the witness stand when at least a half-day remains in the scheduled work day. Support Staff are required to submit proof to verify the amount of the payment and their requirement/request to appear to be placed in the employee file.

National Guard Duty

Where an employee is absent due to required service in the National Guard or Reserve, the employee will be paid his/her full salary for a period of up to five days for such absence, barring any overriding provision by the state or federal government. This leave will be granted without any deduction from the employee's PTO or vacation account, provided that the employee must endorse to the District all payments by the military for the days covered by paid leave from the District. However, an employee may choose to use PTO or vacation in order to retain both District pay and military pay.

Military Leave for Active Duty

Support Staff will be granted a military leave of absence for absences from work due to serving in the U.S. uniformed services in accordance with the Uniformed Services Employment and Reemployment Rights Act (USERRA). Support Staff must give their supervisor advance notice of upcoming military service, unless military necessity prevents advance notice or it is otherwise impossible or unreasonable.

Support Staff will not be paid for military leave. However, Support Staff may use any available accrued paid time off to help pay for the leave. Continuation of health insurance benefits is available as required by USERRA based on the length of the leave and subject to the terms, conditions and limitations of the applicable places for which the employee is otherwise eligible.

An employee who is on military leave for up to 30 days must return to work on the first regularly scheduled work period after the service ends (allowing for reasonable travel time). An employee who is on military leave for more than 30 days must apply for reinstatement in accordance with USERRA and applicable state laws.

Support Staff who return from military leave (depending on the length of military service in accordance with USERRA) will be placed either in the position the employee would have attained if he/she had stayed continuously employed or in a comparable position. For the purpose of determining benefits that are based on length of service, the employee will be treated as if he/she had been continuously employed.

Administratively-Approved Leave

An employee may request Administratively-Approved Leave (with or without pay) for absences not covered under PTO, Bereavement Leave, or Emergency Leave provisions. Typically, such leave is for “once-in-a-lifetime” events over which the employee has no control of the date. Paid Administratively-Approved Leave shall access the employee’s PTO/Sick Leave account. Unpaid Administratively-Approved Leave shall result in a pro-rated daily deduction of the employee’s next payroll. This leave and the conditions thereof, including compensation, shall be at the discretion of the District Administrator whose decision shall be final and without appeal.

Written requests for Administratively-Approved Leave shall be made with the appropriate form at least three days prior to the absence to the District Administrator if advance notice is available. In the event that three days’ advance notice is not available, the employee shall be responsible for submitting the appropriate form as soon as the information is available.

Administratively-Approved Leave, either paid or unpaid, shall not be granted for participating in job actions such as picketing or demonstrating, or to participate in activities designed to disparage, embarrass, or discredit the District.

Family and Medical Leave Act (FMLA)

Support Staff have access to absences covered by the federal Family Medical Leave Act (FMLA) and the Wisconsin Family Medical Leave Act (WFMLA) in accordance with provisions and procedures specified in *Policy 3430.01, AG 3430.01A, and AG 3430.01B*. Questions regarding FMLA leave should be directed to the District’s Business Office.

LEAVES OF ABSENCE

Unpaid Leave of Absence

Employees must submit a written request for an unpaid leave of absence to the Board. The Board may grant the request for a leave of absence at its discretion. The leave of absence will begin and end on the dates approved by the Board. A leave of absence may not exceed twelve (12) calendar months.

Employee participation in fringe benefits will be discontinued during a leave of absence. The employee may remain a member of the District’s group insurance plans (to the extent permitted by the carrier); however, he/she must pay the premiums to the District during the leave of absence.

Sick leave will not accrue during a leave of absence; however, any accumulated sick leave at the time of the leave of absence will be reinstated upon return.

Child-Rearing and Adoption Leave (Extended Beyond FMLA/WFMLA)

Employees with a minimum of three years of continuous local experience may apply for unpaid Child-Rearing/Adoption Leave. Such leave is subject to Board approval and may be taken for no longer than two semesters. The Board reserves the right to limit approved leaves to no more than two employees per school year and is subject to hiring a qualified replacement for the leave period. This leave provision is not available to employees who have used this leave provision within the previous three years.

Application should be made in writing at least three months prior to the requested start of the leave. If conditions are such that three months' advance notice is not reasonable, then application should be made as soon as practicable with an explanation as to the cause of the reduced advance notice.

Failure to Return after Expiration of Leave: In the event the employee does not return to work following the expiration of the leave, and subject to applicable legal restrictions, he/she will be deemed to have resigned his/her position with the District and waived any and all rights to further employment by the District.

Interaction with Family and Medical Leave Provisions: Unpaid medical leave, the term of such leave, and participation in insurance programs under this section as provided for above shall run concurrent with any leave(s) provided for under the Wisconsin Family and Medical Leave Act and/or under the federal Family and Medical Leave Act.

Evaluations

Support Staff will be evaluated annually by their immediate supervisor. Evaluations will be a key determining factor in whether the employee will be considered for continued employment. In addition, the employee's salary advancement will also be dependent on the recommendation of the supervisor based on the evaluation report.

Fobs and Keys

Employee identification badges, parking permit, keys and the key fob for building entry will be issued to employees after initial hire.

Work Orders

Employees are asked to submit Work Orders within 24 hours of becoming aware that something is not in good working order. The Work Order form can be found online under the District Forms tab.

Unpaid Debt to the District

Employees that accrue debt due to unpaid food service bills, non-sufficient funds check, or other reasons will have this amount subtracted from their pay on June 15th payroll.

School District of Manawa Special Education Policies and Procedures

Preface

As a condition of funding under the Individuals with Disabilities Education Act (IDEA), local educational agencies are required to establish written policies and procedures for implementing federal special education laws. In addition, Wisconsin law requires local educational agencies to establish written policies and procedures for implementing state and federal special education requirements. *Model Local Educational Agency Special Education Policies and Procedures* has been developed to help local educational agencies meet their obligation to establish and implement special education requirements. A local educational agency may establish special education requirements by adopting the model policies and procedures. The document may also be used as a reference tool and for staff development activities to promote understanding of and compliance with special education requirements.

The state special education statutes, subchapter V, chapter 115, Wis. Stats., incorporate the statutory provisions of Part B of the IDEA. Local educational agencies in Wisconsin must also comply with IDEA's regulations. Therefore, the model policies and procedures are derived primarily from Wisconsin special education statutes and IDEA regulations. A small number of policies and procedures are derived from Wisconsin special education rules, chapter PI 11, Wis. Admin. Code. The underlying law can be found by using the following tools:

1. the table of contents to the IDEA Regulations found at 34 CFR Part 300, Vol. 71 Federal Register, No. 156 (August 14, 2006);
2. the table of contents of the state special education statute, Subchapter V, Chapter 115, Wis. Stats.; and
3. the table of contents for the state special education rules, Chapter PI 11, Wis. Admin. Code.

Free Appropriate Public Education

GENERAL. All children with disabilities for whom the School District of Manawa is responsible are provided a free appropriate public education. Special education and related services are provided to these children with disabilities, including, as required by 34 CFR § 300.530(d), children with disabilities who have been suspended or expelled from school. Children with disabilities entitled to a free appropriate public education are children age three, but not yet 21 who have not graduated from high school with a regular high school diploma and, for the duration of a school term, persons who become 21 years old during that school term and who have not graduated from high school with a regular diploma. A regular high school diploma does not include an alternative degree that is not fully aligned with the State's academic standards, such as a certificate or a general educational development credential (GED). The special education and related services provided to children addresses all of their special education and related services needs and are provided by personnel qualified as required by 34 CFR § 300.156.

34 CFR § 300.101(a); 34 CFR § 300.102(a)(3)(iv); 34 CFR § 300.156; Wis. Stat. § 115.76(3)

The School District of Manawa provides prior written notice of a change in placement consistent with the requirements in the law when a child with a disability graduates from high school with a regular diploma. Additionally for those students who graduate from high school with a regular diploma as well as students who exceed the age of eligibility, the School District of Manawa provides a summary of their academic achievement and functional performance, including recommendations on how to assist the child in meeting the child's postsecondary goals.

34 CFR § 300.102(a)(3)(iii); 300.305(e)(3)

The School District of Manawa ensures that an IEP is in effect for each eligible child no later than the child's third birthday. If the child's third birthday occurs during the summer, the child's IEP team determines when the IEP services will begin.

34 CFR § 300.101(b)

If a placement in a public or private residential program is necessary to provide special education and related services to a child with a disability, the program, including non-medical care and room and board, is provided at no cost to the parents of the child.

34 CFR § 300.104

The School District of Manawa admits a nonresident child if the program is appropriate for the child's disability. When a resident child is refused admittance to another local educational agency, the resident local educational agency ensures that a free appropriate public education is provided to the child. Stat. § 115.82(2)(a) and (b).

34 CFR § 300.113

PHYSICAL EDUCATION. Physical education services, specially designed if necessary, are made available to every child with a disability unless the LEA does not provide physical education to children without disabilities in the same grades. Each child with a disability is afforded the opportunity to participate in regular physical education programs available to nondisabled children unless the child is enrolled full time in a separate facility, or the child needs specially-designed physical education as prescribed in the child's IEP.

If specially-designed physical education is prescribed in a child's IEP, the School District of Manawa provides the services directly or makes arrangements for those services to be provided through other public or private programs. The School District of Manawa ensures that a child with a disability who is enrolled in a separate facility receives appropriate physical education services in compliance with the law.

34 CFR § 300.108

34 CFR § 300.105

EXTENDED SCHOOL YEAR. The School District of Manawa ensures that extended school year services are available to each child with a disability as necessary to provide a free appropriate public education. Extended school year services are provided when a child's IEP team determines, on an individual basis, that the services are necessary for the provision of a free appropriate public education to the child. The School District of Manawa does not limit extended school year services to particular categories of disability, or unilaterally limit the type, amount, or duration of those services.

34 CFR § 300.106

PARTICIPATION IN ASSESSMENTS. Children with disabilities attending the School District of Manawa are included in all state-wide and district-wide assessment programs with appropriate accommodations. Those children who cannot participate in state-wide or district-wide assessments participate in alternate assessments. Needed accommodations or alternate assessments are identified by the IEP team and are specified in the child's IEP.

METHODS OF ENSURING A FREE APPROPRIATE PUBLIC EDUCATION. If a public agency, other than an educational agency, fails to meet its obligation under federal or state law or under state policy or interagency agreement to provide or pay for any services that are also considered special education and related services that are necessary for ensuring a free appropriate public education to a child, the School District of Manawa provides or pays for these services to the child in a timely manner.

34 CFR § 300.154(b)(2)

When the School District of Manawa uses Medicaid or other public insurance benefits programs in which a child participates to provide or pay for special education and related services necessary for the child to receive a free appropriate public education as permitted under the public insurance program, the School District of Manawa obtains parent consent each time access to public benefits or insurance is sought.

Furthermore, the School District of Manawa does not:

- require parents to sign up for or enroll in public insurance programs in order for their child to receive a free appropriate public education under Part B of the Act;

- require parents to incur an out-of-pocket expense such as the payment of a deductible or co-pay amount incurred in filing a claim for special education and related services; or
- use a child's benefits under a public insurance program if that use would:
 - decrease available lifetime coverage or any other insured benefit,
 - result in the family paying for services that would otherwise be covered by the public benefits or insurance program and that are required for the child outside of the time the child is in school,
 - increase premiums or lead to the discontinuation of benefits or insurance or
 - risk loss of eligibility for home and community-based waivers based on aggregate health-related expenditures.

Each time the School District of Manawa proposes to access the proceeds of a parents' private insurance to provide services necessary for the child to receive a free appropriate public education, the School District of Manawa:

- obtains informed parent consent; and
- informs the parents that their refusal to permit the School District of Manawa to access their private insurance does not relieve the public agency of its responsibility to ensure that all required services are provided at no cost to the parents.

34 CFR § 300.154

The School District of Manawa timely provides instructional materials in accessible formats to children who are blind, children with print disabilities, or other children with disabilities as required in the child's IEP.

34 CFR § 300.210

Stat. § 118.51(12)(a)&(b)2 of the Full-Time Open Enrollment law, if a non-resident child with a disability is attending the School District of Manawa under the Full-Time Open Enrollment law, the School District of Manawa provides an educational placement for the child. If tuition charges are required by the placement, the School District of Manawa pays tuition charges instead of the resident school district.

Wis. Stat. § 115.79(1)(b)

An IEP Team member may be excused from attending an IEP Team meeting, in whole or in part, when the meeting involves a modification to or discussion of the member's area of curriculum or related services, if the parent, in writing, and the School District of Manawa consent to the excusal, and the member submits, in writing to the parent and the IEP Team, input into the development of the IEP prior the meeting.

34 CFR § 300.321(e); Wis. Stat. § 115.78(5)

PARENT PARTICIPATION IN IEP TEAM MEETINGS. The School District of Manawa takes steps to ensure that one or both of the parents of a child with a disability are present at each IEP Team meeting or are afforded the opportunity to participate, including:

- notifying parents of the meeting early enough to ensure that they will have an opportunity to attend; and
- scheduling the meeting at a mutually agreed on time and place.

The notice required in this policy:

- indicates the purpose, time, and location of the meeting and who will be in attendance; informs the parents of the provisions in these policies relating to the participation of other individuals on the IEP team who have knowledge or special expertise about the child; and
- informs the parents that they can request the Part C coordinator or other representatives of the Part C system be at the initial IEP Team meeting for a child previously served under Part C of IDEA.

Beginning no later than in the first IEP that will be in effect when the child is 14, the notice also:

- indicates that a purpose of the meeting is the consideration of the postsecondary goals and transition services for the child;
- indicates that the School District of Manawa will invite the student; and
- identifies any other agency that will be invited to send a representative.

If neither parent can attend, the School District of Manawa uses other methods to ensure parent participation, including individual or conference calls.

The School District of Manawa may conduct meetings without a parent in attendance if the School District of Manawa is unable to convince the parents that they should attend. In this case the School District of Manawa has a record of its attempts to arrange a mutually agreed on time and place, such as:

- detailed records of telephone calls made or attempted and the results of those calls;
- copies of correspondence sent to the parents and any responses received; and
- detailed records of visits made to the parent's home or place of employment and the results of those visits.

The School District of Manawa takes whatever action is necessary to ensure that the parent understands the proceedings at the IEP Team meeting, including arranging for an interpreter for parents with deafness or whose native language is other than English.

Subject to the timeline requirements contained in this policy, if the parents of the child or the School District of Manawa staff determine at any meeting during the process of the evaluation, development of the IEP or placement of the child that additional time is needed to permit meaningful parental participation, the School District of Manawa provides it. Upon request, the School District of Manawa provides a copy of the most recent evaluation report to the child's parents at any meeting of the IEP team.

The School District of Manawa gives the parent a copy of the child's IEP at no cost to the parent.

34 CFR § 300.322; Wis. Stat. §§ 115.787(2)(g) and 115.78(3)(d)

IEP TEAM DUTIES. The IEP team does all of the following:

- evaluates the child to determine the child's eligibility or continued eligibility for special education and related services, and the educational needs of the child;
- develops an IEP for the child; and
- determines the special education placement for the child.

34 CFR § 300.324(a); Wis. Stat. § 115.78

TIMELINE. Within 15 business days of receiving a referral, the School District of Manawa sends to the child's parents a request for consent to evaluate the child except that if the School District of Manawa determines that no additional data are necessary, the School District of Manawa notifies the child's parent of that determination within 15 business days of receiving the referral. The School District of Manawa determines if a child is a child with a disability within 60 days after receiving parental consent for the evaluation or provides notice that no additional data are needed. The 60-day period does not apply:

- if the child transfers into the School District of Manawa before the previous local educational agency has made an eligibility determination, sufficient progress is being made to ensure a prompt completion of the evaluation, and the child's parents agree to a specific time when the evaluation will be completed;
- if the child's parent repeatedly fails or refuses to produce the child for the evaluation; or
- if a child is being evaluated for a specific learning disability and the timeline is extended by mutual written agreement of the child's parents and IEP team.

The School District of Manawa conducts a meeting to develop an IEP and determine placement within 30 days of a determination that a child is a child with a disability.

If the parents of the child or School District of Manawa staff determine at any meeting during the process of evaluation, development of the IEP, or determination of placement,

that additional time is needed to permit meaningful parent participation, the School District of Manawa provides it.

Evaluation

GENERAL. As part of an initial evaluation of a child and as part of any reevaluation of a child, the IEP team and other qualified professionals, as determined by the School District of Manawa:

- reviews existing evaluation data on the child, including evaluations and information provided by the child's parents, previous interventions and the effects of those interventions, current classroom-based, local, or state assessments, classroom-based observations, and observations by teachers and related services providers; and
- on the basis of that review and information provided by the child's parents, identifies the additional data, if any, that are needed, to determine:
 - whether the child has a particular category of disability and the educational needs of the child or, in case of a reevaluation of a child, whether the child continues to have such a disability and the educational needs of the child;
 - the present levels of academic achievement and related developmental needs of the child;
 - whether the child needs special education and related services, or in the case of a reevaluation of a child, whether the child continues to need special education and related services; and
 - whether any additions or modifications to the special education and related services are needed to enable the child to meet the measurable, annual goals specified in the child's IEP and to participate, as appropriate, in the general education curriculum.
- The School District of Manawa administers such assessment and other evaluations as may be needed to produce the additional data.
- The review of existing evaluation data on the child may occur without conducting a meeting.

34 CFR § 300.305; Wis. Stat. § 115.782(2)(b)

The School District of Manawa does not require parental consent before reviewing existing data as part of an evaluation or reevaluation or administering a test or other

evaluation that is administered to all children unless, before administration of that test or evaluation, the School District of Manawa requires consent for all children.

34 CFR § 300.300(d)(1)

Screening of a student by a teacher or specialist to determine appropriate instructional strategies for curriculum implementation is not considered to be an evaluation for eligibility for special education and related services.

34 CFR § 300.302

The School District of Manawa provides the parents of the child with proper written notice, of any evaluation procedures the agency proposes to conduct, and the names of the individuals who will conduct the evaluation, if known.

34 CFR § 300.304(a); Wis. Stat. § 115.782(1)(a)

INITIAL EVALUATIONS

The School District of Manawa obtains informed consent from the child's parent before administering assessments or other evaluation materials to the child. Parental consent for the evaluation does not constitute consent for placement for receipt of special education and related services.

34 CFR § 300.300(a); Wis. Stat. § 115.782(1)(b)

If the child is a ward of the state and is not residing with the child's parent, the School District of Manawa is not required to obtain informed consent from the parent for an initial evaluation if: the School District of Manawa cannot, after reasonable efforts, locate the parent of the child; the rights of the parents of the child have been terminated in accordance with state law; or, the rights of the parent to make educational decisions have been subrogated by a judge in accordance with state law and consent for an initial evaluation has been given by an individual appointed by the judge to represent the child.

34 CFR § 300.300(a)(2)

If the parent of a child enrolled in public school or seeking to be enrolled in public school does not provide consent for an initial evaluation or fails to respond to a request to provide consent, the School District of Manawa may, but is not required to, pursue the initial evaluation by utilizing mediation or due process.

34 CFR § 300.300(a)(3)

If a parent of a child who is home schooled or parentally placed in a private school does not provide consent, or the parent fails to respond to a request to provide consent, the

School District of Manawa cannot use mediation or due process and is not required to consider the child as eligible for services.

34 CFR § 300.300(d)(4)

The School District of Manawa does not use a parent's refusal to consent to activities relating to conducting an initial evaluation to deny the parent or child any other service, benefit, or activity of the School District of Manawa.

34 CFR § 300.300(d)(3)

IEP TEAM DETERMINATION OF ELIGIBILITY OR CONTINUING ELIGIBILITY (INITIAL AND REEVALUATION). Following a review of existing data and administration of assessments and other evaluation materials (if any), the IEP team determines whether the child is or continues to be a child with a disability. For a child who does not otherwise meet the eligibility criteria under state law, the IEP team does not determine that the child is a child with a disability solely because the child has received inappropriate instruction in reading or math or because the child has limited proficiency in English. In interpreting evaluation data for the purpose of determining if a child is a child with a disability, and the educational needs of the child, the School District of Manawa draws upon information from a variety of sources, including aptitude and achievement tests, parent input, teacher recommendations, physical condition, social or cultural background, and adaptive behavior. The School District of Manawa ensures that information obtained from all of these sources is documented and carefully considered.

34 CFR § 300.306

REEVALUATION. In conducting reevaluations, the IEP team:

- evaluates a child with a disability in accordance with the law before determining that the child is no longer a child with a disability, and
- reevaluates a child with a disability in accordance with the law if the School District of Manawa determines that the educational or related services needs of the child, including the child's academic and functional performance, warrant a reevaluation or if the child's parent or teacher requests a reevaluation. The IEP team shall reevaluate a child no more than once a year unless the child's parents and the School District of Manawa agree otherwise, and at least once every 3 years unless the child's parent and School District of Manawa agree that a reevaluation is unnecessary.

34 CFR §§ 300.303, 300.305(e)(1); Wis. Stat. § 115.782(4)

An evaluation is not required before the termination of a child's eligibility for special education and related services because he or she graduated from secondary school with a regular diploma or because he or she reached the age of 21. Under these

circumstances, the School District of Manawa provides the child with a summary of the child's academic achievement and functional performance, including recommendations on how to assist the child in meeting his or her postsecondary goals.

34 CFR § 300.305(e)(2) and (3); Wis. Stat. § 115.782(4)

In conducting a reevaluation, the School District of Manawa obtains informed consent from the child's parent before administering new assessments and other evaluation materials. The School District of Manawa proceeds without consent only if the School District of Manawa has taken reasonable measures to obtain the consent and the child's parents have failed to respond. Reasonable measures are the measures required for conducting an IEP meeting without a parent in attendance. If the parent of a child enrolled in public school or seeking to be enrolled in public school refuses to provide consent, the School District of Manawa is not required to pursue the reevaluation, but may pursue the reevaluation by utilizing mediation or due process.

If a parent of a child who is home schooled or parentally placed in a private school refuses or fails to respond to a request for consent for a reevaluation, the School District of Manawa cannot use mediation or due process, and is not required to consider the child as eligible for services.

34 CFR § 300.300(c) and (d); Wis. Stat. § 115.782(4)(b)

If the IEP team and other qualified professionals, as appropriate, finds no additional information is needed to determine whether a child continues to be a child with a disability, and to determine the child's educational needs, the School District of Manawa notifies the child's parents of that finding and the reasons for it, and that the parent has a right to request an assessment to determine whether the child continues to have a disability, and to determine the child's educational needs. The School District of Manawa conducts such an assessment if the parent requests it.

34 CFR § 300.305(d); Wis. Stat. § 115.782(4)(c)

EVALUATION REPORT. When the IEP team determines a child's eligibility, the team prepares an evaluation report that includes documentation of the determination of eligibility. The School District of Manawa gives a copy of the evaluation report and the documentation of determination of eligibility at no cost to the child's parents.

34 CFR § 300.306(a); Wis. Stat. § 115.782(3)(b)

EVALUATION SAFEGUARDS. When the School District of Manawa evaluates a child with a disability, the IEP team:

- does not use any single measure or assessment as the sole criterion for determining whether a child is a child with a disability and for determining an appropriate educational program for the child;

- uses a variety of assessment tools and strategies to gather relevant functional, developmental, and academic information, including information provided by the child's parent, that may assist in determining whether the child is a child with a disability and the content of the child's IEP, including information related to enabling the child to be involved in and progress in the general education curriculum or, for preschool children, to participate in appropriate activities;
- uses technically sound instruments that may assess the relative contribution of cognitive and behavioral factors, in addition to physical or developmental factors; and
- ensures all of the following:
 - assessments and other evaluation materials used to assess a child are selected and administered so as not to be racially or culturally discriminatory and are provided and administered in the child's native language or other mode of communication and in the form most likely to yield accurate information on what the child knows and can do, academically, developmentally, and functionally, unless it is clearly not feasible to do so;
 - any assessments given to the child have been validated for the specific purpose for which they are used, are administered by trained and knowledgeable personnel and are administered in accordance with any instructions provided by the producer of such assessments or evaluation materials;
 - the child is assessed in all areas of suspected disability; including, if appropriate, health, vision, hearing, social and emotional status, general intelligence, academic performance, communicative status, and motor abilities; and
 - assessment tools and strategies that provide relevant information that directly assists persons in determining the educational needs of the child are used.

34 CFR § 300.304; Wis. Stat. §§ 115.782(2) and 3(b),

- The evaluation report includes documentation of determination of eligibility for special education. A copy of the evaluation report, including the documentation of eligibility is given to the child's parents.

In evaluating each child with a disability, the evaluation is sufficiently comprehensive to identify all of the child's special education and related services needs whether or not commonly linked to the disability category in which the child has been classified.

34 CFR § 300.304 (c)(6)-(7)

The School District of Manawa ensures assessments and other evaluation materials include those tailored to assess specific areas of educational need and not merely those designed to provide a single general intelligence quotient.

34 CFR § 300.304(c)(2)

The School District of Manawa ensures assessments are selected and administered so as best to ensure that if an assessment is administered to a child with impaired sensory, manual, or speaking skills, the assessment results accurately reflect the child's aptitude or achievement level or whatever other factors the test purports to measure, rather than reflecting the child's impaired sensory, manual or speaking skills (unless those skills are the skills the test purports to measure).

34 CFR § 300.304(c)(3)

ADDITIONAL REQUIREMENTS FOR SPECIFIC LEARNING DISABILITIES.

When a school begins to use data from a multi-level system of support to consider if the student meets the Insufficient Progress criterion, the IEP team shall include the following additional members:

- at least one licensed person who is qualified to assess data on individual rate of progress using a psychometrically valid and reliable methodology;
- at least one licensed person who has implemented scientific, research-based or evidence-based, intensive interventions with the referred pupil
- at least one licensed person who is qualified to conduct individual diagnostic evaluations of children; and
- if the child does not have a licensed general education teacher, a general education classroom teacher licensed to teach a child of the same age, or for a child of less than school age, an individual qualified by the Department of Public Instruction to teach a child of his or her age.

PI 11.36(6)

For a child suspected of having a specific learning disability, the documentation of the determination of eligibility shall include:

- whether the child has a specific learning disability;
- the basis for making that determination, including an assurance that the eligibility determination was based on a variety of sources, including aptitude and achievement tests, parent input, and teacher recommendations, as well as information about the child's physical condition, social or cultural background, and adaptive behavior; and that the information obtained from all of these sources is documented and carefully considered;

- the relevant behavior, if any, noted during observation of the child and the relationship of that behavior to the child's academic functioning in the area of potential specific learning disability;
- documentation that the intensive intervention was applied in a manner highly consistent with its design, was closely aligned to pupil need, and was culturally appropriate;
- the educationally relevant medical findings, if any;
- whether the child does not achieve adequately for the child's age or to meet state approved grade-level standards and the child does not make sufficient progress to meet age or State-approved grade-level standards; or until November 30, 2013, the child exhibits a significant discrepancy between the child's academic achievement in any of the eight areas of potential specific learning disabilities and intellectual ability.
- the determination of the team concerning the effects of a visual, hearing, or motor disability; mental retardation; emotional disturbance; cultural factors; environmental or economic disadvantage; or limited English proficiency on the child's achievement level; and
- if the child has participated in a process that assesses the child's response to scientific, research-based intervention, documentation that the child's parents were notified about the following:
 - the progress monitoring data collected;
 - strategies for increasing the child's rate of learning including the intensive interventions used, and
 - the parents' right to request an evaluation.

Each IEP team member certifies in writing whether the report reflects his or her conclusion. If the evaluation report does not reflect the IEP team member's conclusions, the member submits a separate statement presenting his or her conclusions.

PI 11.36(6)

Determination of Eligibility

An evaluation conducted by an IEP team under Wis. Stat. § 115.782, shall focus on the consideration of information and activities that assist the IEP team in determining the educational needs of the child. Specifically, the IEP team shall meet the evaluation criteria specified under Wis. Stat. § 115.782(2)(a), when conducting tests and using other evaluation materials in determining a child's disability.

Wis. Admin. Code § PI 11.35(1)

A child shall be identified as having a disability if the IEP team has determined from an evaluation conducted under Wis. Stat. § 115.782, that the child has an impairment under Wis. Admin. Code § PI 11.36 that adversely affects the child's educational performance, and the child, as a result thereof, needs special education and related services. As part of an evaluation or reevaluation under Wis. Stat. § 115.782, conducted by the IEP team in determining whether a child is or continues to be a child with a disability, the IEP team shall identify all of the following:

- The child's needs that cannot be met through the regular education program as structured at the time the evaluation was conducted.
- Modifications, if any, that can be made in the regular education program, such as adaptation of content, methodology or delivery of instruction to meet the child's needs identified by the IEP team that will allow the child to access the general education curriculum and meet the educational standards that apply to all children.
- Additions or modifications, if any, the child needs which are not provided through the general education curriculum, including replacement content, expanded core curriculum and other supports.

Wis. Admin. Code § PI 11.35

A child will not be determined to be a child with a disability if:

- The determinant factor for that determination is
 - Lack of appropriate instruction in reading, including the essential components of reading instruction as defined in 20 USC 6368(3); or
 - Lack of appropriate instruction in math; or
 - Limited English proficiency; and,
- The child does not otherwise meet the eligibility criteria.

34 CFR § 300.306(b); Wis. Stat. § 115.782(3)(a)

Areas of Impairment

All provisions in these policies shall be construed consistent with 20 USC 1400 et. Seq. and the regulations promulgated thereunder.

Wis. Admin. Code § PI 11.36

AUTISM. Wis. Admin. Code § PI 11.36(8)

Autism means a developmental disability significantly affecting a child's social interaction and verbal and nonverbal communication, generally evident before age 3 that adversely affects learning and educational performance. Other characteristics often associated with autism are engagement in repetitive activities and stereotyped movements, resistance to environmental change or change in daily routines, and unusual responses to sensory experiences. The term does not apply if a child's educational performance is adversely affected primarily because the child has an emotional behavioral disability as defined in Wis. Admin. Code § PI 11.36(7).

The results of standardized or norm-referenced instruments used to evaluate and identify a child under this paragraph may not be reliable or valid. Therefore, alternative means of evaluation, such as criterion-referenced assessments, achievement assessments, observation and work samples shall be considered to identify a child under this paragraph. Augmentative communication strategies, such as facilitated communication, picture boards or signing shall be considered when evaluating a child under this paragraph. To identify a child as a child with autism, the criteria under 1. and 2. and one or more criteria under 3. through 6. shall be met.

1. The child displays difficulties or differences or both in interacting with people and events. The child may be unable to establish and maintain reciprocal relationships with people. The child may seek consistency in environmental events to the point of exhibiting rigidity in routines.
2. The child displays problems which extend beyond speech and language to other aspects of social communication, both receptively and expressively. The child's verbal language may be absent or, if present, lacks the usual communicative form which may involve deviance or delay or both. The child may have a speech or language disorder or both in addition to communication difficulties associated with autism.
3. The child exhibits delays, arrests, or regressions in motor, sensory, social or learning skills. The child may exhibit precocious or advanced skill development, while other skills may develop at normal or extremely depressed rates. The child may not follow normal developmental patterns in the acquisition of skills.
4. The child exhibits abnormalities in the thinking process and in generalizing. The child exhibits strengths in concrete thinking while difficulties are demonstrated in

abstract thinking, awareness and judgment. Perseverant thinking and impaired ability to process symbolic information may be present.

5. The child exhibits unusual, inconsistent, repetitive or unconventional responses to sounds, sights, smells, tastes, touch or movement. The child may have a visual or hearing impairment or both in addition to sensory processing difficulties associated with autism.
6. The child displays marked distress over changes, insistence on following routines and a persistent preoccupation with or attachment to objects. The child's capacity to use objects in an age-appropriate or functional manner may be absent, arrested or delayed. The child may have difficulty displaying a range of interests or imaginative activities or both. The child may exhibit stereotyped body movements.

INTELLECTUAL DISABILITY. Wis. Admin. Code § PI 11.36(1)

Intellectual disability means significant limitations both in intellectual functioning and in adaptive behavior as expressed in conceptual, social, and practical adaptive skills and manifested during the developmental period that adversely affects the child's educational performance. The IEP team may identify a child as having an intellectual disability if the child meets the following criteria:

1. The child has a standard score of 2 or more standard deviations below the mean on an individually administered intelligence test which takes into account the child's mode of communication and is developed to assess intellectual functioning using this mode. More than one intelligence test may be used to produce a comprehensive result.
2. The child has significant limitations in adaptive behavior that are demonstrated by a standards score of 2 or more standard deviations below the mean on standardized or nationally-normed measures, as measured by comprehensive, individual assessments that include interviews of the parents, tests, and observations of the child in adaptive behavior which are relevant to the child's age, including at least one of the following:
 - a. Conceptual skills;
 - b. Social adaptive skills;
 - c. Practical adaptive skills; or
 - d. An overall composite score on a standardized measure of conceptual, social, and practical skills.
- 3.a. The child is age 3 through 5 and has a standard score of 2 or more standard deviations below the mean on standardized or nationally-normed measures, as measured by comprehensive, individual assessments, in the following areas: language development and communication, cognition, and general knowledge.

- b. The child is age 6 through 21 and has a standard score of 2 or more standard deviations below the mean on standardized or nationally-normed measures, as measured by comprehensive, individual assessments, in general information and at least 2 of the following areas: written language, reading, and mathematics.

When it is determined that reliable and valid assessment results are not possible due to the child's functioning level or age, a standardized developmental scale or a body of evidence including informal measures shall be used to assess the child.

Upon re-evaluation, a child who met identification criteria for cognitive disability prior to September 1, 2015, and continues to demonstrate a need for special education under s. PI 11.35 (2), including specially designed instruction, is a child with a disability under this section.

NOTE: Intellectual disabilities typically manifest before age 18. An etiology should be determined when possible, so the IEP team can use this information for program planning.

EMOTIONAL BEHAVIORAL DISABILITY. Wis. Admin. Code § PI 11.36(7)

Emotional behavioral disability, pursuant to Wis. Stat. § 115.76(5)(a)5, means social, emotional or behavioral functioning that so departs from the generally accepted, age appropriate ethnic or cultural norms that it adversely affects a child's academic progress, social relationships, personal adjustment, classroom adjustment, self-care or vocational skills. The IEP team may identify a child as having an emotional behavioral disability if the child meets the preceding definition and meets all of the following:

- The child demonstrates severe, chronic and frequent behavior that is not the result of situational anxiety, stress or conflict.
- The child's behavior described under par.(a) occurs in school and in at least one other setting.
- The child displays any of the following:
 - Inability to develop or maintain satisfactory interpersonal relationships.
 - Inappropriate affective or behavioral response to a normal situation.
 - Pervasive unhappiness, depression, or anxiety.
 - Physical symptoms, pains or fears associated with personal or school problems.
 - Inability to learn that cannot be explained by intellectual, sensory, or health factors.
 - Extreme withdrawal from social interactions.
 - Extreme aggressiveness for long period of time.
 - Other inappropriate behaviors that are so different from children of similar age, ability, educational experiences and opportunities that the child or other children in a regular or special education program are negatively affected.

The IEP team shall rely on a variety of sources of information, including systematic observations of the child in a variety of educational settings and shall have reviewed prior, documented interventions. If the IEP team knows the cause of the disability under this paragraph, the cause may be, but is not required to be, included in the IEP team's written evaluation summary.

The IEP team may not identify or refuse to identify a child as a child with an emotional behavioral disability solely on the basis that the child has another disability, or is socially maladjusted, adjudged delinquent, a dropout, chemically dependent, or a child whose behavior is primarily due to cultural deprivation, familial instability, suspected child abuse or socio-economic circumstances, or when medical or psychiatric diagnostic statements have been used to describe the child's behavior.

HEARING IMPAIRMENT. Wis. Admin. Code § PI 11.36(4)

Hearing impairment, including deafness, means a significant impairment in hearing, with or without amplification, whether permanent or chronically fluctuating, that significantly adversely affects a child's educational performance including academic performance, speech perception and production, or language and communication skills. A current evaluation by an audiologist licensed under Wis. Stat. ch. 459 shall be one of the components for an initial evaluation of a child with a suspected hearing impairment.

SPECIFIC LEARNING DISABILITY. Wis. Admin. Code § PI 11.36(6)

Specific learning disability, means a disorder in one or more of the basic psychological processes involved in understanding or using language, spoken or written, that may manifest itself in an imperfect ability to listen, think, speak, read, write, spell or perform mathematical calculations, including conditions such as perceptual disabilities, brain injury, minimal brain dysfunction, dyslexia and developmental aphasia. The term does not include learning problems that are primarily the result of visual, hearing, motor disabilities, intellectual disabilities, emotional disturbance, cultural factors, environmental, or economic disadvantage.

The IEP team may identify a child as having a specific learning disability if both of the following apply:

1. Inadequate Classroom Achievement

Upon initial identification, the child does not achieve adequately for his or her age, or meet state-approved grade-level standards in one or more of the following eight areas of potential specific learning disabilities when provided with learning experiences and instruction appropriate for the child's age: oral expression, listening comprehension, written expression, basic reading skill, reading fluency skills, reading comprehension, mathematics calculation, and mathematics problem solving.

A child's achievement is inadequate when the child's score, after intensive intervention, on one or more assessments of achievement is equal to or more than 1.25 standard deviations below the mean in one or more of the eight areas of potential specific learning disabilities. Assessments shall be individually

administered, norm-referenced, valid, reliable, and diagnostic of impairment in the area of potential specific learning disabilities.

The 1.25 standard deviation requirement may not be used if the IEP team determines that the child cannot attain valid and reliable standard scores for academic achievement because of the child's test behavior, the child's language proficiency, an impairment of the child that interferes with the attainment of valid and reliable scores, or the absence of individually administered, norm-referenced, standardized, valid, and reliable diagnostic assessments of achievement appropriate for the child's age. If the IEP team makes such a determination, it shall document the reasons why it was not appropriate to consider standardized achievement testing, and shall document that inadequate classroom achievement exists in at least one of the eight areas of potential specific learning disabilities using other empirical evidence.

The IEP team may consider scores within 1 standard error of the measurement of the 1.25 standard deviation criterion above to meet the inadequate classroom achievement criteria if the IEP team determines the child meets all other criteria.

- 2. Insufficient Progress.** Upon evaluation, the child has made insufficient progress in one of the following areas:
 - a. *Insufficient response to intensive, scientific, research-based or evidence-based intervention.* The child does not make sufficient progress to meet age or state-approved grade-level standards in one or more of the eight areas of potential specific learning disabilities when using a process based on the child's response to intensive, scientific, research-based or evidence-based interventions.

Intensive interventions may be implemented prior to referral, or as part of an evaluation, for specific learning disability. The IEP team shall consider progress monitoring data from at least two intensive, scientific, research-based or evidence-based interventions, implemented with adequate fidelity and closely aligned to individual student learning needs. The median score of three probes is required to establish a stable baseline data point for progress monitoring. IEP teams shall use weekly or more frequent progress monitoring to evaluate rate of progress during intensive, scientific, research-based or evidence-based interventions.

Rate of progress during intensive interventions is insufficient when any of the following areas are true: the rate of progress of the referred child is the same or less than that of his or her same-age peers; the referred child's rate of progress is greater than that of his or her same-age peers but will not result in the referred child reaching the average range of his or her same-age peers' achievement for that area of potential disability in a reasonable period of time; or the referred child's rate of progress is greater than that of his or her same-

age peers, but the intensity of the resources necessary to obtain this rate of progress cannot be maintained in general education.

If the LEA decides to use insufficient response to intensive, scientific, research-based or evidence-based intervention for any child being evaluated for specific learning disabilities enrolled in a school, the LEA shall use insufficient response to intensive, scientific, research-based or evidence-based interventions for all such evaluations of children enrolled in that school. At least ten days in advance of beginning to use insufficient response to intensive, scientific, research-based or evidence-based intervention in a school, the LEA will notify parents of all children enrolled in that school of the intent to use insufficient response to intensive, scientific, research-based or evidence-based intervention.

- b. *Significant discrepancy or insufficient progress in achievement as compared to measured ability.* LEAs are permitted to use this option until November 30, 2013.

Upon initial evaluation, the child exhibits a significant discrepancy between the child's academic achievement in any of the eight areas of potential specific learning disabilities and intellectual ability as documented by the child's composite score on a multiple score instrument or the child's score on a single score instrument.

The IEP team may base a determination of significant discrepancy only upon the results of individually administered, norm-referenced, valid, and reliable diagnostic assessment of achievement. A significant discrepancy means a difference between standard scores for ability and achievement equal to or greater than 1.75 standard errors of the estimate below expected achievement, using a standard regression procedure that accounts for the correlation between ability and achievement measures.

This regression procedure shall be used except when the IEP team determines that the child cannot attain valid and reliable standard scores for intellectual ability or achievement because of the child's test behavior, the child's language, another impairment of the child that interferes with the attainment of valid and reliable scores, or the absence of valid and reliable standardized, diagnostic tests appropriate for the child's age. If the IEP team makes such a determination, it shall document the reasons why it was not appropriate to use the regression procedure and shall document that a significant discrepancy exists, including documentation of a variable pattern of achievement or ability, in at least one of the eight areas of potential specific learning disabilities using other empirical evidence.

If the discrepancy between the child's ability and achievement approaches but does not reach the 1.75 standard error of the estimate cut-off for this

subdivision paragraph, the child's performance in any of the eight areas of potential specific learning disabilities is variable, and the IEP team determines that the child meets all other criteria, the IEP team may consider that a significant discrepancy exists.

The IEP team may not identify a child as having a specific learning disability if the team's findings of inadequate classroom achievement or insufficient progress are primarily due to one of the following exclusionary factors:

- environmental, economic disadvantage or cultural factors;
- lack of appropriate instruction in reading, including in the essential components of reading instruction;
- lack of instruction in math;
- limited proficiency in English;
- any of the other impairments; and
- lack of appropriate instruction in the area(s) of potential specific learning disability under consideration.

The child must be systematically observed in the child's learning environment, including the general classroom setting when possible, to document the child's academic performance and behavior in any of the eight areas of potential specific learning disabilities.

The systematic observation of routine classroom instruction and monitoring of the child's performance in at least one of the eight areas of potential specific learning disabilities may be conducted before the child was referred for evaluation, or the systematic observation of the child's academic performance in at least one of the eight areas of potential specific learning disabilities shall be conducted after the child has been referred for an evaluation and parental consent is obtained. If the child is less than school age or out of school, at least one member of the IEP team will conduct a systematic observation of the child in an environment appropriate for a child of that age.

If the child has participated in a process that assesses the child's response to intensive, scientific, research-based or evidence-based interventions, the IEP team will use information from a systematic observation of pupil behavior and performance in the area or areas of potential specific learning disability during intensive intervention for that area, conducted by an individual who is not responsible for implementing the interventions with the referred pupil.

In addition to all other determinations, the IEP team shall base its decision of whether a child has a specific learning disability on a comprehensive evaluation using formal and informal assessment data regarding academic achievement and learning behavior from sources such as standardized tests, error analysis, criterion referenced measures, curriculum-based assessments, pupil work samples, interviews, systematic observations, analysis of the child's response to previous interventions, and analysis of classroom expectations and curriculum.

Upon reevaluation, a child who met initial identification criteria and continues to demonstrate a need for special education, including specially designed instruction, is a child with a disability under this section, unless the exclusionary factors now apply. If a child with a specific learning disability performs to generally accepted expectations in the general education classroom without specially designed instruction, the IEP team shall determine whether the child is no longer a child with a disability.

ORTHOPEDIC IMPAIRMENT. Wis. Admin. Code § PI 11.36(2)

Orthopedic impairment means a severe orthopedic impairment that adversely affects a child's educational performance. The term includes but is not limited to impairments caused by congenital anomaly such as clubfoot or absence of some member; impairments caused by disease such as poliomyelitis or bone tuberculosis; and impairments from other causes such as cerebral palsy, amputations, and fractures or burns that cause contractures.

OTHER HEALTH IMPAIRMENT. 34 CFR § 300.8; Wis. Admin. Code § PI 11.36(10)

Other health impairment means having limited strength, vitality or alertness due to chronic or acute health problems. The term includes but is not limited to a heart condition, tuberculosis, rheumatic fever, nephritis, asthma, attention deficit disorder or attention deficit hyperactivity disorder, sickle cell anemia, Tourette syndrome, hemophilia, epilepsy, lead poisoning, leukemia, diabetes or acquired injuries to the brain caused by internal occurrences or degenerative conditions, which adversely affects a child's educational performance.

SIGNIFICANT DEVELOPMENTAL DELAY. Wis. Admin. Code § PI 11.36(11)

Significant developmental delay means children, age 3 through 9 years of age, who are experiencing significant delays in the areas of physical, cognition, communication, social-emotional or adaptive development.

All other suspected impairments are considered before identifying a child's primary impairment as significant developmental delay.

A child may be identified as having significant developmental delay when delays in development significantly challenge the child in two or more of the following five major life activities:

- Physical activity in gross motor skills such as the ability to move around and interact with the environment with appropriate coordination, balance and strength; or fine motor skills, such as manually controlling and manipulating objects such as toys, drawing utensils and other useful objects in the environment.
- Intellectual activity such as the ability to acquire, use and retrieve information as demonstrated by the level of imitation, discrimination, representation, classification, sequencing and problem-solving skills often observed in a child's play.

- Communication activity in expressive language such as the production of age-appropriate content, form and use of language; or receptive language, such as listening, receiving and understanding language.
- Emotional activity such as the ability to feel and express emotions and develop a positive sense of oneself; or social activity, such as interacting with people, developing friendships with peers and sustaining bonds with family members and other significant adults.
- Adaptive activity, such as caring for his or her own needs and acquiring independence in age-appropriate eating, toileting, dressing and hygiene tasks.

Documentation of significant developmental delays and their detrimental effect upon the child's daily life shall be based upon qualitative and quantitative measures including all of the following:

- A developmental and basic health history including results from vision and hearing screenings and other pertinent information from parents and, if applicable, other caregivers or service providers.
- Observation of the child in his or her daily living environment such as the child's home with a parent or caregiver or an early education or care setting which includes peers who are typically developing. If observation in these settings is not possible, observation in an alternative setting is permitted.
- Results from norm-referenced instruments are used to document significant delays of at least one and one-half standard deviations below the mean in two or more of the developmental areas which correspond to the major life activities. If it is clearly not appropriate to use norm-referenced instruments, other instruments such as criterion-referenced measures are used to document the significant delays.

SPEECH AND LANGUAGE IMPAIRMENT. Wis. Admin. Code § PI 11.36(5)

Speech or language impairment means an impairment of speech or sound production, voice, fluency, or language that significantly affects educational performance or social, emotional or vocational development. The IEP team may identify a child as having a speech or language impairment if the child meets the preceding definition and meets any of the following criteria:

- The child's conversational intelligibility is significantly affected and the child displays at least one of the following:
 - The child performs on a norm referenced test of articulation or phonology at least 1.75 standard deviations below the mean for his or her chronological age.
 - Demonstrates consistent errors in speech sound production beyond the time when 90% of typically developing children have acquired the sound.

- One or more of the child's phonological patterns of sound are at least 40% disordered or the child scores in the moderate to profound range of phonological process use in formal testing and the child's conversational intelligibility is significantly affected.
- The child's voice is impaired in the absence of an acute, respiratory virus or infection and not due to temporary physical factors such as allergies, short term vocal abuse or puberty. The child exhibits atypical loudness, pitch, quality or resonance for his or her age and gender.
- The child exhibits behaviors characteristic of a fluency disorder.
- The child's oral communication or, for a child who cannot communicate orally, his or her primary mode of communication, is inadequate, as documented by all of the following:
 - Performance on norm referenced measures that is at least 1.75 standard deviations below the mean for chronological age.
 - Performance in activities is impaired as documented by informal assessment such as language sampling, observations in structured and unstructured settings, interviews, or checklists.
 - The child's receptive or expressive language interferes with oral communication or his or her primary mode of communication. When technically adequate norm referenced language measures are not appropriate as determined by the IEP team to provide evidence of a deficit of 1.75 standard deviations below the mean in the area of oral communication, then two measurement procedures shall be used to document a significant difference from what would be expected given consideration to chronological age, developmental level, and method of communication such as oral, manual, and augmentative. These procedures may include additional language samples, criterion referenced instruments, observations in natural environments and parent reports.

The IEP team may not identify a child who exhibits any of the following as having a speech or language impairment:

- Mild, transitory or developmentally appropriate speech or language difficulties that children experience at various times and to various degrees.
- Speech or language performance that is consistent with developmental levels as documented by formal and informal assessment data unless the child requires speech or language services in order to benefit from his or her educational programs in school, home, and community environments.
- Speech or language difficulties resulting from dialectical differences or from learning English as a second language, unless the child has a language impairment in his or her native language.

- Difficulties with auditory processing without a concomitant documented oral speech or language impairment.
- A tongue thrust which exists in the absence of a concomitant impairment in speech sound production.
- Elective or selective mutism or school phobia without a documented oral speech or language impairment.

The IEP team shall substantiate a speech or language impairment by considering all of the following:

- Formal measures using normative data or informal measures using criterion referenced data.
- Some form of speech or language measures such as developmental checklists, intelligibility ratio, language sample analysis, minimal core competency.
- Information about the child's oral communication in natural environments.
- Information about the child's augmentative or assistive communication needs.

An IEP team shall include a department-licensed speech or language pathologist and information from the most recent assessment to document a speech or language impairment and the need for speech or language services.

TRAUMATIC BRAIN INJURY. Wis. Admin. Code § PI 11.36(9)

Traumatic brain injury means an acquired injury to the brain caused by an external physical force resulting in total or partial functional disability or psychosocial impairment, or both, that adversely affects a child's educational performance. The term applies to open or closed head injuries resulting in impairments in one or more areas such as cognition; speech and language; memory; attention; reasoning; abstract thinking; communication; judgment; problem-solving; sensory, perceptual and motor abilities; psychosocial behavior; physical functions; information processing; and executive functions, such as organizing, evaluating and carrying out goal-directed activities. The term does not apply to brain injuries that are congenital or degenerative or brain injuries induced by birth trauma.

Children whose educational performance is adversely affected as a result of acquired injuries to the brain caused by internal occurrences, such as vascular accidents, infections, anoxia, tumors, metabolic disorders and the effects of toxic substances or degenerative conditions may meet the criteria of one of the other impairments.

The results of standardized and norm-referenced instruments used to evaluate and identify a child as traumatic brain injured may not be reliable or valid. Therefore, alternative means of evaluation, such as criterion-referenced assessment, achievement assessment, observation, work samples, and neuropsychological assessment data are

considered to identify a child who exhibits total or partial functional disability or psychosocial impairment in one or more areas listed above. Before a child may be identified as traumatic brain injured, available medical information from a licensed physician is considered.

VISUAL IMPAIRMENT. Wis. Admin. Code § PI 11.36(3)

Visual impairment means even after correction a child's visual functioning significantly adversely affects his or her educational performance. The IEP team may identify a child as having a visual impairment after all of the following events occur:

- A certified teacher of the visually impaired conducts a functional vision evaluation which includes a review of medical information, formal and informal tests of visual functioning and the determination of the implications of the visual impairment on the educational and curricular needs of the child.
- An ophthalmologist or optometrist finds at least one of the following:
 - Central visual acuity of 20/70 or less in the better eye after conventional correction.
 - Reduced visual field to 50° or less in the better eye.
 - Other ocular pathologies that are permanent and irremediable.
 - Cortical visual impairment.
 - A degenerative condition that is likely to result in a significant loss of vision in the future.

An orientation and mobility specialist, or teacher of the visually impaired in conjunction with an orientation and mobility specialist, evaluates the child to determine if there are related mobility needs in home, school, or community environments.

Developing, Reviewing and Revising IEPs

IEP IN EFFECT. At the beginning of each school year the School District of Manawa has in effect an IEP for each child with a disability within its jurisdiction. The School District of Manawa ensures that a meeting to develop an IEP and determine placement is conducted within 30 days of determination that the child is a child with a disability. The School District of Manawa ensures an IEP is in effect before special education and related services are provided to children with disabilities and is implemented as soon as possible following the meetings at which the IEP is developed. The School District of Manawa develops and implements an IEP for each child with a disability served by that agency including children placed in or referred to a private school or facility by the School District of Manawa.

The School District of Manawa ensures each child's IEP is accessible to each regular education teacher, special education teacher, related service provider and any other service provider who is responsible for its implementation. The School District of Manawa ensures each teacher and provider responsible for implementing a child's IEP is

informed of his or her specific responsibilities related to implementing the child's IEP and the specific accommodations, modifications and supports that must be provided for the child in accordance with the IEP. The School District of Manawa provides special education and related services to a child with a disability in accordance with the child's IEP and makes a good faith effort to assist the child to achieve the goals and objectives or benchmarks listed in the IEP.

34 CFR 300.323(a),(c)-(d); Wis. Stat. §§ 115.787(1), 115.78(3)(c)

IEP Development

In developing each child's IEP, the IEP team considers the strengths of the child, the concerns of the child's parents for enhancing the education of their child, and the results of the initial or most recent evaluation of the child, and the academic, developmental, and functional needs of the child.

The IEP team considers the following special factors:

- the use of positive behavioral interventions and supports, and other strategies, to address that behavior in the case of a child whose behavior impedes the child's learning or that of others;
- the language needs of the child as such needs relate to the child's IEP in the case of a child with limited English proficiency;
- instruction in Braille and the use of Braille in the case of a child who is visually impaired unless the IEP team determines, after an evaluation of the child's reading and writing skills, needs, and appropriate reading and writing media, including an evaluation of the child's future needs for instruction in Braille or the use of Braille, that instruction in Braille or the use of Braille is not appropriate for the child;
- the communication needs of the child and, in the case of a child who is hearing impaired, the child's language and communication needs, opportunities for direct communications with peers and professional personnel in the child's language and communication mode, academic level and full range of needs including opportunities for direct instruction in the child's language and communication mode; and
- whether the child requires assistive technology devices and services.

If when considering these special factors, the IEP team determines a child needs a particular device or service in order to receive a free appropriate public education, the IEP team includes a statement to that effect in the IEP.

The child's regular education teacher, as a member on the IEP team, participates in the development of the IEP of the child to the extent appropriate. The teacher participates in the determination of appropriate positive behavioral interventions and supports and other strategies, supplementary aids and services, program modifications and supports for school personnel.

The School District of Manawa gives a copy of the IEP to the child's parents with the notice of placement.

34 CFR § 300.324(a); Wis. Stat. § 115.787(3)

IEP Review and Revision

The IEP team reviews the child's IEP periodically, but at least once a year, to determine whether the annual goals for the child are being achieved and revises the IEP as appropriate to address:

- any lack of expected progress toward the annual goals and in the general education curriculum;
- the results of any reevaluation;
- information about the child provided to or by the parents;
- the child's anticipated needs; or
- other matters.

In conducting a review of the child's IEP, the IEP team considers the special factors listed above under the development of the IEP section.

To the extent appropriate, the regular education teacher of the child, as a member on the IEP team, participates in the review and revision of the IEP of the child.

If a participating agency, other than the School District of Manawa, fails to provide transition services described in the IEP, the School District of Manawa reconvenes the IEP team to identify alternative strategies to meet the transition objectives for the child set out in the IEP.

34 CFR § 300.324(b) and (c); Wis. Stat. § 115.787(4)

Amendments to the IEP

In making changes to a child's IEP after the annual IEP team meeting for a school year, the parent of a child with a disability and the School District of Manawa may agree not to convene an IEP team meeting for the purposes of making those changes, and instead develop a written document to amend or modify the child's current IEP. If changes are made without a meeting, the School District of Manawa informs the child's IEP team of those changes.

Changes to the IEP may be made by either the entire IEP Team at an IEP team meeting or as described above by amending the IEP rather than redrafting the entire IEP. The School District of Manawa gives the child's parent a copy of the revised IEP with the amendments incorporated.

34 CFR § 300.324(a)(4)-(6); Wis. Stat. § 115.787(4)(c)

IEP Content

The IEP for each child with a disability includes:

- a statement of the child's present levels of academic achievement and functional performance including how the child's disability affects the child's involvement and progress in the general education curriculum (i.e., the same curriculum as for nondisabled children) or, for a preschool child, as appropriate, how the disability affects the child's participation in appropriate activities;
- a statement of measurable annual goals for the child, including academic and functional goals, designed to meet the child's needs that result from the child's disability to enable the child to be involved in and progress in the general education curriculum and to meet each of the child's other educational needs that result from the child's disability;
- for children with disabilities who take alternate assessments aligned to alternate achievement standards, a description of benchmarks or short-term objectives;
- a statement of the special education and related services and supplementary aids and services, based on peer-reviewed research to the extent practicable, to be provided to the child or on behalf of the child and a statement of the program modifications or supports for school personnel that will be provided to enable the child to:
 - advance appropriately toward attaining the annual goals;
 - be involved in and make progress in the general education curriculum and to participate in extracurricular and other non academic activities; and
 - be educated and participate with other children with disabilities and nondisabled children in the activities described above;
- an explanation of the extent to which the child will not participate with nondisabled children in regular classes in the general education curriculum and in extracurricular and other nonacademic activities;
- a statement of any individual appropriate accommodations that are necessary to measure the academic achievement and functional performance on state or district-wide assessments;

- if the IEP team determines a child must take an alternate assessment instead of participating in a particular regular state-wide or district-wide assessment of student achievement, a statement indicating why the child cannot participate in the regular assessment and why the particular alternate assessment selected is appropriate for the child;
- the projected date for the beginning of the services and modifications described in the IEP and the anticipated frequency, duration and location of those services and modifications;
- beginning not later than in the first IEP that will be in effect when the child is 14 and updated annually thereafter until the child is no longer eligible for special education and related services, a statement of appropriate measurable postsecondary goals based upon age appropriate transition assessments related to training, education, employment, and, where appropriate, independent living skills; and a description of the transition services, including courses of study, needed to assist the child in reaching those goals;
- a statement that the student has been informed of the parental rights that will transfer to the pupil under special education law on reaching the age of 18, beginning at least one year before the child attains the age of 18, and annually thereafter until the pupil is no longer eligible for special education and related services;
- a description of how the child's progress toward attaining the annual goals will be measured; and
- a description of when periodic reports, such as quarterly reports or other periodic reports issued concurrent with report cards, on the child's progress toward attaining the annual goals will be provided to the parents.

34 CFR § 300.320; Wis. Stat. § 115.787

Placement

The School District of Manawa ensures an evaluation is conducted before special education and related services are provided to a child with a disability and an educational placement is provided to implement each child's IEP. The IEP team makes placement decisions. The placement is based upon and implements the child's IEP, is determined at least annually, and in uniformity with the least restrictive environment provisions described below.

34 CFR §§ 300.301(a), 300.116(b); Wis. Stat. §§ 115.78(2), 115.79(1)(a) and (b)

LEAST RESTRICTIVE ENVIRONMENT. The School District of Manawa ensures the following:

- Unless the IEP requires a different arrangement, the child is educated in the school he or she would attend if not disabled.
- The placement is provided as close as possible to the child's home.
- In selecting the least restrictive environment consideration is given to any potential harmful effect on the child or on the quality of services that he or she needs.
- A child with a disability is not removed from education in age-appropriate regular classrooms solely because of needed modifications in the general education curriculum.
- To the maximum extent appropriate, a child with a disability, including a child receiving publicly funded special education in a public or private institution or other care facility, is educated with children who are not disabled.
- Special classes, separate schooling or any other removal of a child from the regular educational environment occurs only when the nature or severity of a child's disability is such that education in regular classes with the use of supplementary aids and services cannot be achieved satisfactorily.
- The School District of Manawa ensures a continuum of alternative placements is available to meet the needs of children with disabilities for special education and related services.
- The School District of Manawa ensures a continuum of alternative placements is available and will be used that includes instruction in regular classes, special classes, special schools, home instruction, and instruction in hospitals and institutions.
- The continuum makes provision for supplementary services (such as resource room or itinerant instruction) that are provided in conjunction with regular class placement.
- The School District of Manawa provides or arranges for nonacademic and extracurricular services and activities including meals and recess periods so each child with a disability participates with nondisabled children in the extracurricular services and activities to the maximum extent appropriate to the needs of that child. The School District of Manawa ensures that each child with a disability has the supplementary aids and services determined by the child's IEP Team to be appropriate and necessary for the child to participate in nonacademic settings.

34 CFR § 300.114-117

NOTICE OF PLACEMENT. Following the development of the IEP, a notice of placement and a copy of the child's IEP is given to the child's parent(s).

34 CFR § 300.503(b)(4); Wis. Stat. §§ 115.787(3)(e)

CONSENT FOR PLACEMENT. The School District of Manawa obtains informed and written parental consent prior to the initial provision of special education and related services to a child with a disability in a program providing special education and related services.

The School District of Manawa makes reasonable efforts to obtain informed consent from the parent for the initial provision of special education and related services to the child. If the parent of a child fails to respond or refuses to consent to services, the School District of Manawa can not provide special education or related services and cannot use mediation or due process procedures in order to obtain agreement or a ruling that the services may be provided to the child.

If the parent of the child refuses to consent to the initial provision of special education and related services, or the parent fails to respond to a request to provide consent for the initial provision of special education and related services, the School District of Manawa will not be considered to be in violation of the requirement to make available FAPE to the child for the failure to provide the child with the special education and related services for which the School District of Manawa requests consent; and is not required to convene an IEP Team meeting or develop an IEP for the child for the special education and related services for which the School District of Manawa requests such consent.

34 CFR § 300.300(b); Wis. Stat. § 115.79(2)

Parent Revocation of Consent:

If, at any time subsequent to the initial provision of special education and related services, the parent of a child revokes consent in writing for the continued provision of special education and related services, the school district:

- Will stop providing special education and related services to the child, but before doing so, will provide prior written notice in accordance with 34 CFR § 300.503;
- Will not use special education dispute resolution procedures, including mediation and due process, in order to obtain agreement or a ruling that the services may be provided to the child;
- Is not considered to be in violation of the requirement to make FAPE available to the child because of the failure to provide the child with further special education and related services; and
- Is not required to convene an IEP Team meeting or develop an IEP for the child for further provision of special education and related services;
- Is not required to amend the child's education records to remove any reference to the child's receipt of special education and related services because of the revocation of consent.

34 CFR § 300.300

Transition from Birth to Three Programs

The School District of Manawa participates with birth to three programs to ensure a smooth and effective transition of children with disabilities from the birth to three program for infants and toddlers with disabilities to preschool programs in the School District of Manawa. The School District of Manawa participates in transition planning conferences arranged by birth to three programs.

For children participating in birth to three programs who will participate in special education preschool programs in the School District of Manawa, the School District of Manawa has an IEP in effect by the child's third birthday.

If a child's third birthday occurs during the summer, the child's IEP Team shall determine the date when services under the IEP will begin.

Transfer Pupils

In-State-Transfer Students

When a child with a disability (who had an IEP that was in effect in a previous Wisconsin local educational agency) transfers to the School District of Manawa and enrolls in a new school within the same school year, the School District of Manawa (in consultation with the parents) provides FAPE to the child, including services comparable to those described in the child's IEP from the previous agency, until the School District of Manawa either:

- Adopts the child's IEP from the previous public agency; or
- Develops, adopts, and implements a new IEP.

The School District of Manawa adopts the evaluation and the eligibility determination of the sending local educational agency or conducts an evaluation and eligibility determination of the transfer pupil. The School District of Manawa does not adopt the evaluation and eligibility determination or the IEP of the sending local educational agency

if the evaluation and eligibility determination or the IEP do not meet state and federal requirements.

34 CFR § 300.323(e)

Out-of-State Transfer Students

When a child with a disability (who had an IEP that was in effect in a previous agency in another State) transfers to the School District of Manawa, and enrolls in a new school within the same school year, the School District of Manawa, in consultation with the parents, provides the child with FAPE, including services comparable to those described in the child's IEP from the out-of-state agency, until the School District of Manawa:

- Conducts an evaluation and determines eligibility if determined to be necessary by the School District of Manawa; and
- Develops, adopts and implements a new IEP, if appropriate.

34 CFR § 300.323(f)

Transmittal of Records

When the School District of Manawa receives a transfer pupil with a disability and does not receive the pupil's records from the sending local educational agency, the School District of Manawa takes reasonable steps, including a written request, to promptly obtain the child's records, including the IEP and supporting documents and any other records relating to the provision of special education or related services to the child from the previous public agency in which the child was enrolled. When the School District of Manawa receives such a written request for a transfer pupil, the School District of Manawa transfers the pupil's records to the requesting local educational agency within five working days of receipt of the written notice as required under Wis. Stat. § 118.125(4).

34 CFR § 300.323(g); Wis. Stat. § 118.125(4)

Charter Schools

Children with disabilities who attend the School District of Manawa's charter schools and their parents retain all rights under federal special education laws. The School District of Manawa ensures that the requirements of federal special education law are met.

Children with disabilities who attend Charter Schools under contract with the School District of Manawa, are served in the same manner as other children with disabilities in the School District of Manawa. This includes providing supplementary and related services on site at the charter school to the same extent to which the School District of Manawa provides such services on the site to its other public schools. Funds received under part B of the Individuals with Disabilities Education Act are provided to charter

schools in the same manner as they are provided to other schools in the School District of Manawa, including proportional distribution based on relative enrollment of children with disabilities and at the same time as the School District of Manawa distributes other Federal funds to the School District of Manawa's other public schools.

34 CFR § 300.209(a) and (b); Wis. Stat. § 115.77(8).

Due Process Procedures

OPPORTUNITY TO EXAMINE RECORDS AND PARENT PARTICIPATION IN MEETINGS. The parents of a child with a disability are afforded, in accordance with the policies in the "Confidentiality" section of this document, an opportunity to:

- inspect and review all education records with respect to the identification, evaluation, and educational placement of the child and the provision of a free appropriate public education to the child; and
- participate in meetings with respect to the identification, evaluation and educational placement of the child and the provision of a free appropriate public education to the child.

The School District of Manawa notifies parents consistent with the policies in the "Parent Participation in IEP Team Meetings" section of these policies to ensure that parents of children with disabilities have the opportunity to participate in meetings described above. The term "meeting" in this policy does not include informal or unscheduled conversations involving public agency personnel and conversations on issues such as teaching methodology, lesson plans, or coordination of service provision. A meeting also does not include preparatory activities that School District of Manawa personnel engage in to develop a proposal or response to a parent proposal that will be discussed at a later meeting.

The IEP team, which includes the parent, makes decisions on the educational placement of the child. In implementing this policy, the School District of Manawa uses procedures consistent with the policies described above. If neither parent can participate in a meeting in which a decision is to be made relating to the educational placement of their child, the School District of Manawa uses other methods to ensure their participation including individual or conference telephone calls, or video conferencing. A placement decision may be made by the IEP team without the involvement of the parent if the School District of Manawa is unable to obtain the parent's participation in the decision. In this case, the School District of Manawa must have a record of its attempt to ensure parent involvement.

34 CFR §§ 300.501, 300.322(e)

NOTICE. The School District of Manawa ensures a child's parents are provided prior written notice a reasonable time before the School District of Manawa proposes to initiate

or change or refuses to initiate or change the identification, evaluation or educational placement of the child or the provision of a free appropriate public education to the child. The notice contains:

- a description of the action proposed or refused;
- an explanation of why the School District of Manawa proposed or refused to take action;
- a statement that the parents of a child with a disability have protection under the procedural safeguards and, if this notice is not an initial referral for evaluation, the means by which a copy of a description of the procedural safeguards can be obtained;
- a description of any other options considered and the reason(s) they were rejected;
- a description of each evaluation procedure, assessment, record or report used as a basis for the proposed or refused action;
- the names of the evaluators, if known, if the notices propose to evaluate or reevaluate the child;
- a description of any other factors relevant to the proposal or refusal; and
- sources for parents to contact to obtain assistance in understanding special education law.

Each prior written notice is written in language understandable to the general public, in the parent's native language or other means of communication unless it is clearly not feasible to do so. If the native language or other mode of communication of the parent is not a written language, the School District of Manawa takes steps to ensure the notice is translated orally or by other means to the parent in his or her native language or other mode of communication; the parent understands the content of the notice; and there is written evidence that these requirements have been met.

34 CFR § 300.503; Wis. Stat. § 115.792(2)

PROCEDURAL SAFEGUARDS NOTICE. A copy of the procedural safeguards available to the parents of a child with a disability is given to the parents one time a school year, except that a copy is given to the parents:

- upon initial referral or parent request for evaluation;
- upon receipt of the first IDEA State complaint and the first due process complaint;
- on the date on which the decision is made to make a disciplinary removal that constitutes a change of placement;

- upon request by a parent.

The procedural safeguards notice includes a full explanation of the procedural safeguards available under special education law written so as to be easily understood by the general public and in the native language of the child's parents unless it is clearly not feasible to do so, relating to:

- independent educational evaluation;
- prior written notice;
- parental consent;
- access to educational records;
- opportunity to present and resolve complaints through the due process complaint and State IDEA complaint procedures, including:
 - the time period in which to file a complaint;
 - the opportunity for the agency to resolve the complaint; and
 - the difference between the due process complaint and the State complaint procedures, including the jurisdiction of each procedure, what issues may be raised, filing and decisional timelines, and relevant procedures.
- the child's placement during pendency of due process proceedings;
- procedures for pupils who are subject to placement in interim alternative educational settings under 20 USC § 1415(k);
- requirements for the unilateral placement by parents of pupils in private schools at public expense;
- availability of mediation;
- due process hearings including requirements for disclosure of evaluation results and recommendations;
- civil actions, including the time period in which to file those actions; and
- attorney fees.

34 CFR § 300.504

INDEPENDENT EDUCATIONAL EVALUATIONS. A parent may obtain an independent educational evaluation of his or her child. If a parent requests information from the School District of Manawa about an independent evaluation, the School District of Manawa provides the parent with information about where an independent evaluation may be obtained and the agency criteria applicable for independent educational evaluations. A parent has the right to an independent educational evaluation at public expense if the parent disagrees with an evaluation obtained by the School District of Manawa. "Public expense" means the School District of Manawa either pays for the full cost of the evaluation or ensures the evaluation is otherwise provided at no cost to the parent.

If a parent requests an independent educational evaluation at public expense, the School District of Manawa, without unnecessary delay, either initiates a due process hearing to

show its evaluation is appropriate or ensures an independent educational evaluation is provided at public expense unless the School District of Manawa demonstrates in a due process hearing that the evaluation obtained by the parent did not meet School District of Manawa criteria.

If a parent requests an independent educational evaluation, the School District of Manawa may ask for the parent's reason why he or she objects to the public evaluation. However, the School District of Manawa does not require the explanation and the School District of Manawa does not unreasonably delay either providing the independent educational evaluation at public expense or initiating a due process hearing to defend the public evaluation. A parent is entitled to only one independent educational evaluation at public expense each time the School District of Manawa conducts an evaluation with which the parent disagrees.

If the School District of Manawa initiates a hearing and the final decision is that the School District of Manawa's evaluation is appropriate, the parent still has the right to an independent educational evaluation but not at public expense. If the parent obtains an independent educational evaluation at public expense or shares with the School District of Manawa an evaluation obtained at private expense, the results of the evaluation must be considered by the School District of Manawa, if it meets agency criteria, in any decision made with respect to the provision of FAPE to the child.

If a hearing officer requests an independent educational evaluation as part of a hearing, the cost of the evaluation must be at public expense. When an independent educational evaluation is at public expense, the criteria under which the evaluation is obtained, including the location of the evaluation and the qualifications of the examiner, is the same as the criteria that the School District of Manawa uses when it initiates an evaluation to the extent that those criteria are consistent with the parent's right to an independent educational evaluation. Except for the criteria described above, the School District of Manawa does not impose conditions or timelines related to obtaining and independent educational evaluation at public expense.

34 CFR § 300.502

SURROGATE PARENTS. The School District of Manawa ensures the rights of a child are protected if no parent can be identified; the School District of Manawa, after reasonable efforts, cannot locate a parent; the child is a ward of the state; or the child is an unaccompanied homeless youth as defined in the McKinney-Vento Homeless Assistance Act. In such instances, the School District of Manawa assigns an individual to act as a surrogate for the parents. The School District of Manawa has a method for determining whether a child needs a surrogate parent and for assigning a surrogate parent to the child. In the case of a child who is a ward of the State, the surrogate parent may be appointed by the judge overseeing the child's case.

The School District of Manawa ensures that a person selected as a surrogate parent is not an employee of the Department of Public Instruction, the School District of Manawa,

or any other agency that is involved in the education or care of the child; has no personal or professional interest that conflicts with the interest of the child he or she represents; and has knowledge and skills that ensure adequate representation of the child. A person who otherwise qualifies to be a surrogate parent is not an employee of the School District of Manawa solely because he or she is paid by the School District of Manawa to serve as a surrogate parent.

For an unaccompanied homeless youth, appropriate staff of emergency shelters, transitional shelters, independent living programs, and street outreach programs may be appointed as temporary surrogate parents until a surrogate parent can be appointed that meets all of the requirements for selection of surrogate parents.

The surrogate parent may represent the child in all matters relating to the identification, evaluation, and educational placement of the child and the provision of FAPE to the child.

The School District of Manawa makes reasonable efforts to ensure the assignment of a surrogate parent not more than 30 days after it determines that one is needed.

34 CFR § 300.519; Wis. Stat. § 115.792(1)(a)2

MEDIATION. When a School District of Manawa participates in a mediation under Wis. Stat. § 115, the School District of Manawa:

- keeps discussion that occurs during mediation confidential;
- does not use discussion that occurs during mediation as evidence in any subsequent hearing or civil proceeding;
- does not record a mediation session unless both parties and the mediator agree;
- may be represented by two individuals, unless the parties agree to additional representatives;
- may withdraw from mediation at any time;
- may recess a mediation session to consult advisors, whether or not present, or to consult privately with the mediator;
- assumes responsibility with the parents for additional compensation if the parties agree that the amount of the mediator's compensation should be greater than the Wisconsin Special Education Mediation System schedule allows; and
- assumes responsibility with the parents for the compensation of a mediator who is not on the mediation system roster.

If the parties resolve the dispute or a portion of the dispute through the mediation process, the parties must execute a legally binding agreement. The agreement is reduced to writing, signed by the parties and a copy is given to each party. The agreement states that all discussions that occurred during mediation are confidential and may not be used as evidence in any hearing or civil proceeding. The agreement is legally binding upon the parties and is enforceable in circuit court. The agreement is signed by a representative of the School District of Manawa who has the authority to bind the School District of Manawa.

The Wisconsin Mediation System is voluntary on the part of the parties and the School District of Manawa does not use it to deny or delay a parent's right to a hearing on the parent's due process complaint, or to deny any other rights afforded under special education law.

34 CFR § 300.506; Wis. Stat. § 115.797

DUE PROCESS HEARINGS. When the School District of Manawa files a request for a due process hearing, it will provide a copy of the hearing request to the other party, a copy to the DPI and will keep the hearing request confidential.

If the parent or the child's attorney files a written request for a due process hearing, the School District of Manawa will:

- inform the parent of any free or low cost legal and other relevant services available in the area;
- (unless it has previously sent a written notice to the parent regarding the item in dispute) within 10 days of receiving the hearing request, provide a written response that includes an explanation of why the agency proposed or refused to take the action raised in the hearing request; a description of other options that the IEP team considered and the reasons why those options were rejected; a description of each evaluation procedure, assessment, record, or report the agency used as the basis for the proposed or refused action; and, a description of the other factors that are relevant to the agency's proposed or refused action;
- within 10 days of receiving the request, send a written response that addresses the issues raised in the hearing request; and
- (except when the parents and School District of Manawa agree in writing to waive a meeting or use mediation) within 15 days of receiving the request and before the hearing is conducted, convene a meeting with the child's parents, a representative of the School District of Manawa who is authorized to make decisions on behalf of the agency, and the relevant members of the IEP team who have specific knowledge of the facts identified in the hearing request. If the meeting resolves any subject matter of the hearing request, the parents and the School District of Manawa will execute and sign a legally binding agreement.

When the School District of Manawa is a party to a due process hearing under Wis. Stat. § 115.80, the School District of Manawa:

- pays for the cost of the hearing;
- pays for the cost of an independent educational evaluation ordered by the hearing officer;

- discloses to all other parties, at least five business days before a hearing is conducted (other than an expedited hearing under the provisions of the Individuals with Disabilities Education Act), all evaluations completed by that date and recommendations based upon the School District of Manawa's evaluations that the School District of Manawa intends to use at the hearing; and
- except as provided in the "discipline" section of the School District of Manawa's policies, the School District of Manawa does not change the educational placement of a child during the pendency of a hearing or judicial proceedings unless the child's parents agree to the change. If the child is applying for initial admission to a public school, the child, with the consent of the parents, is placed in the public school program until all due process proceedings have been completed.

Before filing a civil action under any federal law seeking relief that is also available under state special education law, the School District of Manawa exhausts the due process hearing procedures to the same extent as would be required had the action been brought under special education law.

34 CFR §§ 300.507, 300.508, 300.510; Wis. Stat. § 115.80

TRANSFER OF RIGHTS AT AGE OF MAJORITY. When a child with a disability reaches the age of 18, unless he or she has been determined to be incompetent as defined by state law, the School District of Manawa transfers the rights of parents under the Individuals with Disabilities Education Act and Chapter 115, Wis. Stats., to the individual pupil. The School District of Manawa provides any required notices to both the parents and the adult pupil. The School District of Manawa notifies both the parents and the individual pupil of the transfer of rights.

34 CFR § 300.520; Wis. Stat. § 115.807

Discipline Procedures

AUTHORITY OF SCHOOL PERSONNEL. School personnel consider any unique circumstances on a case-by-case basis when determining whether a change in placement, consistent with the discipline procedures of Individuals with Disabilities Education Act, is appropriate for a child with a disability who violates a code of school conduct.

School personnel are authorized to remove a child with a disability who violates a code of student conduct from the child's current placement to an appropriate interim alternative educational setting (IEAS), another setting, or suspension for not more than ten consecutive school days (to the extent those alternatives are applied to children without disabilities) consistent with state requirements relating to the suspension of pupils.

State law permits suspensions from school for up to five consecutive school days and for up to 15 consecutive school days when a notice of expulsion hearing has been sent. A

child with a disability may be suspended for more than ten consecutive school days only if the conduct is not a manifestation of the child's disability and the requirements provided below are followed.

School personnel are authorized to remove a child with a disability for additional removals of not more than ten consecutive school days, consistent with state requirements, in that same school year for separate incidents of misconduct (as long as those removals do not constitute a change of placement).

If a child with a disability has been removed from his or her placement for 10 school days or less, the School District of Manawa provides services to the child if the School District of Manawa also provides services to children without disabilities who have been similarly removed.

For purposes of removals of a child with a disability from the child's current educational placement, a change of placement occurs if the removal is for more than ten consecutive school days or the child is subjected to a series of removals that constitute a pattern because

- the series of removals total more than ten school days in a school year;
- the child's behavior is substantially similar to the child's behavior in previous incidents that resulted in the series of removals; and
- such additional factors as the length of each removal, the total amount of time the child is removed and the proximity of the removals to one another.

The School District of Manawa determines on a case-by-case basis whether a pattern of removals constitutes a change of placement.

After a child with a disability has been removed from the current placement for ten school days in the same school year during any subsequent days of removal the School District of Manawa must provide services so as to enable the child to continue to participate in the general education curriculum, although in another setting, and to progress toward meeting the goals set out in the child's IEP.

If the current removal is for not more than 10 consecutive school days and is not a change of placement, school personnel, in consultation with at least one of the child's teachers, determine the appropriate services.

The School District of Manawa applies the relevant disciplinary procedures for children without disabilities to the child only if, as a result of the manifestation determination review, the School District of Manawa determines the behavior of the child with a disability was not a manifestation of the child's disability. The School District of Manawa applies the relevant disciplinary procedures in the same manner in which they would be applied to children without disabilities.

A child with a disability whose behavior is determined not to be a manifestation of the child's disability continues to be provided education services so as to enable the child to continue to participate in the general education curriculum, although in another setting, and to progress toward meeting the goals set out in the child's IEP.

34 CFR § 300.530; 300.536

PLACEMENT IN INTERIM ALTERNATIVE EDUCATIONAL SETTINGS. School personnel are authorized to remove a child with a disability to an interim alternative educational setting for not more than 45 school days without regard to whether the behavior is determined to be a manifestation of the child's disability if:

- the child carries a weapon to or possesses a weapon at school, on school premises, or to or at a school function under the jurisdiction of the state or a School District of Manawa;
- the child knowingly possesses or uses illegal drugs, or sells or solicits the sale of a controlled substance, while at school, on school premises, or at a school function under the jurisdiction of the state or a School District of Manawa; or
- the child has inflicted serious bodily injury upon another person while at school, on school premises, or at a school function under the jurisdiction of the state or a School District of Manawa.

34 CFR § 300.530(g)

The IEP team determines the interim alternative educational setting and the appropriate services to be provided. A child placed in an interim alternative educational setting:

- continues to receive educational services to enable the child to continue to participate in the general curriculum, although in another setting, and to progress toward meeting the goals set out in the child's IEP; and
- if the behavior is not a manifestation of the child's disability, receives, as appropriate, a functional behavioral assessment, and behavioral intervention services and modifications, that are designed to address the behavior violation so that it does not recur;
- if the behavior is a manifestation of the child's disability, receives either:
 - a functional behavior assessment, unless the School District of Manawa had conducted a functional behavioral assessment before the behavior that resulted in the change of placement occurred, and implemented a behavioral intervention plan, or
 - if a behavioral intervention plan already has been developed, a review of the behavioral intervention plan, and modifications to it, as necessary, to address the behavior.

34 CFR §§ 300.530, 300.531

On the date on which the decision is made to place the child in an interim alternative educational setting or to make a removal that constitutes a change of placement for violating a code of conduct, the School District of Manawa notifies the parents of that decision and provides the parents a procedural safeguards notice.

34 CFR § 300.530(h)

When the School District of Manawa determines that maintaining the current placement of a child with a disability is substantially likely to result in injury to the child or others, the agency may request an expedited due process hearing to change the child's placement to an appropriate interim alternative educational setting for not more than 45 school days. The request for a due process hearing may be repeated if the School District of Manawa believes that returning the child to the original placement is substantially likely to result in injury to the child or others.

34 CFR § 300.532

MANIFESTATION DETERMINATION REVIEWS.

Within 10 school days of any decision to change the placement of a child with a disability because of a violation of a code of student conduct, the School District of Manawa, the parent, and relevant members of the child's IEP team (as determined by the parent and the School District of Manawa):

- review all relevant information in the student's file, including the child's IEP;
- any teacher observations; and
- any relevant information provided by the parents.

The conduct is determined to be a manifestation of the child's disability if the School District of Manawa, the parent, and relevant members of the child's IEP team determine that either:

- the conduct in question was caused by, or had a direct and substantial relationship to, the child's disability; or
- the conduct in question was the direct result of the School District of Manawa's failure to implement the IEP.

If the School District of Manawa, the parent, and relevant members of the child's IEP team determine the conduct in question was the direct result of the School District of Manawa's failure to implement the IEP, the School District of Manawa takes immediate steps to remedy those deficiencies.

If the conduct was a manifestation of the child's disability, the IEP team returns the child to the placement from which the child was removed, unless the child has been placed in

an interim alternative educational setting or the parent and School District of Manawa agree to a change of placement as part of the modification of the behavioral intervention plan, and either:

- conducts a functional behavioral assessment, unless the School District of Manawa had conducted a functional behavioral assessment before the behavior that resulted in the change of placement occurred, and implements a behavioral intervention plan for the child; or
- if a behavioral intervention plan already has been developed, the IEP team reviews the behavioral intervention plan, and modifies it, as necessary, to address the behavior.

If the conduct was not a manifestation of the child's disability, the child receives, as appropriate:

- a functional behavioral assessment and behavioral intervention services and modifications that are designed to address the behavior violation so that it does not recur; and
- educational services so as to enable the child to continue to participate in the general education curriculum, although in another setting, and to progress toward meeting the goals set out in the child's IEP.

34 CFR § 300.530(d)(e) and (f)

PLACEMENT DURING APPEALS.

The parent of a child with a disability who disagrees with any decision regarding a disciplinary change in placement or a manifestation determination, or the School District of Manawa believes that maintaining the current placement is substantially likely to result in injury to the child or others may appeal the decision by requesting a hearing. During such appeal, the child will remain in the placement to which the child was removed pending the decision of the hearing officer or until the expiration of the disciplinary placement, whichever occurs first. The parent and the School District of Manawa may agree to a different placement during the appeal.

Unless the School District of Manawa and the parents agree in writing to waive the resolution meeting or agree to use the mediation process, the School District of Manawa conducts a resolution meeting within seven days of receiving notice of the parent's due process complaint.

34 CFR § 300.532; 300.533

PROTECTIONS FOR CHILDREN NOT YET ELIGIBLE FOR SPECIAL EDUCATION AND RELATED SERVICES. The School District of Manawa provides the protections asserted for a child under the Individuals with Disabilities Education Act-Part B to a child who has not been

determined to be eligible for special education and related services and who has engaged in behavior that violated a code of conduct of the School District of Manawa if the School District of Manawa had knowledge (as determined in accordance with the provisions below) that the child was a child with a disability before the behavior that precipitated the disciplinary action occurred.

The School District of Manawa has knowledge that a child is a child with a disability if before the behavior that precipitated the disciplinary action occurred:

- the parent of the child expressed concern in writing to supervisory or administrative personnel of the appropriate educational agency, or a teacher of the child, that the child is in need of special education and related services;
- the parent of the child requested an IEP team evaluation of the child; or
- the teacher of the child, or other personnel of the School District of Manawa, expressed specific concerns about a pattern of behavior demonstrated by the child directly to the director of special education of the agency or to other supervisory personnel of the agency.

The School District of Manawa does not have knowledge that a child is a child with a disability if:

- the parent of the child has not allowed an IEP team evaluation of the child or has refused special education services; or
- the School District of Manawa conducted an IEP team evaluation and determined that the child was not a child with a disability.

If the School District of Manawa does not have knowledge that a child is a child with a disability prior to taking disciplinary measures against the child, the School District of Manawa may subject the child to the same disciplinary measures as measures applied to children without disabilities who engaged in comparable behaviors.

34 CFR § 300.534

If a request is made for an evaluation of a child during the time period in which the child is subjected to disciplinary measures, the evaluation is conducted in an expedited manner. Until the evaluation is completed, the School District of Manawa maintains the child in the educational placement determined by school authorities, which can include suspension or expulsion without educational services.

If the child is determined to be a child with a disability, taking into consideration information from the School District of Manawa's evaluation and information provided by the parents, the School District of Manawa provides special education and related services in accordance with the Individuals with Disabilities Education Act-Part B and

state law, including legal requirements relating to discipline and the provision of a free appropriate public education to children with disabilities.

34 CFR § 300.534

When the School District of Manawa reports a crime committed by a child with a disability, it ensures copies of the child's special education and disciplinary records are transmitted for consideration by the appropriate authorities to whom it reports the crime. The School District of Manawa transmits copies of the child's special education and disciplinary records only to the extent that the Family Educational Rights and Privacy Act permits transmission.

34 CFR § 300.535

Confidentiality of Information

NOTICE TO PARENTS. The School District of Manawa notifies parents before any major child identification, location or evaluation activity. The notice is published or announced in newspapers or other media, or both, with circulation adequate to notify parents of children attending the School District of Manawa of the activity.

34 CFR § 300.612(b)

The School District of Manawa gives notice that is adequate to fully inform parents about the confidentiality of personally-identifiable information requirements in the law, including:

- a description of the extent that the notice is given in the native languages of the various population groups in the School District of Manawa;
- a description of the children on whom personally-identifiable information is maintained, the types of information sought, the methods the School District of Manawa intends to use in gathering the information (including the sources from whom information is gathered), and the uses to be made of the information;
- a summary of the policies and procedures that participating agencies must follow regarding storage, disclosure to third parties, retention, and destruction of personally-identifiable information; and
- a description of all of the rights of parents and children regarding this information, including the rights under the Family Educational Rights and Privacy Act of 1974 and the implementing regulations.

34 CFR § 300.612

ACCESS RIGHTS. The School District of Manawa permits parents to inspect and review any education records relating to their children that are collected, maintained or used by

the agency under the Individuals with Disabilities Education Act-Part B. The agency complies with a request without unnecessary delay and before any meeting regarding an IEP, or any due process hearing or resolution session, and in no case more than 45 days after the request has been made.

The right to inspect and review education records includes:

- the right to a response from the participating agency to reasonable requests for explanations and interpretations of the records;
- the right to have copies of the records upon request; and
- the right to have a representative of the parent inspect and review the records.

The School District of Manawa presumes that the parent has authority to inspect and review records relating to his or her child unless the School District of Manawa has been advised that the parent does not have authority under state law.

34 CFR § 300.613

The School District of Manawa keeps a record of parties obtaining access to education records collected, maintained or used under the Individuals with Disabilities Education Act (except access by parents and authorized employees of the School District of Manawa), including the name of the party, the date access was given and the purpose for which the party is authorized to use the records.

34 CFR § 300.614

The School District of Manawa provides parents on request a list of the types and locations of education records collected, maintained or used by the agency. If any education record includes information on more than one child, the parents of those children have the right to inspect and review only the information relating to their child or to be informed of that specific information.

34 CFR §§ 300.615, 300.616

The School District of Manawa does not charge a fee for copies of records that are made for parents if the fee effectively prevents the parents from exercising their right to inspect and review those records. The School District of Manawa does not charge a fee to search for or to retrieve information in educational records.

34 CFR § 300.617

AMENDMENT OF RECORDS AT PARENT'S REQUEST. A parent who believes information in the education records collected, maintained or used under the Individuals with Disabilities Education Act is inaccurate or misleading or violates the privacy or other rights of the child may request the School District of Manawa to amend the information. The School District of Manawa decides whether to amend the information in accordance with the

request within a reasonable period of time of receipt of the request. If the School District of Manawa decides to refuse to amend the information in accordance with the request, it informs the parent of the refusal and advises the parent of the right to an educational records hearing pursuant to the School District of Manawa's policies.

34 CFR § 300.618

The School District of Manawa, on request, provides an opportunity for a hearing to challenge information in education records to ensure it is not inaccurate, misleading or otherwise in violation of the privacy or other rights of the child.

34 CFR § 300.619

The hearing is conducted according to the procedures described in the Family Educational Rights and Privacy Act implementing regulations. If, as a result of the hearing, the School District of Manawa decides the information is inaccurate, misleading or otherwise in violation of the privacy or other rights of the child, it amends the information accordingly and so informs the parent in writing. If, as a result of the hearing, the School District of Manawa decides the information is not inaccurate, misleading or otherwise in violation of the privacy or other rights of the child, it informs the parent of the right to place in the records it maintains on the child a statement commenting on the information or setting forth any reasons for disagreeing with the decision of the School District of Manawa.

34 CFR § 300.619-621

Any explanation placed in the records of the child under this section is maintained as part of the records of the child as long as the record or contested portion is maintained. If the records of the child or the contested portion are disclosed to any party, the explanation is also disclosed to the party.

34 CFR § 300.620(c)(2)

CONSENT. Parental consent is obtained before personally-identifiable information is disclosed, unless the disclosure is authorized without parental consent under the Family Educational Rights and Privacy Act and Wis. Stat. § 118.125. Parental consent is not required before personally-identifiable information is released to officials of participating agencies for purposes of meeting a requirement of the Individuals with Disabilities Education Act with the following exceptions:

- Parental consent or the consent of an eligible child who has reached the age of majority under state law, is obtained before personally-identifiable information is released to officials of participating agencies providing or paying for transition services.

- If a child is enrolled or is going to enroll in a private school that is not located in the local educational agency of the parent's residence, parental consent is obtained before any personally-identifiable information about the child is released between school officials in the local educational agency where the private school is located and officials in the local educational agency of the parent's residence.

34 CFR § 300.622

SAFEGUARDS. The School District of Manawa protects the confidentiality of personally-identifiable information at collection, storage, disclosure and destruction stages. One official at the School District of Manawa assumes responsibility for ensuring the confidentiality of any personally-identifiable information. All persons collecting or using personally-identifiable information receive training or instruction regarding the state's policies and procedures described in the regulations implementing the Individuals with Disabilities Education Act and the Family Educational Rights and Privacy Act. The School District of Manawa maintains, for public inspection, a current listing of the names and positions of those employees within the agency who may have access to personally-identifiable information.

34 CFR § 300.623

DESTRUCTION OF INFORMATION. The School District of Manawa informs parents when personally-identifiable information collected, maintained or used under the Individuals with Disabilities Education Act is no longer needed to provide educational services to the child. The information is destroyed at the request of the parents. However, a permanent record of the student's name, address, and phone number, his or her grades, attendance record, classes attended, grade level completed, and year completed may be maintained without time limitation.

34 CFR § 300.624

TRANSFER OF CONFIDENTIALITY RIGHTS AT AGE OF MAJORITY. Under the regulations for the Family Educational Rights and Privacy Act, the rights of parents regarding education records are transferred to the student at age 18. When the rights accorded to parents under the Individuals with Disabilities Education Act are transferred to a student who reaches the age of majority, the rights regarding educational records in the Individuals with Disabilities Education Act also transfer to the student. However, the School District of Manawa provides any notice required under the Individuals with Disabilities Education Act to the student and the parents.

34 CFR § 300.625(b) and (c)

Children With Disabilities Enrolled in Private Schools by Their Parents

CHILD FIND. This school district locates, identifies, and evaluates all children with disabilities who are enrolled by their parents in private, including religious, elementary

schools and secondary schools located in the school district. The child find process is designed to ensure the equitable participation of parentally-placed private school children and an accurate count of those children. This school district undertakes child find activities similar to the activities undertaken for the agency's public school children. The child find process is completed in a time period comparable to that for students attending public schools in this school district. In carrying out the child find requirements for parentally-placed private school students, this school district includes parentally-placed private school children who reside in another state.

34 CFR § 300.131

Any due process complaint regarding child find requirements must be filed with the school district in which the private school is located and a copy must be forwarded to the Department of Public Instruction.

34 CFR § 300.140(b)(2)

PROVISION OF SERVICES. To the extent consistent with the number and location of children with disabilities who are enrolled by their parents in private, including religious, elementary and secondary schools located in this school district, this school district provides for the participation of those children by providing them with special education and related services, including direct services determined in accordance with the provision under the “Equitable Services Determined” section of this policy.

A services plan is developed and implemented for each private school child with a disability designated by this school district to receive special education and related services under the Individuals with Disabilities Education Act. This school district maintains in its records, and provides to the Wisconsin Department of Public Instruction, the following information related to parentally-placed private school children: (1) the number of children evaluated; (2) the number of children determined to be children with disabilities; and (3) the number of children served.

34 CFR § 300.132

EXPENDITURES. In providing special education and related services, including direct services, to children with disabilities enrolled by their parents in private schools, this school district spends, for children aged 3 through 21, an amount that is the same proportion of the school district's total Individuals with Disabilities Education Act flow-through grant as is the number of private school children with disabilities aged 3 through 21 who are enrolled by their parents in private, including religious, elementary schools and secondary schools located in this school district, is to the total number of children with disabilities in its jurisdiction aged 3 through 21.

For parentally placed private school children aged 3 through 5, this school district spends an amount that is the same proportion of this school district's total preschool entitlement funds as the number of parentally placed private school children with disabilities aged 3

through 5 is to the total number of children with disabilities in its jurisdiction aged 3 through 5. This school district may provide services to private school children in excess of those required, consistent with the law and School District of Manawa policy.

In calculating the proportionate amount of Federal funds to be provided for parentally-placed private school children with disabilities, this school district, after timely and meaningful consultation with representatives of private schools, conducts a thorough and complete child find process to determine the number of parentally-placed children with disabilities attending private schools located in this school district.

After timely and meaningful consultation with representatives of parentally-placed private school children with disabilities, this school district determines the number of parentally-placed private school children with disabilities attending private schools located in this school district; and ensures the count is conducted on October 1 of each year. The child count is used to determine the amount this school district must spend on providing special education and related services to parentally-placed private school children with disabilities in the next subsequent fiscal year.

34 CFR § 300.133(c)(2)

State and local funds may supplement and in no case supplant the proportionate amount of Federal funds required to be expended for parentally-placed private school children with disabilities under the Individuals with Disabilities Education Act.

34 CFR § 300.133(d)

The cost of carrying out child find requirements, including individual evaluations, is not considered in determining if this school district has met its obligation to expend a proportionate amount of Individuals with Disabilities Education Act funds to provide equitable services.

34 CFR § 300.131(d)

If this school district has not expended for equitable services all of the funds required by the end of the fiscal year for which Congress appropriated the funds, the district obligates the remaining funds for special education and related services (including direct services) to parentally-placed private school children with disabilities during a carry-over period of one additional year.

34 CFR § 300.133(a)(3)

CONSULTATION. To ensure timely and meaningful consultation, this school district consults with private school representatives and representatives of parents of parentally-placed private school children with disabilities during the design and development of special education and related services for the children regarding the following:

- the child find process, including how parentally-placed private school children suspected of having a disability can participate equitably, and how parents, teachers, and private school officials will be informed of the process;
- the determination of the proportionate share of Federal funds available to serve parentally-placed private school children with disabilities including the determination of how the proportionate share of those funds was calculated;
- the consultation process among this school district, private school officials, and representatives of parents of parentally-placed private school children with disabilities, including how the process will operate throughout the school year to ensure that parentally-placed children with disabilities identified through the child find process can meaningfully participate in special education and related services;
- how, where, and by whom special education and related services will be provided for parentally-placed private school children with disabilities, including a discussion of the types of services, including direct services and alternate service delivery mechanisms, and how special education and related services will be apportioned if funds are insufficient to serve all parentally-placed private school children, and how and when those decisions will be made; and,
- how, if this school district disagrees with the views of the private school officials on the provision of services or the types of services (whether provided directly or through a contract), the district will provide to the private school officials a written explanation of the reasons why the district chose not to provide services directly or through a contract.

When timely and meaningful consultation has occurred, this school district must obtain a written affirmation signed by the representatives of participating schools. If the representatives do not provide the affirmation within a reasonable period of time, this school district forwards the documentation of the consultation process to the Wisconsin Department of Public Instruction.

If a private school representative files a complaint under 34 CFR § 300.136 to the Wisconsin Department of Public Instruction, this school district will forward appropriate documentation to the department.

34 CFR §§ 300.134, 300.135, and 300.136.

EQUITABLE SERVICES DETERMINED. No parentally-placed private school child with a disability has an individual right to receive some or all of the special education and related services the child would receive if enrolled in the public school. Decisions about the services that will be provided to parentally-placed private school children with disabilities are made in accordance with services plans and consultation processes contained in these policies.

The final decisions regarding services to be provided to eligible private school children are made by this school district.

34 CFR § 300.137

If a child with a disability is enrolled in a religious or other private school by the child's parents and will receive special education or related services from this school district, the district initiates and conducts meetings to develop, review and revise a services plan for the child in accordance with the law. This school district ensures a representative of the religious or other private school attends each meeting. If the representative cannot attend, this school district uses other methods to ensure participation by the private school, including individual or conference telephone calls.

34 CFR § 300.137(c)(2)

EQUITABLE SERVICES PROVIDED. The services provided to parentally-placed private school children with disabilities by this school district are provided by personnel meeting the same standards as personnel providing services in this school district, except that private elementary school and secondary school teachers who are providing equitable services to parentally-placed private school children with disabilities do not have to meet the highly qualified special education teacher requirements. Parentally-placed private school children with disabilities may receive a different amount of services than children with disabilities in public schools.

34 CFR § 300.138(a)(2)

Each private school child with a disability who has been designated to receive services from this school district has a services plan that describes the specific special education and related services this school district will provide to the child in light of the services the district has determined (after consultation with representatives of private school children with disabilities) it will make available to parentally-placed private school children with disabilities. The services plan, to the extent appropriate, meets the IEP requirements with respect to the services provided. The services plan is developed, reviewed and revised consistent with the provisions in the law concerning IEP teams, when IEPs must be in effect, parent participation in IEP team meetings, and development, review and revision of IEPs.

34 CFR § 300.138(b)(2)

Services to parentally-placed private school children with disabilities are provided by employees of this school district or through contract by the district with an individual, association, agency, organization, or other entity. The services, including materials and equipment, are secular, neutral, and non-ideological.

34 CFR § 300.138(c)

LOCATION OF SERVICES AND TRANSPORTATION. If this school district provides services to private school children with disabilities at the child's private school, including a religiously affiliated private school, it will do so to the extent consistent with state and federal law. If

necessary for the child to benefit from or participate in the services provided, this school district transports private school children with disabilities from the child's school or home to a site other than the child's private school and from the service site to the private school or the child's home, depending on the timing of the services. This school district may include the cost of such transportation in calculating whether it has met the requirement to expend a proportionate amount of Individuals with Disabilities Education Act funds on services to parentally-placed private school children with disabilities.

34 CFR § 300.139(b)(2)

REQUIREMENT THAT FUNDS NOT BENEFIT A PRIVATE SCHOOL. This school district does not use Individuals with Disabilities Education Act funds to finance the existing level of instruction in a private school or to otherwise benefit the private school. The funds are used to meet the special education and related services needs of parentally-placed private school children with disabilities, but not for meeting the needs of a private school or the general needs of the students enrolled in the private school.

34 CFR § 300.141

USE OF PERSONNEL. Individuals with Disabilities Education Act funds are used to make public school personnel available in other than public facilities to the extent necessary to provide equitable services for parentally-placed private school children with disabilities and if those services are not normally provided by the private school. If this school district pays for the services of an employee of a private school employee, the employee performs the services outside of his or her regular hours of duty and under public supervision and control.

34 CFR § 300.142

SEPARATE CLASSES PROHIBITED. This school district does not use Individuals with Disabilities Education Act funds for classes that are organized separately on the basis of school enrollment or religion of the students if the classes are at the same site and include both students enrolled in public schools and students enrolled in private schools.

34 CFR § 300.143

PROPERTY, EQUIPMENT, AND SUPPLIES. This school district controls and administers Individuals with Disabilities Education Act funds used to provide special education and related services to parentally-placed private school children with disabilities and holds title to and administer materials, equipment, and property purchased with those funds. Equipment and supplies are placed in a private school for the period of time needed for the Individuals with Disabilities Education Act program. Equipment and supplies placed in a private school are used only for Individuals with Disabilities Education Act purposes and can be removed from the private school without remodeling the private school facility. Equipment and supplies are removed from a private school if the equipment and supplies are no longer needed for Individuals with Disabilities Education Act purposes; or removal is necessary to avoid unauthorized use of the equipment and supplies for other

than Individuals with Disabilities Education Act purposes. Individuals with Disabilities Education Act funds are not used for repairs, minor remodeling, or construction of private school facilities.

34 CFR § 300.144

PARENTALLY PLACED CHILDREN IN PRIVATE SCHOOLS WHEN FAPE IS AT ISSUE. The School District of Manawa is not required to pay for the cost of education, including special education and related services, of a child with a disability at a private school or facility if the School District of Manawa made FAPE available to the child and the parents elected to place the child in a private school or facility. The child is considered a parentally placed private school child with a disability.

34 CFR § 300.148

Children With Disabilities in Private Schools Placed or Referred by the School District of Manawa

When, pursuant to an IEP, a child with a disability is or has been placed in or referred to a private school or facility by the School District of Manawa as a means of providing special education and related services, the School District of Manawa ensures that the child:

- is provided special education and related services in conformance with an IEP that meets the requirements of the law and at no cost to the parents;
- is provided an education that meets the standards that apply to education provided by the Department of Public Instruction and local educational agencies including the requirements of Individuals with Disabilities Education Act, except that staff are not required to meet the highly qualified teacher requirements; and
- has all of the rights of a child with a disability who is served by a public agency.

34 CFR § 300.146

DEVELOPMENT, REVIEW, AND REVISION OF THE IEP. Before the School District of Manawa places a child with a disability in, or refers a child to, a private school or facility, the School District of Manawa initiates and conducts a meeting to develop an IEP for the child in accordance with the law. The School District of Manawa ensures a representative of the private school or facility attends the meeting. If the representative cannot attend, the School District of Manawa uses other methods to ensure participation by the private school or facility, including individual or conference telephone calls.

After a child with a disability enters a private school or facility, any meetings to review and revise the child's IEP may be initiated and conducted by the private school or facility at the discretion of the School District of Manawa. If the School District of Manawa permits a private school or facility to initiate and conduct meetings to review and revise

IEPs, the School District of Manawa ensures the parents and a School District of Manawa representative are involved in any decisions about the IEP and agree to any proposed changes in the IEP before those changes are implemented. Even if a private school or facility implements a child's IEP, the School District of Manawa retains responsibility for compliance with the requirements of special education law.

34 CFR § 300.325

When the School District of Manawa places a child, in a private school as a means of providing special education and related services, the School District of Manawa ensures an IEP is developed and implemented for each child with a disability and the special education and related services are provided in conformance with an IEP and at no cost to the parents.

Wis. Stat. § 115.77(1m)(d)

Children in Residential Care Centers

When the responsible School District of Manawa receives a notice from a county or a state agency that a child will be placed in a residential care center, the School District of Manawa does all of the following:

- if the child is a child with a disability, as soon as reasonably possible and after consulting with the county or state agency, as appropriate, the School District of Manawa appoints an IEP team to review and revise, if necessary, the child's IEP and develop an educational placement offer;
- if the child has not been identified as a child with a disability, the School District of Manawa:
 - appoints staff to review the child's education records and develop a status report;
 - sends a copy of the status report to the county or state agency within 30 days after receiving the notice that the child will be placed in a residential care center;
 - appoints an IEP team to conduct an evaluation of the child if the School District of Manawa has reasonable cause to believe the child is a child with a disability;
 - ensures the IEP team conducts the evaluation; and
 - ensures the IEP team develops an IEP and an educational placement offer, in consultation with the county or state agency if the IEP team determines the child is a child with a disability.

Wis. Stat. § 115.81(3)(b)

When the responsible local educational agency offers an educational placement in a residential care center, the responsible local educational agency:

- ensures the child receives a free appropriate public education;
- ensures the child’s treatment and security needs are considered when determining the least restrictive environment for the child;
- appoints an IEP team to reevaluate the child, as required by state law, while the child resides at the child caring institution;
- while the child resides at the residential care center, the School District of Manawa refers the child to another local educational agency after consulting the residential care center and a county department or state agency, if the responsible local educational agency determines that the child’s special education needs may be appropriately served in a less restrictive setting in the other local educational agency; and
- assigns staff or an IEP team to develop a reintegration plan for a child leaving the residential care center, in cooperation with county and residential care center staff.

Wis. Stat. § 115.81(4)(a)

When this school district receives a referral from the responsible local educational agency because the referring responsible local educational agency believes the child’s special education needs could be met in a less restrictive setting, this school district assigns staff to determine whether the child can appropriately receive special education and related services in the school district. If the assigned staff determine the child can appropriately receive special education and related services in this school district, it provides such services and may apply for state tuition payments under Wis. Stat. § 121.79(1)(a), for the child’s educational expenses. If the assigned staff determines the child cannot appropriately receive special education and related services in this school district, the school district keeps a written record of the reasons for that determination.

Wis. Stat. § 115.81(4)(c)

When a dispute arises between the School District of Manawa and the Wisconsin Department of Health and Family Services, the Wisconsin Department of Corrections or a county, or between local educational agencies over the placement of a child, the School District of Manawa seeks resolution of the dispute from the State Superintendent. This provision applies only to a placement in a nonresidential educational program made under Wis. Stat. § 48.57 (1)(c) or to a placement in a residential care center made under Wis. Stat. § 115.81.

at least 16, are not expected to be enrolled in an educational program two years from the date of the report and may require services from the county department.

If a public agency, as defined by Wis. Stat. § 166.20(1)(i), except that it does not include a local educational agency, is required by federal or state law or by an interagency agreement to provide or pay for the location, identification or evaluation of a child with a disability, including a child with a disability who is not yet 3 years of age, or for assistive technology devices or services, supplementary aids or services, transition services or special education or related services for a child with a disability, and fails to do so, the School District of Manawa provides or pays for the services. The School District of Manawa seeks reimbursement for the cost of providing the services from the public agency.
